direction from unhealthy food, impure air, filth and gifty habits, the depressing vices, and, above all, to the venereal infection. Whatever be its origin, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generates," bulgest, it seems to be the contract of th indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers ason their children." The diseases which it orig-inates take various names, according to the organs inates take various names, according to the organs it attacks. In the lungs, Scrofula produces tuber-eles, and finally Consumption; in the glands, swell-ings which supparate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These all having the same origin, require the same viz. purification and invigoration of the trades leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" licalthy, you cannot have scrofulous

Ayer's Sarsaparilla

compounded from the most effectual antidotes that medical science has discovered for this afflict-ing distemper, and for the cure of the disorders it estails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extranslating their effect upon this class of com-plaints, is indisputably proven by the great multi-tude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Clandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, may be found in AYER'S ANERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its vic-tims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to aborten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is not quate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed ATTES SABASAMILLA, although it is composed ingreshents, some of which exceed the best of Sera-pacilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lark within the system or burst out on any

We know the public have been deceived by many compounds of Sussipavilla, that promised much and did nothing; but they will neither be deceived for disappointed in this. Its virtues have been proven by abandon trial, and there remains no postion of its suspassing excellence for the curr of the afflicting diseases it is intended to reach Allough under the same name, it is a very dif-ies at medicine from any other which has been before the recopie, and is far more effectual than my other which has ever been available to them.

OREGON SALT.

Speaking of the manufacture of salt in this State, the correspondent of the lowing rich incident: San Francisco Bulletin gives the folof the Douglas county springs is some- to be lost." what exaggerated:

The salt of Oregon is obtained from springs, and is of very superior quality, which a fair domino attended. The at-The springs are numerous in the west-tention of one of the irrepressible of ern part of Multnomah county, in the the other sex, who, obtaining her convalley of the lower Willamette, in Co. sent, danced almost the entire prolumbia county, adjoining, and also in Douglas county, or the Umpqua Valwhich, being consumed in the neighborhood of the works, does not offer itself in the Portland market; neither would the distance and difficulties of transportation admit of its seeking a market at this place. There may be other springs in different counties workgather the most information.

These are situated half way between about half a mile distant from it. There are a number of springs in this to twenty miles. Only one spring is used at present at the Willamet Salt-Works, and the present works are only experimental. From this one spring, or well (for it has been deepened twenty-seven fect) with all the surface waters in it, and with only one furnace, the company have been making from five hundred to seven hundred pounds of salt per day, that probably has no superior in the world. It crystalizes with a handsome fine grain; is bright, sparkling, and as white as snow. It is entirely free from lime, or any deleterious substance, so that as a dairy salt, or for curing of meats, fish, etc., it is its preservative qualities that dairyas much of it as of Liverpool salt; and the Portland butchers who have used it declare it worth \$10 more per ton than any salt in the market-that they use the brine over and over. Its qual-ity then is perfectly satisfactory, and the company are abstractory, and the company are about creeting new and extensive works for boiling, besides was permitted to depart. improving the saline properties of the water in the springs by boring and sor will send a specimen of the salt to Works are under the superintendence of J. N. Victor, who is also part owner.
