#### The Public Debt.

man will introduce a bill at the coming session of Congress, the object of which is the consolidation of the maturing debt. Able a financier as Mr. Sherman undoubtedly is, we do not think that his scheme will be regarded with much favor, if containing any provision for the taxation of Government securities. The Senator proposes to convert the maturing bonds into a long consolidated loan, for a period of not less than thirty years, bearing six per cent, interest and taxable one per cent., making it equivalent to a five per cent. loan. Financial credit to a credit to a merchant; and any breach of faith on the part of the Government, will not only destroy its credit, but sully its honor. Those who purchased the Government bonds did so in full faith, that when the bonds matured, Government would assuredly meet its obligations. By far the largest amount of the bonds issued were the five-twenties, or those maturing at the option of the Government (in twenty years), and bearing six per cent. interest payable in gold; and while the purchaser might not object to allowing an extension of time, any interference with the rate of interest would be a palpable injustice as well as a breach of faith. The exemption of Government bonds from taxation was the great incentive to their purchase. It was assumed by the Government under the authority of the Supreme Court; and by a long unbroken series of precedents, that no State or municipal tax could be levied on these Congress will assume to itself the right to do, that which it has repeatedly declared was beyond its power. The grant of power to State or local authorities to tax the Government securities one per cent., is exactly equivalent to a reduction of the interest; and the exigency is not so pressing as to justify any such flagrant injustice. It is a matter of regret that the urgent demands of the Government made it necessary to place so much of the capital of the country in a non-taxable shape; and but for the reason that the exemption of bonds from any taxation wealth, we would hope that the principal of the public debt might never be extinguished. Every man who owns a United States bond holds a mortgage against the Government, and is directly interested in its safety and economical administration. He is aware that the preservation of the Government-the continuance of peace and order-is vital to his own interest; that the national prosperity insures his own; and if every man in the country ture. This we do cordially. There is were the owner of gold-interest-bearing bond, we would never know another rebellion. Good Byr.-Mr. G. A. Payne who, for many years has been Foreman of this Office, left on Friday morning for Portland, from whence he may perhaps visit the "old home" in the East. We commend Mr. Payne to the courteous attention of the "craft" as a finished printer, faithful to a fault in the discharge of duty, and an honor to the profession. In his social intercourse with us and with this whole community, Mr. Payne has deservedly earned the reputation of a high-souled, honorable gentleman-one of the very few who are worthy without enemies, and lent. who even in the heat of partisan strife was always respected for the candor and liberality of his opinions. Good bye, Gus; and it you think of your many friends as they will think of you, the mystic realms of thought will flash with many a pleasant interchange of kindly memory.

fornia Stage Company seem to be using every possible means for a reduction of their expenses. Last Winter the wages of drivers were cut down from seventy-five to sixty-five dollars per month. This Winter the Company have reduced the salaries of their Office Agents, in some instances, to about one-halt the former rates. Heretofore,

drivers have been allowed to carry small "way packages"-collect what they chose and put it in their own pockets, as a perquisite with which to It is announced that Senator Sher furnish themselves with gloves, whips, or other necessary articles. This is now stopped, and the carrying of anything not on the "way-bill" positively forbidden. The Company have an undoubted right to make and enforce such regulations as they choose; but we doubt the policy of reducing driver's wages to starvation rates. It is a matter of importance to the travelling public that drivers should be steady. skillful and reliable men; and the only way to secure that kind of service is to pay a living price for it. We doubt whether there is any class of men great nation is just as important as among us who endure the hardships inseparable from stage driving, and who, at the same time, assume so much responsibility for so small a requitance. But a month or two since, a careless driver upset the stage in Shasta county. and the consequence was that the Stage Company paid a little bill of \$8,000 to save themselves from a damaging law suit. Plenty of just such drivers can be had at the same wages, or, perhaps, at less rates; but the bills for broken bones would probably increase in an inverse ratio, and the axiom proved "that the best is always the cheapest."

OUR NEIGHBOR .- The first number of the Reveille has made its appearance. It is intensely Democratic, which is entirely a matter of taste. We have no comments to make as to its editorial ability or typographical appearancethe public can judge for themselves. It starts with a desire to be courteous and avoid "personal abuse," which sentiment we cordially endorse; and we hope bonds ; and it is scarcely probable that to be the last to violate the etiquette of the press. A paper that has made so many desperate efforts to sustain itself, deserves the support of its party ; but it remains to be seen whether it will tare better than its predecessors.

Young RUNAWAYS .- On Monday last three young hopefuls whose parents reside near Willow Springs, concluded to try the experiment of running away. They concluded to try their luck in California and started on foot, bright and early. By the time they had climbed to the Toll House, they were tolerably sick of their job and whatever discriminates in favor of readily surrendered at discretion to the operator at that place, who had been telegraphed to stop them. Their captor, finding that they only wanted a good excuse to go home, soon released them, and started them down the mountain again rejoicing.

it reader, a haunted house in Jacksonville! For several evenings last week one of our most reliable citizens following: "Cowardly vilifier," "sneakthought so. Matters were getting serious, when one evening the householder rushed out and discovered that his nocturnal visitor was a stray dog with a chain attached to him, that had taken refuge under the porch, from where he made frequent sallies in quest of plunder. It is scarcely necessary to add that the homeless vagrant got notice to quit.

THE PACIFIC CEMENT WORKS .---- A gentleman who, last week, visited the cement works near the mouth of the Columbia river, hands us the following note concerning the progress made by the company : "The company is building very extensive works for the manufacture of cement. The material they have is said to be of very superior qualfactory, forty by one hundred feet; stone house, forty by one hundred feet and mess room forty by forty feet, with sixty feet for a slip; there is also a shed building twenty by one hundred and twenty feet, for a saw mill and engine pects to be able to manufacture from 800 to 1,000 barrels cement per day. The machinery is to be driven by an engine of 60 horse power which is now being set in place. It is expected that

DEMOCRATIC FESTIVITIES .- A spasmodie writer in the Herald says: Arouse, then, Democrats, for -it in June next."

We take the following items from the State Journal of the 16th :

QUARTZ.-Some time ago we gave an account of a very rich gold bearing ledge of quartz discovered by C. H. Moses and Squire Wilber. They have prospected it considerably this fall and taken out quite a quantity of rock, and will be able to work it as soon as spring opens. A few days since they assayed some more of the rock, and found that it paid \$2 13% per pound. The ledge has been opened in two places, one tunnel run in about a hundred feet below where they first opened, and shows full as rich quartz as at the top. They will commence with an arastra at first and as the ledge opens they will make such improvements as are necessary. Some of the selected rock assayed as high as \$6,000 per ton.

ACCIDENT .- A little daughter of Joseph Bromley, of this city, aged about 9 years, last Monday, while playing around the woodpile where a younger brother was splitting wood, came too near, and the ax descended and struck

her directly on the top of the head. The skull was laid bare the length of the ax blade, and the scalp turned wrong side out the length of the cut, but without fracturing the skull. Dr. Hanchett was called and dressed the wound, and the child is fast recovering.

SERIOUS ACCIDENT-LEG BROKEN .----Last Saturday, while some little girls were riding on horseback near Cloverdale, a daughter of T. M. Whittemore, of this city, aged about thirteen, was thrown and the horse stepped on her right leg, breaking both bones just below the knee. Dr. Hanchett went up Thursday and set the tractured parts, and it is confidently expected that she will recover the use of the limb without the serious complications that so often result from postponement in such cases. At last accounts she was much

SEVERE ACCIDENT.-Capt. Wm. Gray met with a severe accident on Friday evening. He was walking down toward the lower end of Couch's wharf, and unforunately fell between the timbers where they were unplanked, falling about eight tect. FROM MR. THOMAS .- We have used Healey's Royal Balsam in my family this winter. There is no use in talking : it throws everything in the shape of Cough Medicine in the shade that I ever saw. My wife was troubled with asthma or smothering spells for years, and could get nothing to have any effect until I struck this "Royal Balsam." She is now about well. It cured me of the worst could I ever had in my life in night. Whenever our children has life in night. Whenever our children have any thing like a cough, a few drops given on going thing like a cough, a few thops given a non-to bed, that is the last of the cough. ON A VISIT .- J. Waldo Thompson, formerly Telegraph Agent in this place, was here from Yreka on Wednesday assisting in the removal of the telegraph office. He is a graceful climber, is Waldo, as well as a gentleman and telegraphic expert; and when he was quietly roosting on a pole, manipulating the wire, we heard a lady sighingly remark, "What a pity the Jacksonville boys aint as good looking."

ume in America. The mechanical work is well executed-in fact, much better than one would suppose possible at that early period, when the art of printing had been known only a few years. The initial letters are printed in colors, and have some appearances of having been executed with a brush.

The Latin terminations are in many instances different from what we are accustomed to at this day; this probably is owing to contractions of which we are ignorant. The binding of the book is of much more recent date than the printing. The book itself has lost some leaves, which have been supplied by manuscripts. All taken together,

it is a treasure to any library. DISMISSED,-The case pending in the Circuit Court of Lane county, wherein Mulky was plaintiff and Major Rhineheart defendant, has been dismissed by His Honor, Judge Skinner. The Chronicle says Mulky will take the case to Judge Deady's Court. It will be remembered that Mulky was imprisoned at Vancouver in 1865 for rejoicing over the assassination of President Lincoln, for which imprisonment he brought this suit for damages. We doubt much if Judge Deady will give any more satisfaction than did Judge Skinner. We are quite certain he deserves no pity.

ANOTHER UNFORTUNATE .--- On Satur day last, Dr. Greenman examined a stepson of Mr. Swindlins, in presence of his honor, Judge Duncan, and pronounced him insane. An order for his conveyance to the Asylum at Portland was issued by the Judge, and Sheriff Owen started with him on Monday.
