Our Christmas Sermon. Long, long centuries ago, a star hung over Bethlehem, and its brilliant effulgence announced the advent of the Son of Man. Down through the misty years, amid the struggles of the early disciples of the christian faith, to the proud triumph of the Church at the present time, the event has been remembered, and christian nations unite in doing reverence to the birthday of the Savior. It is a day when age and youth unite in prayer and rejotcing. It is a holiday when the holiest, the most sacred, and the most affectionate chords of the human heart are awakened. Youth, with glorious anticipation and buoyant spirits, looks forward side is very gradual, and the descent uselessly, when they try to get more to the moment when the sprite, that tradition has associated with the sacred anniversary, shall come laden with the intervening distance is a level table presents that are afterwards found to land, upon which snow scarcely ever be tokens of affection from earthly falls over three feet, and rarely that. hands. DR. J. H. JOSSELYN STILL CONTINUES TO TREAT the afflicted with his valuable and never failing remedies at the

ELECTROPATHIC INSTITUTE, 645 WASHINGTON STREET.

It is seven years, up to February 12th, 1867, since the Institute was established. The Directors challenge the world to show a more successful medical triumph. There has been over TWENTY-FIVE THOUSAND consultations and nearly TWENTY THOUSAND con tracts made, with only eleven failures to cure (in those cases the fee was returned.) A large number of cases prescribed for, which, from the nature of the disease, could only be temporarily relieved.

The Doctor makes it his study to help suffer ing humanity without regard to the amount money the patient may be able to pay. His remodies are mild and gentle in their action. They are entirely free from all mineral poisons, or any substance that can possibly injure the most delicate system. The Doctor's mode of PATHIC system, by which one-half of the diseases in the catalogue can be cured without medicines.

In all cases he warrants a cure or asks no pay for his services. It has been too common with persons calling themselves Physicians to treat their poor victims until their funds were exhausted, and then turn them away, balf cured. to die by the wayside or become a burden to the public while he lingers out a life of suffering and misery.

To those afflicted with unmentionable complaints, the Doctor would say that he can cure the worst possible case in a very short time without the per-ons afflicted being exposed to their most intimate friends.

To those whose constitutions have been injured by youthful excesses, the Dector offers a positive and speedy return of health and manly vigor. To the Rheumatic, almost instanta
