GOLD quoted in New York, Thursday, 14th; Greenbacks, 71 @ 71 1/2 weak.

A Demian jury has found a verdict of guilty against Sullivan, Editor of the Nation, for the publications of seditious libels.

The Reveille says "the campaign is opened." As we have no candidate in the field, we infer that the Democracy are having a private kind of "campaign" among themselves.

The State Rights Democrat politely calls General Grant a liar. We'll bet the fellow a peck of Oregon apples that he dare not say so to Grant's face.

The gabbling blatherskite, George Francis Train, has kicked up quite a fuss in the "old country." Earl Mayo explains that it was all the fault of the policeman who arrested Train, and done through general orders.

The correspondent of the Reveille at Willow Springs is a very particular kind of a fellow. He classes the houses as "dwelling houses, vacant houses, and China houses. We presume the tenants of the latter class don't throw stones.

The California Legislature has indefinitely postponed the investigation of the alleged bribery in the late Senatorial election. It is urged that it would not only expose the Democracy, but leave nothing in the State Treasury to steal.

Our neighbor is wonderfully facetious about certain hand-bills published two years ago, by some of the Republican party against each other. The Democracy dare not do anything of that kind when they have a "family jar"—it would be an offence against public decency to make a full exposure.

"TAKE HIM DOWN!"—Our neighbor is so annoyed by the very truthful and graphic reports of our "man up a tree," that he cries out lustily, "Take him down!" Well, neighbor, he is down, as you will perceive in another column; and if you like his last report any more than the previous ones, please inform us of the fact.

No APOLOGY.—Some of our Republican subscribers think we owe them an apology for occupying so much space with the affairs of the Democracy. We think otherwise. We have many Democratic readers who peruse the SENTINEL with deep interest, and who know how many of them may ultimately be converted by our wholesome teachings? Our Democratic subscribers candidly acknowledge that we see some things in their proper light; and we have heard several of that party say that they never knew that they had political rings in their noses, until we pointed out the fact to them. Therefore, we have no apology to make to any one.

Glimpse Number Three. [BY A MAN DOWN THE TREE.]

Our neighbor plead so piteously last week for our man to come down from his perch, that the good natured soul concluded to descend during court week, and circulate among the harmonious democracy on terra firma. He has rotated among the brethren since early on Monday last, and says that just now, Jackson county Democracy prospects much richer from his present stand point than it did from "up a tree." He sees quite as much, and hears more. He has heard curses loud and deep from the Dardanells. He has listened to murmurs from "Butte," and heard of an independent feeling about Rock Point that bodes no particular good. He has seen small canyons of anxious plotters in dark corners. He has seen the faithful five in deep and serious meditation, to some of them with their canes up to their noses, like ancient physicians, evidently concocting a soporific for nervous and irritable members of that great and harmonious brotherhood. The underground tactics of the great dictator rather puzzles our man. He approached some of the "left wing," and with admirable candor they assured him that they had quail all their "shinobbery" and goug-ing, and things were taking their natural course; and our man (innocent creature,) believed them, they looked so unusually honest. Our reporter, vigilant as he usually is, was non-plussed; he was about to hand in his checks and report himself without any occupation, when he stumbled on a document in the Court House yard that showed him that he had been played, and that the leaders of the "clique," were burrowing like moles—turned in fact, into a party of sappers and miners. What a nice little prize it was—written on legal paper in a bold and rather stiff hand, and evidently the work of some cunning lawyer. In touching accents it appeals to the faithful to stand by the ship, lest she be taken possession of by a piratical crew and scuttled; but we prefer to give the document itself, which is as follows:

Jacksonville, 15th, 1868. DEAR B.—When we met last I thought the thing was all fixed, and we were dead sure of the game. I find now that there is considerable grumbling, and hear that you are getting weak in the knees yourself. I regret this, as you are looked on as sound to the core; and if such Democrats as you, weaken, the "mongrels" will whip us. We only want one office, and we must have it; there is no such word as fail. We must have a man in that office whose deputies will be of the pure stuff, and have no mongrel streak in them. Like the woodchuck the boy was after, this office is an absolute necessity—"there ain't a darned bit of meat in the house" and we must have it. You must attend to the precinct meeting at your place—send men that I can depend on, and be sure and get a resolution passed that will hold every Democrat up to the rack, "fodder or no fodder." I wrote to Butte (there is considerable trouble there,) and also sent a copy of a resolution to be adopted at their precinct meeting, that will make them toe the mark after the convention. This precinct is all right; the club will take steps to fix the voters here and whip them back, where they will be obliged to support our man. I am afraid Table Rock is gone up. At Rock Point certain Democrats begin to feel their outs, and if the old chief there don't do his duty, I have a weapon to break his neck with; we will beat his brains out with that ballot-box arrangement of last year, you know. Leave me to manage this precinct, I have got things just where I want them; but by all means, send one of our men as delegate—sure. Your own claims will be duly considered and recognized—we will give a good pull for you. You see of course that my plan is to introduce a resolution into the convention, making every man in it, as a candidate or delegate, pledge himself to support the nominee; then we have got them and they cant bolt. Applegate precinct is not very—

As the last sentence of this interesting paper was unfinished, it is probable the writer was disturbed, or that the balance was on another sheet. Our "man" is looking for it, and if found will report. He is yet undecided whether to climb his tree again or not, things from a lower stand point are so exquisitely rich, and so very harmonious that our valuable reporter will probably stay down till the Democratic convention meets and assist in putting things in apple-pie order. His valuable services have already been

sought by the "clique." He can Deutcher sprachen, loves lager, delights in Societar kaza, and won't choke on pritzel, and the "clique" have tried to catch him with the office of constable, if he will only use his many accomplishments in their behalf. He thinks he will hunt for the balance of that document before giving a decided answer.

ELIGIBILITY OF SHERIFFS TO RE-ELECTION.—It has been, and is yet the opinion of some, that a citizen of a county who has held the office of sheriff for two consecutive terms, is not eligible to that office for a third term. This notion is probably obtained from the fact that, in the counties in this end of the State at least, the same person has only filled the office for two terms. This idea however is erroneous, as there is no such qualification made in the statute. There is no impropriety for one man to be elected to the office of sheriff for a third or more terms than that a county clerk should be so re-elected. There is this qualification, that the candidate for the office shall be an elector, and shall have resided in his county for one year previous to the election.

Then it only remains for the voters to settle in their own minds, before casting their votes for the candidate, whether he is otherwise competent to fill the office. If the officer is vigilant, looks well after the interests of his county, always found ready for duty, and is honest and industrious he has additional claims over the untried man. It is our opinion that any county which has such an officer should strive to retain him rather than to make an untried change.

The arithmetical correspondent of the Reveille at Willow Springs "supposes" that the Chinese in this State are enjoying fine dollar diggings. We suppose John Chinaman will be delighted to learn the fact! He also supposes that there are fifty mining camps in this county, yielding \$75,000 per day, or \$1,950,000 per month. He allows out of this large sum, one hundred dollars per month for the support of five hundred Chinamen, who are supposed to dig it out; and then says that \$1,940,000 goes to China every month, and asks if it aint startling. We should say it was, rather; and so would the great earthquake at Fort Klamath have been, provided it had been true.

The subjoined indignant extract is from a contributor to the Reveille. The fellow evidently has reference to the enormous tax on whisky, and seems quite unable to do the subject justice: "Congressional tyrants, minions of a corrupt and profligate rump, jacobin peace makers in royal livery, bloated with unnatural pride, invested with power never conferred upon the most potent prince, ride rough-shod and unrebuked over the liberties of the people, the "still small voice of justice or relief dies out unheard, or echoes only" within her gloomy walls!"

A Grant club has been organized at Salem. The following is among their resolutions: Resolved, That we regard Gen. ULYSSES S. GRANT as the true representative of the great principles of the National Union Party, and that we favor his nomination for the Presidency by that party, in 1868, subject to the decision of the National Union Convention. So says the Record.

INGRATITUDE.—Old Tom Healy went up to Andy VanShack's house in Shaeta and slept four hours in a bed where his (Van's) mulatto woman sleeps. He went down to town the same night and spoke two hours against the negroes and said "this is a white man's country."—Red Bluff Independent.

IMPORTANT ALLIANCE.—It is understood that the commander of the "Dark Day Democrats," here in town, has formed an alliance with the old "bed-rock" Abolitionist of Phenix. The latter is to perform the part of "spy," and is to cover the Captain's rear if he gets whipped in the Convention.

MOOR.—We understand that a bill will soon be considered in the Mock Legislature to repeal the road law, so that it will not conflict with Fay's thirty feet road petition!

Washington dates of the 6th, report that the President and McCulloch have quarrelled, and that the latter will leave the Cabinet.

Base Ingratitude.

Our usually placid and serene cotemporary seems very ill tempered of late. Some time since, he promised to enquire certain Democrats very severely if they did not patronize Democratic papers more liberally. The threat must have been idle, for in his last issue he placed his party in the position of the "heathens" in "Boriboola Gha" which is a very ill natured way of intimating that many of them are unable to read, and is by no means complimentary to those that furnish him bread and butter. We are accustomed to expect anything from Democratic sources, and would not be surprised to see our neighbor publish a political analysis of the criminal elender of this county, to the disparagement of his party. Elsewhere in his paper he comes down like a whole brick kiln upon some members of his party whose names are found on the books of republican printing offices. To say the least, this is rather illiberal and it shows just how much of the pretended liberality of the Democracy is real; and how much feigned. Democracy professes to be the champion of free speech and a free press, but if an enlightened member of the party chooses to patronize a republican paper, he gets a rap over the knuckles to remind him that Democracy owns him—body and soul—and claims the right to drive him. Such a course is not grateful, it makes respectable and liberal Democrats laugh, and has just about as much effect as to prescribe where they should buy their tea, and coffee and how they should take it. There are some Democrats in this county who have judgment enough to prefer Republican literature, as a general rule, to their own, and independence enough to do as they please, and we rather think our neighbor will find some trouble in driving them where they don't choose to go voluntarily, but if they will stand it, it is none of our business.

LAND SURVEYS.—As the portion of this State lying east of the Cascade Mountains, and known as the Klamath Basin, is now open for settlement, it is the duty of the Government to provide for its immediate survey. Considerable land has been surveyed in the neighborhood of Klamath Lake, much of which has been selected by the State, but by far the best section of country has remained unsurveyed, on account of the danger of prosecuting the work among hostile Indians. The hostile bands seem to be driven far to the southward, and there is every probability that next summer's campaign will result in driving the "Snakes" into a permanent treaty of peace. Everything indicates that there will be a large emigration to that portion of Oregon next Spring, and it is due to those who are enterprising enough to open up a new country, to allow them to make the most favorable selections. It will cost Government no more to survey these lands now than at any other time, and the settler would have the advantage of knowing exactly how he was locating his land and where his lines were. The attention of our delegation in Congress has been called to the subject, and we have no doubt but what an appropriation for the survey of these lands will be made at the present session.

THE DEMOCRATIC PLATFORM.—The following is said to have been adopted as the platform of the Jackson County Democracy: 1st. A nigger is as good as any other Democrat, provided he is a Democratic nigger. Greenbacks are to be worth what they will bring, and will be taken by Democrats in preference to Confederate Shin-plasters. It shall be the duty of every Democrat to get an office if he can. Democrats who don't hold any Government bonds should unite in sustaining "repudiation." Democratic bondholders should be paid in coin. To insure harmony, the right of every Democrat to run the party or "bust" it, is recognized. The direct tax on whisky is regarded as a tyrannical and wicked Congress. The last resolution invited the man up a tree to join the Democratic party immediately.

CUPID'S DART AT OUR DEVIL.—Our Devil has been sick this week, and the cause of his illness was a mystery until we found the following set up in his stick under his case. All is plain now. It will be readily admitted that no one can work under such circumstances. It is supposed that it was intended for a valentine.

In Brief.

The Chronicle says that the Hon. Mr. Cox is canvassing Marion county for his history of Oregon, and has already over a thousand signatures. . . . The Oregonian says a vessel has been wrecked below Tillamook—name not known. . . . The same paper gives an account of a difficulty at a dance, in which two men—Preble and McNamee—were shot and instantly killed, and one Walsh wounded. Some of the parties are under arrest. . . . The saw mills at Gardiner, in Douglas county, cut about 4,500,000 feet of lumber annually, so the Ensign reports. . . . A great many horses in Marion county are dying of "staggers." A prominent stock raiser—John Minto—writes to the Record that the disease is caused by "dry feed." . . . The State Journal's correspondent at Washington, reports that Pengra has not met with any encouragement for the Humboldt Branch R. R. . . . The Lafayette Courier thinks members of Congress have souls—hardly knows; maybe they have, and then gets the subjects in a muddle. . . . Freights from San Francisco to Portland, by steamer, have advanced from five and six dollars to six and eight dollars per ton. Portland shippers are very indignant thereat, and talk of an opposition line of steamers. . . . The steamer Echo ran on a snag ten miles below Salem and sunk. About three tons of flour was damaged. . . . Real estate in Portland is advancing. The Oregonian says capital is seeking investment in land, instead of property holders running after purchasers as has been the case for two years past. . . . The place of holding the Union State Convention has been changed from Portland to Salem. . . . The exports from the city of Portland for 1867, says the Oregonian, are valued at \$8,463,793 75. . . . Several bales of broken flax straw, from the Salem Oil Mill, has been shipped to San Francisco, to be used for upholstery purposes. . . . Col. Cornelius is agitating the question whether Washington county shall assume the payment of the interest on \$50,000 worth of the O. C. R. R. Co.'s bonds. . . . The shock of an earthquake was felt recently in Washington Territory. . . . The coal bed of the Bellingham Bay Co. is on fire, and it is thought that the mine will have to be flooded to put the fire out.

One of our most valuable Democratic exchanges, the Lafayette Courier, comes to us this week almost unintelligible. From what we can make out, we infer that it has hoisted the name of "Fred, Douglas" for President. We always thought his essays on "nigger" would strike in.

Our Democratic neighbor says: "Some people take nigger in their coffee." Democracy usually took the article straight, and their coffee afterwards.

WASHINGTON, FEB 11th.

Grant's reply to the President is brief. It relates only to the charge of insubordination, in refusing to disobey orders issued by Stanton. He said he did not propose to discuss any legal order of the President, but only gave an interpretation of what he would regard as satisfactory evidence of the President's sanction to orders from the Secretary of War. He enclosed a copy of an order from the Secretary of War, directing him to furnish an escort for public treasure, from the Rio Grande to New Orleans, issued on application of the Secretary of the Treasury to him, showing the recognition of Stanton as Secretary of War, both by the Secretary of the Treasury and Postmaster-General. He concludes by disclaiming any intention of disobeying the President's orders when distinctly communicated.

GRANT AND JOHNSON.—The Eastern papers contain many comments on the course of the President, in trying to force the favorite soldier of the Republic into a false position. The New York Herald has declared unequivocally for Grant for the Presidency, and it seems that the blundering incumbent of the Presidential office is debating himself, and strengthening the good opinion of the people for the man he seeks to destroy. Every trap that the "President" sets for the "General," not only fails to catch him, but exposes the consummate meanness of Johnson, and shows Grant to be his superior in strategy as well as in honesty.

Another wonderful ingredient, of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present. With this recipe before the community, and evidence of effects meeting them on all sides, the success of DR. BARKER'S STOMACH AND BOWEL TONIC is a matter of course. Every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure. They are recommended by the highest medical authorities, and are warranted to produce immediate beneficial effects. They are exceedingly agreeable, perfectly pure and harmless. It is put up only in one size, bearing the signature of Dr. BARKER, and is sold in every city. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmanipulated, and our signature on the outside side label. Sold by respectable dealers throughout the habitable globe.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful. Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best household medicine that can be made. It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with. READ THE FOLLOWING: "I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Swellings, or Falls on Horses. One man has used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it sets like magic." J. W. HEWITT, Foreman for American, Wells, Fargo's and Harnden's Express. "The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment." Gloucester, Mass., August 1, 1868. Ep. 5834.

Quick and sure it certainly is. All genuine is wrapped in staple enclosures, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp of DR. BARKER & Co. over the top. An effort has been made to counterfeit it with a cheap stone-label label. Look closely.

LYON'S FLEA POWDER.

It is well known that Lyon's Genuine Flea Powder will perfectly destroy everything in the shape of Fleas, Lice, Bedbugs, Roaches, &c. that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. Bedbugs, Ants, Roaches, &c. are in every house. This Powder is their natural death. It should be in every cupboard. JOHN L. ROBEY, Esq., Superintendent of the New York City Hospital, says: "It is the only flea powder we have ever used." New York House-Floorsmen say: "We have used LYON'S MAGNETIC POWDER for exterminating insects and vermin, with entire satisfaction."
