THE trial of John H. Surratt is continued to the June term.

THE State Fenian Convention met at Louisville on the 18th, General O'Neil President. The brotherhood made a stirring address.

WE CAN'T SEE IT.—Mr. J. L. Loudon, who is on the so-called Democratic ticket for the Legislature, declared at Ashland that the charge against him of being a Know-Nothing will give him fifty more votes.

Who tried to force negroes into the schools in Portland to sit with the whites? Hon. Dave Logan.—Pulk Co. Signal.

Who placed negroes on the face of the earth to contaminate the air that some prejudiced and narrow-minded white men think is to be breathed alone by themselves? A Greater than the Hon. Dave Logan.

At the demonstration on Saturday evening, Mr. Loudon raised his voice to a tremendous pitch, and jumping up and down frantically, like a "jumping jack," exclaimed: "I'm a boss!"

GOOD FOR UNCLE BILLY.—When the so-called Democratic candidates had exhausted themselves on Saturday night on the political issues, etc., they got a drunken "bread-and-butter" man on the stand to finish the performance and give it tone.

OUR LEGISLATIVE TICKET.—We call the attention of the people of this county to the Legislative ticket put in nomination by the Republican Convention on Saturday last.

THE Democratic papers try to make people believe that Congress has forced negro children into the schools with white children. Why do they not prove the assertion. A case was tried in Portland, in this State before Judge Shattuck, (a Republican) the Civil Rights Bill was thoroughly tested, and it was found that Congress had not changed the relative position of white and black children in any way whatever.

Facts for the People.

A speaker at the "bread-and-butter" meeting in Jacksonville on Saturday last made a statement that we cannot allow to pass unnoticed. He declared that when the Republican party in this county went out of power the County was deeply in debt, and County warrants worth only thirty-five cents on the dollar. The reverse is exactly the case, and we dare any man to disprove it.

Now we ask: What have the "bread-and-butter" administrations done for the County? How have they lightened the burdens of the people? Let us see. From the organization of the County in 1852, to the present time, nearly four hundred thousand dollars have been taken from the pockets of the people in the shape of taxes.

THE Republican National Convention met on the 20th, and on the 21st nominated U. S. Grant and Schuyler Colfax for President and Vice President. What man in whose veins runs the fire of liberty, wants a better ticket than this?

Grant and Colfax.

OUR LEGISLATIVE TICKET.—We call the attention of the people of this county to the Legislative ticket put in nomination by the Republican Convention on Saturday last. Both the mining and agricultural interests are represented in it.

THE Democratic papers try to make people believe that Congress has forced negro children into the schools with white children. Why do they not prove the assertion. A case was tried in Portland, in this State before Judge Shattuck, (a Republican) the Civil Rights Bill was thoroughly tested, and it was found that Congress had not changed the relative position of white and black children in any way whatever.

Misrepresentation.

As our neighbor accused us last week of mis-representing the fair party record of some of the candidates on the so-called Democratic ticket, we take the following from the SENTINEL of April 12th, 1862:

UNION CLUB.—In pursuance of a call for a precinct Union Club, on the 9th of April, at Mr. Humphrey's school house, quite a number of persons (composed mostly of young men) responded to the call.

Resolved: That the Democratic party has proved recreant to itself and to the principles of our forefathers, and can no longer be safely trusted as the guardians of our sacred rights bequeathed us by the founders of our Government.

Resolved: That regardless of all former ties and party prejudices, we the members of the Young Men's Club of Jacksonville, Oregon, in the present crisis, involving the existence and perpetuity of our Union, cheerfully accord our support to the Executive of the United States, in administering the laws of the country, practically and impartially.

THE foregoing, together with extracts from the Idaho World, bear us out in all we have said about the record of one individual who comprises part of a ticket representing the time honored principles of Democracy, and we hope the Reville will exonerate us from any desire to falsify or mis-state the political record of any candidate on the so-called Democratic ticket.

Acquittal of Johnson.

Last Saturday, the final vote was taken in the Senate on the impeachment question, and Andrew Johnson went scot free by a vote of nineteen to thirty-five. Seven Republican Senators, Fessenden, Fowler, Grimes, Trumbull, Van Winkle, Ross, and Henderson, voted against the articles. It is hard to judge their motives; but it is quite probable that the unpopularity of Senator Wade, who would have succeeded to the Presidency, in case of Johnson's conviction, had much to do with the final vote.

Mr. Smith not a Bondholder.

SOME time since we stated that Joseph Smith was a bondholder, but in accordance with the request of Hon. L. F. Grover, we correct the statement. We were misinformed, and now think less of Mr. Smith than ever. Mr. Smith, the wealthy man who accumulated his fortune prosecuting the early pioneers of Washington Territory for trespassing on the Government land, does not own a dollar's worth of government bonds.

The National Platform.

Senator Corbett telegraphs that the platform adopted by the Chicago Convention is the same as the Republican platform of this State on foreign, immigration, public faith and suffrage. The earnest hope of the Democracy that our national articles of political faith would contain an endorsement of negro suffrage, is gone forever.

Correspondence.

EDITOR OF SENTINEL.—Sir: You very well know I am a Democrat, and to use the language of St. Paul, "of the strictest sect, so far as national politics are concerned." I have been voting the Democratic ticket for years without dotting an "i," or crossing a "t," from President down to Constable. I have always waited until the caucus "set and hatched" before I ever expressed an opinion.

Resolved: That the Democratic party has proved recreant to itself and to the principles of our forefathers, and can no longer be safely trusted as the guardians of our sacred rights bequeathed us by the founders of our Government.

Resolved: That regardless of all former ties and party prejudices, we the members of the Young Men's Club of Jacksonville, Oregon, in the present crisis, involving the existence and perpetuity of our Union, cheerfully accord our support to the Executive of the United States, in administering the laws of the country, practically and impartially.

Politics in Josephine.

From an affidavit in to-days issue, in reference to some of the Democratic candidates in Josephine County, it seems that some of the old Know Nothings have crawled among the Democracy of that county, also, and are running on their Democratic record.

Resolved: That regardless of all former ties and party prejudices, we the members of the Young Men's Club of Jacksonville, Oregon, in the present crisis, involving the existence and perpetuity of our Union, cheerfully accord our support to the Executive of the United States, in administering the laws of the country, practically and impartially.

Correction.

WE were in error last week when we stated that Mr. Shipley was Secretary of the Democratic Convention. He was not an officer of that body, and, therefore, is not responsible for the perplexing statement that was current about the final ballot for School Superintendent.

Dissolution of Co-partnership.

NOTICE is hereby given that the co-partnership heretofore existing between Henry B. Emery and C. F. Blake, known as Emery and Blake, in the Cabinet business, in the town of Ashland, Oregon, is this day dissolved by mutual consent.

[From the Idaho World March 4th, 1865.] Letter from Boise City.

EDITOR WORLD:—The Republican Convention was one of the grandest affairs that ever came off in this part of the Territory. Your friend and "Pitcher," the big chief of the Statesmen, started to head off the price of Republican politicians, properly called Codfish, but erroneously titled Bodfish, by securing the Boise City delegation to the County Union Convention, but having a strong desire for the loaves and fishes, and knowing the weakness of the Republican party, he crossed the line—

To the Citizens of Josephine County.

Learning that Mr. William Chapman has, in the most public manner, denounced as a falsehood, a statement made by me in private conversation to the effect, that in 1856 Mr. Chapman advocated and endorsed, to their full extent, the Native American, or Know Nothing principles, and believing that I cannot, with justice to myself, pass unnoticed as public and direct an assault upon my veracity, I feel compelled thus publicly to reaffirm my statement, and to sustain it by the testimony of other well known gentlemen, who are cognizant of the same fact.

Wm. M. EVANS. We, the undersigned, were well acquainted with William Chapman in 1856, and are aware that he did advocate and support the Know Nothing doctrine, and that the above statement of Mr. Evans is strictly true.
