SATURDAY MORNING, May 15, 1869. Religious Motices.

Services at the Catholic Church to morrow at the usual hour by Rev. Father Blanchet.

Services at the Methodist Church temorrow at the usual hour by Rev. J. W. Knykendall.

PHERNOLOGICAL .- The lectures of Dr. Jordan, on this subject not been well attended. The Dr. we believe, intends to return during the summer, as a prolessor of a new science, to be called "heelology." He thinks that it would pay better to be able to inform this community how much dancing there is in their pedal extremities than to enlighten them on their phrenological development. May be he is correct? At all events if not better at "heelology" than prenology, the protessor will be voted a bilk.

SAD APPLICATION.-We are pained to say that since our last issue, our tellow townsmen Mr. John Donegon has been called on to part with two interesting children in a sudden and distressing way. On the 3d they were at the May festival full of childish spirits and buoyancy. On the 7th they were stricken with diptheria -ou the 10th the love light had gone out from the bright eyes and the fittle fellows lay side by side among the laurals on cemetary hill.

Court Marriat. - A military Court was held here on Wednesday to try the case of 1st Lieut W. I Henderson charged, we believe, with carelesness and irregularity. The court was composed of General Blake, General Robinsen Major Darling, Major Calit, Lient's Manning and Thorburn and Captain Whittier, Judge Advocate. The finding of the court will not be known till acted upon by the War Department at Washington, Meanwhile, Henderson was ordered to report at headquarters under arrest.

FOURTH OF JULY .- The National Holiday is near at hand and we have been requested to call the attention of our citizens to the fact that it is time to commence preparations for a celebration. A meeting is proposed to be held at the Court House next Saturday for the appointment of the usual Committee, and it is to be hoped that the people will move in the matter with their usual spirit and liberality.

STOP THAT HOWLING .- People are beginning to enquire it we have any Recorder or Marshal in Jacksonville-For three days during this week a drunken brute perambulated the streets uttering beastly yells and making himself the terror of women and children. If the aforesaid officers are in existance and don't intend to do their duty, they had better resign.

George A. Ladd and I. L. Evans, agents of the Union Mutual Life Insurance Company, are in town, and will remain for a short time. Life is as uncertain here as anywhere, and there can be no better provision for a family than a liberal investment in the stock of this company.

FROM KLAMATH.-We had a visit from Capt McGreger on Wednesday. He reports the crops looking very well in the Klamath Basin. He expects to start with his company for Arizona about the 1st of July or as soon as the wagon road up Rogue River is open.

OVERLAND MONTHLY .- The May number of this popular Magazine is excellent. Among its contents, "The Building of the Iron Road" is a very interesting history of the inception progress and completion of the Pacific Railroad.

To Sportsmen .- Neuber has the most complete assortment of fishing tackle ever brought to town. His artificial flies are so perfect as to desaive the most wary old trout in the world.

Amey Seprens. - Notice an advertisement in todays paper for proposals to farnish heef, flour and bacon at Fort

Fracuing Mill. - We hear it is the intention of Mr. Kubli to build a flouring mill near his place on Applegate

A communication from Phoenix, and a letter of B. F. Dowell are unavoidably crowded out this week.

Call at Antrn's and get the finest cigar to be found in town.

BORN.

Jacksonville, March 20th 1869.

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were (like ourselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture and sell it in the United States.

The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLAN-TATION BYTTERS being an article of real merit, founded upon new principles, and relying whelly upon the vegetable world for its medicinal effects, worked a rapid revolutien in the history of medicine, and became as a household word all over the civilized world. The cabalistic S. T.-1860-X. was a talisman of health, and the Semand for the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of St. Croix Rum, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose, He was fortunate in securing and leading several plantations on some of the largest and most productive estates on the siend. Houses, stills and process were erected as if by much, which utterly "astonished the natives." The services of experienced men and natives of the island were precured, and very soon the proprietors of the PLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Creix Bum needed in manufacturing the GREAT DESPEPTIO TONIC AND INVIOCRATOR. The above cut represents the natives crushing the sugar-cane and otherwise preparing it for the stills and precess.

As an antidote to Fever and Ague, Intermittent and Malarious Fevers, Dyspepsia, and

other kindred diseases, the use of the PLANTATION DITTERS is unsurpassed in the history of the world. Over five million bettles are disposed of annually. They are adapted to old and young, male and female. They are agreeable in taste, and always produce an immediate beneficial result.

MAGNETIC BALM. A general Family Medicine, It is a sever-

Diptheria,

Fever and Ague, Neuralgia. Rhomation. Colds, Toothache, Barns, Sprains, Bruises, etc., etc., are a once relieved by its timely use.

Trule a Pegetable Proparation.

USE NO OTHER. Unexcelled for Toilet Use and for the Bath.

REDINGTON & CO'S

This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all discases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving

who suffer from difficult menetruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausca, caused

or other causes.

It is also valuable as an external application or Gout, Rheumatism, Neuralgia, etc.
