CAMP MEETING.—There will be a Camp meeting held on the south-west corner of the "Whitworth claim,"...

Services at the Catholic Church tomorrow at the usual hour by Rev. Father Blanchet.

Services at the Methodist Church tomorrow at the usual hour by Rev. M. A. Williams.

Early peas and strawberries are now among the luxuries of Jacksonville.

CAUTION.—Read the card of E. W. Haines, who, we presume is responsible for his statement.

Henry Smith can find something valuable by calling at B. F. Dowell's of fee.

TOMATOES.—Two thousand splendid tomato plants for sale at Dunlap's—cheap.

MEASLES ABOUT.—We learn that measles are prevalent up the valley—there being about twenty-five cases on Wagner creek.

SOLD OUT.—The Applegate Bro's, of Ashland, have sold their new store and all their stock of Merchandise to R. B. Hargadine, of that place.

Houck says he can clean and repair watches cheaper and better than ever. He has also a quantity of beautiful watches and jewelry on hand at the lowest prices.

KEM AND C.—Care of the variety store advertises a large stock of fancy and staple goods. Everybody says Care is selling below cost, and what everybody says must be true.

TRANSPORTATION.—See the advertisement of the Chief Quartermaster, in reference to the transportation of freight from Portland to Fort Klamath—time expires on Monday.

NEW BIDDIES.—Cobbett and Cawley are getting two fine biddies from the Bay that will cost them \$1,000 landed here. They intend running on "style" this summer.

CATTLE.—A band of about one hundred and twenty head of beef cattle were driven from Josephine this week. It is stated that nearly three thousand head have been driven from that county since Spring.

IMPROVEMENTS.—We notice that Walter's bakery next to the El-Dorado has been torn down to make room for a new building—"Ryans Brick" has received a new coat of paint and looks quite stylish.

MORE POISONING.—Two men were poisoned, recently, in Ruby Valley by eating wild parsnips. One of them only lived about half an hour—the other expired within three or four hours after eating the root.

DENTISTRY.—Those desirous of availing themselves of the services of a safe and skillful operator will be wise to call on Dr. Grady before the end of next week. His stay is limited to next Saturday, and he assures all that he will give the utmost satisfaction.

FOURTH OF JULY.—A meeting will be held at the Court House this afternoon at 2 o'clock for the purpose of appointing Committees to prepare for a suitable celebration of our national birthday. Be on hand everybody.

"THE LOST CABIN."—The party who went out last week to search for the location of this fabled cabin have returned without finding it. The irrepressible Sam Bowdler, who conducted the party, the cabin is still there, but as the brush has grown so rapidly, it is now worse "lost" than ever.

DENTISTRY.—Dr. McAllister, of the well known firm of Bush & McAllister of San Francisco, gives notice, that he will be here in August. Dr. McAllister made many friends here last fall, and his work speaks for itself, requiring no praise.

Hogs are said to be unusually scarce in this valley; there is considerable demand and very low for sale.

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were (like ourselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture and sell it in the United States.

The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLANTATION BITTERS being an article of real merit, founded upon new principles, and relying wholly upon the vegetable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilized world. The catalytic S. T.—1860—E. was a tallman of health, and the demand for the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of St. Croix Rum, made expressly for the consumption of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and leasing several plantations on some of the largest, and most productive estates on the island. Houses, stills and presses were erected, as if by magic, which utterly astonished the natives. The services of experienced men and natives of the island were procured, and very soon the proprietors of the PLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Croix Rum needed in manufacturing the GREAT DYSPEPTIC TONIC AND INVIGORATOR. The above cut represents the natives crushing the sugar-cane and otherwise preparing it for the stills and presses.

As an antidote to Fever and Ague, Intermittent and Malarious Fevers, Dyspepsia, and other kindred diseases, the use of the PLANTATION BITTERS is unsurpassed in the history of the world. Over five million bottles are disposed of annually. They are adapted to old and young, male and female. They are agreeable in taste, and always produce an immediate beneficial result.
