From - A first class fist an skull fight came off last Sunday night near the Muller & Brentano, brick store, It seems the parties had been imbiling something, which had stimulated their crurage to that point where honor will not brook insult, and where the recollections of injury are to poignant for passive endurance. Under these doubtedly a highly proper and commendable affair. The result of the whole matter as far as we can learn, was that they both got pretty badly binised, and finally quit completely satisfied.

School Exhibition .- At Fairview, on the 19th inst., Mr. Stanly closed his school by a brilliant exhibition of recitale, cesays, dialogues and musicvocal and instrumental. Wagner creek and Ashland schools were in atten-dance, giving an air of importance to the occasion, and declaring themselves astoniched at the intellectual improvement of their neighbors. A sumptuous repast accompanied other good things, at which about two handred persons feasted. On the whole there seemed unbounded satisfaction until it was announced that the genius of their happiness would leave in a few days to take charge of the Roseburg Academy.

Suor .- On last Monday, as James Ralls was going from Big Bar, or Rogue River, to his fathers on the stage road between Willow Springs and Dardanelles he accidentally shot himself in the right breast with the whole charge from a shot-gun. Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were (like ourselves) seeking health ; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture

and sell it in the United States. The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLAN-TATION BITTERS being an article of real morit, founded upon new principles, and relying whelly upon the versiable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilised world. The cabalistic 6: T .- 1360- Z was a talisman of health, and the demand for the FLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of St. Croix Sum, made expressly for the con pounding of these Bitters, the quantity was inadequate. It therefore became necess that arrangements upon an extensive scale throad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by E. glo, which utterly "action ished the natives." The services of experienced men and natives of the island were percured, and very soon the proprietors of the PLANTATION RITTERS were in a po to supply their laboratory with all the perfectly puss St. Creix Rum needed in manufac-turing the GREAT DESPETTIO TONIO AND INVISORATOR. The above for represents

the natives crushing the sugar-cane and otherwise preparing it for the stills and presses. As an antidote to Fever and Agus, Intermittent and Ralarious Pevers, Dyspepsia, and other kindrel diseases, the upo of the PLANTATION RITTERS is ansurpassed in the history of the world. Over five million betties are disposed of annually. They are adapted to old and young, male and female. They are agreeable in taste, and always produce an immediate beneficial result.
