KEEP GOING.—The performance called "A Trip Around the World," has moved northward, intending to reach China as soon as possible, where it will perhaps be appreciated. On Tuesday night quite a number of people were bilked, but on Wednesday the number was very small- The general opinion here is, that it had better continue the "trip"-keep-moving, not stay long in a place, and miss this burg on the way round. .

Don't throw away your broken glass or China ware. Save it by going to Neuhera and getting a hox of "Jones" afherive cement." It is warranted to cement all articles of glass, porcelais. China or other were so that they will break any other place easier than where they are mended. If the article TIN, SHEET-IRON, COPPER does not give satisfaction the money will be refunded.

PROUNTS INSURANCE COMPANY .- By a card published elsewhere it will be eren that this company adjusted and paid a claim of William Fleidner, one of the sufferers of the late confingration at Corvallis, on the second day after the fire occurred. A company so prompt is its payment of losses certainly must command the confidence of the public and increase the patron, age so well deserved.

CAN STAND ANYTHING .- Our neigh bor Dunlap thinks that as Jacksonville survived the small-pox, did not wilt when George Francis Train tooted his horn, and failed to come down when the water-spout struck it on Tuesday. it can stand anything. We concur. preferring to agree rather than take

the chances of settling the question by any more such inflictions.

The Missouri Republican, the leading Democratic paper of "the West" has an article in its issue of the 3d inst. on Chinese immigration, which coneludes as follows: "We are in favor of extending to John Chinaman a hearty Silver, and rushing to the Store of extending to John Chinaman a hearty welcome, and giving him fair play in the race of life. Our little thirty millions of population can afford to receive accessions from his five hundred millions, and the incalculable agricultural and mineral resources of our domain are not likely to be exhausted by drains from this source. Any policy which looks in an opposite direction, and whose avowed purpose it is to check and drive back emigration from China, is contrary to the spirit of our institutions, and will not be sustained by the moral sentiment of a free and enlightened people." onlightened people."

WILL RESIGN. -- We are authorised to state that Hon. B. F. Dennison, Clothing, Boots and Shees, hief Justice of Washington Territory, will resign his office at an early day. We presume the Judge will return to his practice at the bar, which he finds more lucrative than a seat on the Liquors, Crockery.
