PAINTINGS .- Charles Creeker, of Sacramento, has bought Hall's celebrated painting of the Yosemite Valley tor \$10,000. James Sutten, formally editor of the SENTINEL, has painted just as good a one of the Falls of Rogue River, which he offers to sell for \$50. Poorer paintings than either have frequently been sold for upwards of \$20,000. Such is life. The loss of one is the gain of arother.

In the case of the State against, Me-Bean decision was reversed. This decides that Justiers of the Peace have exclusive original jurisdiction under the act to prohibit and punish gambling.

SENATOR CORRETT expects to start for Washington overland, via Jacksonville, Oregon, and Sacramento, Cal., thence by railroad, some time this menth. We hope he will find it convenicut to stay in Jacksonville several days while on his journey.

A subscription for an enlargement of the Sunday School library of Jacksonville will soon be circulated in this vicinity. Though the friends of the movement do not expect any large donations, still they think every one who is interested in a prosperous and attractive Sabbath School should contribute something. We hope their expretations will be fully realized; and w are satisfied that any contributions in this behalf will never be regretted by the contributors.

FREIGHT .- Teams loaded with goods for the merchants of this place continue to arrive from Crescent City. If these old observers of the times are not mistaken, weshall have lively times this winter.

KASPER KURLI, postminster on Applegate, has resigned, and recommends the discontinuance of the office. The exclusive of State indebteduess office accomodates many citizens in the vicinity, and it ought not to be di continued. The neighbors should r commend some good man to take M Kubli's place.

A shooting and cutting affray o curred on the 23d ult, at the Big Me dows of Rogue River, between Georg L. Jackson and Joseph Nixon. It a pears that the two men had a quarre in the course of which Jackson ran toward Nixon with a drawn hatchet, threatening to kill him. Nixon warned him three times not to advance any farther, but he advanced, and Nixon shot him in the breast, the ball entering the upper portion of the left lung and passing entirely through the body. Notwithstanding this wound Jackson succeeded in cutting Nixon severely on the top of the head, inflicting a wound about four inches in length and to the depth of the bone. This wound is not considered dangerous Jackson's wound is of a more serious will probably recover.

CURDUS LETTER. - At a meeting of the Pslytechnic Association of the American Is stitute a few days ago, the chairman exhibited a letter which was certainly a curlosity. The letter and envelsp were made of sheet iron, and yet weighed less than the regular rate, one half onnce. The envelop measures four and seven-eights by two and three-tourths inches, and the letter is eight by five inches. Careful measurement with a micrometer gave one fivehandreth of an inch as the thickness o' the sheet. Letters have been written on sheet iron before, and an iron book of three hundred pages, which measured less than one inch in thickness, was shown at the World's Fair. The book was printed with elastic type, made specially for the purpose.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair is soon restored to its original color with the gloss and freshness of youth. Thin bair is thick-

eped, falling hair checked, and baldpess often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as romain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent buldness, Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
