SATURDAY MORNING, Nov. 20, 1869.

1. P. Fisher, 20 & 21 New Merchant's Exchange, is our only authorized agent in San Francisco. For Eastern Advertising, Ma. Fisher is represented by S. M. Perresona & Co. of New York and Boston.

Hudson & Menet are our only au-thorized Agents in the Atlantic States. Offices 41 Park Row. "Times" Building, New York City. All orders must come through them.

## Religious Motices.

FATHER BLANCHET will hold divine services at the Catholic church to-morrow at the usual hour.

A Few weeks since we frequently observed a young man, calling himself -, sauntering along the sidewalks, lounging at the saloons, and emjoying the liberties of the place generally. He suddenly disappeared from our contemplation; and on making inquiry a few days since, we learned that he had indeed departed, and also elicited the following facts: He came here about two months ago on the southern stage and claimed a passage through to Portland, stating that his father had paid his way through but by some oversight it was not put on the way bill. The agent refused to pass him, and he then concluded to wait for his father, who, he said, had gone to Portland by water from San Francisco, and would come back here on the stage, road, He was well dressed, courteous and accomplished, and being young, and withal good looking, attracted a good deal of sympathy for his mistortune. An attack of "chills" and fever soon after his arrival added a melancholic interest to the sympathy that already existed, and to "be a stranger in a strange land" was in his case not only endurable but almost enviable. But the "father" did not come, and-to cut the story short, our guest departed a few days since, after a pleasant sojourn of several weeks, on foot and alone, sans meeting his father, sans getting his ride to Portland, same paying his board bill, and sans everything with which he had flattered the expectations of a kindhearted but too credulous community.

Drvonce .- But one suit came off in the Circuit Court this week-a suit for a divorce by a Mrs. M. N. Wade, on the ground of cruel and inhuman treatment. Although the evidence did not establish a very aggravated case of factured cruelty, the court deemed it clearly a case within the statute, and granted the decree prayed for. Once the physical security of the parties was all that courts would take cognizance of in suits of this kind; but now, under the influence of more liberal and equitable opinions, the happiness of the parties has been provided for by statutes.

Rain.-For several days past the much hoped for and expected rain has been coming down pretty steadily in this section of the country. We hear the Chinemen are buzzing around quite lively in their mining preparations, and white miners in a few days more will have plenty of water to go to work with. The mines are among our main with. The mines are among our main in New York next year, to cost \$500, resources for the circulating medium 000, as a house of reception for Morin this calley, and we hail activity in working them as a harbinger of better times. Farming also has started up afresh, and the fields are showing forth the marks of industry here and there

DENTISTRY .- Dr. W. Jackson has permanently located in Jacksonville, where he proposes to practice his profession of Dentist; and requests a fair by the public. See his advertisement now occupy the position. in another column of this paper, under the head of "New To-Day."

HUNTING .- For some time back our f-llow townsmen have found diversion and relief from business cares in hunt ing . It is undoubtedly a healthy and reinvigorating exercise, but our experience leads us to copelude that it would he a hard profession to follow for a

NEW BOOK STORE.-J. M. Sutton has opened a new Book Store at the Post Office, on Oregon street, and has a very nice and judicious assortment of books for sale-cheap, for cash. He has also for sale, on the same terms, stationery, fancy notions, eta., until you "can't rest." See his advertisement in "New To-Day."

Big Yinin -- Mr. Chappell, on Applegate, in this county, raised on hie farm this season from one pound of Early Rose putatoes 260 lbs. Also from one pound of Norway cots 61 bushels. Who can beat that?

FOR GOOSE LAKE .- Abraham Tenbrook and family started from this place for their home in Goose Lake valley the first of this week. Both he and his wife are old residents of this section, and leave behind them many warm friend? A journey over the mountains at this season of the year is attended with much difficulty and some danger, yet we hope soon to hear of their safe arrival at their destination.

DROWNED .- From Mr. Colwell, of the Crescent City stage line, we learn that a young man, 17 or 18 years of age, was drowned in Illinois river, Josephine county, a few days since. His name was William Wakeman. He was endeavoring to cross the river on horseback when the acsident happened. His body had not, up to latest information, been recovered.

THE EAGLE SEED SOWER .- This important invention will be exhibited "at work" at Jacksonville, on the 24th of this month. Farmers will then have an opportunity to judge for themselves. All are invited to attend. See advertisement of John S. Herrin in another

Trail rolled on the Pacific coast was manufactured at the Pacific Rolling Mills, San Francisco, on the 4th inst. These mills have received a large order for rails from the Oregon Pacific Rail-

TABLE ROCK .- This saloon is being repainted and renovated.

BR. W. Jickov, DR. W. Jickov, The DR. W. Jic THE Transcript says \$8,000 worth

ALASKA .- The New York Sun concludes an article thus

The question now is, What shall we do with our elephant? Politicians, with an eye to appointments and profits, would doubtless be glad to have us spend a few hundred thousands of dollars a year in maintaining a lot of useless civil and military officials to watch it, with fat salaries and liberal rations, but we imagine the people will hardly approve of this plan. They would rather not throw good money after bad. We have paid out \$7,200,000 gold, and we cannot get it back. Let us take General Thomas' advice, have no civil government at all, but only keep a small military force at one or two spots, and there stop.

The railway running out of East Portland is now actually being traversed for some distance each day by a real, unmistakably genuine locomotive, with a prospect of reaching Oregon City and Aurora befare a great while. This much of a success, in spite of the efforts of the doubters, who have been hampering operations in hopes to force a fulfilment of their adverse prophesies. As the said doubters are at a loss what turther to do in order to stop progress, we respectfully suggest that a good way would be for some of them to tall under the engine and get killed, and let the survivors sue the contractors for REMEMBER, the Park Knake is for both internal and External use. THE Freka Journal says: The first may be broken up yet. - Herald.

Tue Commercial Herald, of San Francisco, says: There is one thing certain, the Oregoniane deserve much credit for the superior quality of much of their flour now largely consumed by our citizens.

care of Box 2021, San Francisco, Cal.

In one of Doct. Ayer's lectures he states that Chemistry confers more practical benefit on mankind, than any other science, yet from no other source could more be so easily obtained. The arts and economies which chemistry would teach, if more thoroughly and generally studied, would speedily exercise a most beneficent influence. freely confesses that he is indebted to this science for the virtues of his remedies, and advises that the practical application of chemistry to medicine, the arts, manufactures, and agriculture be enjoined upon our colleges and schools. - Wrightsville, Pa., Star.

## Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

### HAIR DRESSING.

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS. LOWELL, MASS.

Ayer's Cathartic Pills,

Perhaps no one medi-cine is so universally re-quired by everyloody as a cathartic, nor was ever any before so Universal-

disappear.
For Brespay and Brespateal Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.
For Suppressedes a large dose should be taken as it produces the desired effect by symnathy.
As a Bisner Fill, take one or two Fills to promote digestion and relieve the atomach.
As occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who from telegrably well, often finds that a dose of these Fills makes him feel describely better, from their cleaning and renevating effect on the digestive apparatus.
