Ayer's Hair Vigor,

For restoring Gray Hair to ils natural Vitaiity and Color.

A dressing which is at ouce agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and feedings of youth. Thin hoir is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fooling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the liair from turning gray or falling off, and consequently prevent bubbless. Free from those deleterious substances which make some preparations dangerous and injurious to the bair, the Vigor ena only benefit but not harm it. If wanted

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

ELDORADO MILLS. Administrator's Notice.

PHE above Mills, formerly the Valley Mill, of the Parket of Arin S. Love, deceased, ed by the undersigned, and thoroughly repaired, with a No. I Improved Woodward's Smatter, and also Improved Shakers, with an entirely rator de louis non, of said estate; all persons having claims against said estate, are requested to present them duly verified for payment, and those indebted are required to make payment forthwith, to the subscriber, at the store of Hoffman & Klingel.

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Burn there produced upon many of the invalids who were (like currelives) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture and sell it in the United States.

The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLAN-TATION BITTERS being an article of real monit, founded upon new principles, and . relying whelly upon the vegetable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the dvilland. world. The caballetic S. T.-1860-X. was a talleman of health, and the demand for the PLANTATION BITTERS soon for exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of Ct. Croix Rum, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at ence be made, and an are t was dispatched to St. Thomas for that puryous. He was fortunate in occurring and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by a. gis, which atterly "asterished the natives." The services of experienced men and natives of the island were precured, and very soon the proprietors of the PLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Croix Rum needed in manufacturing the GREAT DISPEPTIC TOXIC AND DIVISORATOR. The above out represents the natives creaking the regar-cane and otherwise preparing it for the stills and presses.

As an antidate to Fever and Ague, Intermittent and Malarious Fevers, Dyspepsia, and other kindred diseases, the use of the PLANTATION BITTERS is unsurpassed in the distory of the world. Over five million betales are disposed of annually. They are adapted to old and young, make and female. They are agreeable in taste, and always prefere an immediate brandelal result.
