FOR SHERIFF: J. M. SUTTON.

I her-by announce myself as a candidate for the office of Sheriff, subject to the decision of the independent voters of Jackson county, at their next June election.

Whereas the office of Sheriff is not a political office, in a party view, having but one source of party influence, to wit: newspaper patronage; Therefore, I pledge myself, if elected, in order to rid the office of all party bias, to award all my official patronage, whether for the county or private individuals, to any newspaper published in the county, that will contract to do good work at the lowest price.

THE SANSAPARILLA DIGGERS OF YUCATAN. This singular set of people are descended from the ancient Aztecs of Southern Mexico, and still retain some of the peculiarities which Stephens and Prescott gave of their ancestors. Dr. J. C. Ayer & Co. employ a small army of them in digging Sarsaparilla root. Provided with narrow spades, a coil of rope, and a bag of water, they are ready for the forest where the wild banana furnishes them with food, and thick-leaved trees their only shelter.

The Republican Platform.

The Union Republican party of Oregon, in Convention, makes this declaration of its principles and policy: 1st. Unflinching devotion to the Union, first, last, and forever; and unwavering fidelity to the Constitution and its amendments, and to the laws of our National Legislature.

2d. We wholly approve the principles and policy of the administration of President Grant, as carrying into practical application the principles for which we have successfully strived. And we particularly commend these points in his Inaugural Address, wherein, he declares—"let it be understood that no repudiator of one farthing of our public debt will be trusted in public places, and it will go far towards strengthening a credit which ought to be the best in the world."

3d. We have confidence that the Administration will wisely and firmly protect the interests and sustain the dignity of the Nation in respect to other nations, and especially with regard to our just claims against Great Britain.

4th. We denounce all forms of repudiation as a national crime,—and the national honor requires the payment of the public indebtedness in the utmost good faith to all creditors at home or abroad not only according to the letter, but the spirit of the laws under which it was contracted. And for this purpose, we favor a strict economy in the Administration of the National Government, and the application to such payment of all surplus revenue, from whatever sources derived; and that taxation should be equalized and reduced as rapidly as the national faith will permit.

5th. We make no distinction between citizens, whether of foreign or native birth; and that we sympathize now and ever with men of all nationalities striving for self-government.

6th. That we are opposed to any change in our naturalization laws which shall admit to citizenship any foreigners not now entitled thereto under said laws.

7th. We favor a judicious system of railroad and river improvements in Oregon, in order to develop our resources and invite settlement of our unoccupied territory,—and for this purpose insist that Congress should make us liberal grants of aid.

8th. We are in favor of a tariff for revenue, with such discrimination in favor of our domestic manufactures as will not diminish its efficiency for the purposes of revenue.

9th. We favor universal amnesty to the people of those States lately in rebellion, which have been restored to full relations in the Union.

10th. We are in favor of fostering the cause of education, and are opposed to any diversion of the common school funds of the State to any other purpose than the support of common schools.

11th. We recognize in the Union Republican party the measures and men who saved the Government from destruction, and that its continuance in power is the only sure safeguard to national peace and prosperity. And with this platform we appeal to the voters of Oregon for their suffrages and support.

What is a Tonic?

Bear this in mind,—that although a tonic is, to a certain extent, a stimulant,—a stimulant, unmodified by any medicinal substances, is not a tonic, but a DEBILITANT. In HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country. Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce, is expelled from the rye spirit which forms the alcoholic basis of the BITTERS, by careful and repeated rectification. The juices of the valuable roots, barks and herbs, infused into this wholesome product of the finest grain, still further modify its nature; so that it becomes, in fact, a simple diffusive agent, minus all the heady and brain exciting properties which belong, more or less, to all liquors in a raw state. It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective,—increasing their active power, and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the BITTERS. Instead of creating headache, its unmediated stimulants are apt to do, this salutary tonic is the best known remedy for that complaint. It calms and soothes cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels, determines the fluids to the surface, improves the appetite, increases the normal vigor, regulates organic action, and, from its mild yet effective alterative qualities, is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them.
