REV. C. ALDERSON will preach at the M. E. church, to-morrow evening, at 7 o'clock.

FATHER BLANCHET will hold divine services at the Catholic church to-morrow at the usual hour.

A SURVEYING PARTY LOST IN THE MOUNTAINS.—From Mr. Wrisly, who returned from Fort Klamath, last Saturday, we learn that a portion of the surveying party, who started from here some weeks ago to survey some land on the upper waters of the Rogue River, got lost about the first of last week, and wandered about several days without anything to eat. They had started through from the opposite side of the river to the Fort Klamath wagon road, and became so bewildred among the numerous branches of Rogue River, that they concluded their compass was out of order. They got to camp, however, without any serious consequences from their long fast—one having swum the river—and after a short rest resumed their surveying operations.

It is a pretty good joke on the "boys," but a much better one on the Land Office Department which sent them into such a wilderness, which never can be fit for settlement, while there is so much good land in the country out about Link River, Lost River, and Goose Lake, that ought to be surveyed.

LECTURE.—Mrs. M. Field, the California female orator, will deliver a lecture, in this city, on this (Saturday) evening; admittance, 50 cents. Subject: "The extravagance of the age, beginning with Washington; showing up our fast young men, blonde young women, and sensational ministers." After which recitation of Edgar A. Poe's poem: "The Bells." Mrs. Fields was unavoidably detained, at Chico, through indisposition, so as to make it impossible for her to lecture in this city on last Monday, as announced in last week's paper.

ESCAPED.— The man who was put in jail some weeks ago, on the charge of stealing a watch, sawed his way out and escaped a few nights since. On examination he was found to have sawed off 4 iron bars of considerable thickness, in the door of his cell, which made an aperture just large enough for him to crawl out at. He claimed to be some relation to Dave Logan. There was a Chinaman in a cell opening into his cell, but instead of letting him out too, the gentleman bolted the Celestial in "for sure," before taking his leave.

CARL Bosco, the Electic Wizard, performed in this city, at Horne's Hall, on Monday and Wednesday evenings. He held forth to a very fair audience, who seemed to appreciate his many "slight of hand" tricks. At the conclusion he had himself tied up to a chair, by a well known citizen of this place, from which position he extricated himself, after dropping a curtain to conceal his operations from the audience, without difficulty.

BOUND OVER.—A man by the name of Wesley Mitchell, was bound over last Thursday, by Justice Burns of Eden precinct, on a charge of larceny. It seems Mr. Joseph Robinson, a resident of that neighborhood, lost some money, which was stolen from his house while he was absent, and that he suspected Mr. Mitchell of being the guilty party. The evidence, as we have heard it, is both circumstantial and slight, and the propriety of binding him over is very questionable.

A DISTRESSING COUGH causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

ROBBERY.—A hole was cut through the brick wall of the old Caro store, last night, about the time of the fire, and G. Karewski robbeed of about $300. No trace of the robber.

REV. I. D. DRIVER'S LECTURE.—Mr. I. D. Driver lectured at the Methodist church, in this city, on Thursday evening last, on the respective foundations of the Catholic and Protestant Churches. We were sorry that our Catholic friends were not present. The truth should be told and adopted, no matter how much it may wound prejudice. To this end the great controversy, which is just fairly beginning in the United States, must come at last, and the sooner the better. The dangerous and fallacious dogmas of the Catholic Church were ably exposed and refuted by Mr. Driver, on the occasion referred to, and we doubt if there was a single unprejudiced mind present that did not heartily endorse his views on the subject.

GREAT REDUCTION OF PRICES.—Mr. John Miller will hereafter sell at the following reduced prices: Saddles, from $10—50; Saddle Trees, $4—6; Farm and Team Harness, $25—50; Collars, $2.50—4.50; Riding Bridles, $1.50—10; Halters, from $1.25—2.25; Black Snake Whips, $1—2.25; Buggy Whips, $1—2.25; Bridle Bitts, 25 cts. to $3.50; and all other articles will be sold at proportionate low prices. All work done at reduced rates.

A SCHOLARSHIP in the National Business College, at Portland, can be had on favorable terms by applying at the SENTINEL office.

NORWAY OATS!

WE, THE UNDERSIGNED, WOULD RESpectfully call the attention of the farmers of Southern Oregon to the fact that we have at considerable trouble and expense procured the seed of this truly valuable oat, and now offer our surplus to the farmers We will fill orders as they are presented, first come first served. We insert a few certificates from the Atlantic States, where it has been tested with all the improved oats of the day. With us the yield has been for every bushel sown more than three times the amount of grain that we get from the old oat. We would state also that these oats are valuable to the farmer on this Coast for hay, as we have nothing that will equal it in quantity or quality.

From R. H. HYDE. *President of the Orange County, Vermont, Agricultural Society.*

[No man in the country has taken a greater interest in progressive farming, or is better known for his sterling integrity, than Mr. Hyde.] He says:

"I take great pleasure in adding my testimony to that of hundreds of others in this and other States, as to the advantages to be gained by substituting your Norway Oats for the old kinds. Their ability to produce more than twice as many bushels to the acre, and their hardiness and thrifty growth, rendering them less liable to be destroyed by storm or disease, are points which no intelligent farmer can overlook. The question to be decided by farmers is not whether they can afford to buy the seed, but rather, can they afford to continue to plow and cultivate their land for 30 or 40 bushels to the acre, weighing 30 lbs. or less to the bushel, when they can just as well raise 100 bushels weighing 40 to 45 lbs. per bushel on the same ground with the same labor.

"I can recommend them to the farmers as being all that you claim for them, and am glad to know that you will be able to supply them to a larger extent the coming season than heretofore."

From HON. GEO. W. THORN, *Rahway, N. J.*

The result of my experiments this season [1868] with the Norway Oats have been fully up to my expectations, and I am satisfied that they are well adapted to our soil, and that every farmer who possibly can, should get the seed. The substitution of the Norway Oats for the common and deteriorated kinds now generally raised, is a matter of rast importance to our farming interests; to increase the annual yield, even a small per cent., would be regarded as a great success, but to double the crops at once, as I believe we may do by using this seed, is an advantage which should be immediately understood by the farming community to raise a field of oats the stalks of which stand six feet high, with well-filled heads over twelve inches long, and yielding 100 bushels to the acre, is an accomplishment of which any farmer would feel proud, and I believe we can do this with the Norway Oats.

From HON. ORANGE COMSTOCK, *West Fairlee, Vt., Aug.* 17, 1868.

I have this day examined some Norway Oats grown by P. R. Robinson of this place. I have lived to see 77 years, and can truly say I never saw such a splendid specimen of oats before. The heads are from 12 to 18 inches long, the meat very large and flourry. Mr. Ramsdell has m best wishes for his success in an enterprise of great value to our farmers.

From GEN. STEPHEN THOMAS, *Lieut-Gov. of Vermont. Aug.* 18, 1868.

I have seen the Norway Oats, raised by D. W. Ramsdell, growing in fields in this section, for the past three years, and I consider them far superior to any other oats in the country, for their great yield per acre and excellent quality. The straw grows very strong and they are not liable to lodge as the other kinds.

TESTIMONIAL.

We, the undersigned, having grown the Norway Oats, furnished by Mr. D. W. Ramsdell, of Chelsea, and being fully satisfied of their great superiority over all other oats, both in quality and quantity of yield, most earnestly recommend their adoption by farmers everywhere, as a matter of personal profit to the farmer, as a national benefit.

Rr. Ramsdell's untiring energy and perseverance, resulting in so important and valuable an improvement to the agricultural interests of the whole country, entitles him to our most hearty thanks.

We can assure our brother farmers everywhere, that Mr. Ramsdell's enterprise is worthy of their encouragement and support.

IMPORTANT
TO THE
INSURING PUBLIC!!
ALARMING MORTALITY.

Within the past three years, six of the local Insurance Companies of San Francisco, representing a capital of over $2,000,000, suspended—the first four during the low rate war of 1867 and 1868—the last two during the past few weeks.

Six out of Twelve

in less than three years is an alarming record of mortality, and should suggest to the insuring public the propriety of avoiding experimental, inexperienced, and low rate Companies, and patronizing the old established, conservative, wealthy, and prudently managed corporations of the solid and permanent order.

THE
Phœnix Insurance Company,
HARTFORD, CONN.,
justly takes rank as the
LEADING AMERICAN
Fire Insurance Company.

Their contracts are endorsed by cash assets exceeding
$1,700,000.

Their business is managed by underwriters who have no superiors and but few equals in the Union. Their risks are small, carefully selected, and scattered throughout the entire United States, thus avoiding heavy loss in the most serious conflagration. Their rates are not of the guess or gambling order, but are based on actual experience, and are as low as good insurance can be furnished at. Their losses are honorably and promptly adjusted, and paid in gold coin, without delay or discount. Their agents, located at all points of importance, have authority to issue policies direct, thus avoiding the danger and delay incident to the sub-agency system; and, in each and every particular, both as regards solvency, permanency, prudent management, honorable conduct, equitable rates, and conservative practices,

The Phœnix, of Hartford,

furnishes facilities to the insuring public unequalled by any other Company doing business on this coast.
