MARRIED.-We are pleased to an nounce the marriage of two of our personal friends-Mr. C. W. Fitch and Miss Nannie Linn-at the residence of Mr. David Linn, the bride's brother, in this place, on the morning of the 2d inst. After the congratulation of kindred and friends the "twain newly made one" started on their journey to the residence of the bridegroom in Eugene City, accompanied by a number of friends for the first portion of the way. We heartily congratulate them both on the happy termination of their courtship, and hope the pathway of their married existence may ever lead on as evenly and pleasantly as at its Telegraph Operator, we learn that the beginning. They will reside in Eugene City, but Mrs. Fitch's numerous friends here have, we believe, exacted a pledge of Mr. Fitch that he will bring her back to see them often. A liberal donation of the wedding cake and wine, in behalt of the printers of this office, we hereby acknowledge, with their best wishes for the future happiness of both bride and groom.

SMALL-Pox RUMORS.—For several days past, there have been rumors of small-pox in this place. They are totally without any foundation, and have, as nearly as we can trace the matter, grown out of the fact that one of the children of the proprietor of this paper has had at the most, a very slight attack of chicken-pex. It is not yet determined whether it amounts to even this. There have been occasional cases of chicken-pox here for the past two months, as we are informed, but it has created no alarm, until the rumors of small-pox at Salem, and the death of Hon. Jackson Rader, with this loathome disease, reached here by telegraph. It is not yetsettled, that there Louis Petzold .. is in reality any small-pox in Salem even, and we publish, in another col-umn, our latest information on the sub ject from official sources. We hope that hereafter, such rumors will not be spread abroad, to alarm the people of this community. It is well to be cantious, where there is danger from so contagious a disease as small-pox, but there is no sense or reason, in spreading such reports as have been going the rounds here, for the past week. And besides, it is positively annoying, to the families in which such a disease is alleged to exist.

FROM UMPQUA .- Per kindness of the wife of James Hutchinson, near Oak land, is reported sick with small-pox. Mr. Hutchinson was a member of the Legislature, during the session just closed, from Douglas county. Through the same source, we learn that Mr. Caldwell, living at the old Hardy Elliff place, between here and Canyonville, who was also a member of the Legislature from Douglas county, and who returned after the close of the late session, and his family, are reported sick with the small pox. Rumor also has it, that several other families in the vicinity of Canyonville have it. We give this information, just as we received it, for the benefit of our readers. It may be rumor merely, caused by the rumors of small-pox in Salem, coupled with the fact, that these parties have been there and only recently returned, and our judgment leads us to believe this to be the case. Everybody knows that such rumors spring oft-times from nothing, and while we could not advise any one to wholly disregard them, we would urge every body not to get frightened, until more substantial evidence arrives. A heavy rain storm was passing over Douglas county yesterday from the north, and the prespects for a rain out here are

RETURNED .- Messrs. Turner and Howard returned from their surveying expedition, on the upper waters of Rogue River last Tuesday. Personally, they enjoyed the best of health during their labors, and look as hearty and rugged as men born and raised in the mountains. They had been absent sion of Oregon street to the corporation line south and to vacate Apple greater portions of townships 32 and 33 South, Range 2 East. They report some 25 or 80 sections of these two townships, as excellent grass land, and suitable in every way for stock raising. There are already some 10 or 11 setlers on these townships, their occupation and obtained as much as a table spoonful of salt chrystals from it. We are glad to see our old friends back again, and glad to hear such favorable reports. from a distant and isolated section of the county. This section of the county is about 50 miles east of this place. Next week they will resume work near
