### Midsummer Maladies.

The hot solar rays that ripen the harvests generate many distressing diseases. It the liver be at all predisposed to irregularities, this is the season in which billious attacks may be anticipated. A weak stomach, too, is weakest in the summer months, and the loss of vitality through the pores by excessive perspiration is so great, that a wholesome tonic, combining also the properties of a diffusive stimulant and gentle exhilerant, is in many cases necessary to health, and under no circumstances should be dispensed by the sickly and debilitated. Of all the preparations intended thus to retresh, custain, and fortify the human frame, there is none that will compare with Hostetter,s Celebrated Stomach Bitters. They have been weighed in the balance experience and not found wanting; have been recomended from the first as a great medicinal specific, not as a beverage, and in spite of intersical torative is the sheet-anchor of opposition from imnumerrble quarters, stand, after a twenty years trial, at the head of all proprietary medicines intended for the prevention and cure of all ordinary complaints of the stom ach, the liver, and the nerves. In the the unhealthy districts bordering the great rivers of Califonia, Hostetter's Stomach Bitters may be classed as the standard one for every species of intermitentor remittent fever. The people who inhabit those distrits place the most impplicit confidence in the preparation -a couffdence that is increased every year by the results of its operations.

As bitters, so called, of the most pernicious character, are springing up like fungi on every side, the public is hereby forewarned against the dramshop trauds. Ask for Hostetter's Bitters, see that the label, etc., are corticle is never sold in bulk, but in botties only.

# PLANTATION BITTERS S. T.-1860-X.

This wonderful vegetable resthe feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedv for the nervous weaknes to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

# Ayer's Hair Vigor

For restoring to Gray Hair its nat-

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores fuded or gray hair to its original coior, with the

gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cored by its use. Nothing can restore the hair where the follicles are destrayed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Inat ad of fouling the hair with a pasty sediment it will keep it clean and vigorous in occasional use will prevent the han from turning gray or folling off, and consequently prevent b ldness. The restoration of vitality it gives to the scalp arrests and prevents the fermation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some prepations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found to desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long m the bair giving it a rich, glossy mstre, and a grateful perfame.
