WRITING SCHOOL .- Mr. W. T. Leeke is in town with the intention of starting a Writing School, if he meets with sufficient encouragement. He has successfully taught in California and elsewhere a number of terms, and brings his recommendations with him in the shape of neat plain specimens of writing and elaborate drafts of ornamental work, together with contrasted efforts of pupils taught by him, showing the progress made by each scholar in one term of twelve nights. His charge for a term of twelve lessons will be reasonable, and his school will begin as soon as a sufficient number of pupils can be secured to justify it.

ARRESTED .- On Saturday last Depnty Sheriff Stanley arrested one John unimpeachable integrity, who hold offices that afford a pay of \$250 to \$2, Mores, on a charge of "assault; being armed with a deadly weapon." He was examined before Justice Wade and bound over in the sum of \$200, but was unable to give bail until Monday, when he was released. As there was was unable to give bail until Monday, tended by men notorious as traitors, swindlers, and jobbers. Look made his exit from the rear of the jail of idlers there, who, it they had their yard by scaling a high board fence, and is doubtless, ere this, "where the woodbine twineth."

ANGORA GOATS .- Mr. Butterfield, of Angera Goars.—Mr. Butterfield, of people, there would be fear and tremb-Hollister, California, passed through ling in the land." town a few days since, going North, with 700 graded Angora goats, which he intends disposing a portion of to the farmers of Oregon. He will exhibit them at the State Fair. They are the reverse in any State election that has finest goats ever brought into the State, and were purchased in Monterey county, California, especially for the northern market. "Slug 6" on the Oregonian can now gratify his ambition.

RAIN. Southern Oregon has again been favored with a copious fall of rain, beginning Monday night last and continuing, with short intermissions, until Wednesday morning. The fires in the mountains seem to have been thoroughly extinguished by it, while veg- him to any War Democrat," etation on the mountain sides and foot hills has renewed its growth and deepened its hue. The Valley almost appears in a garb of Spring and the air is fresh and invigorating.

COAL DISCOVERY .- By Mr. Zimbrousky we are informed that a vein of genuine stone coal was the other day discovered on the farm of Mr. Caldwell, about nine miles north of town. The bedrock had been cut through in digging a well, when a vein of coal was feet in thickness. Quantities tested the same day it was harvested. prove it of good quality, and it is the

AND YET ANOTHER.-On Tuesday last George Watson was arrested by Deputy Sheriff Stanley, charged with having stolen a set of harness from O. C. Logan, of this Valley. If reports are true, George wanted the harness badly, as he first tried to buy them, but could not, and then let his imagination run away with his judgment. Josh Billings says he has known men to look over a pasture fence at horses playing for so long a time that in their imagination they owned them, and on some dark night imagination rode the stock away. But George's imagination took a more practical turn and fastened on something to make horses useful. His bonds were fixed at \$300, but they might as well have been \$3,000, as his impecuniosity and the selfishness of acquaintances compels him to board and lodge at the Hotel d'Jale.

PERSONAL .- B. F. Dowell, Esq., arrived home on yesterday's stage, from Portland, where he has been attending to legal business for the past two or three months .- Maj. Glenn returned from the Klamath Lake country, on Jackson County Fair, as determined Tuesday, and Mr. Wm. Ish, from Fort Klamath, reached here on Wednesday. District Attorney Neill started for Saattendance at such exhibitions than lem, on Saturday last, to attend the Supreme Court.

> BIETHDAY PARTY .- Miss Lula Horne gave a birthday party at Horne's Hall, on Wednesday evening of this week. She was the happy recipient of compliments and good wishes from her numerous friends, many of whom bestowed upon her valuable presents. She will please accept our thanks for

THE TELEGRAPH.—The late stormy weather seems to have been unusually severe on the telegraph line, it having been interrupted twice during the past week between Jacksonville and the first stations both North and South.

A CHANGE .- Mr. T. T. McKenzie gives notice among the new advertisements of some things it may pay some parties to read and give their heed.

Agents Wanted-Male and Female .-Business pleasant, and pays better than any enterprise in the field. Agents make from \$4 to 88 a day. Send stamp for sample and particulars, Address J. Latham & Co., 292 Washington St., Boston, Mass.
