BLANKS! BLANKS! BLANKS! Every description of Legal and Commercial Blank for sale at this office. Blanks not kept on hand will be printed to order on short no-tice, in as good style as in any office on the coast. Send in your orders. THE OREGON LEGISLATURE.

The following is a condensed report of the published proceedings of the Legislature, up to Saturday evening :

SENATE, Thursday .- Mr. Dolph gave notice of a bill to prevent State and municipal officers from drawing deadly weapons upon each other; also intro-duced a bill to amend the law requiring the recording of town alleys, and to provide for vacating streets and al-

The following bills passed a second reading: To protect homestead property from forced sale in certain cases providing for defraying the expenses of the Commissioner to the Centennial Exposition; appropriating the proceeds of the sale of swamp and tide lands in Coos county for the purpose or county improvements.

H. B. No. 1, to repeal an Act to protect litigants, reported back with sundry amendments, came up for consideration. The amendments were adopted and the bill passed to its third reading.

The Senate Resolution providing for certain changes in our State Constitution was adopted. The first article provides that the salary of the Governor shall be \$2,500, Secretary and Treasurer each \$2,000, Judge of the Supreme and Circuit Courts each \$3,000, and allows these officers no extra fees or perquisites; article second provides that the Legislative A-sembly may provide for the election of Supreme and Circuit Judges in distinct classes -the Supreme Judges, when elected in a distinct class, shall consist of three Judges; article third, all public build-ings and State institutions shall be at the Seat of Government, unless otherwise ordered by law; article four provides by law for the letting of public printing to the lowest responsible bidder; article five, the members of the Legislative Assembly in attendance at special sessions of the Legislature shall receive \$5 per day, and \$3 for every ten miles traveled; the presiding offi-cers shall receive \$7 per day for their services during a general or special session; no general session of the Legislature shall exceed mnety days, and no

special session shall exceed 30 days. House.-The following bills were introduced and read first time: To regulate the salaries of County Judges and County Treasurers; three bills to suppress gambling; a bill to amend the general law organizing the militia; a Tuesday, at 2 o'clock. bill to regulate charges on passengers and freight transported by steamboats and railroads operating in the State; a bill to authorize County Courts to cre-

ate a fund for county purposes.

The hill to alter the date of meeting of the Legislature to the first Monday in December was passed-39 to 6.

SENATE, Friday .- Mr. Moores introduced a bill authorizing the appointment of Mary P. Sawtelle as a Commissioner of Immigration, with a salary of \$400 for the first six months, and on proofs being given that fifty persons had moved to Oregon from the Eastern States through her efforts, \$600 more is to be paid her' by the State. The

bill passed its first reading. The report of the Committee on S. B. No. 4, for the incorporation of religious and charitable societies and churches, with the House amendments,

was concurred in. The Senate took up H. J. R. No. 3, relating to the proposed amendments to Constitution of the United States. This resolution called forth animated discussion on the Democratic side of the house. On the vote to concur the result was a tie.

House.-A motion of Mr. Langell to reconsider the vote on S. B. No. 46. altering the time of the meeting of the Legislature, was tabled.

A message from the Governor was received, announcing that he had signed the bill providing for the construction ot a State Capitol. The mechanic's lien bill was read a

third time as amended, and passed. Mr. Simpson reported back the bill to encourage immigration. The report stated that although the treasury was nearly exhausted, yet the need of emigration was so great that the committee could not but recommend the passage of the Act.

Mr. Langell said the bill proposed to appropriate \$20,000, and he could not vote for money to be taken directly from the pockets of the people for any such purpose. He moved as an amend ment that an appropriation be made from the swamp and other overflowed lands. On motion it was agreed to take up the bill in committee of the

whole House. Mr. Langell reported back the bill that Justices doing Circuit Court duty sports papers, churches, sports, etc.

shall receive \$1,500 per annum for ex-penses. The Committee recommended \$500 as an amendment.

Mr. LaDow presented a minority report in favor of the passage of the bil! without amendment.

Mr. Simpson moved to amend by making the sum \$1,000, which was agreed to, and the bill passed to third reading. SENATE, Saturday .- Mr. Hoult read a lengthy report of the Committee on Insane Affairs. It estimated the cost of an Asylum, without fixtures, at the

round sum of \$200,000. A resolution was adopted authorizing the Governor to appoint three Commissioners to act as Delegates to the World's Exposition at Vienna in 1873, said Commissioners to bear their

own expenses. Mr. Strahan introduced a bill authorizing the School Commissioners to re-cord unrecorded deeds of school land, which was read first, second and third times and passed the Senate.

Mr. Tolen introduced a bill to amend an Act organizing Josephine county, which was referred to the delegation from Jackson and Josephine countres.

The amendments to the bill reapportioning the members of the Legislature grants Multnomah 3 Senators; Benton and Polk counties, jointly, 1; Jackson county 3 Representatives; Benton 3;

Clatsop 1. House.-Thornbury reported from the Committee appointed on Simpson's bill to authorize the State to acquire possession of the canal and locks at Wallamette Falls, by lease, and to pur chase the same. The report recommended the passage of the bill with certain amendments. The first was to alter the duratian of the lease from ten to twelve years. The eighth provides for the purchase of the works at the expiration of the lease. The following amendment was proposed: "At the expiration of said lease the State of Oregon shall own said canal and locks without any further payment than the rent for the period of twelve years, hereinbefore provided for, free from all incumbrance." The following was of fered as an additional section: "Upon the execution of the lease hereinbefore provided for, the said Company shall enter into good and sufficient bonds for the faithful performance upon their part of all the terms and conditions of said lease." After some debate the bill was made the special order for

Mr. Gingles reported back the bill extending the right of suffrage to the women in certain cases, and recommended a substitute containing the following section: The Judges of Elections for the several precincts are hereby authorized to receive the votes of all citizens, without reference to sex, powered to sign all petitions and remonstrances touching the same matter, with the same force and effect as other

voters. The question being "Shall the bill pass?" Mr. Andrews said it was tantamount to an insult to the ladies of the State to say that they should vote up on the mere matter of selling whiskey, and not upon other matters. The bill

was lost by a vote of 21 to 22.

The consideration of the bill to provide a Sinking Fund in the various counties of the State was resumed. It authorizes County Courts to levy a tax not exceeding five mills on the dollar, whenever they consider it needful, and the County Treasurer is authorized to loan it out with sufficient security. No

definite result was reached. Mr. Simpson introduced a bill providing for a railroad between Corvallis and Yaquina Bay. The rules were suspended, the bill read a first and sec ond time by title, and referred to the Committee on Ways and Means. One hundred copies were ordered printed.
Mr. Hirsch introduced a bill provid

ing for the teaching of the German language in public schools. Read the first and second times by title, and or-dered engrossed for the third reading on Monday. A resolution was offered, urging up on the members of Congress to do all

in their power to procure the establish-

ment of a mail route between Jackson

ville and Butte Creek. Adopted. CHICAGO VIGILANTES - A Chicago paper describes an organization in that city which it calls the "Standing Committee of Citizens." A set of men out here united together in the same manner and for the same objects, would be called Vigilantes. The object of the organization is stated to be that persons guilty of high crimes against society shall be suitably punished, notwithstanding any acquittal they may secure through the cumbrons and technical machinery of the law.

to compensate Justices of the Supreme Baker City is now said to be the and Circuit Courts. The bill provides liveliest town in Eastern Oregon. It

A WOMAN'S COUNSEL TO WOMEN.

"Shirley Dare" gives some weful hints to women in these paragraphs:

Does a woman deserve respect who calls the work of her sex drudgery? There are women who always speak it by that name, but they are usually interior and under bred, women who write about "mussea" and "messea" for print, prigs or guys of the teminine gender, thresome in Society, egotistic at home. These are the class who complain of cramped faculties and heavy burdens, whose time and ability are too precious to waste in seeing that the soup is piquant or the shirts well aired. They bring out "last articles" in manuscript, to amuse particular friends, and converse in a topical way,

unconscious what a stuffy odor per-vades their rooms, or how schockingly matched all the colors of their furniture may be.

I do not speak of the women who neglect their houses either for study or society, but of those half sensible women who perform commonplace duties in a grudging, disdainful way, all the time feeling that they waste, to use their formula, "abilities which might be so much better employed." They dust rooms and mend clothes and bake cake, and call this housewifery, and say the noblest calling of woman means no such trivolous pretense, but work gen-nine and comprehending, washing of dishes and kettles, scouring of tinware. and blacking stoves, paring of potatoes and putting on of coal, in short, the whole horrid round indispensable to bright houses and good fare. Many women may not be called on to do these things, but every woman, princess or peasant, ought to know how they should be done, and have dexterity and practice enough to do them. This is woman's province, which all gentlewe-men should learn, just as men of rank learn the science of war, till they know how much sand goes to a charge of powder, and how much labor goes to squaring earthworks. Many people are saying this over in different ways-George Eliot and George Sand indirectly, in their heroes and heromes. who are never by any possibility straid of the meanest labor; Mrs. Craik, or Frederika Bremer, and Mrs. Stewe more explicitly.

AN AFRIDAN BUG .- One of the most extraordinary facts revealed to us by Dr. Livingstone's explorations in Africa is that the high table land of the interior, with its rich agricultural resources, its noble flora, its fine temperature, broad inland seas, and inexhaustible mineral wealth, is rendered all but impenetrable to civilized man, certainly beyond all reach of colonization, by one of the most apparently insignifi-cant of causes, a fly. This terrible in-Mr. Riley presented a joint memorial to Congress for a land grant in aid of the construction of a military wagon road from the terminus of the military road from Roseburg and Coos Bay to the Cali ornia line, near Crescent City, by the most presented a joint memorial and customs submitted by authority of law, to a votefof the people touching the licensing or selling of intoxicating liquors; and all women otherwise qual field by law as voters are hereby embedding the licensing or selling of intoxicating liquors; and all women otherwise qual field by law as voters are hereby embedding the licensing or selling of intoxicating liquors; and all women otherwise qual field by law as voters are hereby embedding the licensing or selling of intoxicating liquors; and all women otherwise qual field by law as voters are hereby embedding the licensing or selling of intoxicating liquors; and all women otherwise qual field by law as voters are hereby embedding the licensing or selling of intoxicating liquors; and all women otherwise qual field by law as voters are hereby embedding the licensing or selling of intoxicating liquors; and all women otherwise qual field by law as voters are hereby embedding. deadly is its poison that it is said three or four flies will kill the largest on. Soon after the bite, which gives little or no pain, staggering and blindness come on; the body swells to an enormous size; the coat turns rough; and in a tew hours convulsions and death tollow. And yet this deadly poison under the effect of which the horse and ox, the sheep and the dog tall as if they were plague stricken, is perfectly harm-less to man, to wild suimals, to the piz, mule, ass and goat. Here is an achievement of science that would bring glory to the discoverer-the discovery of some antidote for the sting of this venomous fly, which would open the treasures of Central Africa to the use of the world.

> Woman's Mission .- When Columbus braved the perils of unknown seas to add America to the world, is was the white hand of a woman that fitted him for his venturesome voyage. So woman equips man every day for the voyage of life. Woman, as man's helper, rises to her "peculiar and best altitude." He represents the intellect. she the mind governing heart. Power appertains to him; but influence, more subtle and penetrating than poweranother name for power in its most delicate and all pervading form-belongs to her.

> THE GRAVE.-It buries every er covers every defect - extinge every resentment. From its pendeful bosom spring none but tender regrets and fond recollections. Who can look down upon the grave of an enemy and not feel a compunctious throb that he should have warred with the poor handtul of dust that lies mouldering before him? - Irving. | Bas . opanibal

If the whole world should agree to speak nothing but the truth, what as abridgement it would make of speech. What an absurd thing it is to

over all the valuable parts of a Not in the knowledge of things with-out, but in the perfection of the soul within, lies the true empire of man.
