#### TRLEGRAPHIC SUMMARY.

Ocr. 30 .- The mail steamer Missouri. running between New York and Ha-vana, was burned at sea, October 29th. Only 12 out of over 15 persons who were on board were saved. Col. Albert S. Evans, Agent of the Associated Press on this coast, and a resident of San Francisco, who was returning from a trip East, where he had been to superintend the publication of a book, of which he was the author, is among the

The President has signed the proc-lamation declaring that all provisions of Acts imposing discriminating ton-nage and import duties in the United States are revoked, and shall henceforth remain in full force as relates to goods and merchandise imported into the United States in French vessels from countries other than France, so long as discriminating duties shall continue to be imposed by France upon goods and merchandise imported to France in ves-sels of the United States.

The Israelites of Europe are negoti-ating with our Government for the purchase of 25,060 acres of land, whereon to found a colony of Roumanian Jews, numbering 8,000 families, or 40,000 persons. The Company has a paid-up capital of \$1,500,000.

At Hendersonville, N. Y., Oct. 25th, everal thousand persons assembled to witness the execution of Martin Bayland. When the hour of execution arrived it was discovered that the prisoner had made his escape.

It is currently reported in Washington that Delano will succeed Boutwell as Secretary of the Treasury if Grant

should be re-elected. The Marquis of Ripon, who presided over the Joint High Commission which framed the Alabama Treaty at Washington, lately delivered an address upon the results of the arbitration at Ge neva. He expressed himself thankful that all points involved in the Treaty of Washington were peacefully and amicably settled, and regarded this as a great step toward the preservation of peace in the world. Though, said he, the controversy between the two nations had been sometimes keen and eager, the feelings of the people, and the respective Governments, never be-

came embittered. Wheat shipped and loading so far this year from San Francisco amounts to 4,016,000. Vessels on the way hither will carry 4,200,000 centals more. Total, 8,216,000 centals, equal to 12,-266,666 bushels.

Mrs. Greeley, wife of Horace Gree-ley, died in New York City, Oct. 30th. Her funeral took place Nov. 1st and was largely attended. No ostentation was permitted.

Nov. 1 .- Hon. John A. Griswold of New York, died in Troy, N. Y., at 8:30 A. M., October 31st.

The national debt was reduced \$5,-000,000 last month.

ors a few days ago. A policeman in San Francisco was discharged for the novel offence of cursing Republicans. Served him right, or any other man.

An apostate and back-sliding Mormon organization has been formed at Salt Lake called the Utah Liberating League, which is taking strong hold on the people and spreading rapidly. It is a permanent instrument in destroy-ing the power of the priesthood and

the Mormon Church. Sometime since it was reported that the German Government had issued orders forbidding emigration from that country. The report is now officially denied by that Government.

Nov. 2 .- Mrs. Victoria Woodhull has been arrested in New York City on the charge of libel, and lies in jail in default of \$8,000 bail. Warrants are also out against her and her sister, Tennie C. Claffin, charging them with

having circulated obscene publications.

The horse disease is rapidly abating in all the Atlantic cities. It is reported to have appeared in California. A London letter says that Gladstone opposes the issuing of the Alabama money by way of a loan, as it would increase the debt. It is most probable

the fifteen millions, so as to extend the payment for a considerable period. A FORMIDABLE WEAPON .- Capt. I. V. Meiggs has given practical evidence of the power of a weapon invented by him, in the presence of prominent army and navy officials at Washington, that

#### SCRAPATORIALS.

At the end of the current year, 1872, it is calculated Switzerland will have rid itself of all debt.

A man that keeps riches, and enjoys them not, is like an ass that earries gold and eats thistles.

At Orville, Iowa, a stone has been dug up from a depth of twenty feet, inscribed with "302 A. D. P. M."

Dr. Kapp, of Virginia City, has mar-ried one of his patients. That is one of the best defined instances on record of Kapp-ill-ary attraction. Jesse Hamlet of Lexington, Mo.,

caught a catfish weighing 146 pounds, in the Big Muddy. A 12-pound 6sh first swallowed the bait, and then the catfish swallowed it.

"Say, Jones, what's the matter with your eye?" "Oh, nothin', only my wile said this morning I'd better get up and make a fire; I told her to make it herself-that's all."

The Congressional elections this year so far have given the Republicans 54 members where they have 41 in the present Congress, and the Democrats fall off from 27 to 21 in the same States. The Worcester Spy thinks it not unreasonable to expect that the time will come when a man can travel from Bos-

from Boston to San Francisco in less than two days. The following shows the space in square yards occupied by former exhibitions, and to be used at Vienna: London (Hyde Park), 1851, 94,000; Paris, 1855, 223,214; London, 1862, 222,316; Paris, 1867, 527,745; Vienna, 1873, 2,783,909.

The engineer and fireman of a Tennessee train, at full speed, lately had a fight which resulted adversely to the engineer. The fireman then suddenly reversed the engine with such a shock that several cars were smashed and the

train delayed several hours. In Germany, children go to school at seven o'clock in the morning, and do not leave until four in the afternoon. Half an hour at noon is regarded by the schoolmaster as ample time for eating a bit of black bread and drink-

ing a cup of Adam's celebrated ale. The Sacramento Union says the Sons of Temperance are making vigorous exertions in behalf of the temperance cause in California, and that it is evident that the temperance movement is taking a deeper hold upon the com-munity than it has ever done before.

A man named McLaughlin was found guilty of murder in the first degree in Sacramento last week, yet he was per-mitted to leave the Court room unmolested and unaccompanied by an officer. He visited saloons about town for two

hours, and since then has disappeared. A boy of fifteen years was recently thrust into the Tombs of New York The police in San Francisco made for drunkenness. He said he was born 1,135 arrests last month. Moral town. drunk. An investigation revealed The feat of swimming the Hellespont | the fact that he had not been drinking,

the drunkard his father had long been. There is only one real Chinese woman in the United States, and she is the wie of a San Francisco merchant. The olive-eyed females so common among the Mongolians of the Pacific slope are all of Tartar extraction, and are brought over solely for purposes of prostitution.

A lady with a very inharmonins voice insisted upon singing at a recent party. "What does she call that?" inquired a guest. "The tempest, I think," answered another. "Don't be alarmed," said a sea captain present, it's no tempest. It's merely a squall, and will soon be over !"

One of the largest chains ever manufactured in this country is to be made inary surgeons, all horse men, all lead-at the Massachusetts State Prison. It ing blacksmiths, agree that the frogs three hundred links, each of which will and pliable the frog is, cut it away weigh about fifty pounds. It is for use on a marine railway, at East Bos-will be dry and hard as a chip. You

The greatest blow yet given to the hot liquid theory of the interior of the earth, was that demonstrated by the artesian well at St. Louis, which developed a temperature at the depth of 4,800 feet which was too cold to be that bonds will be issued for a part of determined by any instrument of science at the time in use for such a pur-

ry to put in force in the seventeenth try the redhot poker on your finger-century in England were to be resumed nail, and see how it will affect the to-day it would cause an immense may result in throwing aside all of our present small shooting instruments. It is a fifty-shot magazine musket. It was fired at short range, from the shoulder, and the magazine was emptied in about twenty seconds, every shot striking in a space no larger than a man. The military and payal men say that it is the most formidable weapon they have ever seen.

A lawsuit has just been finished in London which has been on the docket for 147 years.

downtall to chignons. It was as follows: All women, of whatever age, rank, profession, or degree, whether virgins, wives or widows, that shall, from and after this date, impose upon, seduce, and betray into matrimony any of His Majesty's male subjects by scents, paints, cosmetics, washes, artificial teeth, false hair, Spanish wool, iron stays, hoops, high heeled shoes, or bolstered hips, shall incur the penalties of the laws in force against witch-craft and the like, and the marriage, upon conviction, shall stand null and void.

We Hampshire. downfall to chignons. It was as fol-

#### A MISCHIEVOUS LITTLE WIFE.

resolder has been

The best joke of the season was played upon several parties living directly opposite New Trinity Church, a few days ago, which we think too good to let the public remain in ignorance of. Names we shall not mention, but in the house we have reference to but in the house we have reference to live two married couples, but there are no babies in the house to disturb their peaceful dreams, or with their childish prattle awake them from their morning slumbers. The lady we speak of, the wite of a young flwyer recently honored with an appointment and blessed with a little baby whose head its papa's hat just fits, thought she would play a trick on them, and succeeded most admirably in doing so. In making a dall at the above house a few days ago, with her little cherub fast days ago, with her little cherub fast asleep in her arms, she laid it upon the door-step, gave the door bell a vigor-ous pull, and then ran and hid beneath the porch to await coming events. One of the husbands came to the door, saw the baby on the step, but failed to see who had left it there. While he was thinking what was best to do his wife came to the door, whose screams soon brought wife and husband No. 2 to the door also, and then followed proceed-ings that we did not think our ladies hard hearted enough to do, even if they have no babies. They insisted that it ton to Chicago in twelve hours, and should not come into the house, and bursting into tears they felt thankful that there was such a thing as a foundling hospital near; the innocent little babe ignorant of what a sensation it had created. While the husbands were looking at each other with half suspicion, and their wives shedding enough tears to make an umbrella a useful institution, the mischievous little wife, who could stand it no longer, ran out of her hiding place and picked up the little boy, saying: "No, no, birdie; they shan't send you to the asylum," and walked into the room. It is easier to guess the balance than to tell it, and husbands and wives just considered themselves the victims of the best joke that a little wife could play upon them. Portland Bulletin.

> A NEW INSURANCE MOVEMENT. -The climax of novelty in the insurance business has been reached in Austria, where a company recently proposed to insure people from getting married. At least that was about the effect of the arrangement, which was, in other words, that the company would pay a a certain sum to the policy holder at any time he might marry. Upon little reflection it does not seem that there is anything absurd in this plan. A mancan make provisions by which be can be compensated for the destruction of his property by fire, or the loss of a limb by accident, and by which his family will be compensated for his re-moval by death. Why, then, should he not be able to provide against an-other very common call—contingency? But it would be interesting to know how the tariff rates were calculated though it is probable that the charge was adjusted, by some mysterious process, to the age, personal appearance, and susceptibility of the policy-holder. It would be gratifying to report the success of the Austrian experiment, but the facts will not permit it. There were numerous policies issued, and the business seemed to be in a thriving condition, when the officers of the com pany all got married at once and absorbed all the assets, leaving the outsiders to be preyed upon by handsome women, without any hope of pecuniary

SHORING HORSES.-It is almost impossible to get a horse shod without having the frogs cut away. All veterwill be made of iron two and a quarter should not be pared one particle, not inches in diameter, and there will be even trimmed. No matter how soft might as well cut off all leaves of trees and expect them to flourish as to pare away the frog and have a healthy foot. The rough spongy part of the trog is to the foot what leaves are to the trees the lungs. Never have a red hot shoe put on the hoof to burn it level. If you can find a blacksmith that is mechanic enough to level a foot without redhot iron employ him. The burn-ing process deadens the hoof and tends If a law which it was found necessa- to contract it. It you do not think so, growth of that. There are many other important points in shoeing horses,
