

BREAKWATER.

We heartily endorse the article in the Pantagraph of last week, recommending the building of a breakwater at Port Orford.

The productiveness of Oregon, together with her rapid increasing population, demand that our facilities for transporting freight and passengers be increased, and there is no transportation that can compare with that by water.

Let the Democratic papers unite with the Republicans in advocating the improvement of our harbors, and every other measure that will tend to reduce the freight on what we have to export and import, and they will soon have no cause to be whining about one-man power.

The following is the article from the Pantagraph, which we have referred to:

As time rolls on, the various improvements of the times which the skill of man has invented for the enhancement of comfort and the acceleration of business, are being brought to our young and distant State—not distant now, however, as it was in former years, when it took months to reach our eastern brethren.

There is at present another move on foot, which comes right home to us of Southern Oregon; one in which all are interested, as it opens up a new channel of trade and travel which will be of immense advantage.

This port being about midway between these two points, and at the same time offering a good bay for safety, by building a breakwater, the Government has made the necessary appropriations, and after Major Roberts makes his reports, the work will soon be commenced.

By constructing a good road, which can be done at moderate expense, say from Roseburg to Port Orford, it will be a short and pleasant trip from here to San Francisco.

UNEXPECTED SNOW STORM.—The Dalles Mountaineer of November 16th says:

On Sunday night the snow commenced falling and with but little cessation has continued up to the present time. As far as the eye can see is one vast sheet of snow from 10 to 15 inches deep, and we learned that in the Blue Mountains and Grand Ronde Valley it has fallen to the depth of from four to five feet.

JOHN HALEY has been elected Delegate to Congress from Idaho. He is a Democrat, and succeeds Col. S. A. Merritt, also a Democrat. His majority is reported at about 700.

NOT DO IT ANY MORE.

We were not aware that we were arousing our neighbor's ire when we quoted what we supposed to be a just tribute paid to one of our members of the Legislature from this county by the Bulletin. We never dreamt that this little quotation of praise would so enrage our cotemporary that he would pounce upon a private citizen and demolish him with his withering sarcasms, or we would have certainly choked it and contented ourselves by talking it very quietly to but few.

We might say something good of some of our other members, but we don't want any more men under our neighbor's pen to be slashed up, and we feel like swearing that if we can get out of this scrape ourselves, whole, we'll never quote any more encomiums.

We are aware that the crow is a shy bird, but did not before know that its lean bones would so quickly impart that disposition to those who picked them. Our cotemporary must have been very shy that he, rather than speak to a man who was his friend and neighbor, when he discovered what he supposed to be a peccadillo on the part of his neighbor, and which a word of explanation would have satisfactorily to both, would pop into his paper and scatter broadcast over the country, to his friend's great injury, what has turned out to be a false statement.

We state here that we have the letters of Secretary Chadwick and Mr. Smith in our possession, and invite the proprietors and editor of the Times, or any other person that may feel interested in the matter, to come and satisfy themselves as to the truthfulness of what we assert. As the statements which were from first to last made by Mr. Langell are corroborated by the letters of these gentlemen, living at a distance, no reasonable man will pretend to doubt the story of Mr. Langell or either of the other gentlemen, in relation to the matter.

We conclude by saying that our cotemporary did not show much regard for the feelings of his neighbor in this matter, but we believe it was a thoughtless blunder, and that he has the manliness to make due reparation, and will do it in time. As we are all liable to blunder, we must not be too severe in censuring each other.

On Sunday night the snow commenced falling and with but little cessation has continued up to the present time. As far as the eye can see is one vast sheet of snow from 10 to 15 inches deep, and we learned that in the Blue Mountains and Grand Ronde Valley it has fallen to the depth of from four to five feet.

JOHN HALEY has been elected Delegate to Congress from Idaho. He is a Democrat, and succeeds Col. S. A. Merritt, also a Democrat. His majority is reported at about 700.

THE HORSE DISEASE.

We clip the following from an exchange: It is said that the horse disease in the Eastern States is proving much more fatal in the rural districts than in the cities. This is attributed to the fact that horses in the country are not so well cared for as in the cities, but more especially to the fact that the treatment of the animal is not generally so intelligent. Persons who make the treatment of diseased horses a specialty are few and far between in the rural districts; and unfortunately farmers, when they see their horses attacked, think it necessary to do something, and frequently go to operating with supposed remedial agents that do more harm than good, and the horse dies from injurious doses when, if left without medicine and properly cared for in other respects, the poor brute might recover.

Thanksgiving Proclamation.

In accordance with a custom Grover has issued the following proclamation, fixing a day of thanksgiving. A copy printed in circular form was sent us in time for last issue, but was being placed upon the copy hook just at that time was overlooked. But as the day fixed by it is the same as that selected by President Grant, of which notice has been given, the slaughter of the traditional turkey will be as prompt and general among our people as usual, notwithstanding our neglect; and certainly the occasion for the observance of this custom by all the people of our nation was never more appropriate than in the present time.

Acknowledging the manifold favors which we have received, as a people during the year now drawing to a close, and thankful for plentiful harvests, general health and assured prosperity, I recommend to the people of this State the observance of Thursday, the 28th day of November, A. D. 1872, as a day of thanksgiving and praise to the Great Author of all blessings, and that on that day the people assemble in their usual places of worship and "render thanks for the great benefit we have received at His hands."

In witness whereof I have hereunto set my hand and caused the Great Seal of the State to be affixed. Done at the Executive Office, in the city of Salem, on this 7th day of November, A. D. 1872. By the Governor, L. F. GROVER. Attest: S. F. CHARPICK, Secretary of State.

By Overland Telegraph.

New York, Nov. 16.—A Washington special says the city is filling rapidly with politicians, who comment severely on the course of the President in relation to the Civil Service rules, as manifested in his remarks to the Pennsylvania delegation, in regard to the appointment of Postmaster of Philadelphia. They allege that the strict enforcement of the Civil Service rules will exclude many men from holding office who have just claims on the Republican party, and who can creditably fill the offices for which they apply; but nevertheless cannot pass a Civil Service examination.

A San Francisco dispatch of the 17th says posters were up all over the city, announcing that Laura D. Fair would lecture at Platt's Hall on the evening of Nov. 21st, on the subject: "Wolves in the Fold." A telegram of the 18th says a disturbance was feared if she undertook to lecture, but she declared she would lecture in spite of public indignation and disgust. She says all her money has been taken from her and no other course is left.

A Washington dispatch says the President is busy preparing his message but that his one can only be guessed at by his private utterances. Thanks, however, it will be very liberal in tone towards the South.

The railway companies having been charging reduced fare for emigrants in Germany, the Government has ordered the discontinuance of that practice. People were leaving too fast. They now have to pay full fare and freight charges from the interior to the coast.

A severe shock of earthquake was felt at Concord, N. H., on the 18th. It lasted several seconds and shook the town thoroughly.

Warrants have been issued for the arrest of the three Inspectors of Election who received the votes of Susan Anthony and friends at Rochester, N. Y. The examination of Miss Anthony is set for the 29th. She says it pleases her to have her case brought properly before the Courts.

The epizootic continues to annoy the cities East and West. Over one hundred have died in Cincinnati. The Mexican Government has sent a Commission to Matamoros to investigate the troubles on their frontier with Americans.

The attack on Congress and the President has already begun by politicians in regard to the Civil Service rules, and we shall probably now know who are really the friends of that movement. The President expresses a determination to enforce the rules on all proper occasions.

A WARNING HAS BEEN HEADED.

Since the exposure of the attempts made by certain unscrupulous local dealers to palm off their coarse astringents, made from cheap and impure materials, in the place of the great national tonic, Hostetter's Stomach Bitters, public opinion has set strongly against these empirics and their preparations. Their occupation is gone, or soon will be. When the light is let into deception it soon wills down. Persons who trifle with their own health by using unknown preparations, with no guarantee to sustain them, when an old established specific, proven by twenty years' experience to be exactly what it is claimed to be, is within their reach, are sure to repent their temerity. Very many have done so in this instance, but it is hoped that the truth plainly spoken has arrested the evil. In the meantime the demand for the leading protective and restorative medicine of America was never so great as it has been this season. From the forest and ague districts of the west, southwest and south, it is literally overwhelming, and it may be said of the advice from all parts of the country of the cures it is effecting in dyspepsia, bilious complaints and chronic constipation, that "their name is legion." Every where the sick and feeble seem to have realized the importance of "holding fast that which is good," and avoiding what is spurious and dangerous.

The numerous "Bitters," under a variety of names, which mercenary dealers endeavor to substitute for Hostetter's Stomach Bitters, should be avoided, for their own sakes, by the sick and the public at large. Hostetter's Bitters are procurable in bottles only, and never sold in bulk.

SAN JUAN ISLAND.—The island of San Juan, just awarded to the United States by the decision of the German Emperor, is fifteen miles in extreme width. It has an area of above 40,000 acres, and a population of about 400, of whom one-half are soldiers. The northern part of the island is well wooded. The southern part has a number of open prairies. The soil is rich and the climate not cold. It is an excellent farming country, and the best of all the islands between Vancouver and the mainland. There is an excellent codfishery on the San Juan shore from which the Hudson Bay Company in past years used to take thousands of fish.

HOLLOWAY'S OINTMENT.—Erysipelas and all inflammatory diseases yield to a diligent use of this powerful preparation. In the foot, the hand and the neck their approach should be at once checked—if suppuration ensues, danger is imminent, and the knife cannot be employed without jeopardizing life. This Ointment will remove the disorder without cutting, pain or peril. 25 cents per box or pot.

People are seriously discussing whether or not to give up the fashion of New Year's Day calling completely. So many unpleasant features have crept into it that we are inclined to think the old custom will hereafter be "more honored in the breach than in the observance."

ENGLAND AND CANADA.

Many of the leading papers of this country are discussing the extension of our territorial boundary towards Mexico. From the following dispatch of a late date it would appear that an extension in another direction, if necessary at all, would be much easier accomplished, and we think at present more expedient:

NEW YORK, Nov. 16.—A London letter of November 24 says: "The London Times is one of the most cautious and circumspect journals in existence, but it has printed a leader on Canada that has aroused universal British wrath. The obnoxious article was to the effect that the Canadians had been very badly used by the British Government during the whole course of the American negotiations; that their interests had been informally sacrificed; that, as there was no hope of their ever having justice done by a Ministry in London, they had better cut connection at once and set up on their own account. It assumes that the Canadians must of necessity be anxious to do. The Times urges them to get at once and not stand upon the order of their going, and bids them God speed. The article had provoked a storm of protest and repudiation. The correspondent adds: 'There are two things about as certain as anything which only a matter of opinion can be: First, that if the Dominion asked for independence in a deliberate, authentic manner, it would get it for asking; and second, that the Dominion will not be thrown off by England.'

MARRIED.

In Jacksonville Oregon, Nov. 20, 1872, at the residence of Mr. Newman Fisher, by Judge E. B. Watson, Jas. P. McDANIEL to Miss CATHERINE PARKER—all of Jacksonville.

Compliments of the happy pair received, and our thanks tendered, with the hope for their future happiness expressed in full.

DIED.

On Jackson Creek in Jackson county, Nov. 16, 1872, EUGENE PINKEL, a native of France and aged 53 years.

Prospectus for 1873—Sixth Year.

THE ALDINE.

An Illustrated Monthly Journal, universally admitted to be the handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores.

THE ALDINE, while issued with all the regularity, has one of the temporary or timely interest characteristic of ordinary publications. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the "real value" of the Aldine has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, the Aldine is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The economy of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes. For the first time, and then there are the chromes, besides!

Art Department.

Notwithstanding the increase in the price of subscription last fall, when The Aldine assumed its present noble proportions and representative character, the edition was more than doubled during the past year; proving that the American public appreciate, and will support, a sincere effort in the cause of ART. The publishers, anxious to have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even our most sanguine patrons. The publishers are authorized to announce designs from many of the most eminent artists of America.

In addition, The Aldine will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest, including such as have become familiar, through photographs, or copies of any kind.

The quarterly illustrated plates, for 1873, will reproduce four of John S. Davis' inimitable child sketches, appropriate to the four seasons; these plates appearing in the issues for January, April, July and October, will be alone worth the price of a year's subscription.

The popular feature of a copiously illustrated "Christmas" number will be continued. To possess such a valuable epitome of the art world, at a cost so trifling, will command the subscriptions of thousands in every section of the country; but, as the usefulness and attractions of The Aldine can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance doubly sure," by the following unparalleled offer of

Premium Chromos for 1873.

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive, without cost, a plate of beautiful old chromes, after J. J. Hill, the eminent English painter. The pictures entitled "The Village Belle," and "Crossing the Moor," are 14x20 inches—are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same Chromos are sold for \$30 per pair in the art stores. As to the determination of its contents, to keep THE ALDINE out of the reach of competition in every department, the chromes will be found on responsibly and of any last can be offered by other journals. Every subscriber will receive a certificate, of the highest grade, free to the subscribers to the Aldine, periodical, will mark an epoch in the history of Art, and, considering the determination of its contents, to keep THE ALDINE out of the reach of competition in every department, the chromes will be found on responsibly and of any last can be offered by other journals. Every subscriber will receive a certificate, of the highest grade, free to the subscribers to the Aldine, periodical, will mark an epoch in the history of Art, and, considering the determination of its contents, to keep THE ALDINE out of the reach of competition in every department, the chromes will be found on responsibly and of any last can be offered by other journals.
