

THE SENTINEL.

SATURDAY, --- NOV. 30, 1872.

SENTINEL AGENTS.

The following named persons are authorized to act as Agents for this paper in the places named:
L. P. FISHER, 20 and 21 New Merchants Exchange, SAN FRANCISCO.
M. M. PETTINGILL & CO., 27 Park Row, NEW YORK, and 10 State Street, BOSTON.
ALBERT HENRY, (deceased) to Hudson & Menet, 23 Park Row, NEW YORK.
GEO. P. ROWELL & CO., 41 Park Row, NEW YORK.

PAY UP.—Dr. Davis has a pointed notice in another column. We don't know just who he means, but call the attention of everybody to it.

TO BOOK AGENTS.—J. B. Ford & Co., of New York, desire the service of book agents in connection with a first-class business spoken of among this week's advertisements.

DENTISTRY.—Attention is called to the new advertisement of Dr. W. Jackson. He has a new means of drawing teeth without pain, which he desires toothachists to become acquainted with.

STANLEY-LIVINGSTONE.—Those enterprising publishers, A. L. Bancroft & Co., of San Francisco, have issued, in a large book, Stanley's account of how he discovered Livingstone, and they advertise for Agents to sell the same.

If you lose a watch, a dog or child, or if you desire people not to trust your absconding spouse, you rush to your local paper, knowing that every one will read the advertisement. But some of you will plod along in business year after year, without calculating how much you lose by not advertising.

BLACKSMITHING, &c.—Read the new advertisement of David Cronemiller & Co. They are fully prepared to do all kinds of work in the line of Blacksmithing, and also keep a variety of blacksmith's and wagon maker's goods for sale, for cash only, but will sell them so cheap that credit will be no consideration.

THE WEATHER.—On Saturday night last a "cold snap"—that is, for this region—made us a visit and remained till Tuesday morning. Still water in the open air was frozen to the depth of about an inch. From Tuesday morning to Thursday noon was clear and warm, when a warm rain set in, which continued at intervals up to the hour of our going to press last evening.

THAT PYRAMID.—Some of the croakers about town, who are more critical than wise, and are put to their wits' ends to find a little consolation in their late defeat, have been making remarks about our "pyramid," in last issue. Te-he! Didn't we fool 'em, though? We just put "pyramid" over it to catch 'em; it's a deceiver—the deceiver Grant drinks out of. He broke the handle off at Appomattox, reaching it to Lee, to take a drink of amnesty, and some "liberal" chap pitched it into the bloody chasm.

A GROUP.—Of little advertisements appear from firms in New York. Their liberality is very great, indeed, as they propose to teach one how to get \$10,000 without any capital to start on, which the same is w; another will warrant a cure of catarrh, consumption or rheumatism, and charge nothing for the particulars (of the cure charges we can't say); while Madame Lucille Demarre awakens the innermost echoes of a deep slumbering gratitude by the bare announcement of her discovery. We want some o' that, if it don't come too high. Our general circumstances have reached the extreme of her suggested conditions, and if she makes a success of our case, we'll divide with her the \$10,000 we are to get from Dutton & Co. as soon as we have sufficiently recovered to keep our nose clean.

REMOVED.—Many of our citizens will regret to learn that Dr. L. T. Davis and family have removed from this place to Santa Rosa, California. The Doctor was one of our most energetic citizens, and by close attention to his profession, succeeded in acquiring a very handsome property. During his residence here he was several times nominated by his party for important offices, and at one time held the position of School Superintendent, which office he filled with credit to himself. We take pleasure in recommending the Doctor to the citizens of his new home, as a man of untiring energy and unrelenting attention to business. We believe the citizens of Santa Rosa will find him to be a useful and agreeable citizen. We wish him success.

Don't Bar Off Anybody.

In our remarks concerning correspondence, last week, we did not intend to ignore the services or ability of our townspeople. On the contrary we will be glad to have them exchange views with one another, and us, on whatever topics are legitimately journalistic—from the merits of a quail potpie to the elegance of a Mansard roof or the velocity of light. The man who runs the other page can discourse upon the weightier themes and graver topics, and with the strong arm of logic drive home the wedge of reason; while we on this side can tread the smoother fields of thought, gathering only the flowers of fancy and weaving them in wreaths of rhetoric, to decorate the brow of fact or fancy. We can deal in gossip and fun, or discuss, in friendly way, the current topics of the hour. And the ladies, God bless them, ought to lend a hand for their own benefit, as they will soon be called upon to take a more active part in the general management of affairs, or take a back seat. They ought to be practicing the best methods of fighting the enemies they will have to contend with, and "the pen is mightier than the sword." They should first learn the use of the weapons they can best handle. We only claim the privilege of adding our own comments to subjects discussed, and the editor shall be in no way held responsible by anyone for what we of the 3d page may say or do. We have been promised several essays for publication in a short time, and have been notified that a secret literary society and debating club, called the "Omnivagants," has been organized, the exercises of which will consist of poetical and prose compositions, delivery of orations and essays and the debating of chosen topics, and when anything is produced which may be deemed worthy of publication we will be furnished a copy. There is fun ahead, we think; at all events, we shall see what we shall see.

THANKSGIVING DAY was properly observed among our citizens. Rev. N. H. Starr delivered an appropriate and instructive sermon at the M. E. Church, in the morning, and the sturdy gobbler and the fatted calf were freely distributed at many a festive board in the afternoon. We got our share.

The light created by the Boston fire was seen at sea, 90 miles from shore, and even at Portland, Maine, over 100 miles distant.

One firm in Boston removed \$1,000,000 worth of goods from their store on the first night of the fire.

As far as heard from, McFadden's majority in Washington Territory looks up 785.

Thirty thousand feet of fire hose was destroyed in the Boston fire.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from its cures, many of which are truly marvellous. In cases of Scrofulous disease, where the system is saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until cured in great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses. Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of cleansing or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcers on some part of the body. Hence the occasions on which a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, by the use of this Sarsaparilla, are enabled to shake off the disease, and are restored to the strength and vigor of the system. Those who are Languid and Listless, Depressed, Sleepless, and troubled with Nervous Affections, or Fevers, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
DR. J. C. AYER & CO., Lowell, Mass.
 Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS EVERYWHERE.

ASHLAND MARBLE WORKS.

MARBLE MANTELS, MONUMENTS
 Grave Stones, &c., always on hand, or made to order.
J. H. RUSSEL
 Ashland, July 9, 1870.—1y

It must have been with infinite amusement that Henry Ward Beecher, during a late vacation, heard one of his own published sermons delivered in an obscure village. At the close of the service he accosted the divine and said: "That was a fair discourse; how long did it take you to write it?" "Oh, I tossed it off one evening when I had leisure," was the reply. "Indeed," said Mr. Beecher; "it took me much longer than that to think out the very framework of the sermon." "Are you Henry Ward Beecher?" "I am," was the reply. "Well, then," said the unabashed preacher, "all that I have to say is, that I ain't ashamed to preach one of your sermons anywhere."

THE Vancouver W. T. paper is informed that the price of cattle in Umatilla has recently been materially cut down by the importation of Texas cattle. One man has 6,000 head in Umatilla county and another has a large drove on the way there.

BORN.

In Jacksonville, Nov. 19th, to the Wife of N. Langell, a Daughter.
 In Jacksonville, Nov. 22d, to the Wife of David Cronemiller, a Daughter.
 In Jacksonville, Nov. 23d, to the Wife of Joseph Wetterer, a Daughter.

MARRIED.

In Jacksonville, at the residence of Mr. H. F. Phillips, by Hon. P. P. Prim, on the 27th inst., Isaac Woolley to Mrs. Esther Cook.
 Printers like good things as well as other people, and in this instance we got our share, for which we return our thanks.

DIED.

At the family residence in Josephine county, Nov. 9, 1872, **CAMPBELL CALDWELL**, aged 65 years 10 months and 2 days.
 Deceased was a native of Virginia, and came to Oregon at an early day. He was among the earliest settlers of Southern Oregon, has resided in Josephine county ever since its organization as a county, and has been frequently honored by its citizens with positions of honor and trust. By his death his family lose a kind husband and an indulgent father, and the community a good citizen.

PLANTATION BITTERS.

S. T.—1860—X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

Mexican Mustang Liniment

FOR MAN AND BEAST.

Probably few articles have ever had so extensive a Sale, while none have been more universally beneficial than the celebrated **MEXICAN MUSTANG LINIMENT**. Children, Adults, Horses, and Domestic Animals, are always liable to accident, and it is safe to say, that no family can pass a single season without some kind of an emollient being necessary. It becomes a matter of importance then to secure the best.

Over three hundred livery stables in the city of New York alone are using the **MEXICAN MUSTANG LINIMENT**, in all of which it gives universal satisfaction.

CAUTION.—The genuine is wrapped in a fine Steel Plate engraving with "G. W. Westbrook, Chemist," and "Trade Mark, MEXICAN MUSTANG LINIMENT," engraved across the face of each wrapper. The whole bears the proprietor's private United States Revenue Stamp, and not a common stamp, as used by druggists.

LYON MANUFACTURING CO., 53 Park Place, N. Y.
