Accident On Thursday last, Rev. M. Bell, of the Arkansas conference, while cutting some fire wood at Ashland, cut a severe gostr in his foot, nearly severing it in two. It was circulated, to some extent, that he would preach in Jacksonville to-morrow, which was intention, we believe, but by this accident the appointment is vitinted.

Pickic .- Friday, May 1, the young people of town, and a few old ones too, had a May party in Bybee's grove, near this village. It med nearly all day making it somewhat disagreeable, and detained many at home, who would have attended if it had been otherwise. nevertheless, those who did attend had a good time and enjoyed the party hugely-the dinner

HACK, HACK! Coron, Coron!-Cough is a symptom by which various discused conditions of the throat, bronchial tubes and lungs manifest themselves. But whether it arises from the irritation produced in the throat and laryox by taking cold, from an attack of Bron. chitis, from incipient Consumption, or from various other causes, nothing will allay it more apeedily or cure it more permanely than Dr. Pierce's Golden Medical Discovery. It does not matter whether it be a recent attack, or a lingering cough, the Discovery is in either case equally well adopted for its relief and permanent cure. In fact, it will cure a cough in one balf the time necessary to care it with any other medicine, and it does it, not by drying it up, but by removing the cause, subduing the irritation, and healing the affected parts. No time should be lost in commencing the use of a proper medicine for the relief of a cough, for s the course is pursued, rerious and dangerous disease of the lungs is liable to result.

The May Aldine is as fresh and beautiful as the month it represents; filled to the brim with choice flowers of arts and literature. The engravings, which in this superb monthly seem to have reached the highest point of perfection, are beautiful beyond anything heretofore seen in an illustrated magnzine. John S. Davis opens the number with a full page picture, "The Dying Hound," which is one of his best efforts, a strong work, showing that it is a study from real life. J. D Woodward contribute three large and spiritedly drawn pictures of scenes in Florida, one of the most beautiful and picturesque States in the Union. The first picture of the series is a deliciously cool view of the famous Silver Spring, which boils up from the earth; the second picture is a handsome full page illustration of the mouth of the other handsome and interesting pictures are "A Retriever," ather Delker, and "The Deshful Mosic Class.—The Vieuxtempts Bros. will Lark," is the title of a charming little view. hold another meeting at Veit Schurz's Hall next Friday afternoon, from two o'clock until five, for the purpose of receiving names to their music class. BALL.-The anniversary ball of the Ore gon SENTINEL, has been in town this week, canvassing for a chronological chart, the production of a Rev. Mr. Adams, of Salem, Oregon. The chart is on a strip of canvass about two and On this appear the different States, existed at the various periods of the world's history; the different kings, monarchs, emperors &c., which have ruled, in a manner analogous to the way in which the different continents, countries &c., appear on an ordinary map. The different kingdoms, contemporaneous with each other, appear on the chart side by side, like contignous and parallel rivers, marked by different colors. Longitudinally, the chart is divided by a scale, and this scale is see numbered that you can tell at a glance when any kingdom arose, how long it lasted, and how many years before Christ or after Christ it was overthrown. When one nation overthrew another and absorbed its territory, this appears by the running of the strip of color, marking the conquered nation, into that marking the conquering one. In a word, this chart presents to the eye the leading facts of history as an ordinary

Compressed AIR .- Some ancient sayant writes: "The time is not far distant when every town of any importance will be supplied with compressed air, distributed all over it in pipes. It will be warm or cool, as the season may render most agreeable. It may be used to turn the grindstone for sharpening knives, etc., run the sewing machine, blow away dust and flies, for ventilation; and in workshops to turn the lathe, or stimulate the blacksmith's fire. Its general use in Winter would tend to warm things up, and in Summer to keep them cool."

Our Dormant Energies.

Our bodies are not as vigorous nor our minds as clear as they might be. This remert is true of at least twesthirds of hivilined soules, and of these two thirds probably one-half is laboring under bodily infirmities of a character likely to shorten the lives of the suferers. This is a melancholy enhibit and farnithes abundant food for rollection. Gan the evil be mitigated? It can. Lack of vitality is the primary come of most of the physical and mental suffering to which we are subjected, and therefore a vitalizing medicinal agent is the remedy required in there such a mid chee? There is, Houset ler's Stomach Bitters will rouse and energipe the mind and body when the life power of the system is in a comparatively dormant state. The languid feeble deeponding invalid is not aware of the latent energies that underlies his dehility. He thinks there is no element (1 vigor left in his frame, when the fact is that his physical capabilities are merely asleep and only require waking up. Let him stimulate and tone his animal machinery and endow it with new motive power, through the agency of this in comparable lavigorant, and he will soon feel like a new man, or rather like a man who has received a new lease of life, and the requisite health to unjoy it. Many business men suffer from chronic languor and depression caused by too close application to business. Hard students are often oppressed with melancholy from a like cause. Mechanics and working men are affected in the same way as a result of over labor. To all who are in this condition, from whatever cause. Hostetter's Stomach Bitters will prove a signal blessing. It is a perfect panatesa for physical debility and mental gloom. It strengthens the body, clears the mind and calms the nervous system; while as a remedy for indigestion, bifliousness constipation, rheumatirm, and intermittent and remittent fevers, it takes precedence of all other medicines.
