RESIGNED.—Owing to ill-health J. M. Sutton has resigned the office of Justice of the Peace for Ashland precinct and has gone to San Francisco.

FOR THE ASYLUM.—Matilda J. McGraw was examined last week by Judge Day and adjudged insane. Sheriff Manning started below with her on the following day.

NEW BOXES.—Postmaster Muller has made some extensive improvements at the post-office. Among other things he has had a number of lock boxes placed on the outside of the building, which are accessible at any time, and can be rented for the small sum of \$1 per quarter.

TEACHER'S INSTITUTE.—This body convened at Ashland on the 1st, and notwithstanding the fact that a very light attendance of the teachers of this county were present, proved a decided success. The session continued for three days, and considerable interest was manifested by those taking part.

LAND OFFICE.—George E. Strong, agent of the Oregon and California Land Company, arrived in Portland on the 11th inst., and may be expected in this place shortly. It is the intention of this company to establish an office in this place, which will prove quite an accommodation to those having business with that corporation.

CHUCKLE CREEK.—Ed Smith returned from the Chuckle creek last Sunday, where he has been employed on Bybee's new mill, and reports they will be ready for work in a few days. Green brothers are working night and day with their saws on one that is worth not less than \$1000 per ton, and Mr. S. thinks they have got the best thing in Southern Oregon.

STERLING DITCH.—From J. S. Howard, who was in town from the Sterling ditch last Sunday, we learn that the work on the main ditch will be finished by to-morrow night, and will then carry water for half its length. Considerable fluming remains to be done, and Mr. Howard estimates that it will take three weeks work to complete the ditch.

LUCKY QUEEN.—Prof. Tiernan has secured 200 pounds of ore from the Lucky Queen mine and will give it a thorough test by different working processes. The ore selected by him was taken from the winter down, and he expresses the opinion that this mine can and ought to be worked so as to pay a handsome monthly dividend to stockholders.

LAKEVIEW LAND OFFICE.—All the records and papers of S B Cranston, Register of the U S Land Office at Lakeview, were by order of the Commissioner of the General Land Office turned over to Geo. Conn, the Receiver, on Monday the 5th inst, and the position vacated for his successor. James Evans of Lane county was appointed to this position some time ago, but we have seen no report of his confirmation by the Senate.

APPOINTED PASTOR.—Rev. C. Drees, from Hanover City, Germany, who was formerly engaged in missionary work among the Germans of Nevada, California, Oregon, Washington Territory and British Columbia, and who visited our place also some time ago, is, as he informs us, chosen Pastor of St. John's German Lutheran Church, Green Street, San Francisco, and he therefore will probably never return to us. He desires us to express his deep sense of the kind reception and real German hospitality he has met with, and sending his cordial greetings to his German brethren in Jacksonville and vicinity, he earnestly hopes that they may improve in Christian faith—the only narrow but sure way to attain felicity for soul and body for time and eternity.

The time may not be far distant when the pious missionary man will remain at the old homestead, and preach to the heathen through the cable telegraph, and when the distant cannibals will sadly gaze at each other and indulge in profiles' conjectures as to the flavor of his ribs.

Lake County Enterprises.

Messrs. Nurse, Moore and Pearson are pushing to early completion their saw mill at Linkville. They are building a ditch about one fourth of a mile in length, 12 feet wide, and intended to carry 6 feet depth of water. This ditch is intended as a canal to float logs to the mill as well as to conduct their motive power. A boom between 400 and 500 feet in length is to cross the river a few hundred yards below the foot of the Lake. This is the most extensive saw milling enterprise ever commenced in Southern Oregon, in land. The timber calculated to furnish this mill with provender is found in inexhaustible quantities on the banks of big Klamath Lake, and is to be rafted across that body of water to the mill. The erection of a large flouring mill at the same place and by the same parties is contemplated, as soon as lumber can be sawed for that purpose. The parties engaged in these laudable enterprises deserve the commendation of their pioneer brethren. No other part of Oregon affords better or more extensive water power than Look River. This stream has a fall of 64 feet in 1 1/2 miles, made up of a succession of cascades. The experiments of Lake County farmers are rapidly dispelling the mistaken idea that that country is not adapted to agricultural as well as pastoral purposes. And we bespeak for it in the near future an important position in the sisterhood of counties of the State. A woolen factory at this point is the next enterprise to be sought by these people and we prophesy that ere long the music of the spindle will take the place of the musical mule quito.

REPUBLICAN GAINS.—Late returns from France indicate large Republican gains in that section, which is decidedly encouraging to the members of that party in this place. It is thus continues we will trot our rooster out.

BACK AGAIN.—Uncle Billy Burke, one of the pioneers of this section, returned from Oakland Cal. one day last week, after an absence of several years. He says that he has seen no place in his travels that he likes as well as Jackson county, and will remain with us now.

RUNAWAY.—A loaded freight team belonging to George Deal of Cottonwood ran away one day last week while crossing the Siskiyou mountains. They started on top of the mountain and ran down the California side; but strange to say they kept the road and the only damage done was a broken axle.

Bybee & Cox have struck a fine ledge on Rogue river about six miles below the mouth of Galice creek. Some of the ore assays \$2,500 to the ton. They are opening up the ledge and will put up machinery to work the quartz; in the meantime they will send a ton of the rock to Portland and have it tested by mill process.—Independent.

The district school in this place is now divided into four departments, the increase having become necessary on account of the large number of scholars in attendance. The directors have secured the services of Miss Kate Thornton, of Ashland, to take charge of the third, while Miss Alice Hanly continues in charge of the junior department.

J. C. Tolman returned to his mines on Middle Creek on Friday. The main ditch, for conveying the water of Middle Creek to his diggings, is now complete, and work has been commenced on a new ditch, to connect with the one just finished, which will furnish a sufficient supply of water to work the mines all the year round. The pipe and grant to be used is now on the ground ready to be placed in position.

ARRESTED FOR RAPE.—Deputy Sheriff Seybert, of Jackson county, arrested a man by the name of Melvin Culp at Cottage Grove, last Wednesday. Culp was culpable in that much that he was guilty of rape. He seduced a young girl under the age of sixteen years, and she becoming enceinte, he ran away, to be closely followed by the Deputy Sheriff. Culp says he is perfectly willing to marry the girl, and do anything that is in his power to atone for the wrong he has done her, and it is quite likely Sheriff Seybert's trip to Cottage Grove will end in a wedding.—Independent.

The prophecy of the Independent was correct, and was carried out last Saturday after Culp's arrival in this place.
