Geo. P. Rowell & Co., New York
Bowling & Chessman, St. Louis

Religious Directory.

M. E. Church—Religious services every Sunday at the usual hours, by the Reverend A. Hardison, W. Hurlbert and M. A. Williams, alternately.
Catholic Services.—Services will be held at the Catholic Church in this place, every Sunday, at the usual hours in the morning and evening, Rev. Father J. Nebet officiating.

LAND FOR SALE.—A fine farm in the heart of the valley for sale very cheap. For particulars apply to C. B. Watson.

QUARTERLY MEETING.—The next quarterly meeting of the M. E. Church will be held at the Marzanita Church on February 23 and 31. A full attendance is requested.

W. HURLBERT, Pastor.

NEW RULES.—The Western Union Telegraph Company has established a new rule by which the word collect will hereafter be charged for. By this rule a ten word message sent from this place to Portland, if paid for here, will cost one dollar, and it will collect the charges will be one dollar and fifty cents.

EXPLANATORY.—On the outside of this week's issue will be found three of the courts in the case of the U. S. vs W. C. Griswold which appeared in our issue of the week previous. The reason of their repetition is on account of an error which occurred in making up forms, placing the tables in wrong position.

STAGE DELAYED.—The Kerbyville stage did not arrive here last week till Thursday morning—sixteen hours behind time—on account of high water. Dick Ish started back on his return trip the same day, thinking he could catch up again, but the heavy rain on Sunday had made the streams so high that he has been unable to reach this place since. The weather has moderated since, however, and he may be looked for to-day.

ARRIVED SAFELY.—The boat constructed at the mouth of Evans Creek for carrying the machinery for Bybee's quartz mill to his mine on Galice Creek arrived safely at his destination one day last week. The distance from the starting point to the mines is about 50 miles and the time consumed in the passage was about eight hours. Jas. Birdseye, First Mate of the vessel, informs us that it made his hair stand on end at times when steering clear of the rocks.

NO MAIL.—It has now been over two weeks since a through mail has reached this place from the South, owing to the fact that several bridges have been washed away on the railroad south of us, and the track generally unable to run on, which will take several weeks before repairs are finished. No mail has arrived at Reading since the 15th but a telegram from there on the night of the 25th states that one would reach this place to-day.

HIGH WATER.—On Saturday night of last week a heavy rain commenced falling, which continued all that night and next day without interruption. Jackson Creek and Rich Gulch were both very high, the waters of the former flooding some of the lots in the lower portion of town, but no serious damage was done. Several of the creeks and rivers throughout the county have been very high, but we have heard of no damage having been done to any of the bridges.

THE WRECK.—Prof. J. M. Tiernan, Superintendent of this mine, has been in town several days during the past week, and informs us that he has again struck the main ledge, which was lost several years ago. He has a force of six men employed sinking the shaft at present, and as soon as it reaches a depth of 100 feet, which will be in a couple of weeks, he will employ more men and make drifts in different directions. The ledge is over three feet wide and assays \$3.00 per ton. Machinery for milling purposes is now on the way and expected to arrive shortly, after which active operations will begin. The Professor hopes to make this a dividend paying mine ere long and we hope his expectations may be realized.

Random Jottings.

Stages late.
Mails irregular.
Major Barron, of the Mountain House, was in town this week.
F. M. Nickerson will open a writing school in this place shortly.

Mr. John Jackson, a cattle man from California, is in the valley purchasing stock.
Street Commissioner Young is widening and raising some of the cross-walks in town.
B. F. Dowell went to Canyonville on Saturday last and returned yesterday.

Dr. Inlow and E. J. Farlow are now partners in the drug business at Ashland.
Mr. A. Fisher expects to remove to San Francisco and go into business in that city.
A post-office has been established at Dardanelles, in this county, with G. Karewski as Postmaster.

Wm. Bybee has returned from Portland and is now at his mines at Galice creek.
For a first-class Havana call on Wirzjen & Helms. They always have them on hand.
J. H. Mayfield has purchased the farm of B. E. more in Malzanita precinct for \$2,000.

J. H. Reed and J. S. Howard were over from Klippel, Hanna & Co's mines last week.
Wm. Angle was over from Sterling last Saturday and reports his contract of fluming as nearly completed.

Witbur F. Cornell is mentioned as a candidate for State Printer on the Democratic ticket.
The old board of Directors was re-elected for the Lucky Queen Mining Co. at a meeting held at Roseburg last Saturday.

Simon Caro contemplates paying a visit to Germany in the Spring to see his relatives in that old country.
The Cal. & Oza. Stage Co. keep their stages running as usual between Yreka and Roseburg whether a mail comes up from the north or not.

The Beaty mine's and organs are considered to be the best and cheapest of all. Mrs. B. F. Dowell is the local agent for this place through whom you can secure any style that you may desire.
Trunk is evidently something of the Heathen-Chinese order in the silver bill now before Congress, it is so child-like and absurd.
A spelling school will be held at the district school house next Friday evening at seven o'clock. Everybody is invited to attend.

Col. J. B. Patten, the U.S. Paymaster, and his clerk Shulmire, passed Yreka Tuesday, on their way to Fort Klamath to pay off the troops at that post.

The Ashland Flouring Mills, which were sold to Phillip Allwell a short time ago, will not be turned over to their new proprietor until the first of July next.
The skeleton of a man was unearthed on Thos. Curry's place, three miles above Bybee's ferry, one day last week. No traces of his identity could be found.

The Superintendent of Judge Tolman's mines at Middle Creek commenced piping on Wednesday last. It will be several weeks before a clean up is made.
After an interruption of nearly two weeks the telegraph lines are again in first-class working order, and the operators along the line are correspondingly happy.

W. C. Meyer will bring the stock recently purchased by him in the Eastern States to this place before long to give our citizens an opportunity for inspecting them.
Deputy Mineral Surveyors are now required to give bonds in the sum of \$10,000. J. S. Howard, of this place, holds such an appointment, and has given the required bonds.

Wilbur F. Cornell and W. S. Moss have purchased the Salem Mercury, and announce that they will suspend the publication of the daily for a while and enlarge the weekly edition.
Next Friday will be China New Years. Our Celestial residents are making grand preparations for celebrating that event, and the usual amount of fire crackers will be indulged in.

Senator Mitchell on the 21st inst. introduced a bill appropriating \$125,000 to enable the United States Coast Survey to establish a station for the purpose of making tidal observation at Astoria.
J. H. Penn bought a piece of molten candle-stick for \$18 one day last week, thinking it was a gold nugget. The trick was discovered immediately, however, and the party having it made to disappear.

County Clerk Fultray has been busy this week taking depositions in the case of E. K. Anderson vs. Jephth Davidson & Co., a suit to enjoin the latter from using the waters of Anderson creek for milling purposes.
McDonough, Kahler & Co. are negotiating for the bringing in of a ditch to carry water to their diggings at Fort Lane. We hope they will be successful, as this is one of the richest pieces of ground in the county.

Father Binchet of this place invites proposals for the building of the Catholic Church at Eggle Point. Bids will be received until the first of March, and plans and specifications may be examined at the pastoral residence.
Here is a note we received from a delinquent subscriber a few days ago: "God loves man when he refrains from sin; the devil loves man when he persists therein; the world loves man when riches on him flow, and you'd love me could I pay you what I owe."

Samuel Bowles, editor and proprietor of the Springfield Republican, died on the 16th inst. He had been sick some time, and his demise is not unexpected. He was a practical printer, as was his father who started the Republican, and was one of the ablest editors of his party. He visited Oregon in 1855.
Read the advertisement of Fisher & Caro in this issue and govern yourself accordingly. They have closed out business in this place and must have the money due them before the 15th of April next, after which their attorney will make forced collections. M. A. Fisher also advertises his household and kitchen furniture for sale at a bargain.

Land Patents.

Sister Duniway, of the New Northwest, hits square between the eyes this time: "The Ls or World, A. C. Edmunds editor and publisher, has made its appearance in our midst as a weekly instead of a monthly journal. It begins its pretended war in favor of the laboring man by cheating the printer and patronizing the patent inside swindle. Horny-handed sons of toil like our friends Lawson, Chauncy, and Norton, are rallying to its support, and we shall have no more hard times."

Two fellows in Arizona formed a partnership for the business of robbery. Their first exploit was to take the treasure box from a stage, by which they obtained \$400. They spent the money in carousal, and started out again. This time they murdered and robbed a miner. Then a mob dissolved the partnership by shooting one member and hanging the other. The assets consisted of two revolvers and some shabby clothes, but it is considered that there are no liabilities, the firm having paid what they owed to justice.

REMEDY IN TYPHOID FEVER.—A new remedy, proposed by Netter, of Strassburg, to be used in typhoid fever, has been published. It consists of a decoction made of 1 litre barley-water, 100 grammes vinegar, and 120 grammes liquid honey, with which the throat, mouth, and nares are to be washed out, in order to remove organic matters which are secreted and deposited there, and which decompose and are likely to be swallowed, or reabsorbed with increased toxic effect.

On the 8th inst., at Marysville, a man giving his name as Thomas Durant, with several aliases, was arrested charged with horse stealing at Stockton. He was recognized by the local officers as a partner of the notorious Tom Brown in the Shasta stage robbery, in May last, for which Brown is now serving a sentence of 17 years in San Quentin.

No STAGES.—The stage from the South, which is due here at 9 A. M., did not arrive here on Monday last until 12 P. M. The one from the north did not arrive at all on that day, owing to high water, caused by the heavy rains of the day previous.
