NOTICE.—Members of Jacksonville Lodge No. 10, I. O. F., are hereby notified that very important amendments to the By-Laws, affecting each member of the Lodge, will be submitted for adoption Saturday evening, August 10, 1878.

TEACHER'S INSTITUTE.—State Superintendent of Public Instruction, L. L. Rowland, writes that he will be in attendance on the Teacher's Institute to be held at this place on August 8th, 9th and 10th. School Superintendent Fountain and Prof. Merritt will have charge.

FOR THE MOUNTAINS.—The family of Jas. A. Caldwell, accompanied by his Misses Mollie Bigler, Fannie and Annie Dorell, and Miss Virginia, left last Saturday for a trip to the mountains, intending to stop at the Falls of Rogue River. They expect to be absent about three weeks.

THE HARVEST.—Farmers in this locality report the harvest progressing finely and crops are turning out as well as expected. The hay crop was large and of first-class quality. Grain has not done as well, most of the farmers reporting about a two-thirds crop. There will be enough for all demands, however.

WILL RETURN.—On account of the injuries he received by being thrown from a carriage not long ago, Father Buchard will not extend his trip any farther North, but will return to San Francisco to-day. He is still suffering from the shock, and it may be some time before he recovers entirely. Jack Montgomery will convey him to Redding in a private conveyance.

ECLIPSE OF THE SUN.—The eclipse on Monday last was the general attraction, and between the hours of one and three most every one was engaged in looking at it through a piece of smoked glass. The eclipse on this coast was only partial, but in Colorado and the Black Hills country it was almost total. A party of scientists and astronomers from the Eastern States visited that locality to get a good view of it.

FIRE.—The residence of Beach & Platter, at Althouse, Josephine county, was burned to the ground on Wednesday last—supposed to be the work of an incendiary. A considerable amount of flour was stored in the house at the time. It is supposed that the Chinaman employed as cook stole \$50 in currency, which was kept in the house, and then set fire to the premises to cover up his guilt. No insurance.

THE CEMETERY.—An enterprise for bringing water to our cemetery is now being talked of by the leading citizens of this place. With a sufficient supply of water, and as good City Street as our friend Sergeant Dunlap has proved himself to be, we would soon have one of the finest cemeteries on the coast. A number of other improvements will be made there soon—such as building new palings around the grounds owned by the different orders, among which the Masons will take the lead.

OUR HOODLUMS.—At Prof. Wood's entertainment on Wednesday night of last week the hoodlums took full possession and carried on in a way that was a disgrace not only to themselves but also to those having authority to put a stop to it. It is so now that in nearly every show that is given in this place it is hard to tell which is giving the entertainment—the performer or the hoodlums. A stop should be put to this at once, as the city charges a license for an exhibition of any kind within its limits, and they are surely entitled to protection. An example should be made of the leaders.

Messrs Byber and Hawkitt went down last Sunday to get things in readiness, and the company expect to make some extensive improvements this Summer before the mining season begins. A number of California capitalists are now interested in these mines.

THE EX LINE.—One is still being taken out at these mines and returning will be commenced as soon as the quicksilver flasks arrive from San Francisco. The parties to whom the mine was bonded some time ago have not yet signified their intention of buying it, and several of the principal stockholders inform us that they are not at all anxious that they should. The bond expires next November.

SUDDEN DISAPPEARANCE.—N W reached this place last week that Jake Myer was missing, not having been seen since the 20th inst., and circumstances went to prove that he had either been lost in the mountains or had been killed. He has for some time past been at work in his mining claim on Applegate, and on Saturday, the 20th of July, he went out on a hunting expedition with Ves Smith and Peter Ives, and the last seen of him was on the evening of that day, about one mile from camp, where he was met by Ives while on his way to their camping place. He had killed a deer during the day, and was carrying home a couple of hams, and it is possible that he met a bear or some other animal that devoured him. David Cronmiller and J B Coates went out last Friday to look for him but after several days search they failed to find any trace whatever and returned on Monday last. It is hardly possible that he got lost, as when he met Ives they consulted as to the direction of camp, and Jake's idea as to where it was proved correct.

LAT. R.—Since writing the above we learn Jake has turned up all right having arrived in camp last Monday. He reports having been lost all the time during his absence—about nine days. His dog perished the day before he reached camp, but Jake held out long enough to find his way back. It was a narrow escape.

Bleeding Them.

A man is now making a tour of Oregon calling on all dentists and making them pay him money for the privilege of manufacturing the rubber composition for false teeth. He claims that the process is patented by the company he represents, and they expect to collect a royalty from all dentists using it. The Fire Limit Ordinance.

The following ordinance was passed at the meeting of the Board of Trustees held on Monday evening, July 23d:

An ordinance to prohibit the erection of wooden buildings in block No. 2 and block No. 7 was introduced and passed in due form, as follows:

Ordinance No. 66. To prohibit the erection of wooden buildings in block No. 2 and block No. 7.

Section 1. It shall be unlawful for any person or corporation to erect or construct any wooden building in that portion of the town of Jacksonville known and described as Block No. 2 and 7, as laid down on the map of said town; provided, that nothing in this ordinance shall be construed to prevent the erection of wooden sheds or outbuildings, such as wood-sheds or privies.

Sec 2. Any person who shall erect or cause to be erected any wooden building in violation of the provisions of this ordinance, or shall begin the erection or construction thereof, in said block No. 2 and block No. 7, shall be liable to a fine of not less than \$10 nor more than \$100 upon complaint of any person made before the Town Recorder.

Sec 4. Any building hereafter erected or commenced to erect in violation of this ordinance, shall be deemed a nuisance; and it shall be the duty of the Fire Wardens of said town, as soon as the same shall come to their notice, or upon complaint of any person made to them that such building is being erected, to immediately have the same removed, and the expenses of such removal shall be assessed against the person or persons so offending, to be recovered in an action before the Recorder, with costs.

Sec 5. All ordinances and parts of ordinances conflicting with this ordinance are hereby repealed.

Sec 6. This ordinance shall take effect and be in force on and after its passage.

A FEATURE OF SUPERIORITY.

The superiority of WHITE'S PRAIRIE FLOWERS for diseases of the Stomach, Liver and Blood consists in its uniting harmoniously with the gastric juice, strengthening and enabling it at once to dissolve the food. If the gastric juice is weak the food ferments, giving rise to sour stomach, sick headache, burning in the pit of the stomach, the patient also suffering from insufficient nutrition. It aids the Liver, over which it has a specific power, in filtering impurities from the blood, its action on the kidneys is likewise salutary, increasing the secretions. As a blood purifier, by enriching the chyle, it is without a peer, curing some of the most obstinate and long standing cases on record. It is pronounced by one and all The Great Blood and Liver Purifier. Price 25c. and 75c. For sale by E C Books.

Are teeth, beautified and preserved by Dr. OZOL-DONT; and the rose is scarce sweeter than the breath which becomes aromatic through its influence. It is the pearl of dentifrices and the surest preventative of dental decay in existence. It remedies with certainty canker and every species of corrosive blemish upon the teeth, and counteracts the harmful influence upon them of acidity of the stomach. The formula of its preparation includes only botanical ingredients and it contains the purest and most salutary of these.

New Enterprise.—The interest of a number of Portland capitalists, has purchased several mining claims and water rights on Applegate, and it is the intention of the company to construct a ditch some twenty miles in length for mining purposes on the West side of Applegate. This, if carried out, will be one of the largest mining enterprises in the county, and would benefit the residents of this section considerably. We wish them success.

F. W. Sawyer has retired and purchased the Hotel at Waldo, formerly known as the Logan House and also keeps a first class stable in connection therewith.
