Beggs, in the lower part of town, the team became unmanageable and started to run away. Matt was thrown out but escaped without serious injury. The wagon was badly demolished and each of the horses had a leg broken in the runaway. The horses were so badly injured that no hope of their recovery was entertained and both were shot on the following day.

DIPHTHERIA. - This disease is now prevalent in certain portions of this county, and a determined effort should be made to prevent its spreading. Dr. Danforth informs us that in the family of Ben Emerson, of Foot's creek, five of the children are now down with this sickness in its most dangerous form, and one case, that of their infant child, proved fatal on Monday last. The remaining children are all very low at last accounts, but there is still some hopes of their recovery.

Since writing the above we learn that another one of the children has died—their four-year-old daughter—and the other three are lying in a very critical condition. We have not heard of the spread of the disease outside of the family mentioned.

The general health of our community is good.
H. York, of Josephine county, gathered from one acre of corn ninety-five bushels, his whole crop averaging about sixty bushels, to the acre. If any one can beat this yield let them show it or stop their blowing.

The vegetable crop is quite good; cabbage of enormous size, onions and potatoes that have been puffed—but Applegate vegetables need no puffing, as they speak for themselves.
Miners are busy getting their ditches, etc., in readiness for this Winter's work, and stowing their provisions and wood.

But little grain has yet been sown, but our farmers are ready to commence work as soon as sufficient rain falls.

DONT FORGET IT.

If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts as the saying is, you may safely conclude that you have the dyspepsia or Liver Complaint. The liver is very apt to become torpid this season of the year as poisons arising from stagnant water or decaying vegetation are more numerous and are thought inhalation taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not heeded, end in more terrible diseases and death. White's Prairie Flower proves itself the Great Liver Panacea. Its action on the liver is different from any other medicine ever compounded. Its cures are truly wonderful. Try it. Price twenty-five cents and seventy-five cents. For sale by E. C. Brooks.

The watch and chain mentioned as missing were produced by her, though she at first denied knowing anything about them, but upon being questioned, said she retained the property so as to give it into the hands of responsible Masons. The trunk belonging to the deceased was discovered in the cellar of the building. The Grand Jury is investigating the case.

GOOD PROSPECT. - James Leslie this week showed us a prospect taken from his mines on Carberry Fork, a tributary of Applegate, amounting to between five and six dollars. This was taken from five "rockers" full of dirt, and Jimmy says he knows it was honest, as he dug it out himself. The mines are owned by James Leslie, Jas Lawrence, Fred Grube and Chris Wintjen.
