GRAND JURY REPORT .- The Grand Jury for the present term of Court made the following report last Friday

We, the undersigned, Grand Jury of the November term of Circuit Court for 1878, beg leave to make the following report: That we have examined the public buildings of Jackson county. We found the jail, Sheriff's and Clerk's offices in good condition, and the records kept by the Clerk in good order; also the County Hospital kept in good or. der. We recommend a new Court House as soon as finances will permit. Signed by K. Kubli, foreman, and the other members of the Jury.

THE LECTURE.-Miss Florence Mace lectured at the Court House last Thursday evening on the "Education of Young Ladies." The audience was the largest we have seen in the Court House for some time past, but, as she was formerly a student at our district school, it was composed mostly of the scholars of that school, drawn thither by the desire to see how she would succeed in this her first effort. Having arrived late in the evening we failed to secure a seat close enough to the lecturer to hear all that was said, but what we did hear we considered a splendid effort for a new beginner. She is too young yet, however, being only fifteen years of age, to enter the lecture field, but with a proper education and more mature age, we predict that she will yet make her mark.

SCHOOL MEETING .- Quite a large at tendance was present at the school meeting held at the district school house on last Wednesday evening, and a lively interest was taken by most all the voters of the district. James R. Neil, one of the Directors, stated that the object of the meeting was to vote for or against a tax to support a free school for the ensuing year. The school Clerk's report, showing the financial condition of the District, was read. The report showed that the five-mill tax levied last year netted the sum of \$1,695 95, and that \$1,890 would be required for continuing the free school during the present year. A motion was then made for levving another five-mill tax for this purpose, but the substitute reducing the tax to four mills and a rate-bill of one dollar per quarter per scholar was carried by a large majority. It was also made obligatory on the pupils attend-

No License Issued .- Our affable county Clerk was called on last week by one of our citizens for the purpose of securing a marriage license, and the beaming countenance of that official fairly danced with delight at the fee promised by the aforesaid citizen. He proceeded to fill out the desired blank and then, with one of his blandes smiles, asked the name of the lucky bride, but, upon being informed that he was to furnish the bride as well as the license, immediatly declared his inability to furnish the same at the fee pecified. The citizen declared his inention, however, and says he will American. marry the first widow who wishes to enter the matrimonial state.
