

of Europe and states. "Santa Do- the True Story of Bay," by Mrs. William Cazneau, will not fail to attract especial attention, as will also Jennie Haskell's article on "Rice—In the Fields and Mills of South Carolina." Alfred H. Guersney gives some interesting particulars of "Some Modern Regicides." "The Northern Lights" are the subject of a delightful treatise by G. W. Tunzelmann. These articles are profusely illustrated. The department of fiction in this number is exceedingly attractive; besides the admirable serial of Mr. Benedici, "Norman Desborough's Son," there are several admirable short stories, prominent among them, "A Tale of the Carnival," "Queenie's Kiss," "Mizpah," "Loaning a Lover," "About a Silver Bell," "Doomed," by Etta W. Pierce, etc. etc. There are poems by W. Brough, Matthison, and other popular writers, and a miscellany replete with amusement and instruction. Those who intend to subscribe to the present volume of this excellent periodical should not delay; they will have far more than the worth of their money. The number con-

ment that within five years over 200,000 remedies for Catarrh have been placed on the market, with one or two exceptions, their value cannot be recalled by the best-informed druggist. Advertising may succeed in forcing a few sales, but since the remedy possesses undoubted specific medical properties, it is absolutely certain to fall into merited obscurity.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhibiting Tube, with full directions for its use in all cases. Price \$1.50. Sold by all wholesale and retail druggists and dealers throughout the United States and Canada, WHEELS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

SMITH'S PIANOS & ORGANS.

In order to introduce THESE
MAGNIFICENT PIANOS on this
Coast, I have put the prices MUCH
LOWER than other FIRST-CLASS
MAKERS, and as I do not propose to
make any agents, (who generally ex-
tort large profits from the consumer) I
expect to be severely handled by such
persons in the Piano business.

The materials used in their con-
struction are of the VERY BEST
kind, and the wood thoroughly sea-
soned. They are substantially made.

DURABILITY, TONE and the
power of **MAINTAINING TUNE**
LONGER than any other piano made,
are the characteristics of these instru-
ments.

The greatest possible attention is
given to their tone and touch, and I
have no hesitancy in offering them to
the public as **FIRST-CLASS PIANOS**
in every respect, and warrant them to
stand in any climate.

BEWARE of Circulars
sent by mail, and what these say of me, who
are entirely untrue. Address
