Religious Directory.

M. E. Church.—Religious services every Sunday at the usual hours, by the Rev. Wm. A. Williams, D. A. Crowell and A. H. Harrison.

Catholic Services.—Services will be held at the Catholic Church in this place every Sunday at the usual hours in the morning and evening, Rev. Father Blanchet officiating.

M. E. Sunday School.—Regular meet every Sunday afternoon at 2 o'clock.
Catholic Sunday School.—Regular meeting every Sunday afternoon at 2 o'clock.

ARRESTED.—M. Colwell was arrested last week by Deputy Sheriff Caton on a charge of perjury. Colwell was held in his own recognizance and will be examined by Justice Huffer on the 31st inst.

GOING NORTH.—The family of J. H. Penn left here on Thursday last for their new home at Corvallis. They will be joined by Mr. Penn in a few days, and we wish them prosperity in their new location.

VISITING SCHOOLS.—Professor Powell has during the past week, visited nearly all the schools in the valley, watching their progress and making suggestions to the teachers. He has made his visits alone and unannounced so as to find the schools in their ordinary working condition.

SENT BELOW.—Dr. J. C. Belt was sent North by stage on Monday to his friends in Salem. He was quite unwilling to leave here and was forcibly put on the stage, his passage being paid through. Lately he has been showing signs of temporary aberration, but it is hoped the care of friends will save him.

MORE FESTIVITIES.—Our Independent Order of Red Men seem determined to have all the fun they can before the comet strikes or the planets come in dire conjunction. Consequently the anniversary of Jacksonville Stamm will be held at the picnic grounds on Foot's creek on June 1st. This is the German lodge, and if they can't have a good time no one else need try.

N. G. R. R.—The shape that railroad matters are now assuming in Oregon may prove to be in good for our section. If we had our say we would much prefer a narrow gauge to Crescent City from this valley, and it is just possible that if the Central Pacific is awake to its interest they may preserve the advantage of building it before a narrow gauge is pushed South from Roseburg, a work we believe seriously contemplated by the owners of the O. & C. R. Co.

HERRIN LANE.—The County Commissioners have had a large force of men employed on the troublesome piece of road known as the Herrin lane, and the work done looks more like sensible road work than the trifling work usually done here. The road has been plowed and thrown up from each side so that the road bed will be high and dry. It is the intention of the Commissioners to let a contract for graveling this piece of road next Fall, when the new road bed becomes solid from the summer travel.

RETURNED.—Most of the members of Pochontas tribe who visited Yreka on the 12th returned last Wednesday, and for several days stragglers kept coming in till the whole tribe returned in good condition. They all speak in the highest terms of the splendid treatment they received from the people of this place. Our people expect to entertain their friends from across the Sitka-yon in Jacksonville next May, but are at a loss to know how to reciprocate in so handsome a manner.

OFFICIAL VISITORS.—On Monday evening we had an interview with Hon. A. B. Levisse and Col. William A. Gavett, Special Agent of the Treasury Department, who were resting a day on account of the heavy roads. These gentlemen are on a general tour of inspection and examination of the offices and officials of the Revenue Department. It is their first visit to Oregon, and they seem highly pleased with the evident fertility and the picturesque beauty of our young State. They were surprised to find so much superior civilization, so many pretty towns and such a number of churches and school houses nestled among the woods of the far Pacific, but this is something experienced by all Eastern people who see Oregon for the first time. Judge Levisse was one of the Hayes electors from Louisiana, and Col. Gavett served with distinction in the Michigan volunteers during the war. They left yesterday en-route for San Francisco, and evidently departed with favorable impressions of Oregon.

LOCAL ITEMS.

Rain ceased. Large quantities of wool coming in. Chew Jackson's Best Sweet Navy Tobacco.

The very best tobacco for sheep dip at Reames'. Don't forget Odd Fellows' meeting on evening of 31st.

Squaw Lake company piping still but no clean up yet. Marsh has the contract for Masonic building at Ashland.

Wool is quoted: Northern Spring clip choice lots at 17c to 21c. E. W. Gragg has been appointed Postmaster at Sams Valley.

J. T. Layton still piping in Farris' gulch—ground very favorable. Mr. Jacob Ish left yesterday for Coos Bay, to be absent a couple of weeks.

Saltmarsh & Co. still working at Sterling but their head of water is high. The Wilton's play "East Lynne" to-night. Don't fail to see it. It is splendid.

Rev. M. A. Williams will preach in the M. E. church here at 11 A. M. next Sunday. The boys in blue may soon rejoice as the Paymaster is expected at Fort Klamath this week.

Mr. Wm. Kreutzer is now engaged in teaching English to a large class of students in Germany. John Bolt has commenced cleaning up a portion of his claim on Farris gulch. It is looking well.

Mr. J. R. Cameron and Wes Ingraham started with their band of sheep for Ft. Klamath Saturday. George Neuber has lost an Indian pony, with a star in face. A liberal reward will be given for it.

Penn's sale on Saturday was well attended but the property sold, especially the live stock, went at low prices. Sterling still in active operation. A partial clean up is said to be quite satisfactory, but the amount is not made public.

Eckleson, Robb & Co., working six hours daily at Star Gulch mine. Ground paying well, but no final clean up yet. Work on the new brick of Thatcher & Worden of Linkville is progressing fast, the foundation being nearly completed.

The Supreme Court has granted a new trial to the Indian, Jackson Grant, now under sentence to be hanged at Portland. A. C. Jones, Esq., returned from Roseburg on Sunday having been attending the session of the Circuit Court at that place.

Ex Senator Mitchell publishes a card in the "Standard" denying the statement that he is the attorney of Jay Gould & Co. Capt. A. P. Ankeny went South on the stage last Thursday bound for San Francisco. He is expected to return about Sunday next.

The English company's claims are about finishing up work for the season. Their ground is looking well, but results are not known. Capt. Ankeny tells us that Blue Gravel, on Galice creek, is still being worked, is looking very well and has yielded satisfactorily.

M. Mensor is selling goods still cheaper than ever on account of late arrivals. He says the goods must be sold at any price. Bring your cash. Harrison Kelly has gone to Mouth, Polk county, to assist in taking evidence in the case of the Cyote mining Co. vs Wm. Ruble, Trustee.

Mr. George E. Strong, Agent of the California and Oregon Land Co., arrived from San Francisco on Sunday last, having been absent for several weeks. The ladies of the Presbyterian Church are fixing for a strawberry festival, but the weather has been so provokingly cold that the berries won't ripen. We can't wait much longer.

Mr. Wm. H. Parker, of Big Butte, has just received a first-class planing machine which he will set up immediately, and will be prepared to furnish dressed lumber in any quantity. Andy Davison's heavy freight teams arrived yesterday from Redding with goods for Solomon & Muller. Mr. Davison was attacked with rheumatism on the road and is still very unwell.

The Yreka "Union," in a very graceful editorial, backs down from its hostile position to the new constitution, and urges all good citizens to stifle the bitterness created by the canvass and sustain the instrument. Mr. John Noland, who lately returned from San Leandro, Cal., has purchased an interest in the Criterion saloon with James P. McDaniel. John understands pleasing his customers and will always be glad to meet them.

Two travelers started from Happy Camp for Waldo on Sunday, and one of them, named Hackett, took sick and died on the road. The corpse was brought into Waldo by his companion. Thos. Chavner recovered judgment in the sun of 429.50 against M. Colwell in the Circuit Court on May 10th, and S. P. Hanna recovered judgment against the same party in the sum of \$300.

Joe Clough kicked a mule the other day, and is now limping round with a broken toe. We thought Joe was too smart to try to beat a mule at his own game, but he says he went take a banter even from a mule. Jim Stewart fell down the stairway leading to the cellar of Noland & McDaniel's saloon last week receiving injuries that might have resulted fatally. Dr Danforth was called and Jim is "up and around again."

A. H. Boomer, of Silver City, arrived at Ashland yesterday to look after the mail route between Ashland and Lakeview. "Boomer is the agent of Huntly the contractor, and he will probably straighten things out at once. Jay Gould is creating quite a stir in railroad circles, by his proposed construction of a narrow gauge from Oden to Portland, but Mat Dillon can "sit" up a cocktail equal to the fabled nectar of the mythological gods. Try him.

Suit to quiet title to the Angel ranch has been brought by Capt James Barnes, in the Circuit Court for this county. The case will come up at the June term, and the attempts to black mail Mr. Barnes will probably be discontinued. Among the visitors to Yreka last week were Geo. W. Frey and wife, Miss Rhoda Kinney, Wm. Werlow, Chris Kritzer and Pony Stephenson. We did not know they were among the party, but are happy to report their safe return.

Mr. J. W. Kelly, of the Douglas "Independent," left for Roseburg on Monday's stage. He took with him a large list of subscribers, and no wonder, for he is a genial fellow, and makes an independent paper that just suits American freemen. The detachment of U. S. troops that lately escorted the Indian prisoners to Vancouver returned on Sunday afternoon. We hear that there are fifteen more prisoners at Fort Klamath soon to be sent below.

Rev. Father Blanchet returned from an extended visit to Lake county on Monday. He experienced much bad weather but speaks in the highest terms of his kind treatment by the people, especially the boys in blue at Fort Klamath, and their whole souled officers. J. W. Manning and Jos. Clough leave to-day for Roseburg with twelve work mules for the Quartermaster's Department at Vancouver. This makes forty sold by Mr. Manning this Spring, and the demand might suggest to our farmers the importance of raising more of that kind of stock.

The County School Superintendent of Clackamas county has a salary of two hundred dollars per annum and seventy-five districts to superintend. He who would accept the onerous duties imposed by law for that small pittance gets every dollar he is worth as no sensible man would take it. One of the counterfeiters lately escaped from the penitentiary, was seen three miles South of Canyonville Monday night. Parties from that place started out to capture him for the reward, but it seems a pity to put the fellow to the trouble of another trip to Salem, as his "Clemency" would soon turn him loose.

The veto of the election bill by the President will certainly meet with the approval of the people at large, even if distasteful to the Confederate Brigadier Generals in Congress. It seems that the law they wished repealed was approved by the illustrious Washington, and Hayes is averse to the repeal of a law considered wise and necessary by "the Father of his country." Capt. S. G. Whipple, 1st Cavalry, Commanding Fort Klamath, passed through Jacksonville last Thursday en-route for his post. He had been absent for nearly six weeks as a member of a Court Martial at Vancouver, and was accompanied by Dr. Reagle, who relieves Dr. Dixon at Fort Klamath. The commandant expresses the opinion that the Indians belonging to the Klamath reservation will not be removed. A telegram from Genl. Howard to Governor Thayer intimates that the State law is powerless to punish cowardly miscreants who have attempted to assassinate unarmed reservation Indians, and says there is a secret organization in Umatilla county for the avowed purpose of murdering Indians. It is the duty of the Governor to enforce the law at any cost or hazard, and if failing, General Howard could then make law for the emergency.

PHOENIX ITEMS.

PHOENIX, May 17, 1879. Phoenix is improving and everybody is happy. Uncle Sam Colver, with his usual energy in all things, is grubbing out his land in Bear creek bottom. He believes in the maxim that "he who causes two spears of grass to grow where only one grew before is a benefactor of his race."

Dr. Covert is improving and beautifying his elegant home. He is throwing up the center of the street in front of his residence and drug store, with the use of plow and scraper, drawn by his two fine horses, a Vermont and Sli-gart. J. A. Burkhead is erecting a new building adjoining J. W. Smith's bed room. It is to be a two story, the upper story to be used as a public hall and the lower as a bakery and cracker manufactory. Mr. Olwell has completed a new and commodious barn, opposite Mr. Bly's store.

We have two blacksmith shops in operation. Messrs. Windom & Legate have recently established themselves in the business and both they and Mr. Dunlap are doing a thriving business. Dunlap & Low now supply the meat market, besides doing a good livery business. J. H. Berry, carpenter and undertaker, will commence next Monday the erection of the new church building for the M. E. Church, South. Most of the material is on the ground and the edifice will be completed with all possible expedition.

Prof. L. J. Powell delivered a lecture at Culver's Hall on last Tuesday evening to a fair audience. His subject was the "Education of the masses" and it was discussed in a masterly manner. E. K. Anderson has about two acres of broodstock to clean up in his '49 diggings on the mountain side South of town, which will pay well.

The school question is still the leading topic of discussion. There is talk of calling a special meeting for the purpose of reconsidering the question of a fifteen mill tax for the construction of a school house. It is the wish of every right minded citizen that the question may be settled and that we may soon have a good school house.

From Mr. J. R. Cameron, a gentleman of the largest experience in handling sheep in Scotland, Australia and on this coast, we have learned some important facts with regard to the treatment of "scab." The gentleman referred to has tried every known remedy but prefers the simple tobacco dip, made by boiling one pound of tobacco in four gallons of water, for twenty minutes, to all others. This remedy not only kills the germ of the insect and invigorates the growth of the wool, but insures a bright strong staple. All remedies containing mineral poisons, such as mercury, should be carefully avoided, as in moist weather their application often produces fatal results. Great care should be taken to treat every sheep and lamb as if a single one is neglected the insect propagates so rapidly the work will have been in vain. Mr. Cameron says there is no reason why "scab" should be so prevalent, and his opinion is entitled to great weight as he is regarded as the most thorough sheep raiser in Southern Oregon.

THE WILTON TROUPE.—The two entertainments given by that favorite and talented company came fully up to public expectation. The first night the play of "The Drunkard" was put on the stage, and Mrs. Wilton's rendition of "Madeline" was excellent. On the second night "Uncle Tom's Cabin" was played, both Mr. and Mrs. Wilton sustaining the leading parts admirably and evidently meeting with the approbation of the audience. This troupe will play East Lynne at Veit's to-night and we bespeak for them a good house and can assure the public that their entertainment is of such a character that entitles it to liberal patronage.

TAKEN BELOW.—Sol. King, Sheriff of Benton county, passed North on Sunday, having in charge ex-Marshall Rayburn, of Corvallis. The prisoner was heavily ironed and as he is under indictment for embezzlement, seduction, forgery and defalcation he seems to be in a rough old row of stumps. RELIGIOUS.—Rev. Mr. Crowell will preach in the M. E. church next Sunday evening. Quarterly meeting at Grants Pass next Saturday. Rev. F. X. Blanchet will hold regular services at the Catholic church on Sunday next, and at St. Francis church, Eagle Point, Sunday, June 1st.

POSTAL CHANGES.—Office discontinued—Antler, Lake Co; White Hill, Lake Co. Offices established—Mt. Scott, Douglas Co. Discontinued, Coles valley, Douglas Co., Ogn.

PROFESSOR POWELL'S LECTURE.—On Saturday evening last, Professor Powell, State Superintendent of Public Instruction, delivered a lecture on "Educational matters." The weather being very disagreeable the attendance was not large, but those present learned some plain practical truths with regard to education that should awaken a greater interest in so important a work. The lecture was neither an effort at oratory nor a finished essay on the subject of education, but rather a plain and forcible illustration of conclusions, forced upon the speaker by his observations of the practical working of our crude and imperfect system. Mr. Powell dwelt at length on the high position and responsibility of teachers; of the necessity of co-operation on the part of parents and the community at large, and called attention to the unreasonable expectations of efficient and faithful service without adequate compensation. In Mr. Powell's opinion the County Superintendent should not be a mere figure head, attaching duties of the office to some other person, but should be a man thoroughly conversant with education, giving his undivided time and earnest, faithful supervision to the schools of his county, and be paid a fair, living salary for his services. The speaker said, truthfully, that no matter what the cost of public education was it was money well invested—bread cast upon the waters—and deprecated an imperfect system that permitted the control of schools by illiterate inefficient or careless teachers, whose labor was worse than wasted. The Professor's remarks were well received, and if his own earnest work results in the practical benefit that ought to follow it the schools of this State will soon reach a higher standard of efficiency.

TEACHER'S INSTITUTE.—We take the liberty to again call the attention of the teachers of this county to the Institute, to be convened here under the direction of the State Superintendent on Thursday evening next. The Institute is established by law, although the attendance of teachers is not required by law, it being expected, we suppose that teachers would avail themselves of its advantages without compulsion. Teachers heretofore have manifested but little interest in the Institute, and have done themselves and their classes a great injustice. There is no teacher in this county, or indeed in any other county in Oregon, so proficient that he or she could not learn something about their profession by attending a session of the Institute and carefully observing the experience and ideas of other teachers; by interchange of thought and by mutual consultation as to the most successful modes of imparting knowledge. We again call on teachers of every class to attend this Institute. They should not only regard it as a matter of duty but consider it a privilege; an opportunity that should not be wasted. They are not expected to take any part in the proceedings if they do not desire to do so, but their presence is expected as an indication that they take some little interest in their profession, and are willing to spend a little time in increasing their own usefulness. This session is to be made a test of the zeal of teachers in their work, and as ample provision has been made for their accommodation, free of expense, it will be difficult to offer a reasonable excuse for non-attendance.

SCHOOL BOOK DECISION.—A very important decision has just been rendered in the case of A. L. Bancroft & Co. vs. The State Board of Education of this State. The case was tried in the U. S. District Court and Judge Deady held that a contract made with Bancroft & Co., by the late Board of Education was void because the Board went beyond the scope of their authority. This leaves the County Superintendents free to vote for such text books as their judgment may select, and they can hardly select any worse than the "Pacific Series." When the change was made from the Wilson series we considered it a serious blow to our common schools, as that of the Magoffey series is far superior intellectually and morally to the series adopted. The constant change of text books is an expensive and intolerable nuisance, but if it is to be made superintendents voting for it should vote to adopt the very best in use or fall under the suspicion of acting from improper motives.

DR. MOLLER'S CONDITION.—From Dr. Aiken, Mr. Moller's attending physician, we learn that the injured man is doing quite as well as could be expected. There are strong hopes that his right leg may be saved and that amputation will not have to be resorted to, but the fracture is so bad that it is difficult to say with any degree of certainty what the result will be. Mr. Moller is an Odd Fellow and is receiving all the care that can be given him by the order.

A NICK PET.—Al Sturgis, of Union town, was presented with a "cinnamon" cub a few days ago. He was an innocent little pet, educated in a saloon, graduating in all the arts of hoodlumism and Al was very proud of him. He filled him with milk, boxed him up and stowed him under the wagon seat and started for home. For a mile or so the cub was quiet, but at last he gave an unearthly squall directly under Mrs. Sturgis and the team started to run. Al is accustomed to sing to his team so he tuned up in opera style and the louder he sang the louder yelled the cub till he reached home. That night he unloaded him, and in the middle of the night he escaped, and when "Al" got up, armed with a shot-gun, he found the pet trying to break open the cellar door. Next morning Al was going away and put his pet in the warehouse for safe keeping. Soon as the proprietor left his wife heard an earthquake and proceeding to the warehouse found brick boxing bottles and packages of groceries from the shelves. The floor was strewn with broken glass, and the fumes of whiskey had so excited the pet that Mrs. S. was forced to back out. When Al returned the pet was tied in the yard, and while the family were at supper the bear smelt honey and went for a bee hive, and the bees went for bear meat, but the getting the worst of it, but the pet boxed energetically till he could be purchased cheap. Al says the next pet he has must be a graduate of an orthodox Sunday School, and if any saloon man ever imposes a pet on him again there will be a tragedy.

RIGID ECONOMY.—One of our Vancouver men talks in his sleep, and the other morning he came down to breakfast and saw a very thin bill of fare. "Wife," he exclaimed, looking around desperately, "what's the matter, no beef steak?" "Economy, my dear," she replied sweetly, "fact is I was at the club last night and luck was just awful, and I went through on a pat hand; its rough to get a flush beat and I just believe it was a cold deal or J. raised a full on me—an ace full, and I thought we could do without steak this morning. You see when I can't have a hat once in two years we must economize; too much beef ain't good for the children. Take another cup of coffee, dear, its only warmed up, and you'll need considerable to fill you up; yes indeed we must economize." Our friend rose from the table and walked up town muttering darn a fool that can't keep his mouth shut when he is asleep, and confound a woman who lies all night with her ears open. There was an empty chair at the club that evening, a great improvement in the next matutinal bill of fare and a Spring hat less at the milliner's.

BAD CONDUCT.—Some of the boys and young men of this place seem to regard a place of public entertainment as a fit place for the public exhibition of ill breeding. We are sorry to have to call the attention of our youth to the fact that a show of impoliteness in a public assembly before ladies, some of them their own mothers or sisters perhaps, is no more in keeping than if it were in a private parlor. We hope that the boys who attend the next performance given here will remember that yelling, stamping and hooting in the presence of ladies is an offense against common politeness, and no evidence whatever of smartness.

RELIGIOUS.—The Fourth Quarterly meeting for Jacksonville circuit, M. E. Church, will be held at Grant's Pass on the 31st of May and the 1st of June. First service on Saturday the 31st at 11 A. M. All the officers of this charge are requested to be present at that meeting. If the interest will justify we propose to protract the meeting. All are invited to attend.

D. ALLEN CROWELL, Pastor. Jerry McCarty, tried at Crescent City for the murder of a German miner at Happy Camp, has been convicted of murder in the second degree and sentenced by Judge Haines to imprisonment for life.

RECOVERING.—We are glad to note that Miss Emma Nail, lately sent to the Asylum at East Portland, is fast recovering her health and intellect, and it is thought she will soon be returned to her friends.

A private letter from Capt. Fountleroy just on going to press informs us that he will be here shortly in behalf of a narrow gauge R. R. from Crescent City to Rogue river valley. We will refer to its contents next week.

It is reported that Capt. S. G. Whipple has been ordered before the Retiring Board at San Francisco. He will probably be relieved from active duty and placed on the retired list on two-thirds pay.

Chas. J. Howard, County Surveyor, has returned from Josephine county.

NEW MILLINERY STORE. SPRING OPENING.
