CATHOLIC SERVICES.—Services will be held at the Catholic Church in this place every Sunday at the usual hours in the morning and evening, Rev. Father Blanchet officiating.

M. E. SUNDAY SCHOOL.—Regular meeting every Sunday afternoon at 2 o'clock.
CATHOLIC SUNDAY SCHOOL.—Regular meeting every Sunday afternoon at 2 o'clock.

DELINQUENTS.—Sheriff Bybee will attend to delinquent tax payers immediately after the 4th of July. Those knowing themselves in arrears will take notice that the collection will be expensive to them.

TO THE LADIES.—Mrs. Shaw will arrive in Jacksonville in a few days where she will teach the new system of dress cutting, for which only half the usual price will be charged. She is also agent for two new styles of plaiters without needles, to be offered for sale on her arrival.

DITCH SURVEY.—A. O. Eckleson started on Wednesday last to survey a new ditch from Palmer creek to the ground of Kahler, Lackland & Co., above the Hamilton claim on Applegate. The ditch will be about five miles in length, but the ground prospects well and the company are satisfied that it justifies the expense. It is expected to be finished before Winter.

MORE NUGGETS.—On Wednesday last Mr. Hein Deniff, who owns a rich claim on the left hand fork of Jackson creek, picked up a couple of pieces of gold that together weighed nine ounces. Mr. Deniff has been working his claim with a small hydraulic and seems to be well satisfied that he is still on the rich lead of that fork.

SERIOUS ACCIDENT.—On Friday last John Miller, son of James Miller of Butte creek, attempted to slide off a load of hay for the purpose of obtaining a drink of water and was unfortunately caught on one of the sharp stakes of the rack. The point of the stake entered under the right jaw passing through to the opposite jaw bone and inflicting a painful and ugly wound. Medical assistance was soon obtained and the boy is now doing well.

INDIAN VISITORS.—On Saturday a delegation of nine men from the Siletz reservation arrived here on a pleasure trip. They are a remnant of the Rogue river tribe, one of them, "John Smith," is evidently quite civilized, as on Monday he telegraphed a polite invitation to "Bogus Tom" at Yreka to attend a dance at "Kanaka" flat near here early next week. Verily these untutored children of nature are not so far behind the superior race in the matter of educating their "hecks."

THE FOURTH AT PHOENIX.—The citizens of Phoenix met on June 24th and decided on having a celebration of their own on the coming Fourth of July, appointing the following committee to make necessary arrangements: S. Ferry, Mr. VanDyke, John Coleman, H. Tweed and W. Arnett. Finance Committee—Miss Laura Sargent Miss Berry, C. C. Low and James Birkhead. James Reames was appointed a committee of one to secure an Orator and John Costo was chosen as Marshal. A good time is expected.

RED MEN ELECTION.—At a regular meeting of the Oregonian Poocharas Tribe No. 1, Improved Order of Red Men, held on the evening of the 24th ult., the following officers were elected for the ensuing term: E. H. Autenrieth, Sachem; Geo. W. Frey, Senior Sagamore; G. W. Elliott, Junior Sagamore; C. W. Savage, Chief of Records; Henry Pape, keeper of Wampum. H. K. Hanna, C. W. Savage, E. D. Foudray and John Cimboroky were elected representatives to the Great Council. The new officers were installed last evening.

THE WILLOW SPRINGS CELEBRATION.—The preparations for a grand and happy entertainment are complete. Everything will be done that can be done to make every feature of the program successful. The managers request people to meet in the grove at an hour in the forenoon—at 9:15 when the exercises will commence. The ladies are requested to bring with them bouquets with which to decorate the pavilion or hall. All who wish to join the company of dancers—the merrier. They will provide themselves with a saddle horse and a pair of breeches. A purse will be raised as high as the wind blows.

Mr. Kuhl has received over a thousand pounds of Devondor's famous Smith River cheese. Mr. Devondor having arrived here on Friday with another load. It is a splendid article.
Our neighbor remarks that the town has given a "neat" sum towards the celebration. We suppose as the sum was only ten dollars that the word "neat" is applied in its diminutive sense.

The stages of the California and Oregon Stage Co. changed time on the night of Saturday last. Schedule time from Reading to Roseburg is now fifty two hours, which is the next thing to railroad time.
George Elliott will hang up a seven-five dollar watch for the winner in a saddle horse race on the 4th. Ten dollars entrance. Besides this he says he will sell anything in his line cheaper than any one.

Our friends on Butte are going to have a celebration of their own this year as it is too far to come here or to the other points where the patriotic citizens will gather. Wm. H. Parker is to be the orator.
Brother Leeds, of the "Tidings," made us a very pleasant call on Saturday last, and we are happy to say that his visit to Jacksonville created quite a flutter in dressy circles. Last week he flew two fifty-payable in advance.

The following officers for Table Rock Encampment, L. O. O. F. were elected on Tuesday, June 24th: K. Kuhl, C. P., S. J. Day, H. P.; T. B. Kent, S. W.; Fred. Lay, J. W.; Herman Helms, Scribe; John Miller, Treasurer.

Read the marriage notices and observe that somebody was watching and waiting till he found her "and that's what the matter with Hanna." We acknowledge wedding compliments, and wish the happy couple their full share of wedded happiness.
First Assistant P. M. Gen'l. Tyner, passed through town on his way south on Sunday last. He should select the winter season if he wishes to inspect the mail routes in this region. He then would have a "soft thing" so far as the roads are concerned.

Read what Clough & Carl of the Roseburg and Coos Bay line propose. Through fare from Roseburg to San Francisco at twenty dollars, the time being three days, and combining a delightful spin over the mountains with Clough, and a pleasant steamer voyage of about sixty hours.

In spite of all that has been said about the various celebrations we intend to have more fun, better music, colder ice cream, and a better lunch and more patriotism than any we hear of. And the ball in the evening when it is just cool enough to dance. Really it is too nice to think of.

It is a disgrace to this town that there are no halliards rope in the library. Although a serious task there are boys here who would undertake it for five dollars, and it is well worth it. Are there ten men in the place who will contribute a half dollar each so the good old flag can be unfurled to the breeze?

Veto number four, that of the Judiciary bill, is recorded. The "Brigadier Generals" are having considerable sport at the expense of the country. The feat of putting "riders" on the appropriation bills is a most successful and amusing one, but that of "riding" President Hayes seems to be a sorry failure.

Clemens, a native of France, was taken in charge by Sheriff Bybee on Saturday night and committed to jail while in a state of insanity. He was examined on Monday before Judge Day and found guilty of "delirium tremens." The next stage of the disease is said to be "snakes in the boots," which must be peculiarly comfortable.

Prof. Rogers, of Ashland, delivered here on Sunday last, not a sermon, but a discourse on the practical effect upon and the practical application of Christianity to the affairs of every day life. The main topic of the speaker was the absolute necessity of individual character, and he urged the young to build up and establish character that would serve them well if all else was gone. We want more such discourses.

Marsh & Co's. Planing mill and furniture factory is turning out every variety of work in their line, all executed in the very best style. The most skillful workmen are employed and every thing is done in a style and finish unexcelled. The company propose enlarging the capacity of their establishment soon in order to be able to meet increasing demands. They have now the contract for erecting four or five large buildings and supplying sash, door, blinds, and all the other articles used in their construction.

The Ashland Woolen Mills are still running to their full capacity. The company have now on hand between twenty-five and thirty thousand dollars worth of manufactured goods, including blankets, flannels, cassimeres, and cloth of every texture, waterproof, and every other style in the market. They have also two thousand dozen pairs of half hose of superior quality. Seventeen hands, male and female, are kept constantly employed and not a single Chinaman on the payroll. Wool sufficient for a year's run is on hand and a wide market open for all the goods that can be turned out.

BYBEE & HAWKETT MINE.—This property, now in litigation and in the hands of a receiver, is thought by many to be one of the valuable mines of Southern Oregon. There is now a depth of about sixty feet of gravel which prospects well, a large quantity being blue gravel, the lower stratum containing coarse heavy gold. The channel at the upper end of the claim appears to be leaving the present course of the river, making an angle with it that shows that it is a very ancient deposit. There is still water enough to dig on a small area of bed rock but not...

ASHLAND ITEMS.

Work is progressing on the Masonic building.
Barney Miller has a new style bellows in his blacksmith shop.
The burned district is being filled up with new buildings.
Butler & Rockefeller received twenty eight thousand pounds of freight last Thursday.

J. M. McCall & Co. are doing an immense business in the mercantile line.
B. F. Reeser is still supplying the trade with stoves and tinware.
Dr. Chitwood has just returned from a trip to Lake county. He has a large trade in the drug business in that section.

The Presbyterian church is soon to have a new bell. It will be of the most improved pattern and different in tone from any other in town.
Jasper Houck, the genial landlord of the Ashland House, has just completed his new hall. It is eighty feet long by thirty wide, with reception and ante rooms fifteen by six on first floor.

The fruit crop in Ashland will be immense. Cherries are particularly abundant. Capt. Thos. Smith's and O. Coolidge's orchards are perfectly vermillion with the fruit.
Dr. J. M. Taylor, dentist, has located here and will practice his profession. He proposes to be a permanent fixture in Ashland.

Great preparations are being made for the celebration of the Fourth. Father Hill is tireless in his exertions to make the affair a success.
C. K. Klum is still receiving large supplies of goods in the saddlery and harness line. He also keeps the best of workmen engaged in the manufacture of custom work.

The Soda Springs House is the resort for all invalids as well as pleasure seekers. The best of accommodations are always provided by the accommodating host and hostess, Mr. and Mrs. D. C. Courtney.

DEATH OF MRS. DR. ROBINSON.—We are sorry to announce the death from consumption of Mrs. Ella Ford Robinson, which occurred at Salem on Sunday last. It is but a short time since she was taken from here by her devoted husband in the vain hope that surrounded by all those dear to her she might recover. Several years since this estimable lady graduated in medicine with rare distinction, and a bud of brilliant promise that might have blossomed for suffering humanity has been cut off too early. Only a few months ago, arrayed in the bridal veil, now in the robes of immortality, we sadly wonder why death robs life of its choicest flowers, and the fairest blossoms of earth woven into the garland of the Eternal. Mrs. Robinson made many friends during her stay here, who will with one accord say: Alas too soon!

No WATER.—The "Standard" intimates that Joe Clough "takes water" in stipulating that it must be an Oregon bred horse to run against Scamperdown. Not at all! Mr. Joseph Taylor never took Mr. Clough's offer of five thousand dollars but did propose to take less than half that sum without naming his horse. This left Mr. Clough at liberty to make a new proposition, which was done, and if Mr. Taylor thinks Joe Clough is fond of water he can deposit a forfeit and try him if he thinks he can scare up an Oregon bred horse that can beat Jacksonville's favorite. That is the proposition now and there is no more talking about one that was declined. Until we hear of his being beat Scamper is chief.

PROBATE COURT PROCEEDINGS.—The following are the proceedings in this Court since the last issue of the SENTINEL:
In the matter of the estate of U. S. Hayden, deceased, Executors authorized to sell all the personal property of estate.
In the matter of the estate of I. W. Stow, insane, Thos. McAndrews appointed guardian.
In the matter of the estate of John P. Baker, deceased, John Ashpole administrator granted further time to make final settlement.

COURT IN LAKE.—A. C. Jones, Esq., informs us that business at the late term of Court was exceedingly light. There was very little civil business, no jury trials, and no bills found by the Grand Jury. The case of the State vs. Wm. Wallace, charged with murder, and transferred from Grant county, was transferred to Wasco. Mr. Jones says Lake county is rapidly filling up with settlers.

RELIGIOUS.—Rev. Father Blanchet will hold service next Sunday at Eagle Point in the Catholic church.
Elder Martin Peterson will preach at Mound District school Sunday next.
Rev. Mr. Hardison is expected to occupy the pulpit of the M. E. Church here on Sunday.

APPOINTMENT.—Mr. Daniel Cronmiller has received an appointment as head farmer at the Klamath Indian Agency and commenced duty there.

DISTINGUISHED VISITOR.

—Mrs. Abigail Scott Duniway, the talented Belatrix of the "New Northwest," is sojourning here and intends remaining a month in the valley. It is the lady's intention to lecture at various points on the disabilities of her sex, and on moral, and educational and religious topics. Her established reputation as a laborer in the cause of oppressed womanhood must command good audiences. We hope to be able to announce her appointments. Her lecture on Sunday was to an overflowing house, the subject being "Woman and Bible," and strangely enough to say the ladies of the audience were less pleased than the sterner sex who were the subject of attack. The Lectress declared that her mission was to make woman discontented but we noticed on Monday morning that house wives were at the wash tub as usual, happy to know that they had one line to choose and husbands to buy soap. All of which shows the utter perversity of woman kind, or their sensible appreciation of the sphere in which God has placed them.

EDUCATIONAL LECTURE.—The lecture of Prof. L. L. Rogers on Christian culture was delivered on Saturday evening. It was a clear eloquent and logical appeal for Christian training in connection with intellectual development. Mr. Rogers is broad and liberal in his views, is opposed to doctrinal or sectarian teaching except in theological seminaries, but contends that broad universal christian belief is necessary to keep pure and strengthen the minds of the young. He regards correctly, the most thorough education that can be afforded as only the ground work of the practical education acquired by attrition with the world. The school room, he thinks, is not merely a place where the mind of youth is to be stuffed with a few facts to be considered the whole educational capital of the future man or woman, but a place where the mind will be trained to think clearly so that in the curious problem of life, truth may be sifted from the error. The lecture was beautiful in dictation and those who did not hear it may consider that they missed a very instructive and pleasant opportunity.

Permanent Home.—A willingness to let your neighbor eat his bread. If an article is manufactured here that is just as good as a similar article made elsewhere and just as cheap it should find sale in preference to the imported one. People are always complaining about scarcity of money, but never reflect that every time they buy an imported article they send away money that never is returned to circulation here. Help to build up your own industries at home if their productions are as good and cheap as elsewhere and you assist in increasing and sustaining population. Many of our merchants purchase articles, such as brooms, wash boards and other things in the San Francisco market when they are made here just as good and quite as cheap. This is breaking down labor that in its turn uses the product of some other man's labor, and is a narrow, mistaken policy. Give every one a chance to live and patronize home industry when you lose nothing by doing so.

"THE SONG BIRD ON CARMEL".—It was a noticeable fact among the early settlers of the Pacific slope that song birds were exceedingly scarce. Day after day one might travel without hearing perhaps a single note. The fact of their advent is just as notable now among us in Southern Oregon as a species of song appearing and disappearing with summer and winter like migratory birds, and at times the air is vocal with their sweet song. We believe then the progeny of canaries that have escaped from bondage, for their notes are no less brilliant than those of their imprisoned brethren. In appearance they are slightly darker than the domesticated bird, but this may be due to the different food and change of climate. At all events they are here and whether it be a verification of the prophesy that the song bird will sing on dreary Carmel or not they are very welcome.

We notice the pleasant face of Mr. H. M. Thatcher in town, having arrived from San Francisco yesterday.
