Winter stock Newman Fisher will sell for the next 60 days his entire line of summer dry goods, dress goods, fancy goods, ladies' ties, gloves, hats etc., at prices that will defy comparison. Extraordinary inducements will be offered cash purchasers during this great sale.

THE SODA SPRINGS.—During the

heated season there is no more pleasant resort than Courtney's soda springs. The medical properties of the water are very beneficial in all ailments that flesh is heir to, while the luxuries found on the table spread by Mrs. Courtney are enough to satisfy the demands of appetite of the most exacting ep-

IN WHEAT.—We are informed

by Col. John E. Ross that the genuine old fashioned rust has made its appearance in his wheat this year. It seems confined to a narrow strip of ground running diagonally through one of his fields. This is the first appearance of this plague in Southern Oregon, and farmers should use all means to guard against its spread.

ON THEIR RETURN.—Dr. G. H.

Aiken is expected home from San Francisco next Sunday. The Doctor and Miss Ida Martin, late of this place, were married at the residence of the bride's father, in Oakland, Cal., on the 23d instant. Their many friends will be pleased to greet them and welcome them back to their elegant home where all join in wishing them a life of happiness and prosperity.

STABBING AFFRAY.—On Tuesday

of last week an altercation occurred, on Jackson creek, between Geo. Satterfield and a young man named Merritt, which terminated in a scuffle, in which the former received a severe stab in the thigh. No warrant was sworn out for Merritt until Friday and in the mean time he concluded to hunt other quarters. Dr. Danforth who attended to the wounded man informs us that he is doing well.

BEAUTIFUL.—A visit to the elegant

residence of Peter Britt, the well known photographic artist, florist and fruit culturer of Jacksonville, causes one to fancy he is in an enchanted world. His collection of flowers, plants and shrubs contains many of the rarest specimens of all climes and countries. From the sombre evergreen of the arctic to the fragrant magnolia of Florida he has every description of ornamental growths.

MORE INTIMIDATION.—An out-

rageous attempt was made, last Friday, to suppress this paper. The day was intensely hot and the pressman found it necessary to suspend operations to give the roller time to cool down from an almost melting point. It was taken up into an open perch, in the rear of the office, drenched with cold water and the boys went to dinner. When they returned Jerry Numan's cow had invaded the premises and was in the act of swallowing about a four pound chunk of the sticky compound. She had a rough time of it but finally succeed in working it down, notwithstanding our fervent petition that it might be otherwise. Our neighbor of the "Times" appreciated our situation and, shaking hands with him across the bloody glass, we politely asked to borrow his ink distributor and our request was granted. And still we want a fighting editor.

FROM GRANTS PASS.—E. Dimmick,

the genial and accommodating merchant, postmaster and telegraph operator, of Grants Pass, made us a pleasant call last Friday. He came up on private business and returned home the following day. In this connection we had as well state that Mr. Dimmick did not furnish data, for the item which appeared in the SENTINEL, three weeks ago, regarding Miss Jennie Rush's intention to commence the life of an itinerant preacher. Our information was derived from an entirely different quarter. We may conclude by saying that we know of neither disposition or authority in any one to prevent Miss Rush from engaging in the ministry, nor do we see why any one should be sensitive on the subject.

VISITING THE MINES.—Captain A.

P. Aukley, with his usual untiring energy, again visiting his mines in this and Josephine county. He came up from Portland by last Saturday's stage and proceeded immediately to Sterling where he remained until Monday when he started and started at once for Galice creek. Cleaning up, for the season, is progressing satisfactorily at both mines. The richness of both are established beyond a question. The Captain is well pleased with his prospect.

TRUMPHANT AGAIN.—The famous

and long contested case of Dowell vs. Griswold was again decided in favor of the former on last Monday. The verdict rendered was for \$30,200. This is the third trial of the case before Judge Deady, in two of which verdicts were rendered for Dowell, and in one the jury failed to agree. If it is contested further it will be before a higher court.

FOR THE LAKE OF THE WOODS.—

The family of J. A. Cardwell, Mrs. Kenney and family, Ladd Savage and Robt. Kahler and family started for the mountains yesterday for about a month of recreation and pleasure. They intend visiting Lake of the Woods and other places of resort in the vicinity of Mount McLaughlin before their return.

FATAL CASUALTY.—We are informed

by Robt. Garrett, who came down from Ashland last Sunday, that a man named Savage was killed, the first of last week, at Modoc Point by his team, running away and throwing him from his wagon, over a rocky precipice into Klamath Lake. It seems that some portion of the harness gave way, as he was passing round the point, causing the team to take fright and run. Both of the man's legs were broken and he was injured internally. When found, a few hours afterwards, he was in the Lake with his head just above water and still living. He was taken to the residence of Captain Ferree where he died in about ten hours. He gave his name and the condition of his business to Major Keiffer, who happened by, which was telegraphed to his son in San Francisco, who arrived in Ashland on Sunday on his way to Linkville. Mr. Savage was peddling dry goods and in good circumstances.

IMPORTANT DECISION.—The "Stand-

ard" says that the case of J. B. Crossen Sheriff of Wasco county, vs. K. F. Earhart, Secretary of State, was submitted to Judge Bellinger of the Circuit Court of that county on the 22d inst. The question involved was in regard to whether sheriffs in conveying convicts to the penitentiary or insane persons to the asylum were entitled to receive mileage for such service. Under former administrations, mileage was allowed, but Secretary Earhart refused to do so, in consequence of the order of the investigating committees. Judge Bellinger decided in favor of defendant and that Sheriff's had no right to charge mileage for such service.

DIPHTHERIA.—From all we can learn

it seems that this dreaded disease has made its appearance in several places in this, and Applegate, valley. Many remedies have been published at different times, and recommended as certain cures, but there are none that have not failed when administered too late. When the disease has reached a stage when it is thought a physician should be summoned it is often beyond the reach of any remedy. It behooves parents, therefore, to be watchful over their little ones until the danger is past. If a child appears puny, or complains in any manner, examine its throat and tongue for symptoms of the disease, and if found loose no time in getting medical aid.

MUSICAL TERM, TAUGHT BY MR. THE

Kugler, will close on the 3rd of August proximo. The first term for the years 1879-80 will commence on the first of September. Mr. Kugler will at the same time open a musical conservatory where complete knowledge of that exquisite art will be taught with all the facilities found in the most favored locality. The people of Jacksonville and vicinity are justly proud of this new addition to the educational attractions of the town. Mr. Kugler is unexcelled as a teacher of music and deserves liberal patronage.

REAL ESTATE TRANSACTIONS.—The

following are the deeds recorded since the last issue of the SENTINEL: D. A. Stearns, Sol Abraham, J. Brandt Jr., W. T. Bodley, W. R. Willis R. Mallory, Wm. Carl and W. Healy to Applegate Grand Mining Co., certain ditches, water rights and mining ground on Applegate. Consideration \$500,000.
