

LOST.—A gold necklace and locket was lost on the streets one day this week. The finder will confer a favor and be suitably rewarded by returning it to John Orth.

PROPER PROTECTION.—A gentleman from Ashland informs us that the wall of the damaged Odell's building is being blanketed nightly; we suppose to prevent it from catching cold.

PASTORAL VISIT.—Rev. F. X. Blanchet will leave to-morrow morning, by stage, to make a pastoral visit to his flock in Josephine county. The father expects to be absent about two weeks and we wish him a pleasant trip.

SCALDED.—A child of O. Collins of Squaw creek, was badly scalded last week by the upsetting of a kettle of water. The child was only about a year old, and was sitting before the open fire place when the accident took place.

SOCIAL DANCE.—A social party will be held at the Club Rooms next Friday evening, January 23d. Excellent music will be furnished for the occasion by Prof. Scott's string band and a general invitation is extended to all. New music and dances will be introduced at that time. Tickets, \$1.

NEW SOCIETY HALL.—The Improved Order of Red Men have rented nearly all the upper story of Orth's building on Oregon street, which is to be fitted up elegantly for the meetings of the order. Their new hall is to be 36x30 feet with two ante rooms. We have not learned what their old hall in the Cronmiller building is to be put to.

ST. MARY'S ACADEMY.—Notice elsewhere the new advertisement of this popular institution which is entering on its sixteenth year of prosperity. Notwithstanding the increasing school facilities of this county St. Mary's is still enjoying its full share of public favor, and during its long existence there has never been the slightest shadow on its reputation. The attendance is quite large, the number of music pupils being thirty, the teaching of music being a specialty.

PROPERTY SOLD.—The Skidmore property in Ashland advertised to be sold at Sheriff's sale was knocked off last Saturday for the sum of \$1,575. That portion lying opposite the Academy, comprising about three acres of land, was sold to Thos. Smith for \$685. The remainder of the property was bid in by E. K. Anderson the judgment creditor for \$900. Bidding was for a while quite lively, and it is thought the property brought its full value.

NEW ROAD PROPOSED.—We hear that an effort will be made to open a new road to Linkville next Summer by the way of Little Butte, which will also open a new and easier route to Fort Klamath. The road will follow, near the railroad survey up Little Butte and can either strike the present road near the "Brown" ranch or go direct to Linkville. Intersecting the "Dead Indian" road at a point near the Lake of the Woods, that road would then be taken to Fort Klamath via Pelican Bay. The ascent is said to be very easy and the route over very superior ground for a road.

THE GRIST MILL.—On Monday C. J. Howard surveyed a parcel of ground containing a fraction over five acres, in which the stream grist mill is to be located. The tract is just outside the corporation limits and runs South to Peck House gulch. It was purchased from Major Glenn and is a very suitable location with ample water and plenty of room for stock, yards, &c. The thirty-six horse power engine at one time in use in the quartz mill up Jackson creek has been purchased and it is said will furnish ample power for three runs of "burrs." It is thought the mill company will put in a "run" for buckwheat which no doubt would prove profitable. Work will soon commence on the foundation.

SAFE IN PORT.—Joe. Beggs, the captain of the biggest freight-teams in this section, gives a graphic account of his perilous voyage from Roseburg to Jacksonville. First day out, heavy head wind blowing; came to anchor in Green's lane, team laboring fearfully in the trough of the swelling ocean of mud. Second day, set sail, heavy mud swell nearly swamped the whole outfit; have the lead, found rich mud bottom at ten fathoms at the foot of Roberts' hill; lay to under close reefed wagon sheet till wind lulled. About 2 p. m. hailed strange wagon in distress and laboring heavily but before a boat could be launched she went down in the mud with all hands. Third day, sailed out again with loss of anchor and fifteen fathoms of chain. — Let us build that road to the coast.

ACCIDENTAL DROWNING.—On Friday last Mrs. Hannah Herd, who had been at the residence of Dr. Jack on Applegate, started from there on foot to McKee's place, and on Saturday her body was found in Buckley's field, about one hundred and fifty yards below the point where the Crescent City road crosses Jackson creek. The supposition is that the unfortunate woman, who for several years has been afflicted with paralysis, attempted to ford the creek which was running swiftly and in losing her footing was drowned and washed out in an eddy where found. Coroner Huffer proceeded to the scene of the accident on Monday, but no inquest was held, there being no reason for any official investigation. The deceased was the wife of James Herd, was a native of Schenectady, New York, and was 43 years of age.

LOCAL ITEMS.

Tact. Economy. Industry. Perseverance. Insure success. Keep a diary. Start a henry. Let us have peace. Fix up your fences. How is your cough? Beautify your homes. Butter and eggs scarce. Look to your fruit trees. Set out strawberry plants. Vaccinate against ignorance. Jack rabbits succumbed to the cold snap. Get your agricultural implements in readiness. Suits, worth \$15 for \$9, at the New York store. Paints, oils, varnish, glass and putty at John Miller's. Cotton batting, 27c per pound, at the New York store. The Coos Bay "Argus" has suspended publication; cause, lack of support. The best carpenter's, wagon maker's and blacksmith's tools at J. Miller's. Tobacco in all brands first quality, 65c per pound, at the New York store. Blessed is the man who expects nothing, for he shall not be disappointed. Table oil cloths in all colors first quality, 50c per yard, at the New York store. Hunter's specs, spy glasses, magnifying glasses and pocket compasses at John Miller's. A party at James S. Howard's on Tuesday night of last week, was a very enjoyable affair. M. E. quarterly meeting at Phoenix next Sunday. Preaching by Prof. L. L. Rogers, of Ashland.

The best steel spring shovels, picks and steel sledges, hickory pick and axe handles at John Miller's. Fluting machines, polishing irons, clothes wringers, wire clothes lines, and scrubbing brushes at John Miller's. We call attention to an important notice of Drs. Vrooman and Aiken, making a reduction of prices in certain cases. Cut nails, wrought nails, cleat nails, lat nails, finishing nails, fencing nails, horse nails, and iron and steel horse shoes at John Miller's. The Singer Sewing machine is ahead of all and can be had very cheap at the Singer Agency. Call and examine before purchasing a machine. J. C. Overbeck has gone into the hair-dressing business, having taken the position of hostler at Oak Grove, fourteen miles South of Roseburg. Danl. Cardwell has become associated with his father in the livery business here and is to be a full partner hereafter in the Union stables. The Elkton bridge across the Umpqua river, was washed away by the late freshet in that stream. This will be a serious loss to Douglas county. During the late storm many persons near Jacksonville could plainly hear the breakers beating against the rock bound sea shore—sixty miles away. On Jan. 6th Gov. Cobb of Alabama appointed Luke Prior, (Dem.), to fill the vacancy in the United States Senate occasioned by the death of Senator Houston. Mrs. J. C. Scott and Miss Emily Brown propose opening a dress-making establishment here soon and will be prepared to furnish the fair sex with anything in that line. A foul scandal has been circulated with regard to the "purity" of Dillon's celebrated corn juice. It is the choice product of the Blue grass region in Kentucky and won't intoxicate if moderately taken. Farmers throughout the valley say scarcely any grain has been sown yet and that only a few plows have been started in very dry localities. There is time enough however to sow more grain than we need. We learn that Patrick Donegan has lost several hundred sheep out of his band on Rogue river. We are sorry to hear of the losses of our stock men, but it seems unavoidable and they are standing their losses patiently. We regret to learn that Capt. J. D. Miller, proprietor of the Oregon City Flouring Mills, has failed with liabilities about \$90,000. Capt. Miller, has the reputation of being an honest, hard working man.—Portland "Telegram."

An old German named Jacob Swann was cruelly murdered on his farm near Hillsboro, Washington county, on the 9th inst. A young man named Henry Wintzingerode has been arrested on suspicion and lodged in jail at Hillsboro. The "run" across the Herrin lane is impassable since the destruction of the culvert, stages being now obliged to go to Phoenix by the valley road. Judge Day has ordered Helms the new supervisor of that district to procure lumber and put in a temporary bridge. The Jacksonville Literary Association elected the following officers last Saturday evening: B. B. Beckman, president; Miss Lillie Ulrich, vice-president; Miss Emma Ulrich, secretary; Fred Cronmiller, treasurer; Chas. Wolters, warden.

The best assortment of bolts, screws, tire and copper rivets, rasps, files, pinners, nippers, tongs and hammers, at John Miller's. Wm. Foley, Esq., travelling agent for the Portland "Daily Standard," is in the city looking up the interests of that staunch daily. Bridle bits, spurs, stirrups, hames, toggles, buckles, rings, awls, needles and all thread, hair brushes and curry combs, at John Miller's. Mr. Jay Beach of Linkville has purchased another fine Hambletonian stallion in Kentucky and will go East for him some time in February. Herman v. Helms this week removed the two large locust trees in front of his residence and replanted them on the outer edge of his sidewalk. Breckenfeld is still at the old corner, good humored as ever, and ready to sell at "hard times" rates his large stock of staple and fancy goods. J. G. Birdsey of Central Point is wrestling with the measles: Sorry to hear it. He should have tackled that annoying disease in his younger days. The value of wheat exported from the United States in 1879 was \$210,355,528 over \$48,000,000 greater than the value of cotton exported. What is king! A young couple from Josephine county went South on the stage Saturday evening. They were properly mated for matrimony but did not buy a license here. Business transactions of the Roseburg Land Office for December is as follows: 202 acres sold for cash; 19 homestead entries, embracing 2,880 acres; 11 final homestead entries, embracing 1,669 acres; 13 pre-emption filings; 4 donation certificates issued. The Pendleton "Independent" claims that the law has not been vindicated by the acquittal of J. H. Turner for the killing of Harry Strobe, at Pendleton a short time since, and claims that the prosecution of Turner was a farce, and handles the prosecuting attorney without gloves. Week before last an extensive rock slide occurred on the wagon road at Mule Hill Bend, Big Applegate, which placed an effectual embargo on teaming. The terminus of the road will be at Nick Wright's until the "slide" can be removed by the citizens of the upper Applegate country. A gentleman named Bill Williams, and his family had a hard trip going from Jacksonville to Hillsboro, lately. They were seventeen days on the road, and suffered much from the severe cold. They were compelled to camp out several nights in the snow and at one time were twenty-four hours without anything to eat.—Yreka Union.

Accounts of the late storm, published in the Portland dailies show that the force of the wind was very much greater in that city than it was here. Private letters, however, indicate that the damage has been vastly underrated and it is far more serious than the papers are willing to admit. It is said that the velocity of the wind in Eastern Oregon was ninety miles per hour, at Roseburg it was 27, and at Portland 55 miles. The people most needed in Oregon, for whom the chances are inexhaustible, are those who want to secure themselves a home, cultivate the soil and raise stock. The government offers a homestead to any settler on the public domain, while under the desert and pre-emption laws any quantity can be secured. Any kind of stock-raising is safe and exceedingly profitable. It is now to those who begin with nothing, but any one who understands the business will can usually get plenty to keep on shares, and may soon become an independent proprietor. In Butte county the care of the sick during 1879, averaged 36 cents per day, per capita, including the salaries of the physician and superintendent. The "Register" in alluding to the matter, says: "Knowing from personal observation that but few, if any, farmers in the county furnish better food to their families than is furnished to the inmates of the hospital, we are astonished at the showing of 36 cents a head as being the cost. It must be remembered also in this connection that liquors, wines, ale, porter, etc., are furnished for medicinal purposes whenever deemed necessary by the physician. The figures show a management of the institution highly creditable to some body."

STOCK AT HARNEY.—A letter received by Mr. Hanley from his son John, under date of Jan. 6th, states that snow had been lying in Harney valley for sixty days but that stock were not yet suffering. At the date of writing there were four inches of snow and although stock men were generally looking "blue" the writer saw no reason for discouragement. The best assortment of Rodgers and Westholm's cutlery in the market, at John Miller's.

MINING ITEMS.

Three undershirts for \$1, at the New York store. Since the frost subsided everything looks favorable for a successful mining season. The best sporting, blasting and giant powder, fuse, caps and wadds at John Miller's. Piping at the "Dry diggings" at Grants Pass is going on night and day with a full head of water. Keaton & Klippel on Poorman's creek are working with a good head of water and prospects flattering. The Squaw Lake Co. have been interrupted by slides but Supt. Klippel expected to be piping again on Saturday last. Miners on Foot's creek are tearing the dirt up in that camp at a lively rate. Plenty of water and a good prospect for a big harvest of "Just."

Alex. Watts of Williams' creek reports that he has done more washing on his "horse head" claim than he did during the whole of last season. Jackson creek is unusually flush and every miner is busy. A large amount of the rich dirt of that camp will be moved before the season ends. Sturges & Co. on Jackson creek have a force of sixteen men ground-sluicing in their two claims, and have already moved more dirt this season than was moved all last winter. Pipe laying at the '49 diggings owned by E. K. Anderson was completed on Saturday and work commenced in earnest. That camp always "pans" well for its fortunate owner. Thos. Kahler brought into town yesterday, a nugget of gold and quartz weighing five and one half ounces. It was taken out at the Fort Lane diggings, and was worth about sixty dollars. The operations of the Sterling hydraulic company have been retarded by numerous slides in their ditch owing to the melting snow. Piping commenced yesterday and no further interruption is anticipated this season. From Galice creek we learn that the English and Blue Gravel companies are piping with a full head of water and moving immense quantities of dirt. The snow along the line of the above companies' ditches averages five feet in depth, making a splendid water supply as it is melting very slowly. Green Bros. are again crushing rock from the Sugar Pine ledge; work having been suspended for a short time during the freeze.

IS IT AN EPIDEMIC?—Most everybody you meet on the street or elsewhere is complaining. The disagreeable, damp, chilly weather of the past week seems to have had a very damaging effect upon the respiratory organs of many of our people. At this writing, colds, catarrhs in the head and breast, coughs, sore throats and hoarseness prevail extensively—in fact, more so than was ever known to prevail in this favored climate of our county. So far we can hear of no very serious cases, but the complaint takes in young and old. Ye local, whose nasal organ has been running quite liberally, is of the opinion that the affliction is a combination of influenza and epizootic which must run its course. The best curative or preventive is, to keep the feet from getting wet, protect the extremities from the heavy atmosphere, and to blow the nose as often as required. THE ASHLAND BUILDING.—We learn from T. O. Andrews of Ashland that the damage done to the building, erected jointly by the Odd Fellows and several merchants of that place, by the setting of the foundation is very serious. Mr. Andrews says that when the trench for the foundation was dug, water to the depth of eighteen inches was struck; the trench was then filled with gravel and the foundation rock laid on the gravel, and it seems that neither the stone mason nor brick layers are to blame. Those whose judgment is worth having, think that no tinkering process will be sufficient to restore public confidence in the safety of the building. The damage is a matter of serious regret as the building would have been an ornament to Ashland and from the fact that the "Tidings" is still silent we apprehend that "somebody blundered" and is afraid the matter will be made public. HINTS TO CORRESPONDENTS.—Write often and tersely. If no special items of public importance at hand give general news, even births or marriages are worth publishing. Never mind the spelling or grammar; the printer will attend to that. Give facts, but do not consider that what to the correspondent may be a side-splitting joke at the expense of a neighbor, is of the not the slightest importance to the public. In other words don't abuse yourself by treading on your neighbor's corns, at the moment he might be sticking a pin in you. HORSES SUFFERING.—Matt Obenchain informs us that the storm has been very severe on horse flesh on the Butte Creek range. He has thirty-five head that have been "surfeited," that is: so drenched with rain, wet and snow while exposed, that many of them have lost nearly all the hair from their backs. The Obenchain boys have lost several head of horses but think by careful treatment they will save those now under cover. DELAYED.—An interesting communication from Kerbyville signed "College" has been delayed and is now too late to go in "extenso." Among its items is one showing the extraordinary capacity of the Kerbyville folks for dancing twelve hours on a stretch in dreading great powers of endurance. It also describes the tribulations of some "couples" who left "Kerby" in sleighs and returned on foot.

YOUNG MEN'S MEETING.

At a public gathering of the young men of Jacksonville, held at the Court House Monday evening, January 19th, Charles Prim was called to the chair, and Wm. Cardwell acted as secretary. Charles Wolters was called on to state the object of the meeting, which he did by saying, that there existed in our midst a necessity for a proper place of resort where a young man could go of evenings and spend his spare time more profitably, than hanging around saloons as at present. He said, that the establishment of a public library and reading room and introduction of such amusements as are both instructive and entertaining, would go far in employing our young men in their leisure moments. He hoped that the meeting would take steps to secure a hall, &c. On motion, a committee of three was appointed, consisting of Wm. Mensor, A. Maegly and Fred. Overbeck, whose duty it shall be to ascertain at what figure the Cronmiller hall can be had, also, to make an estimate how much money it will take to furnish room, etc., and to report at the next meeting. By invitation Ad. Klippel addressed the meeting. He approved the object of the proposed enterprise, and believed if once in running order and properly conducted, would be the means of much good to the young men of our town. He urged the necessity of starting in right, even if it did take a little more time to effect an organization. He considered the undertaking a praiseworthy one, and he had no doubt that by proper management the enterprise would enlist the support not only of the young men of Jacksonville but of the old men also. On motion, a committee of three was appointed, consisting of Messrs. Prim, Weber and Klippel, whose duty it shall be to draft a Constitution and By-Laws for the government of the proposed society, and to report at the next meeting. Adjourned, to meet Thursday evening, January 23d.

DEATH OF LIEUT. E. H. SHELTON.—Last Wednesday a report reached us that Lieut. Shelton, who started from Jacksonville by stage Northward bound had died before reaching Canyonville. The reports were conflicting but we have learned the full particulars, which show it to have been partly the result of accident, for which no blame can attach to any person. While riding through the canyon Shelton resisted the driver to stop and allow him to ride on the inside, as he was wet and cold. The request was at once complied with, but before proceeding far the wheels of the stage struck a log lying in the road, bringing the vehicle to a stand still, the shock throwing Shelton nearly out of the stage, and by the time he was lifted up by Dr. Callender, who was a fellow passenger, life was extinct. The body was placed in a coffin on arrival at Canyonville, and pursuant to instructions from Army Headquarters at Portland, forwarded to that city. Shelton was 1st Lieut. of Co. "L," First Cavalry U. S. Army, and was on leave of absence from Fort Klamath where his company is stationed. He was a genial, courteous gentleman and his loss will be felt by his brother officers, but more by the stricken wife who was awaiting his coming. Although Dr. Callender expresses no opinion, it is probable that he died from heart disease or an apoplectic fit.

LEGION OF HONOR ENTERTAINMENT.—On Friday evening last the public were again delighted with one of the choice entertainments furnished by the Temperance Legion. It was remarked early in the day that interest in the movement seemed to be abating, but long before 7 o'clock the Court House was jammed to its utmost capacity. The programme was faithfully carried out with the exception of the "address," the appointed speaker having failed to come to time, and the "quartet by the old folks" the latter evidently feeling that the "young folks" had done so much better than they possibly could, that they were ashamed to put in an appearance. It is evident that this movement is increasing in popularity. It is developing the musical and literary talent of our young ladies and gentlemen, elevating the public taste and diverting the attention of our boys from vicious habits and evil associations. About twenty more signatures were added to the pledge and it is worthy of remark, that the very best of order and decorum were observed. A committee consisting of Mrs. J. W. Merritt, Miss Sallie Cardwell and W. M. Turner was appointed to prepare a programme for the next entertainment which will be given on Friday evening, Feb. 6th.

THE GALE.—The great gale on the 9th instant that swept the coast and the interior of Oregon was the severest ever known in the State. The wind blew at the rate of 56 miles to the hour, lasting the greater part of the afternoon. The amount of damage sustained was immense. Whole forests were hurled to the ground. Judging from the accounts that reach us, not a town in Western Oregon and Western Washington territory but what sustained more or less damage. The Portland and other papers which reach us give detailed accounts of demolished factories, school houses, churches, residences, barns, orchards, fences, etc. But the most lamentable feature of the cyclone was the loss of life by the falling of roofs and trees. The exact number of lives lost has not yet been ascertained.

RELIGIOUS SERVICES.—Elder Peter son will preach at Eagle Point next Sunday, 25th inst. Rev. M. A. Williams will preach at the M. E. Church in Jacksonville at 11 a. m. Sunday next. Coffee, extra Costa Rica, \$1 pound for one dollar, at the New York store.

FROM THE MEADOWS.

EDITOR SENTINEL.—As we live in a remote part of the county I don't know that it will interest any of your readers to hear of us, but I will give you a few items. The freeze is over and roads almost impassable. Holidays are over, and everything is quiet again. A sad accident happened on the second of January. A son of Mr. Noah, aged 16, while returning from a ball and while crossing Evans creek, fell off a log and was drowned. Mr. Noah, assisted by the neighbors, succeeded in finding the drowned boy after seven hours search. Uncle Jesse Thomas & Co. sustained considerable damage by the high water, but they are in good spirits and will make it all right in the Spring. We will have a new postoffice here soon with T. T. Thomas as postmaster. MEADOWS. Evans Creek, Or., Jan. 16, 1880.

ASHLAND ITEMS.—From the "Tidings" A leap year ball is to be given by the ladies of Ashland Friday, January 23d. Joe. Winslow of Butte creek, shot thirteen quail's heads off in fourteen shots on Christmas day. The medical fraternity of Ashland seems to be divided in opinion as to whether the ailment which has been circulating about among us is the measles or chicken pox. Mr. G. W. Wilshire informs us that the mercury marked 6 deg. below zero at Big Butte on the cold morning, and that a number of birds were found frozen to death on the boards in Parker's lumber yard. We are informed by Mr. Baum that Coon, the freighter who left Roseburg for Ashland on the 12th, has been "spoken." We are relieved greatly, having had some apprehension that he had foundered and gone down with all on board. Lester White of Ashland, received a letter dated January 9th, from John Cardwell, who is at Colwell & Bybee's ranch on Tule lake, in which the writer states that John Glenn had just reported 300 head of cattle mired at Little Klamath lake so that they could not be taken out. The cattle had gone out upon the ice to get water and to reach the tules during the hard freeze, and the thaw came so suddenly that they could not reach solid ground, and were left floundering in the water and mud.

THE DOCTOR'S FEE AND THE WAY OF THE WORLD.—Patient with severe colicky pains at 3 a. m., says to his doctor: "Save me, and I will give you a check for a thousand dollars." As patient is wealthy, doctor smiles "childlike and bland," and administers an hypodermic injection of morphia. Five minutes have elapsed, and patient feels easier. "Keep at it, Doctor, and I will give you a check for five hundred dollars." Five minutes more, and patient droivels tears in his beard, smiles his thankfulness through his tears, and assures the doctor that he feels like giving him a "fifty-dollar bill." The doctor calls the following day, finds his patient up and dressed, and ready to go to his business. "You see, Doctor, I have got over my little attack without giving you much trouble, but be sure to send in your bill the first of the month." When six months elapsed the doctor sent in a bill amounting to three dollars. His grateful patient pressed him to cut it down to two. After so doing the Doctor sued to get it, and his patient put in a stay of execution. Case still on. The doctor has lost his faith in grateful humanity, has moved to Pine Ridge, on the Hudson, and is negotiating for a partnership with the "Successful Practitioner."—"Medical Record."

ENCAMPMENT INSTALLATION.—The following are the new officers of Table Rock Encampment, No. 10, I. O. O. F., as installed by D. D. G. M., Silas J. Day last Saturday evening: C. P., Thos. B. Kent; H. P., S. J. Day; S. W., Fred Lay; J. W., Frank Krause; Scribe, John A. Boyer; Treasurer, John Miller; I. S., Fred Otten; G. K., Kubli; Ist W., Eiler Band; 2d W., J. D. Fountain; 3d W., A. D. Helman; 4th W., W. W. Kentaur.

LEAP YEAR IN ASHLAND.—The "Tidings" says: "The young ladies hereabout have already begun to take advantage of their leap year privileges. We have noticed at public gatherings several couples of which the stouter member seemed to be under the shawl." We should remark that this is just the nicest yet; and our boys are dying for some of the Ashland girls to come to Jacksonville and bring their big shawls along. Yum! yum!

THE STORM AT GALICE.—The late heavy wind storm appears to have been very severe at Galice. That camp is said to have been near the Eastern edge of the cyclone as the greatest damage was done to the Westward. An eye witness describes the gale as appalling, the wind roaring in the mountains like the heaviest thunder and trees falling in every direction.

RABBITS PERISHED.—The recent cold weather in this valley has not been without its uses. Since the disappearance of the snow the carcasses of large numbers of "jack rabbits," which are very destructive to the crops, have been found, the animals having been frozen to death or arved.

TAKE NOTICE.—Those owing bills at "The City Drug Store" are notified that they will be refused credit until they settle, and interest will be charged from this date, January 1, 1880. ROBERT KAHLER.

The latest improved Sharp, Ballard, Remington and Winchester rifles, warranted to be the genuine article, at John Miller's. Fifteen yards print, for \$1 at the New York store.

CASH PRICES AT REAMES BROTHERS' STORE

JACKSONVILLE, OREGON. GROCERIES, ETC. Choicest Costa Rica coffee, per lb. 25c. San Fran. refined (C) sugar, per lb. 12c. Crushed Sugar, per lb. 12c. Extra C syrup, per 5 gallon kegs. \$5 25. All other good in our stock will be sold for cash at prices in proportion to the above.

HUNTER'S EMPORIUM! J. SO. MILLER, Propr. JACKSONVILLE, OGN. SAN FRANCISCO Cigar Store. NEWSPAPER STAND.

THE UNDERSIGNED HAS OPENED a general variety store with Geo. W. Elliott on Main street, where he will keep a full assortment of cigars, tobacco, smoking articles, candies, stationery, cutlery and toys. He invites the public to give him a call and assures all that they will call again. Latest papers from the East always on hand. JAKE MARCUSE.

HENRY WEBER, BOOT & SHOEMAKER. NEXT DOOR TO SCHUMPF'S BARBERSHOP, Jacksonville, Oregon. WOULD RESPECTFULLY INFORM the citizens of Jacksonville and surrounding country, that I have opened a shop, and should be pleased to serve them in my line of business. Custom-made work and repairing promptly and neatly executed on the shortest notice. HENRY WEBER. LINKVILLE SALOON. MAIN STREET. Linkville, Oregon, J. K. LEARD, Proprietor.

HAVING TAKEN CHARGE OF THIS popular resort I am now prepared to furnish the best of Liquors, Wines, and Cigars, and ask a share of the public patronage. J. K. LEARD. IMPORTANT NOTICE. HAVING BEEN INSTRUCTED BY the Board of State Land Commissioners to forward all notes upon which interest is due for more than one year to the Clerk of said Board at Salem, I hereby give notice to all persons knowing themselves thus indebted to come forward at once and make payment, as I must make a statement of such delinquencies by the last of the year and also forward said notes. The forced payment of these notes may be avoided by prompt action in this matter. N'WMAN FISHER, Treasurer of Jackson County, Oregon. Jacksonville, Dec. 10, 1879.

Notice. Having sold my butcher shop I hereby notify all persons indebted to me for meats that they must make payments for the same by the 10th of January, 1880, or I will have to force collections. I must have money. The books and accounts are in the hands of M. Caton, who is authorized to make settlements. Wm. BYRBE. Jacksonville, Ogn. Dec. 23, 1879. Notice of Settlement. Having sold my butcher shop to N. Fick this is to notify all persons indebted to me on account for meat furnished, that they must make immediate payment of the same to Milo Caton, who is authorized to collect and receipt for all money. W. B. HAY. Jacksonville, Jan. 5, 1880. Fine ornamental clocks, at the New York store, at cost.
