THE WASHINGTON OF GERMANY .-Charles Theodore Baron von Washing-ton, Colonel of the royal army of Bavaria, is the descendant of the Holland branch of the family of Washingtons. Tracing the genealogy of the Baron's family the fact is incontrovert-ibly established that his ancesters ere the direct descendants of a brother of John Washington who was the grandfather of the immortal George Washington, founder of the American Republic. In 1657 the Washingtons left Durham county, England, John emigrating to Virginia and his brother (whose given name does not appear in the German account) moved to Holland. A descendant of the Holland branch founded the Bavarian family by that name, and they are therefore blood relatives of Gen. George Washington. Charles Theodore is still a young man, and has lately manifested a desire of visiting America with a view of personally examining the practical workings of the Government founded by his great cousin.

A true wife will not cherish her husband's weakness by working upon them to her own advantage. should not irritate him. If irritation should occur, women must expect to hear from most men a strength and vehemence of language far more than the occasion requires, Mild as well as stern men are prone to this exaggeration of language; let not a woman ever be tempted to say anything sarcastic or violent in retaliation. Men fre-quently forget what they have them-selves said, but seldom what is uttered by their wives. They are grateful, too, for forbearance in such cases, for while asserting most loudly that they are right, they are often conscious that they are wrong.

Buy no sewing machine upon the reccommendation of agents, or other interested parties. Examine for yourself and let common sense guide you in your selection, always remembering that the best is the cheapest. Many thousands of persons have purchased inferior ma-chines, used them a month or two, and then traded them off at one-fourth their cost, simply because they did not stand the test when in practical use. That old reliable machine, the Singer, has tood the test for thirty-five years, and has never been found wanting when called upon to do any kind of work. The people appreciate this machine, having purchased over 3,000,000 of them, and the sales of the Singer company exceed those of all other comvanies combined. Last year's sales were over 431,000.

Within the past few years there has been a desperate effort in this and Marion counties, to predjudice the minds of the public against my Percheron Stock; and in order to give this slander some appearance of bring so, have destroyed two of as fine draft stallions as ever came to Oregon, with several colts and young horses.

That the public may not be deceived by these base slanders, I will soon publish a circular, giving a few of the many facts in the case, with the high estimation this stock is held in other places, which will be sent free on application.

It is well-known in this s ction, of the valuable animals for farm and team use that were raised from the two French horses brought here by Mr. S. Colver some years ago. They were half-breeds, but when breeders can secure the service of a pure-blood horse for a reasonable price they should avail themselves of the privilege. Some of the finest draft colts at the last State Fair were sired by Gen. Fleury.
