THE MUD SLINGERS.

We have thus taken up in rotation the three charges upon which Gen. Garfield is now being showered by the nud-slingers, and have endeavored to give our readers the exact and literal truth in regard to each. We have not nscientiously concealed anything detrimental to General Garfield, but have endeavored to give the exact facts, upon which each reader can form his own judgment.

We may add that since the occur nce of the above transactions General Garfield has been three times re-elected to Congress from his old district, and has been elected to the U. S. Senate by the unanimous nomination of the Republican members of the Ohio legisla ture, -something which never before occurred in the election of a Senator from that State. Furthermore, statistios prove that the people of Garfield's district are more generally educated than are the people of any other Congressional district in the United States; and that they carefully weighed and considered every atom of evidence against Garfield during the three canrasses he has since made for their suffrages is beyond question. Hence, his lection by increased majorities is the est possible answer that can be made to the charges against him.

We do no expect that the foregoing will stop the working of the mud-machine within the radius of the SENTI-NEL's circulation; but we present it to the honest and true men of all parties as containing the facts. By them let Gartield be judged.
