OREGON SENTINEL.

JACKSONVILLE

WEDNESDAY, DECEMBER 15, 1880.

NOTICE.

Land Office at Roseburg, Ogn. June 30, 1880.

To All Whom It may Concern:

Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all preemptions, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

W. F. BENJAMIN, Register.

PREACHING.—Rev. D. A. Crowell will preach at the M. E. Church, at 11 A. M. next Sunday, December 19th; and at the Mound school house at early candlelighting the same night.

A SOCIAL PARTY.—Louis Herling on Poorman creek will give a social party at his hall on Christmas eve, Dec. 24th. all are invited and an enjoyable time may be expected. See advertisement.

PROPOSED INCREASE.—We hear that the proprietors of the Ashland Woolen Mills intend putting in about $1500 worth of new machinery soon. They find it impossible to fill their large orders and are now running day and night.

EXPECTED.—Miss Frankie Moore and Mrs. Hale of Linkville are expected here next week to spend the holidays among friends. They will be accompanied by Arthur Langell of Langell valley, and it is thought our friend Charley Moore will put in an appearance also.

CHRISTMAS TREE.—The Union Sunday School Christmas festivities will come off at the M. E. Church on Christmas Eve, (Friday Dec. 24th) and not on the night of that day as previously announced. The house will be opened at early candlelighting, and the exercises will commence at six o'clock sharp.

CHANGE OF BASE.—The Portland Bulletin announces that henceforth it will support the party that supports the government—that is that it will be Republican in politics. We are glad to know it, and hope to see it do good work for the principles of Republicanism, as those principles are the solid foundation of true Democracy and on them alone can the Republic stand and prosper.

PROSPECTIVE IMPROVEMENT.—The Methodists of Jacksonville are about disposing of their parsonage property on California street, the proceeds to be applied in erecting a new parsonage near the church and on the lot fronting on Fifth St. The church itself is to be moved nearer the street fronting on Fourth, and a new pailing fence will be erected around the entire property. This improvement when made will add greatly to the appearance of that part of the town.

STATE LINE HERALD.—The Lakeview Herald, Watson Bros., publishers, comes to us in a bran new dress, after an absence from our table of two and one-half months. Its forced suspension was caused by a fire consuming the major portion of its printing office material, entailing a loss of nearly $1000 with no insurance to fall back on. Battling with adversity brings out the best metal that is in a man, and we think the Herald's temporary misfortune will prove a blessing in disguise. May it live long to do battle for the right!

THE CROPS.—The late rains and the exceedingly soft balmy weather that we have enjoyed for the past ten days have been most favorable for farming operations throughout Jackson county. Plowing and seeding are progressing rapidly and it is apparent that a much larger acreage will be sown than was sown last year and with a far better assurance of a full crop. Indeed there is every prospect of a large surplus next harvest and and a probability that flour will again be down to its minimum price. The parties who experimented with sorghum cane last season, which was an exceptionably unfavorable one, are satisfied that it will be a safe and profitable crop and intend planting largely at the proper season. The latter is an industry that should be encouraged as it will save a large expenditure of money that never returns to us. Taken altogether our crop prospects were never better than at present.

A HIGHLY SATISFACTORY ENTERTAINMENT.—On Friday evening last the citizens of Jacksonville were treated to one of those unequal entertainments for which the Legion of Honor has became famous. The programme, consisting of music by the string band, singing and instrumental playing by the choir, was one of unusual interest, and every one taking part in the performances did so in a manner highly creditable and satisfactory. Indeed, never has anything struck Jacksonville that has given such genuine pleasure and been the means of cultivating a taste for song, music and temperance among the masses of the people as did the Legion of Honor. Everybody attends, save a few incurables whose tastes have become so vitiated by strong drink that they are utterly lost to society as well as to themselves. The entertainment was held at Holt's Hall as the Court House was occupied by a night session of the Circuit Court. During the evening's exercises, President James A. Cardwell had charge of the programme. A collection was raised, amounting to $8 25, which was applied toward paying the rent of the Hall. The Misses Annie Little, Ella Prim, and Wm. L. Bilger were appointed a committee to get up the programme for the next entertainment, which will be on some Friday night after the holiday festivities.

Jesse Houck will give a social party at his hall on Christmas. Under his management no one will doubt the success of the ball and the excellence of the supper.

President Hayes has pardoned Dan Smith, who was convicted of robbing the mails in Southern Oregon several years ago and sentenced to eight years imprisonment.

Washing has commenced at the Sterling mine with a light head of water. There seems to be no immediate prospect of a heavy supply of water for mining purposes.

The Covert trial is still progressing. Up to this writing 40 witnesses have been examined, and lots of others were standing around the Court House waiting to be called in.

B. F. Dowell, Esq., is at present in Roseburg attending to his case against Jesse Applegate. Having obtained a judgment he has instituted proceedings to assist the execution.

Mr. Andy Davidson has already 360 acres of wheat sown and expects to sow over 400 acres more. He is of the opinion that we will have a good home market for all our surplus.

Col. W. S. Stone and Div. Agt. Carll of the Stage Co. are north looking after the interests of the line and fixing the boys for the holidays. They are expected here in a day or two.

Wm. Bybee writes that there is eight feet of snow on the mountain between Waldo and Happy Camp and that he is having considerable difficulty in getting his drove of hogs through it.

The cost of the Covert trial the first time would have purchased enough brick to build a new two story Court House for Jackson county, and the cost of the present trial would have finished it.

Because it is leap year is no reason that you can't buy your orange blossom a new hat or bonnet for a Christmas present. Call at Prim's and secure one of those beauties before they are all gone.

Read S. P. Hanna's notice and settle at once or you will find your account in the hands of a collector who won't take "no" for an answer. Mr. Hanna's patience is exhausted and he is in dead earnest—Take heed then.

Mr. Chapman of Linkville, of the firm of Chapman & Hale, has been in town several days the past week. His mother died at Lakeport, Cal., a few days ago, and Mr. Chapman will probably have to go to that place for a short time.

At the late election in California the vote for Member of Assembly in Solano county was a tie. A new election held on Saturday last resulted in the choice of the Republican candidate by 600 majority. Barnum did it with his little letter!

Alf. Slocum the energetic agent of Frank Bros. is preparing for the Spring campaign at Roseburg. Those wanting agricultural implements will find it to their advantage to consult him as wares are superior, his prices low and terms easy.

New Sewing Machines at E. C. Brooks' New Drug Store. Four different kinds of the latest and best improved machines made in the world. The Crown, the Eldridge, the New Home, and New American Machines. Price from $40 to $50.

Our little folks are looking anxiously for Christmas to come. It is to be hoped that Santa Claus will slight none of them. Parents and guardians and teachers can do much in inducing Saint Nicholas to visit the houses where good children live.

Bacon is very scarce in this market owing to the fact that but little is being cured, wheat ruling so high that it is considered more profitable to mill than to feed it. But little is coming in and "hog round" rules at 12½ cts., hams and shoulders at 15 @ 13 cts.

Mr. Adam Klippel, who edited the SENTINEL since July last, has retired and our readers will miss his pleasant, conservative style, Mr. K. discharged his duty with conscientious ability and Republicans are also indebted to him for other valuable services during the campaign.

We learn that John Chapman of Lower Gold Bluff, about fifteen miles below the mouth of Klamath river, has been cleaning up $1000 per day from the auriferous sands deposited by the waves on the beach. This claim has been worked for twenty eight years with varying success.

The celebrated "Canyon Road" case is again on the Court docket in Douglas county. This time Mr. Abrahams asks for an injunction against the Galesville and Canyonville Road Co. and, doubtless the case will again go up to the last court of appeal to be tried there on its merits alone.

Madame Holt has been awarded the contract for keeping state patients in the county hospital for $1 49 per day. Quite a reduction as last year $3 per day was thought to be exactly the proper rate. The reduction is due to the determined opposition of this paper to the former exorbitant price.

The Ashland Tidings learns that a faro game is running in Jacksonville right under the nose of the Court. If that paper tells the truth, and we have no reasons to disbelive it, then the statute is being violated and the gambling law should be enforced if the authorities can find time to attend to it.

The Independent expresses the belief that the O. & C. R. R. Co. will build fifteen miles of new road southward through Douglas county in 1881. We hope it may be well founded but cannot join in it, unless the road should change hands, and we speak advisedly when we announce a different opinion.

A. D. Helman, District Deputy I. O. O. F., started for Portland last Saturday to attend a session of the grand officers of the order. Important changes in the work of this order were made at the last session of the Sovereign Grand Lodge and, the present session of the state officers is for the purpose of receiving the new work, which goes into effect Jaunary 1st.

Corlies Merritt of the Tidings and Johnnie Eubanks stepped into our office on Saturday evening but their visit was briefly pleasant, and they evidently preferred talking to something fresher than an old dried up newspaper find, so they got.

Lewis G. Ross, one of the rising young men, of this county, has received and accepted a call as principal of the public school at Lakeview, and entered upon his duties Monday Nov. 29th. The Herald gives him a merited send-off, and says his appointment is an assurance that the school has entered upon a period of great success and usefulness. Mrs. McKendry is the assistant teacher.

Bro. Kelly of the Independent declines to endorse Mrs. Duniway's "woman suffrage" ideas. He remarks that woman should be protected, fostered, loved, respected, worked for, hugged, kissed and treated as God's best and only true gift to man in this troublesome life, but goes back on the traditional gallantry of his race by desiring to withhold the ballot from them. Kelly ought to be ashamed to treat God's best gift thusly.

Thursday, November 25, 1880, was the 97th anniversary of the evacuation of New York by the British. The occasion was celebrated by the veterans of the war of 1812. But few were present, and they very sad—so many had died last year. Soon the last will be gone. Do the brave boys who fought in the late war realize that the time will come when the ages of the few survivors will be given as matters of news? Comparisons of dates at remote intervals always sadden survivors, unless they have the lively hope of the heavenly inheritance and reunion.

The Roseburg Plaindealer notes the return of J. J. Comstock from Portland where he has been under treatment for the morphine habit. During a dangerous sickness morphine was given to Mr. Comstock in hyperdermic injections, by an unwitting physician, until a demand for the drug became second nature with the patient, but by a determined will he has conquered the habit and is to be congratulated. He is one among ten thousand and the man who can win such a victory is a Major General,

During a recent visit to Roseburg we had the pleasure of meeting Uncle Aaron Rose, the old sturdy pioneer who nearly a quarter of a century since set his stakes far in advance of civilization in the Umpqua valley. The old gentleman, almost an octogenarian, is hale and hearty, an earnest advocate of temperance and can look around and see a bright little city named after him, springing up on the site of Indian wigwams. He can hear the daily whistle of the locomotive, civilization's revielle, where once the yell of hostile savages rung through the little valley; and, surrounded by children and grand children and the bright, blooming faces of the children of the better race, the old pioneer must feel a proud satisfaction even if he is to have no better requital.

KINDNESS WINS.—On Sunday afternoon a young man from the country, tired of his sojourn, desired to return home, but the horse he was riding was unwilling and although spurred from tail to ears stubbornly refused duty and developed the most energetic bucking proclivities. Quite a crowd had gathered, and when the worst struggle between the rider and horse was taking place the Southern stage came in driven by George Chase. George remarked that he could start the refractory animal home and was bantered by the crowd to do it for a bonus of $2.50 in lawful coin of the Republic. Chase saw that the coin was secured, took the banter and quietly mounting the horse whispered in his ear, "words of kindness," at the same time patting him gently on the neck. The animal made one vigorous plunge, but George stayed, and then proceeded in the most docile manner towards home, went a short distance and returned in the same spirit. George pocketed the coin; and we only wonder that a young gentleman of such pluck and persuasive powers should remain a bachelor. Look out George! it is still leap year, and if any one tries kindness on you—don't buck.

HARBOR OF REFUGE.—In his message to Congress, December 6th, President Hayes has this to say of the Harbor of Refuge to be located on the Western coast of Oregon: From the Columbia river to San Francisco, a distance of over six hundred miles, there is no harbor on the Pacific coast which can be approached in stormy weather. An appropriation of $150,000 was made by the 45th Congress for the commencement of a brakewater and Harbor of Refuge, to be located at some point between the Straits of Fuca and San Francisco, at which the necessities of commerce, local and general, will be best accommodated. The amount appropriated is thought to be quite inadequate for the purpose intended. The cost of the work when finished, will be very great, owing to the want of natural advantages for a site at any point on the coast between designated limits, and it has not been thought advisable to undertake the work without larger appropriations. I commend the matter to the attention of Congress.

The Oregon Kidney Tea.

If your back aches, or if you have any trouble with your kidneys or urinary organs, don't buy some nostrum that you know nothing about, made in some distant city to sell, but buy a remedy that has never been known to fail, made from herbs produced in Oregon and put up by a firm known all over the Coast. Patronize home industry and be cured at the same time.

Henry Wright, who is interested in the jewelry and drug stores at Ashland and Linkville, gave us a pleasant call this week.

WALDO ITEMS.—A writer in the Del Norte Record furnishes the following Waldo items:

The old road from here to Crescent City, over the mountains, is now, for the first time, entirely deserted; no one living at either of the old stations.

Desseles & Co., who are working on "Scott's Gulch," have deep gravel mines, with a bank of 50 feet. They use a Cranston elevator and a giant. They have ample pressure, and elevate the dirt about 25 feet. This is an old claim that has always paid its owners, and indications point towards similar results for years to come. Mr. Desselles superintends the mine. Wimer & Simmons, on "Butcher Gulch," have beyond doubt the most extensive mine in Southern Oregon. They use an eleven inch giant, have an abundance of water and luckily very few rocks. They have a bank of 60 feet, and some of it very rich. This is a new mine, having run but four months and a half on pay dirt. The owners have been three years in opening the mine, and I might say will not have it in good running order before the last of next summer. This is the only hydraulic claim now in operation. Six men are employed in both of the claims above named, and both of them use the locomotive headlight. Wimer & Simmons have moved more dirt in the past two years than any other three mines in the country combined. Their cut is one half a mile in length and about sixty feet deep. Mr. Simmons is now superintendent.

Quinn & Little are running an incline. They have excellent dirt, and will surely succeed if they have good luck hoisting. As this is the first attempt to drift here, we want to see them succeed.

Fawn Co., (Chinese) have a gravel mine, and work with pick and shovel. No one knows how they are doing, nor ever will.

THE COVERT TRIAL.—On Thursday morning last the trial of Dr. D. A. Covert for the alleged crime of arson was again commenced. The special venire of twenty-seven jurors was exhausted, all but one name, the following being selected as jurors: Miles Wakeman, Richard Collins, James Tufts, Charles Williams, J. H. Whipple, Jno. Ashmead, Thos. Mee, Lyman Chapple, Wm. Savage, Robt. Morris, J. C. Campbell and Wm. Harper. Up to going to press 40 witnesses have been examined and a large number more are in waiting. We cannot hear that any new or important evidence has been elicited since the former trial. It is supposed the case will go to the jury about Friday.

AWFUL.—Of General Tom Clunie, who made the tour of the State in company with Major Dennis and got his work in for Hancock, it is said, that when he left Sacramento for Nevada he told his wife she must discharge her Chinaman, as it would not do for any one to find out that they had a Chinamen in their employ. When he was in Reno, the Gazette says, he got a letter from Mrs. Clunie, as follows: "Dear Tom: Hurry up and get done with those speeches so we can get Joe back. This Irish girl is awful."—Elko Post.

ALLEGED ROBBERY.—A person named J. N. Hall, from Myrtle Creek, Douglas county, says he was robbed a few days since of a gold watch and chain by some unknown party at the City brewery. It is said he was under the soporific influence of our Jacksonville lager and, falling asleep, some petty thief secured his watch. The timepiece has Hall's initials engraved inside of the case.
