FOOT RACE.—A foot race, eighty yards and repeat, for a purse of \$25, entrance \$5, will be a feature of the Spring races to be held here on the 26th, 27th and 28th of May. A number of our local foot racers will contest for the prize and lively times may be expected.

LABORERS WANTED.—From Eastern Oregon and Washington come great complaints regarding the scarcity of laborers, both along the railways and in the forests here. Thousands of men can find steady employment the whole summer at remunerative prices.—Catholic Sentinel.

SPRING RACES.—As has been announced heretofore Messrs. Cardwell & Flitner have secured enough money by subscription to make the Spring races a success and the programme will be found in our advertising columns. A square deal for every one is the motto, and those having it in charge will see to it.

ACCIDENTAL SUICIDE.—Our Marshal found a suicide hanging in front of the Post office early yesterday morning and immediately notified the Coroner so that an inquest could be held. Coroner Schütz responded promptly and after the inquest, and beer all found, the jury decided that it was a case of accidental suicide—had ate too much straw on the first of April.

ENTERTAINMENT TO-NIGHT.—Remember the entertainment to be given to-night at Holt's Hall by the Amateur society of Jacksonville. The superb drama by Baker, "Down by the Sea," performed by nine actors of local celebrity, will be the leading feature of the evening. The musical programme also presents very attractive features, among them several operatic solos by Mrs. D. H. Feathers and Matt. Dillon, star singers. Admission 50 cents, children half price. See printed programmes.

GOVERNMENTAL APPOINTMENTS.—The governor has made the following executive appointments: Frank B. Jolly, H. N. Steeves and Fred H. Saylor, of Portland; L. H. Montague, of a bay; O. A. Thibault, of Silverton; H. C. Lissner, of Forest Grove; T. M. Baldwin, of Prineville; E. E. Sharon, of Pendleton; Horace Knox, of Eugene; Alonzo Gesner, of Salem, no parties public. Chas. Nettleton, No. 117 Broadway, N. Y. and Wm. B. Adams, Savannah, Georgia, commissioners for Oregon.

AN EPISCOPAL VISITATION.—From a letter of Bishop E. O. Haven, published in the N. Y. Christian Advocate, we extract the following, which is of some local interest to a goodly number of people in this valley. "I propose to start about the middle of May by the overland route for the Oregon and Columbia River conferences, stopping on the way at Ashland College, Wilbur Academy in Oregon, but so as to arrive at Salem previous to the commencement Sunday of Willamette university, June 26th. I hope that the Columbia River conference will meet at Colfax, W. T., about July 13, the Oregon conference at East Portland about July 27."

RAILROAD WORK.—The British bark "Glenosin" from Cardiff which arrived at Portland March 12, brought 925 tons of railroad iron for the Oregon Railway and Navigation Company. The American ship "Canada" also arrived bringing 4678 bars of railroad iron, 9622 bundles and sheets, 1838 packages of railroad material and six cars, consigned to the superintendent of the North Pacific Railroad. The Canada cleared at New York city one year ago to-day and the shifting of her cargo compelled her to put in at Rio Janeiro, where she remained for five months. Ten vessels are now on their way from Cardiff to The Dalles, all loaded with iron for the North Pacific and O. R. & N. companies.

A few more street crossings as well as street lamps in portions of the town where they are needed are among the possibilities of the near future. The prospect for an abundant fruit crop in Jackson and Josephine counties was never better than now—plums, peaches and pears predominating.

G. B. Caldwell last week brought to town a load of very nice furniture, the product of his own factory at Williamsburg. Pat Ryan keeps this furniture for sale. In the case of Thos. Smith vs. Caro & Baum the Supreme Court has reversed the judgment of the Court below, giving a verdict in favor of Caro & Baum.

Tuesday was a warm day, at 2 P. M. the thermometer stood at 86 deg. in the shade, at the residence of Adam Klippel. Pretty good this for the 29th of March. A pleasant social dance was held here on the evening of April 1st. Some of the young ladies who had invitations are still wondering why their fellows didn't call for them.

Mart. V. Brown, of the Albany Democrat, has been elected in the sum of \$27 by an East Portland jury. He sued to recover nine years' subscription, but failed to get judgment. Jos. Goldworthy was in town from Foot's creek and reports mining prospects flattering in that section. The miners have all had a good run so far and their ditches are still full.

A Catholic society, after the pattern of the Ancient Order of United Workmen, has been established in Jacksonville; any information concerning it can be obtained from Father Blanchet. On the very day that peace was concluded between the British and the Boers a messenger arrived from Potchefstroom with the intelligence that the British garrison at that place had surrendered to the Boers, after hard fighting, in which 18 British soldiers were killed and 90 wounded. The Boers captured 3000 pounds of ammunition and two guns.

Judge Boise on March 28th delivered his decision in two of the State cases. In the case of the State vs. S. F. Chadwick, he sustained the former verdict of Judge Deady. In the case of State vs. Mart Brown, he found a verdict for the state in the sum of \$9,687, being an over charge for paper used during his administration as State Printer. From Sheriff Bybee, who has just returned from Josephine county, we learn that cleaning up has commenced at the mines of Lybee & Newman on account of water failing. For the last few days water has been failing so fast that it is feared everything can not be cleaned up, but sufficient pay has already been taken out to make it a profitable season.

The San Francisco Alta says that Selucius Garfield in one time the most prominent man in Washington territory, and accounted one of the most interesting speakers on the Pacific coast, is said to be reduced to helping a gambing house at Washington, where he sat in Congress for two terms. This man had great natural qualifications, and his fall is lamentable. Liberal Hall, Portland, on Wednesday last, was the scene of a convention of Spiritualists to celebrate the 33d anniversary of that strange "ism." The lectures, essays and readings were all laudatory of the progress spiritualism had made in the United States. The convention continued for two days, and developed considerable interest even among the skeptical.

One of the worst pieces of road to be encountered in the county is near the bridge crossing Bear creek near the old McKenzie mill property. It is a legacy of the late frost, and we suppose the reason it has not been repaired is to try the patience of the traveling public. There is no excuse whatever for leaving a section of the public highway in such a condition. A drive across the "desert" during these balmy days of spring ought to convince the most skeptic that that part of Jackson county—at any rate at this time—is not so much of a desert as supposed to be. A mantle of lovely green dotted all over by myriads of beautiful flowers, greet the eye, and thousands of sheep could be seen pasturing on the low but nutritious grasses.

The Standard says: Those interested may be glad to know some of the salaries paid by the Oregon Railway and Navigation Company: Conductors receive \$95 a month; engineers, \$95, \$100 and \$125; brakemen \$66; the general superintendent of construction is paid \$5,000 a year; riding bosses \$2,000 a year; Chinamen \$1 a day; board themselves; white men, \$1.85 a day; four horse team \$6; six horse team \$8.

Says the Pacific Christian Advocate: Rev. J. H. Willis who has been spending the winter in the East, mostly in Washington City, D. C., returned to Portland by the Steamer "Oregon" He has been re-appointed agent of the Yakima Indian reservation. He speaks hopefully of the Indian service. He also says that the property of the Malheur Agency is to be removed to Yakima in the spring, and the reservation given up. This will offer quite a tract of good land for settlement.

A Walla Walla dispatch of the 28th ultimo says, that the Vigilantes at Ainsworth ordered the roughs to leave, and twenty-four hours' time was given. Many went down the river in canoes; a large number of bad characters have gone and more are to go. There is much excitement. The few who remain have been ordered away also. A dispatch from the same place says that one John Masterson, a deckhand on the steamer Faxian, jumped overboard at Celilo on Saturday and was drowned. The cause was delirium tremens. The body has not been recovered.

Says the Plaindealer: W. H. Byars and his crew are surveying some lands on North Myrtle creek. Settlers have taken claims on this land, and several of them have been improving their places for a number of years. They will now have a chance to get titles to their land. Plowing, sowing, harrowing, planting and pruning is still the order of the day with many of our farmers, who seem more than ever disposed to improve their opportunities. A good soaking rain just at this time would prove a great blessing to our agricultural interests.

On the 25th of March last, Thomas E. Guyant, an old hermit near Roseburg, committed suicide by hanging himself in his own cabin with a clothes line. He was 60 years of age, had been engaged chopping wood for sundry parties in Roseburg and was known to be a very poor.

The health of Gen. Joseph Lane, we learn, has not been the best for some weeks. Having attained the 81st year of his age, the public need not be surprised to hear of the old hero having passed from among us. He was Oregon's first Governor under the territorial organization.

The knowing ones at Washington predict a rupture in President Garfield's cabinet. It is said that Postmaster General James and Attorney General McVeigh are on the point of resigning. The differences said to exist in the cabinet have grown out of appointments lately made by the President inimical to Messrs. James and McVeigh.

ROCK POINT NOTES.

B. F. Miller the Sardine creek nurseryman, sends us the following items from Rock Point, under date of March 28th: Perhaps a few items from this point may be of interest to your readers. We have undergone all the usual changes of the weather with the rest of the valley, except it is some warmer on the sunny side of the river. The health in this locality is good as usual; stock of all kinds wintered well without being fed; the grass is now abundant. Those who have no better employment amuse themselves catching fish and hunting grouse as both seem to be plenty, and as a fellow said the other day, "the fish are good and the grouse are bully." The almond, apricot, peach and all the early blooming fruit trees are delightful to behold in a country which only a few years ago was a "howling wilderness." Plowing, sowing and preparing for corn and sugar cane planting and gardening are still going on. Mining is a very important item in this locality. Hayes & Magruder are still plying their claim on Rogue river and expect a big clean-up. The miners on Sardine creek are making good regular pay and as a general thing the same may be said of Pleasant creek, Foots creek and Galls creek.

ATTENTION, HORSIMEN

The Fast Trotting Stallion OPHIR!

WILL STAND THE PRESENT SEASON of 1881 at Ashland on Wednesday and Thursday, at Manning & Webb's stable in Jacksonville on Fridays and Saturdays, and the balance of the week at my ranch in Manzanita.

Disclaimer.—Ophir is a beautiful dark chestnut, without mark or spot, five teeth three and one-fourth inches high, and weighs 1,200 pounds, of a splendid, mild disposition, and will be 12 years old the 15th day of July.

He Has a Record of 2:35. PREPARED: Ophir was sired by the celebrated trotting stallion Kentucky Hunter, by Broken Leg Hunter, of New York; grand sire, Sorrel Hunter; great grand sire, Old Kentucky Hunter; great great grand sire, Highlander, Sorrel Hunter's dam (from a "boomline mare") was sired by the trotting Stallion Hunter; grand sire, Sorrel Hunter; great grand sire, Old Kentucky Hunter; great great grand sire, Highlander. This is a correct pedigree of Kentucky Hunter, and makes him about seven-eighths Hunter, or perhaps better known as Messenger blood, and which has been thoroughly proven to be the fastest and best stock ever introduced into the United States. Ophir's dam was sired by David Hill; her dam was sired by Prince Albert, a Messenger owned by William Reynolds, of Colusa county, California. Ophir's dam is now owned in Santa Clara county by Dr. G. L. French; her dam is owned by D. M. Reavis, of Butte county. They are both fine, large and splendid trotters.

Pedigree of Ophir's dam's sire: David Hill was sired by Black Lion; by David Hill's celebrated trotting stallion, Black Hawk, he by Sherman Vorgan; he by Justin Moran, and he by Trice Britton, who was imported from England and used by General DeLancey as a charger on Long Island in 1777. David Hill's dam was got by Hambletonian; he by Abdallah; he by Old Mambrino, and he by imported Messenger. The dam of Hambletonian was Charles Kent's mare by imported Bellfounder.

Terms: Single service, \$10, for the season, \$20, payable at the end thereof; insurance \$20, payable when it is ascertained that the mare is in foal. Mares bred by the season and not proving with foal can be returned next season free of charge. All possible care will be taken by an experienced hand, who thoroughly understands the treatment of mares and horses, to avoid accidents, but will not be responsible should any occur. Pasturage furnished at reasonable rates.

J. W. MANNING, Proprietor, JOHN COWAN, Groom.

PLANT SORGHUM.—C. M. Long, of Umatilla county, considers sorghum one of the best paying products that can be cultivated. He sowed some last June, which is too late, as the early frosts are apt to nip the crop before its maturity. This is what befell his. But in spite of advice to the contrary he resolved to have some syrup for his hot cakes, and cut about five acres of it, which yielded about 200 gallons of splendid molasses. Mr. Long considers that if sown on lighter soil than he has on Wild Horse, and a little earlier in the season than he put in his, that no more profitable crop could be cultivated. It has been satisfactorily proven that sorghum does well in Yakima county, and there is no doubt that it will do as well in other counties.
