

OREGON SENTINEL.

JACKSONVILLE: SATURDAY, APRIL 30, 1881.

NOTICE.

Land Office at Roseburg, Ore., June 30, 1880. Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all applications, notices and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

FOR LAKE COUNTY.—Gen John F. Miller of Salem passed through town on Thursday on his way to his ranch in Lake county with a band of twenty five fine brood mares.

ROBBERY.—Last Sunday morning, while taking a nap at one of our livery stables, John Montgomery was robbed of \$60 in money. No clue has yet been found as to whom the guilty party is.

FOR SALE CHEAP.—A good span of horses and harness, and a good platform spring wagon can be bought cheap for cash by calling upon Rev. D. Crowell at the M. E. parsonage in

PORTLAND TO BOSTON.—A grand trans continental excursion will be made some time next week from Portland to the "Hub" City. The fare is extremely low and particulars may be had at the St. Charles Hotel in Portland.

SOCIAL DANCE.—A May Day party will be held at Lavenburg's hall in Phoenix on Monday evening, May 2d. Good music and supper will be provided by Mrs. Lavenburg, and a general invitation is extended. Tickets, \$2 00.

A FINE HORSE DEAD.—Mambrino Chief, the fine stallion owned by Major Barron, died at the Mountain House of lung fever on Tuesday evening last. This will prove quite a loss to the stock raisers of Jackson county and a greater loss to his owner.

ATTENDED COURT.—The following Jacksonville cases were held at the Circuit Court: Judge H. K. Hanna, District Attorney, T. B. Kent, A. C. Jones, E. H. Autenrieth, P. P. Prim, K. Kubli, Chas. Nickell and W. J. Plymale.

SUICIDE IN LANGELL VALLEY.—On the night of April 20th the wife of Louis Lamb, residing in Langell valley, Lake county, committed suicide by taking poison. A Coroner's inquest, held next day, rendered a verdict in accordance with the above facts but discovered no reason whatever for the rash act.

BROOM MANUFACTURE.—E. F. Walker will soon commence the manufacture of brooms having the product of twenty five boxes of broom corn to work up. He has secured the services of a good workman and will have about 4000 brooms in market soon. Our people should make a point to patronize such home industries.

STOCK IN LAKE COUNTY.—Lake county has been much benefited by a warm, gentle rain which has given the grain and grass a fine start. Stock are fattening fast and will be ready for market by the last of June and cattle buyers can roll into Lake county, with their cash any time within a month and make good investments.

FOR REDDING.—Joe Beggs started for Redding on Thursday, with two teams taking with him about 18,000 lbs, mostly forage for the Stage company. He expects to haul from Redding to Jacksonville all summer as he will always be assured of back freight and the cost of freights will be just about the same from San Francisco as by way of Portland and Roseburg.

A BIGAMIST.—We learn that Dr. C. H. Cox, the much married man, has gone to Lake county to locate. Since his departure letters have been received here from his first father-in-law stating that he has never been divorced from his first wife, who with her two children, is still living at Dallas, Polk county, and it was their desire to see him prosecuted for bigamy. He would better move to Utah.

PASSED THROUGH.—Ryestraw, the champion running horse of the Oregon turf, passed through the valley this week on his way to San Francisco where his owner, John F. Miller, proposes entering him in the \$20,000 race this fall. The horse is in charge of James E. Bybee, an experienced trainer, and we predict that the winning horse in the race will have to make good time to beat the Oregon champion.

CHANGE OF BASE.—Mr. Henry Judge has removed his large harness and saddle stock to the saloon building next to Donegan's, the room formerly occupied by the telegraph office being occupied by him as a work-shop. The location is an excellent one and displays the stock well and it is really refreshing to see a saloon turned into a place of honest industry, and there could be no objection if some more of them here were similarly transformed.

CATCHY AT LAST.—We predicted a year ago that our friend Sikes Worden, of the firm of Thatcher & Worden, at Lukville, would get caught in a matrimonial net and it transpires; that on Thursday next, May 5th, he is to be married to Miss Kate Pearson. The wedding will be at the house of Capt. Ferre and in advance we tender best wishes. Only one word, Sikes—read elsewhere our description of a brilliant wedding, and if any friend brings you a silver spoon, a penholder, or any of those safe suits, stick em in your vest pocket and don't let em get in the papers—give us a change.

LOCAL ITEMS.

Read the new advertisements. Flour is quoted at \$11.12 per sack—cash.

A. Fisher is expected here in a few days. Breckenfield will receive new goods next week.

The Police Court has not held a session this week. Chili has determined to annex Peru to its territory.

The County Court will be in session next Wednesday. Drummers are as thick as ants around a molasses jug.

No services will be held in the M. E. Church next Sunday. Tip Justus and wife have charge of the county hospital now.

Dan Sheehan, of Josephine county, paid us a visit this week. James Kincaid and sister returned from Roseburg this week.

Mrs. Samuel Taylor is in town from Applegate visiting friends. Mrs. and Miss Prim keep the latest in hats and millinery goods.

G. Karewaki is expected back from his Eastern trip next Wednesday. Parliament will build a monument to Beaconsfield near Westminster.

Last Tuesday was the 63d anniversary of Odd Fellowship in this country. Singer sewing machines, the best in the market, at Feather's Singer Agency.

Several surveying parties will start out from Jacksonville about July 1st. We hear of several weddings to take place soon but we have promised not to tell.

Dr. W. Jackson returned this week from a professional visit to Josephine county. The anti-treating law of Wisconsin has been tested and declared unconstitutional.

James S. Howard and his daughter, Nettie, are expected back from Portland to-morrow. Sheriff Bybee offers some desirable property for sale by advertisement in another column.

Capt. Caton says that violent exercise on an empty stomach is the very best cure for dyspepsia. Miss Ida Kippel, preceptress of the Foot's creek academy, is expected home to-day for a short visit.

Chas. Strang, step-son of Dr. Vrooman, is purveyor for several surveying outfits in eastern Oregon. Dr. Rostel, assisted by Dr. Brown, performed a surgical operation on Wm. Bleckett's hand this week.

De Lesseps says he will have his great ship canal, across the Isthmus of Darien, completed in 1885. Hon. E. B. Watson, Judge of the Supreme Court, is expected home about the latter and of next week.

Dr. L. Danforth and family will start for Idaho Territory next Wednesday where they propose locating. Frank Kasshafer is fitting up the Old Franco-American as a saloon and will open about the first of next week.

Isaac Dobell has some intention of buying a farm in Kansas while there where he will take his family to locate. Joe Overbeck, formerly of Jacksonville, is telegraphing for the O. R. & N. Co. at a station east of The Dalles.

If you want a pleasant meal or a nice stopping place go to Taylor's at the Applegate crossing and hitch up. An interesting letter from H. Gasquet showing the true state of the C. C. Wagon road will be published next week.

F. M. Plymale will start for Lake county in a few days with a band of 175 head of cattle gathered in this valley. We are under obligations to Peter Britton for some cauliflower raised on his place one stock weighing near six pounds.

Bilger & Maegly will receive some of their new goods to-day. Several of the celebrated Walter A. Woods mowers are in the lot. Fred Otten has just received a supply of Kennedy's repeating rifles. They are acknowledged as an improvement on the Winchester.

Portland is to have a grand 4th of July celebration which will include polo racing, horse racing and other patriotic exercises. A paper is to be started at Etna, Siskiyou county to be called the Eye. If its politics are Republican it will be called—a black Eye.

M. Marks has opened a tailor shop in E. Jacobs' store where you can get a new suit made to order or get your old clothes cleaned up. Jerry Nunan started for San Francisco on yesterday's stage to purchase a stock of goods for the store he proposes opening here soon.

A great failure of crops in England is feared on account of drouth. Such a result will make a good market for Oregon wheat next fall. Charles Hughes and M. Ryder are the delegates from Kerbyville Lodge, I. O. F., to the Grand Lodge to meet at Portland on May 17th.

Wm. and Walter Ruble, of Cayote creek, have been in town all week taking depositions in the case of H. Kelly vs. Wm. and Walter Ruble et al. Only about \$500 remains delinquent on the real estate assessed in this county for 1880. This speaks well for our Sheriff and Deputy as tax collectors.

A man named Newcourt has been murdered at Empire City. Two sons of Jake Evans and a son of J. T. Jordan were arrested on suspicion. Deputy Sheriff Caton will offer some personal property belonging to Dr. Cox, and consisting of furniture, etc., for sale at auction on Saturday, May 7th.

There is a great deal of opposition to oleomargarine or "bull butter." It is hard to understand why; asit "ranks" higher than any gilt edged butter ever made. Most all of the horses in this section are again afflicted with the epizootic. The stage company will probably have to delay changing to fast time on this account.

J. W. Robb, a prominent citizen of Astoria was shot dead on April 25th by J. G. Robeson. The killing was supposed to be on account of business troubles. Walter Jackson, solicitor for the house of P. Wasserman & Co. left for Portland yesterday. Walter is not a mere drummer—but is a whole hand of music.

Mary had a little lamb, its fleece was white as snow, she washed it off with Menor's soap, and that's what made it so. Call at M. Menor's and buy some. The only strange thing about the Malone business is that so pure a party as that which claims his allegiance, is so anxious to have such a "deeply dyed traitor and villain" return to its ranks—politics, like poverty, makes strange bed fellows.

Norman, the Yreka jail breaker, is still supposed to be in this section, having crossed the Klamath river one day this week. Deputy Sheriff Hendricks is in pursuit. The Scientific American thinks babies should have a market value like pigs and then the government would investigate the exorbitant death rate among them.

Our friend J. H. Hoffman has arrived at his home in Lakeview and immediately registered in both hotels. "Harry" must have had short rations on the road home. The Jacksonville steam mills are again running on full time having commenced last Monday. Parties having what for this mill are requested to bring it in at once.

Rev. M. C. Miller writes, that on account of sore throat he will only preach once to-morrow—at Heber Grove 3:30 p. m., and will not be in Mazanita or Jacksonville. Horace Ish, of Warner valley, was in town several days this week. Dick Ish has charge of the band of horses belonging to the estate of Jacob Ish, deceased, during his absence.

Our Deputy Sheriff was slightly under the weather last week but we are pleased to say that he has recovered and is now fully able to attend to any business entrusted to his care. Social parties will be held on May 2d at Hebering, on Poorman's creek, at White Bros' hotel at Rock Point and at Lavenburg's hall at Phoenix. No lack of amusement on that day.

D. H. Feathers, the "hon ton" tailor of this place can now be found at the old place, next to Dr. Aiken's, having removed to make way for Mr. Judge. Go and see him if you want fits. The Port Orford Post says that Henry Rosenbrock, charged with the murder of Wm. Black at Big Meadows on Rogue river, last December, has been committed to jail in Ellensburg.

Nixon of Yreka proposes to issue a daily sun. We hope he may be able as his enterprise deserves a reward and a "daily" is the highest point of ambition looked up at by the printer. The Yreka Journal says a saloon in Yreka furnishes an elegant drink called an "elevator." We have establishments here that set out "setters," calculated to settle anything but a whiskey bill.

Robert Taylor, manager for Jesse D. Carr of Clear Lake left the valley on Saturday with 750 cattle mostly purchased in Josephine county, to be fattened on the ranges in the Klamath section. Remember the races here on May 26th, 27th and 28th. Everything will be conducted on the square and no swindling gambling games will be allowed on the track. A large crowd is looked for.

We are under obligations to Lieut. Thos. W. Symons, Chief Engineer Department of the Columbia, for his annual report, which includes an account of his work between here and Roseburg in 1880. Henry Brown informs us that the horses in the Butte creek region are generally afflicted with the epizootic but the disease is mild. He thinks it will make considerable difference in the increase this season.

Fisher & Cohn have determined on closing out their business here and are offering their goods for sale at cost. They are in earnest and mean just what they say, as an examination of their prices will prove. Rumor says that one of our most popular teamsters between here and Roseburg proposes joining the majority tomorrow. He is now a Freeman, but will be a free man when he gets the silken bonds around him!

The Board of Pacific coast engineers estimate the cost of a break-water at Port Orford at \$4,114,369. This is the minimum estimate and a majority of the Board still think it the special point for a harbor of refuge. There will be a social dance on May 20th at Sam Taylor's, the old Benedict stand, on Applegate. The profits are to go to the public school. If you want a nice time just go, contribute your mite and have lots of fun.

The Mercury gives D. P. Thompson, Mayor of Portland, credit for having induced Villard to buy out the U. S. N. Co. and also shows that the hand of John H. Mitchell is visible in the transaction so beneficial to Portland. R. F. Reeser, of Ashland, is now the agent for the celebrated Osborn & Co.'s farming machinery. He is a square dealer and invites the public to read his offers before purchasing elsewhere—read his advertisement.

Among the appropriations for the Department of Agriculture, made by the 46th Congress, is one of \$17,000 to continue experiments in the manufacture of sorghum sugar. \$10,000 is also given to experiment with beet sugar. Sheriff Bybee has deferred his visit to Oakland, Cal., but instead, will sojourn for a few weeks at the Emeline Quicksilver mine across the Siskiyou mountain and regain health by drinking of the iron and soda springs in that region.

General Miller, who was here this week, expresses a very decided opinion that we are at last to have a railroad into Jackson county. It must be confessed that the indications are very favorable and we hope his opinion may be correct. The only strange thing about the Malone business is that so pure a party as that which claims his allegiance, is so anxious to have such a "deeply dyed traitor and villain" return to its ranks—politics, like poverty, makes strange bed fellows.

Sheriff Bybee started on Wednesday with a private conveyance for Oakland, Oregon. He was accompanied by A. W. Hawckett who is going to Portland to attend to a suit in the U. S. Court. Mr. Bybee will probably be back by next Thursday. The Indians in Dakota are very indubrious. They are now engaged in scooping in wood choppers and white hunters with their little rifles. All this comes from the Senatorial deadlock which prevents a head for the Indian Department being appointed.

Whitelaw Reid of the N. Y. Tribune has just married a daughter of the banker D. O. Mills and the bride's father makes a wedding present of \$5,000,000. That may be called a "fat take" and there's many a poor printer would take it even without a bride.

John H., eldest son of ex-Senator John H. Mitchell, has graduated at Ann Arbor, Mich., Law School at the head of a class of one hundred and sixty students. His father, himself one of the distinguished lawyers of Oregon, should be proud of his son's achievement. Messrs. Walker and Wisley have planted about sixteen acres of Amber cane, most of which is looking well. Several other parties are also experimenting with it, among them John Watson who has planted an acre from which to make syrup and sugar for his own household.

Corn soaked in a solution of chloride of lime and copper, equal parts, comes up as quick again as dry corn and grows faster. As planting will be late this year with many of our valley farmers one ought to be sure of the vitality of his seed and not lose any time. The above experiment will help very much. The Ladies' Bazaar, with Mrs. Evan Roames and Miss Aha Ross in charge, will be open to-day for business. Only a portion of their goods have arrived but another installment will arrive in a few days. The latest styles in every thing required by the fair sex will always be kept and their prices will be reasonable.

A hog and mutton, that were slaughtered and dressed for John Orth's meat market, were stolen from his slaughter house on last Tuesday evening. John says he would not have cared so much for the loss if they had only given him some warning so that he could have killed others to supply his customers next morning.

Hon. M. C. George has returned to his home in East Portland in good health and spirits. His experience in Washington last winter, where he was only a looker on, will be of much advantage to him at the next meeting of Congress and those who expect in him an honest and live representative of Oregon will not be disappointed. A cedar log has been found in one of the Galice creek mining claims at a depth of over one hundred feet. The wood is perfectly sound, stained nearly black and, singular to say, is apparently no heavier than if it had always been exposed to the air. It is a problem, how and when it was buried under such a mass of earthy matter.

George Milo Dutcher of Wilmington, Del., and Hon. Mrs. Judge Watson of Philadelphia gave two temperance lectures here on Friday and Saturday evenings last. They had been preceded by a brief item in the N. Y. Christian Advocate, of March 17th, advising decent people to give them a wide berth and their receipts were light; so they quietly slid out. Characterless people are hardly the persons to work temperance or other reforms.

A story is told on an editor who died and went to heaven, but was denied admittance, lest he meet a delinquent subscriber and bad feelings be called up to the detriment of that peaceful abode. Having to go somewhere the editor next appeared in the regins of darkness, but was positively refused admittance, as the place was full of delinquents; wearily the editor turned back to the celestial city, and was met by the watchman at the portals who smiled and said: "It was mistaken; you can come in; there is not a delinquent subscriber in heaven." Kind delinquent subscribers does this "retch you?"

MINING NOTES.

Miners on Cayote creek have generally cleaned up with fair returns for their labor. John Montgomery has cleaned up \$1600 for the season's work on the ground leased from the Dean brothers, at Willow Springs.

The large hydraulic mines of the Blue Gravel and English companies at Galice have discontinued pining on account of failure of water.

The Schump tunnel is still being vigorously pushed ahead. It is yet in hard rock with about fifty feet to run before the lode can be struck.

Green Bros, of Galice creek, are still engaged on a new tunnel but are continually washing quartz which yields from forty to fifty dollars per ton.

Alex Watts of Williams creek reports suspension of operations for the season. He runs a small hydraulic and averaged \$12 per day for the season.

Sturgis & Beckner are now engaged in cleaning up on Jackson creek. Their ground is running out well and within the past two weeks they have picked up about \$300 on the bed rock.

J. T. Layton, of Applegate, has sent for 1200 feet of 15 inch hydraulic pipe and will lay down the old Bolt flume which was torn out last winter. His claim is said to be yielding very satisfactorily.

A new tunnel to strike the Holman ledge, between the branches of Jackson creek, at a greater depth is spoken of. Were that hill in Nevada or California it would have been honeycombed with tunnels long ago.

The claim of Saltmarsh, Klum & Co. is evidently yielding well, as last week, two pieces of gold were picked up in the ground sluice, one weighing \$14 and the other \$30. Work of cleaning up in this mine has not yet commenced.

The claim of Hosmer, Lance & Duffield on Foot's creek must have some rich pay in it. It will average twenty feet in depth and every cubic foot will yield twenty five cents. Only a quarter acre has been worked off, yielding over \$10,000.

Superintendent Ennis of the Sterling hydraulic has piped off about seven acres of very rich ground the present season with a good prospect for over two months more of a full head of water. Work on the ditch extension is going steadily on and next winter three giants will be used.

Barksdale and Cunningham have struck very rich quartz in their tunnel in the Blackwell district. The quartz, which is quite yellow with free gold, was struck in the top of the tunnel, is nearly a foot wide and the owners feel sanguine that they have a valuable pocket. The rock just discovered yields, in a hand mortar, \$34 to the pound.

BREAKING HORSES.—Henry Brown of Little Butte has lately been engaged breaking horses. Last Saturday he had for the first time succeeded in putting the rope halter on a four year old filly and tied it to a tree. The animal not relishing the enforced discipline and in its effort to break away got entangled in the rope, fell to the ground and broke one of its fore legs. On the following day, (Sunday) Mr. Brown broke another horse, this time a four year old gelding, but with no better success. The animal would not stand the rope at all, and jumping high in the air fell backward with its head on the hard ground and broke its skull. To put an end to the misery of the unfortunate beast Mr. Brown had to kill both of them. They were both of superior stock of horses and would have been worth \$100 apiece if they had outlived the breaking process.

LARGE SALE.—Probably the largest transfer of property ever made in this county has just been recorded in the Clerk's office. The property consists of all the realty, 5,550 acres of land, with all improvements, all live stock, agricultural implements and all other personal property belonging to Wm. Bybee in Jackson county, the consideration therefor being \$26,550.00.

The purchaser is Mr. Alex. Martin of Oakland, who had a large lien on the property and the sale is said to be quite satisfactory to all concerned. The land is choice and in time must become very valuable but Mr. Bybee's failing health precluded him from handling it longer. The family still hold the dower of Mrs. Bybee, two hundred acres near town, on which the fine family residence is built.

FOSSILS FOUND.—While the excavators were at work on the new road leading from Paisley to the new saw mill, last week, they unearthed the bones of some monstrous beast, some of which have been sent to a United States paleontologist at Philadelphia. The teeth of this animal are very large and indicate that their possessor was a monster. These molars are three or four inches in length, by one and a half in width and one in thickness. As to the species of animal to which this creature belonged, conjecture is various.—[State Line Herald.]

JOSEPHINE CIRCUIT COURT.—The only business of any importance transacted at the April term of Circuit Court for Josephine county was the trial and conviction of two young men named Wm. Parks and A. J. Bunch for horse stealing. Judge Hanna sentenced each to a term of one year's imprisonment in the penitentiary. No new bills were presented by the grand jury.

CLOTHES CLEANING.—Ladies' and gentlemen's silk and woolen clothing cleaned and repaired at reasonable rates and made as good as new. Satisfaction guaranteed. Call at my place of business, next door to the W. Y. Telegraph Office. RICHARD MEE.

BRILLIANT NUPTIALS.

Grand Display of Bridal Presents.—The greatest event of the season was the happy union of Thomas Jones, Esq., and Miss Polly Maria Smith which took place a few evenings since amid the most "bon vivant" banquet. We sent our Mr. Jenkins to report and he describes the affair as brilliant beyond description. The bride, belonging to the well known Smith family, was "au revoir" in every particular and looked a perfect "bijou" and the groom, representing a long line of Joneses, a very solid man weighing 225 pounds and worth not less than \$800,001. What could be said to express the "rarschly" cut of his apparel and give an idea of his "bon jour" and ci-devant grandeur! During the impressive ceremony, the bride and groom stood gracefully under a bell, composed of the leaves of beautiful "cabbageana" a little out of season but contrasting sweetly with the sprigs of Osage orange in the bride's hair, which was tastefully arranged by that prince of artists, Professor Fritzelshup. After the cere mony, during which everybody blew their noses, the gifts were presented, 1st. 100 cents in solid silver by the elder Smith. 2d a magnificent chromo of the Father of his Country, training when young, for an acrobat—one leg up, presented by the mother-in-law. 3d. Imitation silver spoon, manufactured from block tin, with the Jones Smith monogram, presented by David Jones Esq., 4th. Box of hair pins all the way from Paris, finished in Japan, presented by Hon. Solomon Snide. 5th. Dozen diaper pins laquered with Cornwall tin in artistic style, presented by Mrs. Snide. 6th. Beautiful bundle of dish cloths, a little used, presented by a lady friend. 7th. Beautiful bouquet holder artistically made of newspaper, presented by Hon. Char Snickell with remarks, very appropriate. This gift so impressed several of the company with the insignificance of their contributions that they told the bride's small brother to shove them under the sofa. Then, after a very "bouillon" rendition of Strauss's Chief D'Over, "The Monkey Married the Baboon's Sister," by Prof. Thomas Cat, the wedding guests retired—the young couple hoping that the beautiful custom of leading newly married people with gifts would never fade away; and our Mr. Jenkins sighing to think he had not waited till it came in fashion. Those presenting the beautiful gifts were very happy as they knew our Mr. J. would put their names in the paper.

An instance of Brady's rascality or close connection with the thieving mail ring can be found in his neglect to prosecute the bondsmen of Huntley, one of the ring, who obtained the route from Ashland to Lakeview at \$7,500 then had service increased, receiving \$13,000 therefor, then failed and forced the Department to relet it at \$19,000—just about a fair price. If Huntley's bondsmen were not "straw men" they should have been made to fulfill the contract. There is a marked contrast in the case of Mr. Garrett, who carries the mail to Crescent City from here. He was not in the "ring," took the contract too low, with good bonds, and as he is honest, carries it at a loss and is fined every time he fails to connect even on account of impassable streams.

Time was when under the head of "personals" the papers recorded only the movements of royal personages, great aristocrats, and celebrated thieves of the former for information, of the latter to warn the people. Now everybody is noticed, and "the thing is run into the ground," if ever anything was. Every man is "that genial gentleman," "that highly respected Mr. so and so," "one of the leading citizens," etc.; every woman is "the elegant and accomplished," etc.; every girl the "fascinating belle," "the leading, the beautiful and intellectual." It's very disgusting—everybody knows it means nothing; it is perfectly Chinese in its unmeaning excess of politeness, and among sincere people is deemed in horrid taste.

NEW LODGE ORGANIZED.—Last Wednesday morning Deputy, H. K. Hanna, assisted by W. J. Plymale, instituted Climax Lodge, A. O. U. W., at Kerbyville with the following officers: P. M. W., John Seyforth; M. W., J. B. Sifers; G. F., T. G. Patterson; O. M., Ryner; Recorder, F. M. Nickerson; Financier, J. M. Smith; Receiver, N. Delamatter; Guide, A. J. Chapman; I. W., Frank Desseger; O. W., Moore. The lodge starts out with a charter membership of twenty-one and a fair prospect of doubling that number soon.

QUARTERLY MEETING.—The fourth quarterly meeting for Jacksonville Circuit, M. E. Church, will be held at Manzanita, Baptist Church, on the 14th and 15th of May. Preaching at 11 A. M. on Saturday the 14th, followed by the usual services on Sabbath. Services to be conducted by Rev. W. T. Chapman, Presiding Elder. All are invite to attend.

D. A. CROWELL, PASTOR.

NEW ADVERTISEMENTS.

Notice.

LAND OFFICE AT ROSEBURG, ORE., April 29, 1881.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and secure final entry thereof on Monday June 30, 1881, before the Judge or Clerk of Josephine county, Oregon, viz: John W. Stockburger, Homestead Application, No. 2737, for the E 1/2 of N W 1/4 and S W 1/4 of N W 1/4, Sec. 35, T 38 R 5 W, and names the following as his witnesses, viz: Alex. Watts, J. L. Powell, John Johns and Moses Davidson, all of Applegate, Josephine County, Oga. Wm. F. BENJAMIN, Register.

The Other Side.

A correspondent at Waldo writes in reference to the Crescent City wagon road thus: EDITOR SENTINEL.—You will recollect the bargain which Mr. Gasquet & Co. entered into a year ago, that they agreed to build the middle section of this road, and that Del Norte county was to build the other end. Have they built any road? Have they ever complied with any part of that agreement? Why did they not tell us six months ago that they would not, or could not, build the road, and not keep us in suspense so long. Why have they until completely cornered persisted in saying that the road would go, and that they would get a charter in January 1881, and then failed to let us know just what they did do. The people of this county have their opinion about it. WALDO.

A FINE STALLION.—Granville Naylor's fine Siger stallion, Taylor, will be at Cardwell's stable every Saturday and at Mr. Naylor's farm, three and a half miles east of Jacksonville, the rest of each week during the season of 1881. Taylor is a fine large roaster, a beautiful dark dapple bay, six years old, 16 hands high and weighs 1,200 pounds. He is well proportioned, of good bone and action and excels as a roadster. Taylor was sired by Young Stigart, he by the well known Capt. Stigart, imported to Jackson county by W. C. Myer. His dam was a fine whip mare; grand dam was sired by a colt of old Black Hawk of Illinois, who trotted 100 miles in 10 hours. We advise stock raisers to look at the horse.

CENTAUUR LINIMENT

Always Cures and never disappoints. The world's greatest Pain-Reliever for Man and Beast. Cheap, quick and reliable.

PITCHER'S CASTORIA is not Narcotic. Children grow fat upon it, Mothers like, and Physicians recommend it. It regulates the Bowels, cures Wind Colic, allays Feverishness, and destroys Worms.

WEI DE MEYER'S CATHARTIC Cure, a Constitutional Antidote for this terrible malady, by Absorption. The most Important Discovery since Vaccination. Other remedies may relieve Catarrh, this cures at any stage before Consumption sets in.

GRAND BALL!!

—TO BE GIVEN BY— Oregonian-Pocahontas Tribe No. 1, Imp. O. R. M., At Holt's New Hall

—ON THE EVENING OF— ST. TAMMANY'S DAY MAY 12, 1881.

COMMITTEE OF ARRANGEMENTS. J. G. Birtley, H. Pope, Sr., H. K. Hanna, T. T. McKenzie, S. Wise.

FLOOR MANAGERS. E. D. Fondray, T. J. Kenney, B. W. Dean, C. W. Savage, D. H. Feathers.

RECEPTION COMMITTEE. E. H. Autenrieth, Miss Sophie Nickell, C. B. Rostel, Miss Ibbie McCully, D. Cronemiller, Miss Anna Miller.

Tickets, including supper, 50c. The best of music and supper will be provided. Tickets can be procured of S. Wise. A general invitation is extended to all.

MAY-DAY BALL!

—AT— White's Hotel, ROCK POINT, Oregon.

The undersigned will give a grand ball at their hotel in Rock Point, on Monday, May 2d, and invite everyone to come and participate. Prof. Scott's string band will furnish the music and an excellent supper will be provided. Tickets, \$2 50.

MAY-DAY PARTY

—AT THE— Poorman's Creek House, Monday Evng. May 2, 1880,

The undersigned will give a grand party at the Poorman's Creek House, three miles south of Jacksonville, on the evening of May 2, 1881. The best of music and supper will be provided. Tickets (including supper), \$2 00. Come one! Come all! and enjoy yourselves. L. HERLING.
