

OREGON SENTINEL.

JACKSONVILLE SATURDAY, MAY 7, 1881.

RAILROAD NEWS.

We have just received some very encouraging items of railroad news from Portland, which strengthens our belief that we are to have a railroad into this valley at last.

Change of School Books.

State Superintendent Powell has the following to say in regard to the change of text books, to take place in October 1881.

"The law requires that these books recently adopted should be introduced into the schools by the first day of October, 1881, and in order to make the change an absolutely inexpensive one, these new books will be supplied to the people till that time, by book dealers throughout the State, at the remarkably low prices herewith submitted, to-wit:

Table with 2 columns: Book Title, Price. Includes Primary Arithmetic, Elementary Arithmetic, Normal Written Arithmetic, etc.

The introduction price is simply the retail price during the period for introduction. The exchange price is the difference of price between the new book and the old one of corresponding grade in use heretofore.

If at any place in the State a higher price than those above given should be demanded by any dealer during the time for introduction, the county Superintendent should be notified of the fact immediately, whose duty it would be to investigate the matter forthwith and have the error corrected. It is the expressed wish of the publishers of these various books that the people throughout the entire State should have the benefit of these extremely low prices during the period of introduction."

Plant Fruit Trees.

Whenever it becomes quite certain that we are to have railroad communication with Portland we would advise our farmers to turn their attention largely to fruit culture. They must be aware that there is little money in wheat, except for home consumption, and our soil and climate is peculiarly adapted to the culture of fruit, especially peaches and the finer variety of grapes that can not be produced in the Willamette valley.

Senator Jones, of Florida, has just made a speech in the U. S. Senate justifying slavery. His views are regarded by his Democratic colleagues as very ill-timed and impolitic, but he can claim the merit of being more candid than the rest of his party in the South.

MAIL FRAUDS.

In discussing "mail frauds" the Oregon Statesman remarks that it "does not want to believe that the Statesman has a glamour thrown over it by a collusion with frauds."

What Will the Harvest Be? We remark, and we are not alone in our observations, a number of young lads about this place, children of very respectable parents, that are permitted to run riot in the streets after dark apparently uncontrolled by anything but their own will.

A tall, well-dressed, fine-looking woman, evidently a member of respectable society, was seen wandering about the streets of the city last Sunday, deeply intoxicated.

The Chinese Treaties.

Senators Miller and Farley of California are daily in receipt of petitions, urging action on the Chinese treaties. It is said that they are trying to force their respective parties to have them acted on immediately and that consent will be given to have them acted on at once.

The Fitness of Things.

People are enquiring whether the county authorities intend to permit a saloon to be opened right in the county hospital and the enquiry is a very proper one.

Cancelling Contracts.

Postmaster General James proposes to cancel all contracts for extension of star route services made by Gen. Brady and begin anew, and determine whether increase in the service on these routes was necessary or not.

G. KAREWSKI,

STOVES, TINWARE, HARDWARE, DRY GOODS, Agricultural Implements

MACHINERY, GROCERIES, ETC.

Also Local Agent for the justly Celebrated Fish Bro's Wagon,

The best Wagon on Wheels for the following reasons!

- 1. More care is taken in the selection of stock; only good, solid, butt-cut timber being used. 2. The Wheels are all soaked in Boiling Linseed Oil. 3. Every part is strongly braced; and instead of being bolted, is clipped, so that the full strength of the wood is secured. 4. The Tires are securely bolted, after being thoroughly and carefully set. 5. The Skins are heated before driven on, and set in White Lead; consequently, when cooled, contract, making a perfect fit and impossible to work loose.

It is the only Wagon on which "Holmes' Patent Self-Heating Skins" are used, the whole right and title having been purchased. The principal points of superiority over all other Skins are: 1st. Bearings are perfectly straight, which does away with side-draught. 2d. Has a perfect fitting sand Band. 3d. Unnecessary to remove the wheel to oil. 4th. Will retain oil longer, having an oil-chamber, and so constructed that oil cannot run out at the point. 5th. Hound Brace is clipped on, bringing the purchase nearer the wheels. And many others, too numerous to mention, but which can be readily seen upon examination; and we cordially invite our many customers and all others who contemplate purchasing a first-class Wagon, to call and get prices before going elsewhere.

LUMBER FOR EVERYBODY!
