W. F. BENJAMIN, Register.

Fifteen yards print for $1.00 at the New York Store. *

LOST.—On Thursday evening, in town, a twenty dollar piece. If brought to this office a suitable reward will be paid. *

LOWEST BIDDER.—John Campbell of Grants Pass was the lowest bidder for carrying the mail on the new Galice creek route for six months from December 31st. His bid was $1,200.

CLOTHES CLEANING.—Ladies' and [illegible] and repaired at reasonable rates and made as good as new. Satisfaction guaranteed. Call at my place of business, next door to the W. U. Telegraph Office. RICHARD MEE.

STRAWBERRIES.—This delicious fruit is fast ripening and within a week or so will be plenty in this market. The only difficulty with the Oregon berry is that they are too large and luscious, and as a German friend remarked of his National beverage—"too much is shust enough."

OLD COIN FOUND.—Emil, youngest son of Peter Britt, while digging in his father's garden last week, found an old $20 piece coined at a private mint in San Francisco before the establishment of a U. S. mint on this coast. The coin is dated 1852 and has evidently been buried a long time.

PLEASANT PIC NIC.—On Monday last a large number of the school mates of Miss Irene Danforth enjoyed a pleasant farewell gathering in Cardwell's pasture. A farewell address was delivered by Miss Laura Hubbell, which was very appropriate but we have not space to publish it and can only say it was quite creditable.

GERMAN PIC NIC.—Preparations are now being made for holding an old fashioned German pic nic at Bybee's grove on Sunday May 29th, under the auspices of the lodge of German Red Men here. A shooting gallery and other amusements will be provided and lots of fun will be in store for all who attend. A general invitation is extended.

LODGE ORGANIZED.—While at Wal[illegible] 5th, Deputy Grand Commander, A. C. Jones organized Waldo Lodge No. 18, Champions of Honor with 20 charter members. The following are the officers: P. W. C., J. W. Bennett; W. C., W. J. Wimer; Lt. C., Miss Lizzie Anderson; Scribe, J. C. Elder; F. S., Miss Mary Anderson; Treas., Mrs. D. J. Wimer; Herald, T. W. Patty; W., Wm. Anderson; Sentinel, J. W. Thomas.

SLID OUT.—The eminent Dr. C. H. Cox who swung out two signs in this place as Dentist and Physician slid out quietly last week and is now over in California. Look out for him girls; he is a slick, suave gentleman, heavy on the marry and if he can catch any young woman in that notion, who has a dowry, he can make his way to Utah where he belongs. Will California papers kindly pop him around. He is supposed to be in Little Shasta or Big valley now.

LOOK OUT!—People had better see that their doors are securely fastened at night, as the other night some one walked into Mr. Beckman's kitchen and appropriated every knife, fork or spoon they could lay their hands on. Fortunately, however, there was no silver in the kitchen nor in the house and Mr. Beckman desires any tramp, who may see this item, to understand that he don't eat with a silver spoon, and that all his silver ware is locked up in the Safe Deposit Co's. vault in San Francisco. If they want it badly they must apply there.

THE BOYS STRIKING OUT.—Among the Danforth party, just started for Idaho, are six of our Jacksonville boys, who see rather a poor outlook at home and have struck out for themselves. It looks hard that boys cannot find employment here, or rather, that there is an idea prevalent that labor is too degrading for our young men and we are glad to see these boys breaking for a new country, where they will learn to paddle their own boats and make useful men of themselves. We hope to hear the very best accounts of these boys, who have had pluck enough to cut loose from old associations and strike out for themselves.

THE SURVEYING PARTY.—Information received by telegraph yesterday from Canyonville states that Col. Hurlburt is still at work running the railroad line. Five miles have been run on the west side of the canyon but the line has been abandoned on account of the many steep gulches that admit of no opportunity to turn, and which, if crossed lower down, necessitate too high trestle work. The party are now running on the east side of the canyon and it is thought that all obstacles will be easily overcome. The report that the canyon had been abandoned and the report that the surveyors had moved to Deer creek, east of Roseburg is entirely untrue, and the present indications are, that a practicable line will be found in the canyon.

Another terrible murder has been committed in San Francisco, Joseph Kenn, a butcher, having practiced his trade on his wife by sticking a butcher knife in her. The unfortunate victim was found dying on the sidewalk and the trail of blood led to the room where the murderer being found in bed with the bloody knife alongside of him. Cause; whisky and irresistable impulse.

James S. Howard of Jacksonville has been appointed a Notary Public by Governor Thayer. Mr. Howard will "cuss" you with superior dignity and in approved style. He regrets that the office does not carry with it the right to marry couples as he flatters himself that he could just eat anything tying the knot and put the closing touches on the ceremony with full satisfaction.

Robt. M. Garrett informs us that H. Gasquet has a force of ten or twelve men employed on the survey of the new Crescent City wagon road and another force of men was looked for from Crescent City the next day after the mail carrier left. It is the intention of Mr. Gasquet to use his own subscription and the other money collected in the improvement of the road as far as it will go.

The Roseburg Independent gives a lengthy description of a fruit dryer just invented by a Mr. Ecarts of Myrtle creek. It is said to be a very superior dryer and, if all is true that is said about it, it will find ready sale. There is really little difference in dryers, and the product of any is superior to that of sun dried fruit. That which is most needed is a cheap method of preparing fruit for the drying process.

On the outside is a letter from H. Gasquet showing the donations by San Francisco firms to the C. C. wagon road and declaring the writer's intention to improve the survey with his own money. The proposition of Gasquet will find no favor in Jackson county but, perhaps, the San Francisco merchants, "longer sighted" than us heathens, will allow him to spend their money for them on his trail—it is their business, not ours.

Mr. D. J. Stewart, who is engaged in writing an illustrated history of Oregon, passed south on his way to Yreka on Thursday. He has a large force of men engaged in various counties, gathering interesting facts, and has already taken over one thousand orders. He will personally supervise the finishing touches on the history of Siskiyou county, Cal., and then remove with his family to Salem where he will reside for several years, perhaps permanently.

It is said that the German authorities are perfectly bewildered at the extent of the immigration to America. For the first quarter of 1881 the number of emigrants leaving Hamburg was 24,441; whole counties are being depopulated and people crazy to leave for the promised land, are selling their property at ruinous rates. The arrivals at Castle Garden for April were 60,000 and it is hard to see where all those coming will find employment in the crowded east.

On Monday last a fearful accident occurred on the Central Pacific R. R. near San Lorenzo in which five children of Fritz Nebas, a wealthy farmer, were killed. The children were returning from a pic nic and in attempting to cross the railroad track with their wagon it was struck by the locomotive and every one in it instantly killed. The train was backed up to the place where the accident occurred and the scene is described by the Chronicle as perfectly heart rending.

We learn from Mr. Alonzo Winton, of Smith River, that the people of that place are determined to have a wagon road to Waldo, and have already commenced repairing—or building over—the old road. Six men are at work upon it, three of whom are in the neighborhood of "Taylor's"—the rest near the Low Divide. Their progress thus far we have not learned, but our informant says it is their purpose to have the work completed by the first of June.—[Del Norte Record.

Myriads of inch-caterpillars are now infesting C. H. Hoxie's neighborhood, on Bear creek. On the fifth instant they were thicker than the grasshoppers of Kansas, eating up the foliage of trees, especially the leaves of the ash. They are migratory and crawl into people's houses. Father Williams' premises on Bear creek were literally covered by these pests. So far as could be noticed, the growing grain and gardens had not been injured by them, but apprehension of damage was entertained by the farmers in that locality.

Salem is determined to check the abominable practice of cigarette smoking and tobacco chewing among boys. An ordinance is now in force in that city forbidding boys under 18 to smoke or chew under penalty—1st offence a public reprimand, 2d two dollars and costs, 3d five dollars and costs. The city dads of that moral town are too good for anything, and probably themselves forget the old adage: "As the old cock crows the young one learns." What men and women will do will surely be done by boys and girls and in the slang of the street—"don't you forget it."

FOR SALE CHEAP.—A good span of horses and harness, and a good platform spring wagon can be bought cheap for cash by calling upon Rev. D. A. Crowell at the M. E. parsonage in Jacksonville. *

MINING ITEMS.

Keaton & Klippel of Poorman's creek will take a trip to Idaho as soon as they finish cleaning up.

Work of cleaning up in the English mine is over for the season and the yield is said to have been very good.

A nugget weighing $134, taken out on upper Jackass creek, was brought to town this week by a miner named St. John.

Brodbeck & Klippel of Squaw creek have been doing well making good wages on the ground opposite Dividend Bar and will have water all summer.

Piping is still going on at the McCall & Rockfellow diggings near the Eagle mills. The gold yield is still good and water is expected to last for a month or two yet.

The mines in the vicinity of Rock Point have been pouring gold into the market quite lavishly lately and it is evident that there are good paying mines in that vicinity.

Gin Len is still working two giants on his Little Applegate claim but what the heathen is making is known only to himself. There is no doubt the ground is paying handsomely.

The claim of E. Manville & Co. on Jackass creek has paid its owners good wages this season. They work it by ground sluicing and have ground enough unworked to keep them busy for twenty years.

Logg & McDonnel of Jackass creek discontinued piping on Wednesday and will now commence cleaning up, which will take them six months. They have washed off three quarters of an acre averaging thirty feet in depth. The lucky owners of this claim will pan out a little fortune before fall.

A very rich strike was made this week at Willow Springs by Roten & McDougall. It was made on a narrow vein of quartz that had been partially prospected several years ago and was the result of finding some small pieces of rock in Roten's field. About three hundred pounds crushed in a small arastra yielded $160 and one piece of quartz weighing about twenty five pounds is said to be nearly half gold. Three pans of decomposed matter from the ledge yielded $165.

FOR BOISE CITY, IDAHO.—Dr. L. Danforth's train of four wagons, two carriages and fourteen horses, carrying nineteen persons left here Wednesday, May 4th, bound for Boise City, where the Doctor intends establishing himself in the drug business. The following is the personnel of the train: Dr. Danforth, wife and six children, James Kincaid, George Howard, George Justus, Ladd, Eugene and Frank Savage, Eliza Bowden and child, Joseph Scranton, wife and child; total nineteen persons. They will take the Linkville, Camp Harney route, and intend to strike the Snake river near old Fort Boise. Dr. Danforth is one of the old citizens of Jackson county and has practiced medicine here for many years. He and the family leave behind them many friends, a number of whom accompanied them to Soda Springs to say good-bye, and who wish them all success in their new home in Idaho, and we join in wishing them a pleasant trip and future prosperity. It is thought the journey will take about twenty five days, the distance being a little over six hundred miles.

A PROSPEROUS INDUSTRY.—The goods turned out by the Ashland Woolen Factory are in great demand both at home and abroad. At San Francisco as well as Portland these goods are in such demand that the orders from those points come in faster than they can be filled. There is especial inquiry from abroad for navy blue, of which the factory turns out hundreds of thousands of yards; also cassimeres of different patterns. Mr. Atkinson, the manager, informs us that the past twelve months the institution turned out and shipped 3000 dozen of blankets; 7,500 dozen of socks, 500 dozen of breakfast shawls. In view of the constantly increasing demand for these woolen goods, the proprietors propose soon to extend their manufacturing facilities.

SERENADE.—After the wedding of Mr. Freeman on Sunday a party of urchins repaired to his residence for the purpose of making themselves disagreeable. To rid himself of the annoyance Mr. F. generously gave the larger ones a couple of dollars and stuffed the smaller ones liberally with cake. The money was invested in a box of Havana cigars of the "stinkadora" brand, and on Monday morning several little boys were trying to sell them as they said they could get more cigarette material for the money. Those children would have been better at home and their parents should keep them there.

AUCTION SALE.—J. A. Cardwell will sell several of his second hand livery rigs, in good order, at auction during the Spring races. Reasonable time will be given on notes with approved security. Anybody else having stock, wagons, etc., they wish to dispose of at public sale, will also be accommodated. *

John Sizemore to Thos. Martin, 280 acres in Table Rock precinct. Consideration, $2,500.

SUICIDE IN LANGELL VALLEY.

A correspondent writing from Tule lake under date of April 23 says that Mrs. Louis Land committed suicide at at her home on the 22d, by taking a dose of strychnine. Mrs. Land seemed to be in depressed spirits during the day, and at noon time she told a man named Simmons, who was working for Land, that she felt very badly and much hurt in consequence of stories that had been in circulation in the neighborhood, derogatory to her character, that she wished she might die and thus be rid of the persecutions of those who seemed determined to ruin her name. Simmons tried to comfort her, told her that no doubt she allowed her imagination to get the better of her, that matters were not probably so bad as represented to her, and advised her to lay her troubles before her husband upon his return home and let him right the affair. His words appeared to have the effect of cheering Mrs. Land, and she so far recover her spirits as to be chatty and agreeable the remainder of the dinner hour. At 1 o'clock, Simmons took his team and went to his work leaving Mrs. Land apparently in good spirits. About 5 o'clock he quit work and came to the house, put up his team and got ready for supper. Hearing Mrs. Land's baby cry, he looked in and saw the child but the mother was not with it. He went into the house and out into the kitchen but seeing nothing of Mrs. Land, called to her. A voice answered faintly from the bedroom, and stepping to the door Simmons saw Mrs. Land lying with her face buried in her hands and turned to the wall. He asked her what was the matter and she told him that she had taken strychnine, but was sorry for having done it and asked him if he knew of anything that would relieve her. Simmons was so startled that he says he could not think of or do anything, and told Mrs. Land that he knew of nothing that he could do for her. She then asked if salt and water would not be good, and he, ready to do anything in the desire to save her life, fixed up a strong draught of salt and water. After drinking this, Mrs. Land said she felt much better and asked Simmons in the event she recovered to not say anything about her having taken the poison, even to her husband. The words had hardly been uttered when the poor woman went into convulsions, and one spasm followed another in quick succession until her death. In an interval between the spasms, Mrs. Land asked Simmons to go for one of the neighbors who lived about a mile away. He did so, but when the neighbor arrived Mrs. Land was dead. She was lying on the floor with her hands tightly clasped over her breasts, and her little child creeping about her, crying with hunger. She seemed to have realized at the last moment that if the child should get to the breast that it, too, would become a victim, of the fatal poison, hence the position in which her hands were found. Mr. Land was away from home attending a rodeo at the time of the suicide and did not return until sent for the next day. An inquest was held on the body of the deceased and a verdict rendered in accordance with the above facts. Mrs. Land was about 23 years of age and leaves a child about a year old.—[Lake County Examiner.

OUTRAGEOUS NUISANCE.—Complaint has been made that certain parties, well known, are in the habit of depositing all the garbage, sometimes mixed with dead cats, from their premises in the creek near A. C. Jones' residence. If it is not soon removed, suit will be commenced at the next term of the Circuit Court and, perhaps, some selfish folks will find that the rights and health of their neighbors are entitled to a little respect. Parties coming into town by the valley road complain that just in the edge of town there is a dead steer, emitting a most intolerable stench, and which only a few days ago, nearly caused a disastrous runaway. The first case should be looked after by the sanitary committee of the town and on inquiry it seems clear that the second case should be attended to by the road supervisor of this district. It is certainly a shame that such a nuisance should be allowed to exist so near town and the carcass ought to be buried.

COVER THEM UP.—It is said that the bones of the unfortunate "Ledford," party, murdered by Indians on Rancheria prairie in April, 1859, are lying scattered on the surface of the ground, probably having been dug up by Cayotes. The party consisted of Ed. Ledford, James Crow, Conger, Brown and a man whose name was unknown. The party, it will be remembered, were murdered while asleep, and so cunningly buried by the Indians that it took long search to find them and, even then the discovery of the bodies was by a mere accident. The remains of Conger were removed to the Willamette valley by his widow, and it does seem as if the settlers on Rancheria might spare a few hours time and re-inter the bleaching bones for common decency's sake.

Taylor is a fine large roadster, a beautiful dark dapple bay, six years old, 16 hands high and weighs 1,200 pounds. He is well proportioned, of good bone and action and excels as a roadster. Taylor was sired by Young Sligart, he by the well known Capt. Sligart, imported to Jackson county by W. C. Myer. His dam was a fine whip mare; grand dam was sired by a colt of old Black Hawk of Illinois, who trotted 100 miles in 10 hours. We advise stock raisers to look at the horse. *
