THE O. & C. RAILROAD.

A special dispatch received yesterday announces that at a general meeting of the holders of the Oregon and California railroad bonds held in Frankfort, a resolution was passed by an almost unanimous vote, adopting Mr. Villard's plan for reorganization of the company, by which control of the road passes from the Frankfort committee to Mr. Villard and his associates.

The reorganization, as appears from the plan submitted by Mr. Villard and advertised in London and Frankfort newspapers, is substantially, on the following basis: The syndicate believe the time has come when, under more energetic and efficient management, the original plan of the Oregon and California railroad, as authorized by Congress, can be carried out, and the road finished with every prospect of a prosperous future.

Valuable Invention at Albany.

We are informed that Mr. H. Kenton of Albany, after about two years of study and experiment, has succeeded in the invention of an electric sluice for saving fine gold from black sand. The machine is based on strictly scientific principles, is very simple, easily handled and can quickly be set up at any point where the miners desire to work.

A NEW PORK PARASITE.—A Berlin microscopist has recently discovered a new parasite in pork, which is described as "a small leech-like worm" which has not been heretofore known.

THE NEW YORK HERALD SAYS: Several watering-place hotels are preparing to follow the example of Corbin, of Manhattan beach, in the exclusion of He-brews.

Patrick came to the Morgue to claim a lost relative. "Has he any peculiarity by which he can be recognized?" asked the guardian. "Yes; he is dumb."

HUSBANDS AND WIVES.—A good husband makes a good wife.

Some men can neither do without wives, nor with them; they are wretched alone in what is called single blessedness, and they make their homes miserable when they get married; they are like Tompkin's dog, which could not bear to be loose, and howled when he was tied up.

The will of the late L. L. Williams of Roseburg has been admitted to probate with E. G. Hursh and Thomas Smith, executors. The value of the estate is about \$50,000, \$25,000 of which has been bequeathed to various parties, the remainder to go to Miss Mary E. Test, now a teacher in the public schools in Portland.

"DEFENSIVE WAR."—When the American army entered Philadelphia in June, 1778, upon the evacuation of the English, there was a want of paper for cartridges. A file of soldiers was then ordered to make search for it.

Buffalo Bill, says the Denver Tribune, has told an Eastern reporter that if there is an Ute outbreak he will immediately cancel his theatrical engagements and return to Colorado.
