

NOTICE.

Land Office at Roseburg, Ore., June 29, 1881. Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emptions, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

ICE CREAM SOCIABLE.—The ladies of the Presbyterian Church will hold an Ice Cream Sociable, in the basement of the Church on Tuesday evening next. All are invited to attend.

GRAND LODGE OFFICERS.—The following are the officers elected by the Grand Lodge, A. O. U. W., now in session at Salem: Grand Master, W. D. Hare of Astoria; G. F. C. N. Bradshaw of Port Townsend; G. O., J. P. Goodhue of Victoria; G. Recorder, Robt. Newcomb of Roseburg; G. Receiver, I. R. Moores of Salem; G. Guide, H. Chapman of Walla Walla.

WELL-APPELATE CASE.—At the county court on the 8th inst. the following entry was made: "Dowell vs. Dowell.—Demurrer of defendants J. C. Dowell and Charles Dowell, to a certain bill, sustained; demurrer of J. Ellensburg overruled with leave to complainant to make application for leave to amend bill within two weeks." Mr. Dowell is now working on his answer.

GEODETIC.—Major Jas. S. Lawson, U. S. Coast & Geodetic Surveyor, arrived here with his instruments yesterday. He has pitched his tent on the school house hill, from which point he will make his observations. The measurement of the depression of this part of our globe will have to be made at night, when the heavenly bodies can be seen through telescope, and their relative distance from the earth's surface determined.

SCHOOL CHILDREN.—There are 61,641 school children in the State, being an increase over last year of 2,026. Of the \$51,778.44 common school fund, Jackson county, with her 3,130 school children, has had apportioned to her \$2,629.20. The distribution has been made on the basis of 84 cents to the scholar. Last year it was only 77 cents to each scholar. Josephine with her 742 school children will receive \$608.16; Lake with her 738 scholars, receives \$619.92.

THE FESTIVE MOSQUITO IN LAKE.—Philip Miller and Ed. Hanley returned Saturday from Lake Harney, where they have been driving cattle. They report the country infested with millions of mosquitoes, who are so troublesome as to keep men and beast away and might fighting them. Indeed so bloodthirsty are these pests that two pairs of blankets at night are but a poor protection against them. Their bills go through and through, so say our returned boys.

NEW FRUIT DYER.—B. F. Miller of Sardinia creek will shortly commence erecting a fruit dyer, 10 by 12, with a capacity of drying one hundred bushels per day. He has so much fruit coming on this season, that he thinks he will be able to dry upward of one thousand bushels, mostly peaches and plums. Besides his extensive nursery he has one of the best orchards in the county; owing to the peculiar location his fruit ripens always earlier than at other places in the valley.

ABOUT CRIPPLES.—The other day we took the trouble of counting up the number of cripples in this county, and how they came to be such. We found eight that had only one leg, four with only one arm and five who had lost one or more of their fingers. There are quite a number that have only one eye but we could not ascertain how many there are of this class. What is most remarkable in the above cases is, that three-fourths of them became cripples for life by the careless handling of fire arms.

THE FOURTH AT BIG BUTTE.—Big Butte had its celebration, too, which consisted of divers amusements, an impromptu oration by W. H. Parker, the pedagogue, and a magnificent dinner spread in common by all the ladies. Then base ball, and race by gentlemen in sacks—which, for ludicrousness had not seen its like on Big Butte. It was a continuous line of fall and get up again. But an egg race by the ladies "capped the climax." Each carried an egg in a spoon. It need scarcely be said that all the eggs "drapped" but one, which was carried by a young miss, who being the victor carried off the prize. Our correspondent winds up by saying, the glorious Fourth "wound up" with a dance at night.

THE RAILROAD SURVEYING.—J. S. Howard's surveying party reached the Klamath river, near the mouth of Willow creek, the first of the week, and then returned to the summit to begin work again. They are camped near the Toll House now, and started yesterday morning upon the line down this side the mountain pass. Mr. Harliburt has also sent a surveyor, a Mr. Austin, from Portland, to Josephine county, to seek out a route from this valley to the coast. Mr. Austin will employ his assistants in Josephine county. This move looks as though Willard means to take possession of the coast route we mentioned last week. It would undoubtedly suit the Northern Pacific to have a line between Portland and San Francisco entirely independent of the Central Pacific. A line from this valley direct to the coast would suit the people of Jackson county very well, too.—Tidings.

The last we heard of Col. Hurlbert was that he was directing a party of surveyors near Thornton's in Josephine county, endeavoring to find a practical pass through the Coast Range of mountains. Thornton's is this side of Kerbyville.

The study of literature nourishes youth, entertains old age, adorns prosperity, solaces adversity, is delightful at home, unobtrusive abroad, deserts us not by day or night, in journeying nor in refinement.—subscribe for the OREGON SENTINEL.

Fears are entertained that the stage may be stopped some night soon, as there are four or five desperate characters on Siskiyou mountain. Two of them are deserters from Fort Klamath and the other two are notorious penitentiary birds.—Journal.

Postmaster Max Muller informs us that 1442 money orders were issued at the Jacksonville post office during the six months ending June 30, 1881. The amount of money covered by these orders Mr. M. had not figured up, but it is very considerable.

Please stop it. We notice that some persons who attend church chew tobacco during service. A very bad habit, and one that needs only to be spoken of to be avoided in the future, as we are confident that parties who act thus do so through thoughtlessness.

The new comet will afford abundant excuse for lovers to sit up these evenings and expatiate upon the wonders of the new phenomenon. But we know of a young man that couldn't come over his girl on the strength of this terrestrial substance.

Reader, if you owe the SENTINEL, please be so kind and conformable. We have bills coming due every week, and it takes money to give on a good newspaper.

Enoch Walker got in on Saturday from the swamp land count over the Cascade mountains. He says the mosquitoes are just fearful, leaving a fellow no rest neither day or night. Mosquito bars are no protection as these pestiferous insects have such long "bills."

Says the Yreka Journal: The railroad surveyors in making surveys from the summit of the Siskiyou, searched for the lowest pass, from which they will run lines to see how the grade will come out. The first line has been extended so as to strike down Cottonwood creek.

It is a noted fact that he families who are lucky enough to have a good looking hired girl, are sure to get the largest piece of beef, and a half pint more milk to the quart. It pays to keep a good looking hired girl, even if it does cause the female head of the house some uneasiness.—E.

The horrid custom of tying tin kettles on days' tails, a sewing machine howling through the streets, should be stopped. Last Wednesday afternoon Jacksonville was treated with one of these cruel pastimes, and the shrieks of the poor canine filled the atmosphere until they died away in the distance.

Charles Howard was engaged surveying inside the city limits this week. The object was to establish the corners of E. Jacobs' lots, in order to enable that gentleman to erect a breakwater against the inroads of Jackson creek. Now is the time to erect breakwaters against that treacherous stream.

At 11 a. m., to-morrow, Rev. D. A. Crowell will preach his last sermon at the M. E. church, Jacksonville, to which everybody is respectfully invited. The two remaining Sundays in this month will be devoted to other portions of his circuit, after which he will go to conference which meets at East Portland.

Jerry Nunan, H. Gasquet and Chas. Hughes, were at Ashland on Thursday in the interest of the wagon road to the coast. They report the citizens of that place very much in favor of the immediate prosecution of the road, and as an earnest number of the subscribers doubled their subscriptions, \$120 of which was paid in.

Twenty wagons loaded with Indians and their effects passed through La Grande, Union county, on the 6th en route from the Malheur reservation, Baker county, Oregon, to the Yakima agency, Yakima county, W. T. The train was in charge of Rev. Father Wilbur, the Indian agent at Simco.

Rev. J. R. N. Bell preached on Wednesday and Thursday nights at the M. E. Church to attentive audiences. He says they were well pleased to hear him, as he is expected to be stationed at some other field of labor. The conference to which Bro. Bell belongs will assemble at Corvallis sometime in August.

Travellers lately arrived in the valley from Modoc, Cal., and Lake county in this State, speak of crickets a quite a pest. Some parts passed through people were seen engaged with broom and brush sweeping off the rickets from their garden plants. The rickets were very destructive of vegetables, and in fact everything green.

Mr. F. R. Girard, manager for the well known music house of Slerman, Clay & Co., San Francisco, has just returned from a visit to Oregon and Washington Territory. He says that we have the best valley he has ever seen here, and the climate is finer than either further north or south. All we need is an outlet for our surplus produce.

Roseburg commission merchants complain of the condition in which wool is shipped by some parties in Rogue River valley. In some cases wool has been dampened, besides containing dirt and rocks, and in one shipment last week a large worn out bed quilt was found in one of the sacks. This kind of business won't pay for any great length of time.

Nort Edgings, who some six weeks ago had his left leg broken in the stage upsetting coming down Siskiyou, and who has been confined to his room ever since at the Hotel, is now home in Rock Point. He is now in the cementing grade and expects soon to be able to get on the line again.

The public trial of one of John Deering's self-twine Binders, which took place in Nick Ficke's grain field last Saturday afternoon was eminently successful. The trial was witnessed by a large number of our citizens, and the way the grain was mowed, bound and thrown off was a caution. C. Karewski is agent for this machine.

The Wheeler & Wilson new sewing machines are adapted to every grade of manufacture of stitched goods and every kind of domestic sewing. They are superior to all others in point of speed, durability, precision and ease of operation. Regularity, strength, beauty of finish, range of work, faculty of manufacture, perfection of construction and the highest authorities the best sewers in the world.

AN EYE-SORE TO BE REMOVED.—Southern Methodist church of Phoenix, which cost some \$10,000, and which on account of its sided and leaning condition had been occupied, was on Wednesday sold to Mr. Park for \$125. It was taken to pieces at once and the wood used for other purposes.

Thirsty men who frequent California street set a better example to the young, by drinking less whisky, and more good water out of the public well in front of Savage's.

ANOTHER BEAUTIFUL QUILT.—Mrs. Catharine Magruder of this city has just finished one of the most exquisitely executed diamond quilts we have seen for a long time. The ground of the quilt is white, and the surface is covered with six square wreaths, in alternation, tapering off as the center is reached, where is worked a beautiful large red diamond. The outer wreath, of exquisite feather pattern, is worked in white; inside of it, is the wreath in red of 36 half diamonds, with a star at each corner; after the next white comes a red wreath of 24 diamonds and 4 stars; after which the white is followed by the wreath of 12 diamonds with four stars; with the center a full red diamond. There is not a bit of machine work on the entire quilt, which it took Mrs. Magruder eight months to complete. The needle work is done with such precision that Mrs. M. prides herself on the fact that among the tens of thousand stitches in this quilt, there is not a single one misplaced. Mrs. Magruder is in her 71st year, and this quilt she has intended for her friend, Mrs. Major Glenn, of San Francisco.

WAGON ROAD MEETING.—A good number of the citizens of Jacksonville and vicinity met yesterday afternoon at Holt's Hall, to listen to a statement by Messrs. Gasquet & Hughes concerning the proposed change in the wagon road from Gasquet's ranch to Smith River harbor, instead from Gasquet's to Crescent City. Col. Ross was called to the chair and Chas. Nickell acted as secretary. A full discussion was had, when a committee of five was appointed consisting of Messrs. Hughes, Hauley, Muller, Foudray and Nunan, whose duty it shall be to draft articles of agreement for Mr. Gasquet to sign. The committee to report at an adjourned meeting at eight, p. m.

PROLIFIC NATURE.—S. Booth bro't to our office three clusters of wheat stalks each grown up apparently from a single grain. The first cluster contained 52, the second 79 and the third 117 stalks, with each a full developed ear on it. Think of it: 248 stalks and ears from three grains of wheat! We counted the grains in one of the ears, and found 67 full grains and several shrivelled ones. If all the ears averaged as this one does, we have a grand total of 16,516 grains as the result of this season's yield—the outcome of 3 single grains! What other country beside Rogue river valley can make such a showing!

OFFICE OF SCHULTZ & VON BARGEN, 129 California street, cor. Front, San Francisco. JOHN L. BURNS, Agent.

TO THE TRADE.—Practical experience has demonstrated to us that the trade requires a choice old Bourbon for immediate use. For it is well known that straight whisky that is absolutely pure requires age, great care and attention, and our old Davenport whisky possesses all the above qualities. The grain used in the distillation of our J. H. Davenport whisky is carefully selected from the finest, richest and very best grown in the state of Kentucky. The water is drawn from one of the finest limestone springs in the state, the peculiar properties of which have gained for Kentucky whiskies such world-wide celebrity. This process makes our J. H. Davenport a pure, hard made, sour mash whisky, and we claim that for delicacy of flavor, purity and medicinal qualities, it stands unequalled.

Yours truly SCHULTZ & VON BARGEN. From and after this date J. P. McDaniel & Co. Jacksonville, will keep the justly celebrated Davenport, pure straight whisky exclusively.
