SERIOUS ACCIDENT.—A serious accident befell Mrs. Dr. W. L. Colvig Sunday. The wedding took place at 7 1/2 o'clock, and at 8 1/2 o'clock the happy couple left here on the stage for Eugene where they intend to take up their abode for Portland and New Tacoma. After a bounteous collation amid the congratulations of friends and the petting of an old shoos, the bridal party drove town.

AFFLICTED FAMILY.—We regret to learn that severe sickness is afflicting the family of Rev. A. C. Taylor, who resides on the divide between the Little and Big Butte mountains. All of his children, eight in number, were taken down with a fever resembling sore throat which developed into diphtheria. It consists of a series of subterranean caverns or chambers, through which a person can walk for some 400 or 500 yards from the entrance, and there are still other chambers beyond, the entrances to which are too small to admit a person, but could be enlarged sufficiently, it is thought, by a little labor with pick and hammer.

The finest soda spring in Southern Oregon is said to be located near the summer ranch of Mr. Neil. The medicinal properties of the spring have been analyzed by an eminent chemist who has visited the spot, and he pronounces them superior to any similar spring on the coast.

Last week quite a number of tourists and health seekers went up to the North Fork of Little Butte to McCallister's soda springs. Among the number we noticed Jacob Houston and family, Mrs. Morrison and son, Wilson Potter and M. C. Miller. Mr. Potter found a fir tree, eight feet in diameter which it took the party from 7 A. M. to 4 P. M. to cut down and then there was not much honey in it after it was down.

A little four year old boy who lives up the valley was much astonished when he awoke one morning a few weeks ago to find a little sister in his mother's arms. "Where did it come from?" he asked, with his eyes wide open. "From God," was the reply. "Who brought it?" was the next very natural inquiry. "An Angel." He thought for a moment, and then exclaimed: "Oh! mamma, why didn't you catch the angel too!"

George Nutley, formerly of Ashland, but now of Fort Klamath, was in town on Wednesday and gave us a call at our sanctum. He is working at his trade at the Fort, whilst his sons are attending to the ranch, six miles west of the military post. Mr. N. employs his Sundays in teaching and preaching, and as there is no church bell at the Fort, the good people are called to meeting at the sound of the bugle in the hands of an experienced military musician.

An interesting religious meeting took place last Sunday at Eagle Point in this county, which partook largely of the nature of a union meeting, and was participated in by ministers and people of different churches. Brother Crowell preached the first sermon, brother Miller the second, after which Elders Peterson, Gilbert and Flemming spoke. In the afternoon the Lord's supper was administered by brother Peterson and all partook of the sacred emblems. This is as it should be.

A HEAVY TRANSACTION.—Several of the heaviest instruments of writing ever recorded in Jackson county were this week spread upon the records by County Clerk Henry Klippel. The documents contain 68 folio pages of mortgage deeds and releases. In the latter, the German bondholders release a mortgage of \$10,900,000 held against the Oregon and California R. R. and existing since 1870. The new mortgage dated May 20, 1881, conveying all the railroad property of the line, binds Henry Villard and other gentleman constituting the present Oregon and California Railroad Company in the sum of \$10,950,000, payable to Heinrich Hohenauer and fifteen other capitalists of Frankfort-on-the-Main, Germany, named in the instrument of writing. Mr. Richard Koehler, of Portland, is acting for the German bondholders.

THE OLD WAGON ROAD HEARD FROM.—H. W. Bloom, representative of the S. F. Call, came up horseback from Crescent City on Monday. He and another man came over the old abandoned wagon road, which he says is the worst piece of a road it has ever been his misfortune to travel. They overtook an emigrant team coming this way. The family had been out from Crescent City a long time, and still a very bad part of the road was yet before them. At a number of places they had to take the wagon apart and carry it in pieces over steep precipices. It took them four days to make as many miles. At another point the family worked a whole day to restore an old dilapidated bridge over a stream with perpendicular banks. Mr. Bloom proposes to write up his experience from Crescent City to Waldo and at Waldo for his paper, the Call.

CEMENT PIPE.—Ellwood Smith & Co. are now in Jacksonville making cement pipe for conducting the water to any part of your premises. The mixed liquid sand and cement is shoveled in a funnel-like machine, which issues forth at the bottom of the machine like a huge hollow sausage. Any length of pipe can thus be made, depending upon the amount of cement mortar that may be wished to be worked up. The pipe will harden in one day, after which it will be impervious to water. The wheels of a loaded wagon have been known to pass over this pipe without crushing it. A number of our citizens are introducing this pipe on their premises for irrigating and drainage purposes.

KICKED BY A COLT.—Beware of the kicks of a young colt! Last week friend D. R. White of Griffin creek was kicked in the face by a sportive young colt, the force of the kick centering on the nose, almost ruining that indispensable member of the body. Mr. White has been quite an invalid ever since.

Mrs. Pape will accept our thanks for a bountiful supply of wedding cake.

What we Would like to Know?

What flies are good for, anyway? What will be done with Guitteau? What good smoking cigarettes do? What benefit drinking whiskey does? What kind of shoes do the angels wear?

Why so few of our farmers beautify their residences? What has become of all the politicians of last year? Why some of the "boys" get mad when it is only a joke?

Why the mercury fell to 44 deg. before sunrise August 1st? If it don't make all the difference in the world whose ox is gored? If everyone reads the SENTINEL! If not how do they get the news?

Where you can find a pleasanter climate than Rogue River Valley? How the girls make the paint stick on their cheeks this hot weather?

Why the uglier a young man is, the more handsome does he think himself? Whether it does a fly any good to walk around a fellow's nose these mornings?

Whether the comet feels any better for having made such an exhibition of itself? Where you can find a handsomer set of records than those kept by Allie Klippel?

Why the road overseers do not cut down the dagger cockle burs as required by law? Why the citizens of Jacksonville do not move in the matter of a water works to supply the town with water?

IN MEMORIAM. HALL OF DEFIANCE COUNCIL, NO. 15, C. OF H., JULY 31, 1881.

WHEREAS, It has pleased the Supreme Ruler of the Universe, in His divine wisdom, to remove from our midst, to that land of eternal bliss, our beloved Brother, Marion Kitterman, by the hand of death, and

RESOLVED: That in the death of Brother Kitterman this order has lost a member who was ever the advocate of right, the enemy of everything that was wrong; a Champion thoroughly imbued with the principles of our beloved order, Temperance, Fidelity, Unity, Justice and Mercy; and his example should not be lost on us. Although he has passed from our sight, the recollections of his devotion to duty, love for Championship, and steadfast purpose in our noble cause, should linger long with us.

RESOLVED: That we extend to the sorrow afflicted family our profound sympathies in this hour of sad bereavement; and, while trusting that the Supreme Ruler who has seen fit to remove our Brother will soothe and cherish them; let us not forget that we owe them the sacred duties of care and protection.

IN CRITICAL CONDITION.—REV. O. E. Haven, one of the Bishops of the M. E. Church, who some seven weeks ago arrived in this state, is lying dangerously ill at the residence of Rev. J. N. Dennison, Salem. Shortly after his arrival here he was prostrated by a severe attack of bilious remittent fever, which afterwards changed into typhoid malarial fever. On the first of the month a change for the worse set in and the Bishop has since been quite low. At a consultation of physicians on Sunday last, it was given out that the case, although not necessarily hopeless, was a very critical one. The Bishop's wife and son came up from San Francisco, and are now ministering to his wants. The Bishop will not be able to carry out his plan of visiting and presiding at the two Methodist conferences in Oregon and Washington, the two in California, and the conferences in Nevada and Colorado.

P. S.—Since the above was in type we learn that Bishop Haven died Aug. 2d at 2 P. M. of uranic poisoning, aged 60 years. He was elected Bishop last year. He was born in Boston Nov. 1, 1820, and since 1842 had been in the educational and ministerial fields.

OFFICE OF SCHULTZ & VON BARON, 129 California street, cor. Front, San Francisco.

JOHN L. BURNS, Agent. TO THE TRADE.—Practical experience has demonstrated that the trade requires a choice old Bourbon for immediate use. For it is well known that straight whisky that is absolutely pure requires age, great care and attention, and our old Davenport whisky possesses all the above qualities. The grain used in the distillation of our J. H. Davenport whisky is carefully selected from the finest, richest and very best grown in the state of Kentucky. The water is drawn from one of the finest limestone springs in the state, the peculiar properties of which have gained for Kentucky whiskies such world-wide celebrity. This process makes our J. H. Davenport a pure, hand made, sour mash whisky, and we claim that for delicacy of flavor, purity and medicinal qualities, it stands unequalled.

Yours truly SCHULTZ & VON BARON. From and after this date J. P. McDaniel & Co. Jacksonville, will keep the justly celebrated Davenport, pure straight whisky exclusively.

Mrs. Pape will accept our thanks for a bountiful supply of wedding cake.
