

# OREGON SENTINEL.

JACKSONVILLE:  
SATURDAY, AUGUST 20, 1881.

## NOTICE.

Land Office at Roseburg, Ore.,  
June 29, 1880.  
Notice is hereby given that I have de-  
clined the OREGON SENTINEL as the paper  
in which I shall hereafter publish all pre-  
ceptions, homestead and applications  
for mining patents for lands lying near  
Jacksonville, Jackson county, Oregon.  
W. F. BENJAMIN, Register.

**RAILROAD OFFICIALS.**—Messrs. R.  
Koehler, manager of the O. & C. R. R.,  
accompanied by John A. Hurlbert,  
Chief Engineer of this division, passed  
through town this week on their way  
to Klamath river. They are on a tour  
of observation on the different routes  
surveyed and are now examining the  
pass over the Siskiyou. They are ex-  
pected to return to Jacksonville to-day.

**PLUCKY.**—While out hunting cows  
one day last week, Miss Annie Savage,  
daughter of James Savage of Rogue  
river, shot and killed a panther meas-  
uring eight feet in length. She was  
accompanied by her sister, Esther, and  
a couple of dogs. The young lady  
mentioned, generally takes a gun along  
for any game that may come in sight,  
but this last act of hers is a plucky  
one, to say the least.

**WORKMEN BALL.**—Read the adver-  
tisement of the ball to be given by  
Banner Lodge No. 23, A. O. U. W.,  
at Holt's Hall, on Wednesday, Sept.  
28th. The party is given as a justifi-  
cation over the event of the order in  
this State having been set off as a sepa-  
rate jurisdiction, and those having it  
in charge propose making it the ball  
of the season. Everybody is invited  
and a good time is promised.

**THE SURVEY.**—J. S. Howard and  
party finished running one line of their  
survey last week and commenced on  
another last Wednesday. The one  
just completed runs through the farms  
of A. Davison, Ross, Chambers, Sears,  
Wright and McDonough, and crosses  
Rogue river near Chavner's bridge.  
The line now being surveyed com-  
mences at J. S. Herin's place and runs  
toward the mouth of Bear creek. We  
may get a railroad yet.

**CATTLE DYING.**—From H. C. Per-  
kins who is just in from Harney valley  
we learn that the young cattle in that  
section and in the neighborhood of  
Stein mountain are dying in large  
numbers of a disease which is known  
as the "black leg." The mortality is  
chiefly confined to young cattle and is  
contagious. It will be a serious mat-  
ter for our stockmen if this disease  
gains such an ascendancy as the ring-  
necked and kindred diseases does in  
other sections. [Lake county Examiner.]

**BUSINESS CHANGE.**—Messrs. Reames  
Bro. and Alex. Martin have purchas-  
ed the interest of H. M. Thatcher in  
the mercantile business of Thatcher &  
Worden, which includes the sutler  
store at Fort Klamath and the busi-  
ness at Linkville, and will take charge  
as soon as stock is taken up. We  
learn that Evan R. Reames will re-  
move to Linkville to take charge of the  
store at that place, while Alex. Mar-  
tin will attend to business at the Fort.  
Mr. Thatcher takes full control of  
the steamer Geul. Howard.

**ANOTHER PIONEER GONE.**—V. S.  
Ralls, one of the old time residents of  
Jackson county, died at his residence  
near Willow Springs last Tuesday  
night after an illness of about two  
weeks. He was a native of Bethel,  
Bath county Kentucky, and has been  
a resident of Jackson county since  
1852. His remains were interred in  
the Jacksonville cemetery last Wednes-  
day, Rev. M. A. Williams delivering the  
funeral services, a large concourse  
of friends attending the funeral. He  
was near 59 years of age.

**OUR PUBLIC SCHOOL.**—The Jack-  
sonville public school under the principal-  
ship of Prof. J. W. Merritt, has made  
a good record for itself. In the past  
the pupils have shown gratifying pro-  
gress in their studies, and the patrons  
of the school have every reason to ex-  
pect the same from them in the future.  
The fall term of this school will com-  
mence on Monday the 18th of Septem-  
ber next, and will be managed as fol-  
lows: 1st department, J. W. Merritt;  
2d department, L. R. Webster; 3d de-  
partment, Andrew H. Hobbell; 4th de-  
partment, Miss Belle Carr.

**YELLOW JACKETS UNTIL YOU CAN'T  
BITE.**—The ripening yellowberries are  
visited by swarms of yellow jackets,  
who suck the juice and leave only the  
seed of the berry. On Foot's creek  
these pests are so annoying that they  
get into people's houses, and have to  
be chased from dining tables the same  
as flies. So ravenous do they seem to  
be that at several points in the county  
they attacked beehives killing the bees  
and eating the honey. Mr. Duffield of  
Foot's creek, the other day, whilst  
hauling building logs, drove into seven  
swarms of them, and himself stung in  
many places. Mr. D. says he has  
never seen the yellow jackets as thick  
as this year.

**IN JUSTICE COURT.**—H. True ap-  
peared before Justice DePeatt last  
Thursday to answer the charge of as-  
sault with a dangerous weapon. Mr.  
Wells testified that Mr. True met him  
on the road with a shot gun last Thurs-  
day evening in such a threatening man-  
ner that he (Wells) being unarmed  
deemed it safest to turn back and  
make tracks with heels toward Mr.  
True. Mr. True did not shoot how-  
ever. Defendant offered no testimony  
and was held to answer in the sum of  
\$200. Both are well-known citizens,  
and we hope their trouble, which is of  
long standing, and grew out of a dis-  
pute over a water ditch, will be amicably  
settled, somehow. [Tidings.]

Josee Houck of Ashland offers the

they will locate their terminus at that  
place, and says he will also furnish  
them with wood and water free of cost

under obligations for a  
plum and peaches, the

To parties contemplating  
the mountains who are  
with the necessary para-  
quair for fishing purpose  
recommend a visit to Davi  
keeps an excellent fishing  
use of his friends.

From W. L. Record, who  
returned from Crescent Ci  
that work on the new road  
on and good progress is  
Twenty Chinamen and five  
are now employed with  
as Superintendent.

The party composed of W  
Miss Sallie Clarke, Henry  
Fannie Dowell and Miss I  
returned from their excu  
Wednesday. They visited  
ath, Rogue River falls  
Lake while absent.

The three American ma  
purchased in California by  
and John Smart, of Lak  
gon, last fall, sheared 624 pounds  
of wool recently. Ordinary care was  
given them, and their fleeces were of  
less than a year's growth.

The wife of Dr. Colvig, who several  
weeks ago had a leg broken at Grave  
Creek, was removed to her home at  
Rock Point the other day. Driving  
up from Grave Creek the bandaged  
limb received several painful jerks,  
which it is feared will retard the heal-  
ing process.

Dr. G. H. Aiken, who attends to the  
Cougale family on Williams creek, and  
numerous others in that locality, says  
he never takes less than a gallon of  
fever mixture along on each trip he  
makes. Notwithstanding the unusual  
amount of sickness this season the mor-  
tality has been quite light.

We learn that Thos. Chavner has  
kindly offered to donate a piece of land  
near his residence for the erection of  
a monastery under the charge of the  
two Benedictine Fathers now here and  
it is also reported that P. W. Olwell  
of Phoenix has offered an extremely  
liberal cash subscription if they will  
locate in this valley.

The pavilion for the reception of  
goods for the Portland Mechanic's  
Fair will be opened October 2d, and  
the exhibition will open Oct 13th, and  
close Oct. 29th. In the different class-  
es medals and diplomas are offered for  
the exhibit of almost every kind of  
machinery, manufactured products,  
food products, the arts and horticul-  
ture.

The Wheeler & Wilson now sewing  
machines are adapted to every  
grade of manufacture. They do  
domestic sewing, and are superior to  
all others in point of speed, durability,  
precision and ease of operation, regu-  
larity, strength, beauty of stitch,  
range of work, faculty of management,  
perfection of construction and elegance  
of finish. They are declared by the  
highest authorities the best sewing ap-  
paratus in the world.

How it Runs.—There is, says the  
Roseburg Plaindealer, no longer room  
for speculation in regard to the course  
the railroad will take when it is ex-  
tended beyond Roseburg. Already  
surveyors are at work locating the  
road and driving grade stakes, and as  
nearly as we are able to find out, the  
course as decided upon will be south  
from here, to or near Canyonville, but  
it is not definitely settled, whether the  
road will be located through the can-  
yon or around by the head of Cow  
creek, the cost being about the same on  
either route. From the head of the  
canyon, it is supposed that the road  
will be located through the Cow creek  
and Grave creek hills as far south as  
Jump-off-Joe, and there take a South-  
western course through the mountains  
aiming to strike somewhere about Cres-  
cent City. Then down the coast and  
connect with the Donakue road which  
Mr. Villard has lately bought, and  
which runs up the coast from San  
Francisco about 125 miles. The road,  
if located on this route, will leave  
Jacksonville about 45 miles to the left,  
with a good wagon road to it at nearly  
all times of the year.

No preparation has ever performed  
such marvellous cures, or maintained  
so wide a reputation, as AVER'S  
CHERRY PECTORAL, which is recognized  
as the world's remedy for the throat  
and lungs. Its long-continued series of  
wonderful cures in all climates has  
made it universally known as a safe  
and reliable agent to employ. Against  
ordinary colds, which are the fore-  
runners of more serious disorders, it acts  
speedily and surely, always relieving  
suffering and often saving life. The  
protection it affords, by its timely use  
in throat and chest disorders, makes it  
an invaluable remedy to be kept al-  
ways on hand in every home. No per-  
son can afford to be without it, and  
those who have tried it never will.  
From their knowledge of its composi-  
tion and effects, physicians use the  
CHERRY PECTORAL extensively in their  
practice, and clergymen recommend it.  
It is absolutely certain in its remedial  
effects, and will always cure where  
cures are possible.
