

NOTICE.

Land Office Rosburg, Ore. June 23, 1880.

To all Whom it may Concern: Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emption, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

W. F. BENJAMIN, Register.

FOR SALE CHEAP.—Five head of work horses, two set of double harness and one wagon, all nearly new. Enquire at Howard's store.

LEFT US.—Last Thursday Evan R. Reames started for Linkville where he goes to manage the business of Reames, Martin & Worden. His family will also leave us as soon as a residence can be secured at that place.

NEW WAGONS.—J. A. Cardwell has just added to his livery stock two handsome spring wagons, double seated, and a most convenient light running buck board just suited for mountain travel. Try them and see how easy they run.

ODD FELLOW'S ATTENTION.—Saturday, Oct. 1st, has been set apart for the adoption of a new set of by-laws for Jacksonville Lodge No. 10, and all the members are requested to be present at that time. District Deputy Helman will also be present at that time to give instructions in the degree work.

PIONEER RE-UNION.—The fifth annual re-union of the Pioneers of Southern Oregon was celebrated at Ashland on Thursday last with an immense crowd from all parts of the valley present. Mrs. A. S. Danniway delivered the main address and everything went off nicely. We will give a full report next week.

SEVERE ACCIDENT.—On Wednesday morning, Albert, an eight-year old son of Morris Menser, attempted to climb into a wagon but the team started and the child was caught in the spokes of one of the wheels. His collar bone was broken and his arm was badly cut, besides receiving some internal injuries.

PACIFIC SURGICAL INSTITUTE.—Some doubt as to the standing of this concern having been created by circulars issued by a rival institution, parties here telegraphed to San Francisco and were answered that it was in "good repute and standing." One of the doctors arrived here on Monday as advertised in the SENTINEL and at once took charge of several cases when it was ascertained that he was not a fraud.

CHANGE OF LOCATION.—On Wednesday, A. C. Jones Esq., accompanied by his family, left by stage on route for Seattle W. T., where he intends locating for the practice of his profession. Mr. Jones was one of the ablest lawyers of Southern Oregon and a high minded, worthy citizen that the community is both to part with, and the loss of his family will be felt here in local circles. We hope to hear of his success in his new home.

ANOTHER VICTIM OF CONSUMPTION.—Miss Mallie Feathers, daughter of D. H. Feathers of this place, died at the family residence in Jacksonville last Friday morning of consumption at four o'clock A. M. after a lingering illness. Miss Mallie had become a general favorite among the young folks of this place, who will all be pained to hear of her death. The funeral will take place from the family residence to-day at 3 o'clock P. M. and all her friends are invited to attend.

ANOTHER ACCIDENT.—Being called to attend Chris Kretzer on Applegate last Monday Dr. J. W. Robinson on his return home from that place upset his buggy near the Sturgis place and was thrown out. His head and shoulders were badly bruised but, luckily, no bones were broken. Fred Otten, who was with him at the time, escaped without injury, besides a few scratches, but the team got away during the accident and the buggy was badly demolished. The Dr. was brought to town and will be around again in a few days.

LODGE INSTITUTED.—Last Tuesday Messrs. W. J. Plymale, Henry Koppel, K. Kubli, Frank Krause, S. Wise, Dr. W. Jackson and J. M. Smith visited Ashland for the purpose of instituting a lodge of the A. O. U. W. The lodge starts out with twenty charter members and the following are the officers: P. M. W., J. M. Taylor; M. W., W. H. Leeds; F. T. O., A. Andrews; O. C. H. Hill; Rec., B. R. Willis; Guide, I. W. Bar; Fin., G. F. Butler; Receiver, W. H. Atkinson; I. W., J. W. Almut; O. W., W. A. Wilshire. The new lodge has bright prospects for doubling its membership soon and has been named Ashland Lodge No. 65.

WILL BE LOCATED.—Mr. Chas. J. F. Morris of New York, chief engineer of the O. & C. R. R., was with us last week, says the Rosburg "Plains" is remaining over night. Mr. Morris is a gentleman in every sense of the word, and does not belong to that class who allow positions to run away with their brains. He says that on account of sickness Mr. Villard will not be in Oregon until about the 20th inst., and says also the route the railroad will take will be definitely located when Mr. Villard arrives. He is himself not fully satisfied with any of the routes so far surveyed, but thinks that a more desirable route from here to the coast can be had, and he is rather of the opinion that an entirely new survey will be made before the matter is definitely settled.

Howard's railroad surveying party is still in statu quo, awaiting orders from headquarters. It is more than likely that work will again be commenced soon after the 20th inst.

We had the pleasure of a call this week from F. M. Nickerson, County Clerk of Josephine county, who reports business rather quiet this season, on account of the close of the mining season, but prospects good for the coming year. Mr. Nickerson came over on official business and returned after a two day's stay. Come again Nick.

On Friday last the backing in one of the mill-stones in McKenzie & Foundry's steam mill became loosened on account of the worthlessness of the plaster Paris used and for a time the employees of the mill were engaged in dodging the pieces flying from the burrs. As it was, no serious damage was done, and still it was lucky that all hands escaped injury.

Mr. E. H. Anterrieth returned from San Francisco on Tuesday having been there several weeks under the treatment of Drs. Powers & Wilder, the eminent oculists of that city for a serious affection of his eyes. Mr. A. was threatened with total blindness but, we are glad to say, his sight has been restored and he is in high praise of the skill that saved it.

The soldier who shot at Guitteau through the bars of his cell was promptly incarcerated in the guard house. The act was probably prompted by humanity and the assassin may feel fortunate if he dies by a bullet for an eye. Court dares discharge him popular fury will tear him to pieces. Instead of punishing the Sergeant, he should receive a Captain's Commission from the Secretary of War.

The Wheeler & Wilson new sewing machines are adapted to every grade of manufacture of stitched goods and every kind of domestic sewing. They are superior to all others in point of speed, durability, precision and ease of operation, regularity, strength, beauty of stitch, perfection of work, faculty of management, and elegance of finish. They are declared by the highest authorities the best sewing apparatus in the world.

John S. Isaacs, son of George W. Isaacs of Butte creek, aged four years, seven months and twenty-one days, died at the parental residence, of diphtheria on Sept. 8th after a short illness. Dr. Parker, of Eagle Point, was in attendance on the case, and as some parties have been circulating reports derogatory to the treatment of the case by the physician in charge, Mr. Isaacs wants it known that himself and family are perfectly satisfied with his treatment, and are satisfied that Dr. Parker does as much as any other physician could have done.

The United States must not take rank as the wealthiest nation in the world. It falls behind only England and France in its present valuation and its average annual increase of wealth is greater than that of both these nations combined. It is estimated at \$850,000,000,000. This is an enormous gain, more than the entire productive industry of Spain, or Italy, or Russia. The resources of our country, both agricultural and mineral, surpass those of any other country the inventive genius of our people is more constant and universal.

The Apache Indian war in Arizona is only a conditional truce, and is only a temporary suspension of hostilities. The Indians are still in the mountains, and are still in the mountains, and are still in the mountains.

F. Breckenfeld has disposed of all his goods and will start for the Sound country in a few days where he proposes locating. We are sorry to see Mr. B. leave, as he is one of our best citizens, and hope that he will prosper wherever he may locate.

Mrs. Dr. G. H. Aiken sprained her ankle one day last week while stepping from a porch at Oakland, Cal., and her stay in that city, on that account, has been extended longer than was intended. The Dr. will start for Redding soon to bring her home in a private conveyance.

The meaneast newspaper man we have heard of for a long time is one R. L. G. G. G., one of the editors of the State Rights Democrat of Albany, this State. He has absconded, taking with him about \$3,400 of other people's money, and leaving a wife and several children in destitute circumstances.

Rev. N. A. Starr, of the M. E. Church, died at Springfield Tuesday of last week, after an illness of about six weeks. His remains were taken to the Belknap settlement in Benton county for interment. He was one of the oldest and most widely known ministers of the Oregon Conference.

The wife of Hon. J. E. Watson of the second Judicial district is confined to her bed with a severe attack of typhoid fever and Judge P. P. Boise, of Salem, will hold Judge Watson's Court in Coos county, which convenes on Monday, Sept. 20th, Mrs. Watson being too ill to allow him to leave.

The low land that borders on the river south of Portland, belonging to the O. R. N. Co., is being filled up. It consists of a strip one mile long and 200 feet wide, and is to be raised to a point three feet above the high water mark of 1876. This property will be very valuable when thus raised up.

From the photographs of the comet which has recently disappeared in space, Dr. Henry Draper infers the hypothesis of the presence of carbon in the constitution of such bodies receives corroboration, and he adds, with apparent caution, that a part of the spectrum may be due to other elements. Lovers will take notice.

Mike Ryder, of Kerbyville, spent several days in town this week for the purpose of consulting with the physicians of the Pacific Surgical Institute in regard to the case of his daughter who was shot in the leg accidentally some time since. Mr. Ryder was well pleased with the treatment received and started for home on Tuesday.

THE DALLES MILITARY RESERVE.—Yesterday Judge L. A. Luce, from the office of the Secretary of the Interior, and Maj. Wm. H. Walker of the General Land office at Washington passed through town on their way to The Dalles. These gentlemen are two of a commission, Hon. L. W. Davenport of Salem being the third, to appraise the military reserve at The Dalles which has been abandoned by the War Department. The reserve is contiguous to the city and must be quite valuable. When appraised it will probably be offered for sale by the Secretary of the Interior. Messrs. Luce & Walker have just returned from Montana having been part of a commission to make a land treaty with the Crow Indians to secure a cession of the right of way for the N. P. R. R. through their reservation, and in this mission they were quite successful. Both the gentlemen express themselves delighted with the beauty and fertility of Rogue river valley and, this far, have taken in Oregon as a great surprise.

NEW PATENTS.—Dewey & Co.'s Scientific Press Patent Agency has received official notice of the issue of the following patents to Pacific Coast inventors, for the week ending Aug. 23, 1881:

245,901, furnace, Bell & Griffith, Grantville, W. Va.; 245,904, projector, H. Carr, S. F.; 244,946, damper plate and reflector, A. Good, S. F.; 244,128, mechanism for converting motion, Wm. Hanna, Gilroy, Cal.; 246,157, header, M. N. Laufenberg, S. F.; 245,003, filter, Benno Goldman, S. F.; 245,962, fire basket for stores, W. H. Loomis, Alameda, Cal.; 246,030, spring attachment for saws, E. Moberg, Callahan's ranch, Cal.; 246,032, mud conveyor, W. A. Phillips, S. F.; 246,210, depression pulley in cable railroad, H. Root, S. F.; 246,051, galvanic belt, H. C. Warner, Gilroy, Cal.; 246,271, stove for coffee pot, etc., Elizabeth C. Zanwalt, Port Oxford, Or.

GOOD DAY FOR BEAR.—On Tuesday morning, D. W. Anderson, accompanied by Wm. Wright, started out to kill a deer taking Coleman creek, west of Phoenix, for their hunting ground. Wright was so advance hunting through some heavy brush and jumped up an old brown bear and two large cubs that broke in the direction of Anderson. One of the cubs made its appearance first and was received with a fatal shot. Hearing the howling the old bear made for Anderson, but changed her course, and as she turned, he gave her a bad wound. Turning again with open mouth he broke one of her fore legs, and in getting in another shot broke both the hind ones, completely disabling her. Wright now ran down and tagged the other cub which made a very fair score for the morning hunt. The old bear would weigh about 600 lbs and had eight holes in her hide before she was finished.

ORDER FOR MORE TROOPS.—A special courier from Fort Bidwell arrived in this place early Wednesday morning bearing orders for Capt. Wagner's company to depart immediately for Camp Apache, Arizona, to reinforce the troops near that point now engaged in a bloody conflict with the Mascalero Apaches Indian. Quite a number of this company were out scouting in the mountains east of this point, about twenty eight miles distant, which dis-

OUR "SURPLUS".—While Dept. Engineer Howard was running the railroad line through the valley a week or two since he obtained an idea of the great necessity of a railroad through this section from a very thrilling circumstance. The line passing near a house where there were five or six hungry looking dogs, the canines objected and showed signs of disapprobation not to be mistaken. Mr. H. proceeded to the house and calling out the lady, the husband being absent, requested her to call the dogs off until he could run the line past the house. The hungry animals were taken care of and the woman enquired "be you a runnin a railroad through here?" "Not yet said Howard", "but one may be built in time"—"ain't that good," said the woman, "we do need a railroad awful bad to carry away our surplus" Mr. Howard bowed assent and said mentally that a few ear loads less of dogs in the valley might leave a little more "surplus" for the children.

HOLLOWAY'S PILLS.—Never Despair—Something that never fails—Fever and Ague—To the sick it is of little consequence how they are cured, whether from a rational view of the disease or by the rules defined for the guidance of the profession, so long as the cure is certain and expeditious. To a suffering man the question on the relative merits of quinine or calomel is uninteresting. The faculty may wrangle and discuss their various theories, but Dr. Holloway's treatment dispels doubt ere the disciples of Esculapius have finished the first stage. Holloway's Pills are the only remedies which effect a speedy and radical cure without danger of a relapse. Read the advertisement elsewhere.

IMPORTANT CAUTION.—None are genuine unless the signature of J. HAYDOCK, surrounds each box of Pills and Ointment. Boxes at 25 cents, 62 cents and \$1 each.

There is considerable saving by taking the larger sizes.

HOLLOWAY & Co., New York.

GRIST MILL AT LINKVILLE.—Nurse, Moore & Co., of Linkville are getting ready to put up a grist mill at that place and intend to have it finished and in running order this fall. The mill will be located on Link river, a short distance below the sawmill. This is an enterprise which will receive the hearty support of a large community who have been dependent for their supply of breadstuffs upon the mills of Rogue river valley, the long distance to which point and the rough road to be traveled put a heavy tax upon this necessary article of food.—Lakeview Examiner.

Choice Extracts from Druggists.—"We know the value of malt, hops, calaisya and iron composing "Malt Bitters."

"Our lady customers highly praise them."

"Physicians prescribe them in this town."

"Best blood purifier on our shelves."

"Our best people take Malt Bitters."

"Sure cure for chills and liver diseases."

TROOPS FOR ARIZONA.—The company of cavalry mentioned in last week's SENTINEL as being on their way to the seat of war in Arizona, passed through town last Wednesday morning. They were a fine looking body of men and were fully equipped for active service. Captain Harris and Lieut. Taite were in command.

Nothing short of unmistakable Benefits. Conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYE'S SARSAPARILLA enjoys. It is a compound of the best vegetable alteratives, with the Iodides of Potassium and Iron, and is the most effectual of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain in its remedial effects, it produces rapid and complete cures of Scrofula, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and often cures Liver Complaints, Female Weakness and Irregularities, and is a potent renewer of vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and to-day the most available medicine for the suffering sick, anywhere.

FOR SALE BY ALL DEALERS.

A CARD.—Everyone knows that sewing machines are sold for twice what they should be, and the reason the purchaser pays two prices is because he pays: 1st, for the machine; 2d, the traveling expenses of and a good round commission to the agent who sells to him; 3d, the cost of collecting, when he buys on time.

The way to remedy this is to buy your machines for cash, at fair living prices. I will have in a few days a lot of the celebrated New York Singer Machines, got up after the best and latest styles, with elegant furniture, containing all the latest improvements, and all the attachments complete, which I can sell at \$45. Each machine is accompanied by the manufacturer's guarantee for five years. Call and see these machines, and save fifty per cent. in buying.
