

OREGON SENTINEL.

JACKSONVILLE
SATURDAY, OCTOBER 15, 1881.

NOTICE.

Land Office, Roseburg, Oreg.,
June 29, 1880.
To all Whom it may Concern:
Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emption, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.
W. F. BENJAMIN, Register.

OHIO ELECTION.—Latest return from the Ohio election gives the Republicans the State by about 15,000 majority. That party has also secured a majority of the Legislature.

THE TAX LEVY.—The County Court at its last session made the following tax levy for the ensuing year: State tax, 4 mills; common school, 3 mills; Modoc war bond, 1 mill; insane asylum, 1 mill; building fund, 1 mill; county tax, 10 mills; total levy, 20 mills.

HORSES AND MULES WANTED.—A board of officers will be in Jacksonville Oct. 29th to purchase 25 cavalry horses and 43 draught mules for government service. It is specified that the animals must be well broken and not less than four nor more than nine years of age.

OUT OF DANGER.—Chris Kretzer, on whom a serious surgical operation was performed by Drs. Robinson, Aiken and Vrooman a short time ago is now reported out of danger and is able to sit up. This is a big feather in the caps of the attending surgeons, as very few ever recover after the operation which was required.

STRUCK IT RICH.—We are glad to hear that our old friends Jacob Klippel and Thomas Keaton have struck a bonanza in the mines of Idaho Territory. Their last clean-up after a twenty-four hours' run yielded \$2,000, and they have lots of the same kind of ground left. When they return to Jacksonville we suppose they will be bloated millionaires. Their claim is located on Salmon river.

WEST TO THE FAIR.—The following Jacksonvilleans are at present at Yreka attending the Fair: Miss Minnie Pape, Miss Lizzie Helms, J. A. Cardwell, C. D. Cardwell, D. W. Crosby, R. H. Moore, James Cronmiller, Nori Edgings, George Chase, James Mc Donough, S. Booth, H. D. Kubli, Ed. Booth, N. Langeli, Wm. Bybee, C. W. Kahler, A. Barnburg, Ad. Helms, Ed. Helms, H. Mensor and Geo. W. Stephenson.

GOOD WORK.—The Jacksonville steam flouring mill has been running day and night for about a month past, grinding 480 bushels of wheat each twenty-four hours and turning out about 18,000 pounds of flour therefor. Wheat has been coming in so fast of late that the mill could not keep up even with its large capacity, and at no time have they had over 15,000 pounds of flour on hand this season. The flour manufactured is of the very best grade and Messrs. McKenzie & Foudry deserve credit for starting such an industry in our midst.

JOSEPHINE COUNTY JURORS.—The following named persons were duly drawn from the jury list to serve as jurors at the October term, 1881, of the Circuit Court for Josephine county: Thos. Farris, Horace Woodcock, Geo. Gary, Samuel Hogue, Daniel Sheehan, Alex. Watts, Alonzo Bryant, F. G. Burns, W. F. Hogue, David Vinyard, T. P. Lee, Chas. Fister, Wm. Crow, Chas. Duncan, Samuel Harkness, David Clossner, R. Biglow, J. H. Goodwin, Jacob McDaniel, Thos. Bybee, John Howell, John Goings, George Green, J. B. Desselles, John Hall, G. A. Gillson, Chas. Anderson, A. M. Jess, Walter Simmons, T. G. Patterson, Daniel Hunt.

THE VANNY INVESTIGATION.—The rumor mentioned in last week's SENTINEL in regard to some suspicious circumstances connected with the death of J. N. Vanny was investigated this week by the proper officers but nothing has yet been found to support the statements that have been in circulation. District Attorney Kent, Judge Prim and Dr. Aiken visited the scene of the grave last Monday, when the body was taken up and an inquest held by Orr Brown, J. P. who acted as coroner. Dr. Aiken made an examination of the stomach of the deceased but failed to find any trace of poison therein as has been alleged. One of the main witnesses absented himself during the investigation but it is not probable that any thing further will now be done.

OUR RESOURCES.—We take the following statistics from the books of the Assessor as taken by him in this year's assessment: Acres of land, 229,678; total value, \$816,449; average value, \$3.55; improved land, 113,000; value, \$670,602; average value, \$5.93; unimproved land, 116,678; value \$145,847; average value, \$1.25; town lots, total value \$55,911; improvements, \$273,530; merchandise and implements, \$385,564; money, notes, accounts, shares of stock, &c., \$550,550; household furniture, carriages, watches, &c., \$75,206; No. of horses and mules, 4,841; total value, \$163,486; average value, \$33.77; No. of cattle, 9,039; total value, \$86,820; average value, \$9.60; No. of sheep, 31,332; total value, \$36,125; average value, \$1.15; No. of swine, 9,525; total value, \$17,721; average value \$1.65.

Gross value of property, \$2,463,302; indebtedness, \$594,892; exemptions, \$232,619. Total taxable property \$1,635,811. Number of polls, 1,050.

Conkling and Garfield at Chicago.

Among the late President Garfield's papers will probably be found a little memorandum from Roscoe Conkling to him, in pencil, written in the hall of the National Convention at Chicago, in about these words:

My DEAR GARFIELD: If there is to be a dark horse in this Convention there is no man whom I would prefer before yourself.

CONKLING.

The reply was: My DEAR CONKLING: There will be no dark horse in this Convention. I am for Sherman. J. A. GARFIELD.

This was pending the great struggle and just before the mighty popular tornado which carried Garfield into the Presidency—and the grave.—Dayton, O., Journal.

Various Causes.

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brash, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft luster and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous.

FOR SALE BY ALL DEALERS.

Entire Prospects.

Our railroad prospects are brightening every day and in less than another year the iron horse will be in our valley. A telegram from Portland last evening states that 12,000 tons of iron for the extension of the O. & C. R. R. will be at the O. & C. R. R. will soon commence at Roseburg and the intention is to have twenty miles of road ready by May 1st. Surveyor John A. Hulbert with a party of men is now engaged in locating the road from Roseburg this way. Central Pacific folks are also at work having surveyors in the field and J. E. Beggs informs us that four car loads of construction tools arrived at Redding last week.

Choice Extracts from Druggists.

"We know the value of malt, hops, calumina and iron composing 'Malt Bitters.'"

"Our lady customers highly praise them."

"Physicians prescribe them in this town."

"The largest bottle and best medicine."

"Best blood purifier on our shelves."

"Our best people take Malt Bitters."

"Sure cure for chills and liver diseases."

PASSED THROUGH.—Ex-Senator J. H. Mitchell, accompanied by his son, passed through this place last Wednesday on his way to Portland. Mr. Mitchell is the attorney for the O. R. & N. Co. and his present visit is in connection with the business of that corporation.

Instructions to settlers.

J. H. Evans, Register of the U. S. Land office at Lakeview, publishes the following instructions to settlers in the Lakeview "Herald." In view of the constant trouble and disappointment to which settlers are often subjected in consequence of ignorance of the law and the requirements of the general land office, I deem it of interest to make known a few points which must be strictly complied with.

First, in making final proof, it is necessary the claimant name such of his neighbors as are capable of testifying as to the date of his settlement and the first act thereof.

Second, that he shall name four of his neighbors as such witnesses. The department presumes that, out of the four, two at least may be obtained to testify on the day named for making final proof.

Third, that no relative of the claimant will be permitted to testify unless he is unable to make proof of residence settlement, &c., by other parties, of which fact an affidavit will be executed.

The foregoing are instructions of the general land office, and the Register and Receiver have no authority to set aside. Settlers are therefore requested to take due notice thereof.

C. C. W. R.—The Del Norte, Cal., Supervisors made the following order at their session Oct. 31: Now being the time to which the general meeting of this Board was adjourned to receive the report of commissioners appointed by this Board and Horace Gasquet to lay out a toll road for said Gasquet, from Gasquet to the State line between California and Oregon; and said commissioners having filed their report, map and survey, and it being shown that it would be advisable and beneficial to have said road, now, it is ordered by the Board that said report and survey be received and approved, and that such approval be entered on the minutes of the Board, and the said Horace Gasquet is authorized to use all public lands over which said survey runs, and if any such highways there be, he must at his own expense so change and open the highway so taken and used as to make the same as good as it was before the appropriation thereof; and he must so construct all crossings of public highways over and by his road, and his toll gate as not to hinder or obstruct the use of the same.

HOLLOWAY'S PILLS.—Never Despair.—Something that never fails.—Fever and Ague.—To the sick it is of little consequence how they are cured, whether from a rational view of the disease or by the rules defined for the guidance of the profession, so long as the cure is certain and expeditious. To a suffering man the question on the relative merits of quinine or calomel is uninteresting. The faculty may wrangle and discuss their various theories, but Dr. Holloway's treatment dispels doubt ere the disciples of Esculapius have finished the first stage. Holloway's Pills are the only remedies which effect a speedy and radical cure without danger of a relapse. Read the advertisement elsewhere.

IMPORTANT CAUTION.—None are genuine unless the signature of J. HAYDOCK, surrounds each box of Pills and Ointment. Boxes at 25 cents, 62 cents and \$1 each.

There is considerable saving by taking the larger sizes. HOLLOWAY & Co., New York.

WHAT THEY WORE.—We copy the following description of the toilets worn by the bride and groom at the last wedding from the Portland Standard: The bride was dressed in plain and broadcloth cream colored satin. It was made sash, haque, trimmed skirt, chipped square train, fringed with erpe ruchings. The whole attire was elegantly trimmed in cascades of cream colored Spanish lace, silk tassels and orange blossoms, magnificent embroidered veil looped with orange blossoms, ten-button cream colored kid gloves and white kid sandals completed the bride's costume. The bridegroom's was an elegant suit of black broadcloth, Prince Albert style, cream colored satin tie, kid gloves and button hole bouquet of orange blossoms.

STAGE ROBBERY.—The south bound stage on Sacramento river road, from this place to Redding, was stopped by a highwayman on Bass Hill, last Saturday about midnight, just this side of Bass station, 11 miles north of Redding. The highwayman ordered the two passengers on board to get off, and walk some distance ahead, and then he took off the mail sacks and express box, but he failed to realize much if anything. The driver proceeded on his way as directed, and the driver coming north, secured the sacks and delivered them at the nearest post office coming up. The officer started in pursuit, but had gained no trace of the robber at latest reports.—Journal.

THE BOSS MACHINE.—It is fair to presume that the company selling the most sewing machines has the best article offered for sale. The Singer Sewing Machine Co. sold in 1880 538,609 machines, an increase of 107,442, over any previous years sales three fourths of all that were sold in that year. All of these were the genuine Singer Machine with the trademark branded on the casing and on the arm. None others genuine. Address all communications to Lock Box, No. 68, Jacksonville, Singer Mfg. Co.

No human agency can so speedily cleanse the blood, clear the complexion and skin, restore the hair and cure every species of itching, scaly and scrofulous humors of the skin, scalp and blood as the Cuticura remedies.

Clear head and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sanford's Radical cure. Complete treatment for \$1.

New Columbia.

Some time ago Captain Hooper was sent up to the North pole or thereabouts to look for the ill fated Jeannette which went in search of the much mooted open Polar sea. Captain Hooper has not found the Jeannette or any traces of her, but he has found a block of ice a few doors south of the North pole, which has, since its discovery about fifty years ago, been called Wrangel Land. This land, for there is supposed to be some land under the ice, he has taken possession of in the name of the United States and rechristened New Columbia, and now the American flag—it is not frozen still—floats triumphantly over this new possession. It is a pretty big stretch for the American eagle to plant one foot proudly on the frozen shores of New Columbia while he gracefully dabbles the other in the middle of the Rio Grande and to wash his face in the placid waters of the Pacific while he rests his tail on the Atlantic beach; but then he is a big bird and there is no telling what he can do on a stretch.

Already some painfully practical people are trying to find out what good this new possession is going to do us. There are a great many ways in which it might be profitably, and pleasantly utilized. For instance it might be made a colony for the settlement of those enterprising individuals who are opposed to railroads. It would be a nice cool place where they could spend their days in sliding down hill and their evenings in meditating upon the destructive influences of cheap and rapid transportation and all undisturbed by the faintest whisper of a locomotive. And then as there would have to be a Governor appointed some one of the fiery southern brigadiers might be accommodated with an office and change of climate at the same time; this too without expense to the government as he might be allowed, for the first few years at least, all the taxes he could levy and collect.

ROSEBUD JAMES.

The one event of the week was the race run over the course on Saturday last. Pools were sold on Friday evening to the amount of several dollars, and as there were six horses entered, there were three or four first choice, as was also the case when pool selling commenced on the day of the race. A large crowd was in attendance and excitement for favorites run high. About two o'clock the horses were called to the stand, where the riders received their instructions and the horses given their positions for the start. After several efforts a good start was given by Hurl Bargain for about two thirds the distance of the heat, (which was a half mile, best 2 in 3) when the Parrott horse passed him and maintained his position until he came under the wire in 51 1/2. The second heat was a repetition of the first, except that Parrott took the lead at the start and kept it during the entire heat, winning the heat in 50 1/2. As is generally the case, a number of the sports were loser and a second race made which was won by Josie Young. These races were considered by all the fairest that has been run over the course during the entire season; but there is always some one to take exceptions to the ruling of the judges, and such was the case this time by a certain individual who had been inhibiting too much "biliary" but he withdrew his objections after the ruling of Judge Krans, which was made in the whereabouts of the young man's eyes, to the satisfaction of all present.

A race was also run on Sunday which terminated in the withdrawal of stakes, a too free use of whiskey and a fistfight by the backers. This race was followed by what is known as a "chuck" race gotten up by some of the boys who wanted to play even on the races of the previous day; but the rider of the "chuck" horse being unable to hold her, the sports were again loser. This ends the turf sports for the week.

LAND OFFICE AT ROSEBURG, OREG., October 13, 1881
