

OREGON SENTINEL.

JACKSONVILLE
SATURDAY, DECEMBER 8, 1881.

NOTICE.

Land Office at Roseburg, Ore.,
June 20, 1880.
To all whom it may concern:
Notice is hereby given that I have de-
scribed the Oregon Sentinel as the paper
in which I shall hereafter publish all pre-
tensions, homestead and applications
for mining patents for lands lying near
Jacksonville, Jackson county, Oregon.
W. F. BENJAMIN, Register.

SUNDAY PAPER.—Tomorrow the
first number of the "Sunday Oregon-
ian" will be issued. It will contain
the latest telegraphic dispatches and
supply a want among the reading
public of Portland.

ACCIDENT.—While at work in David
Linn's carpenter shop last week Chris
Ulrich had two of his fingers badly cut
by a circular saw at which he was em-
ployed. Chris is doing well, however,
under the care of Dr. Kahler, and it is
hoped that he will save all of his dig-
its.

AHEAD OF ALL.—What county in
the world can compete with Umatilla
county? It has produced, says the East
Oregonian, 83 bushels to the acre, oats
nearly seven feet high, a cabbage weigh-
ing 38 pounds, potatoes weighing over
six pounds each, and a turnip 52 inches
in circumference.

GOT SCALPED.—While riding in a
wagon last Sunday an eight year old
son of Wm. Chambers was thrown out
and while falling struck the brake-
block and scalping the back part of
his head. Luckily his injuries are not
serious and Dr. Robinson expects to
have the patient out in a few days.

DEDICATION.—Tomorrow at 11 A. M.
the dedication services will take place
in the new Presbyterian Church. The
discourse will be by the Rev. R. W.
Hill, of Salem, the Superintendent of
Presbyterian Missions for this State.
The pastor, Rev. M. A. Williams, will
assist in the services, and the occasion
promises to be a very interesting one.
A collection will be taken up for the
benefit of the Church.

OUR PRODUCTS ABROAD.—We see
by the Dundee, N. Y. Record that our
townsman, C. C. Beckman, took back
some Jacksonville peaches that are creat-
ing quite a sensation. One of them
weighed 2 lbs and one half ounce, was
19 1/2 inches one way and 15 inches the
other. The other was nearly as large
and the pair of peaches are described by
the Record as "nearly as large as sum-
mer squashes" raised in that locality.

MISREPRESENTED.—A letter from
Jacob Klippel, dated Shearer's Ferry,
I. T. Nov. 14, states that the report,
that the Klippel company were taking
out \$25.00 per day to the land is un-
true. Mr. Klippel adds that they
had abandoned their claim as, owing
to its depth, it could not be profitably
worked without a derrick. The com-
pany are now engaged on a second
wing-dam, where they expect to find
pay at less depth and we hope their
best hopes may be realized.

SMALLPOX AND THE MAILS.—In con-
sequence of the alarm caused in some
portions of the West by reported spread-
ing of smallpox, Acting Postmaster
General Hutton has issued an order to
the effect that where a postmaster re-
ceives official information from the
health officer of any ports or towns
that mail matter received is liable to
communicate a contagious disease it
shall be his duty to refuse to accept
such mail matter. The mail returned
shall be held until prohibition is re-
moved and not be forwarded to its
destination until properly fumigated.

A GOOD JOB.—Heretofore we re-
ferred to the substantial propping up
of the Court House stairway, but
neglected to give the County Court
full credit for the very artistic repairs.
Really, the Court is to be congratulated
on its independence, in making such
extensive improvements, as near an
election; when their action might be
called "extravagance." Now, the Dis-
trict Judge can reach his room, if he
tread gently, and jurors may reach the
jury-room if they go—one at a time,
and hold their breath while going.
We do hope the repairs will not be
denounced as waste of the peoples
money as the liberality of the com-
missioners is highly commendable, al-
though we fear it will doar one of
them "on becoming Sheriff—in other
words that it will "Cook" his political
goose.

SOCIETY ELECTIONS.—The following
is the result of the elections held in
the different societies mentioned below:

LOCAL ITEMS.

**County Court meets next Wednes-
day.**
Attend the new Presbyterian Church
tomorrow.

Walla Walla county's new \$50,000
court house is finished.

Miss Ella Scott will leave next week
for her home in San Francisco.

Twenty five cases of small-pox re-
ported at Heppner, Umatilla County.

The surest way to cure small pox is
not to catch it, therefore vaccinate and
be protected.

J. B. Coate's condition is much im-
proved since last week and he will be
able to be around in a few days.

A "Big horn" or mountain sheep
has recently been killed at the head of
Meacham creek in the Blue mountains.

Read what sheriff Bybee has to say
about some valuable mining property
that he offers for sale on Cayote creek.

Revival meetings have been held in
the M. E. Church for two week past
under the supervision of Rev. B. J.
Sharp.

Some of our local hunters slaught-
ered a game on Bear creek last
Sunday. Ducks are reported quite
plentiful now.

The pleasant face of "Billy" Carl of
the O. & C. Stage Co. is visible in town.
He is on his way south looking after
stage interests.

There will be a special meeting of
Warren Lodge No. 10, F. & A. M.,
Wednesday, December 7, 1881, to
work in 3d degree.

The Pope is making arrangements
to retire to the island of Malta on ac-
count of the unfriendly attitude of the
Italian government.

Mr. Ole Gunnison, formerly post
carpenter at Fort Klamath is now a
resident of Ashland having resigned
on account of ill health.

Ab Giddings, one of the O. & C.
stage drivers, reports that there is no
snow at the mountain house at the
upper end of the valley.

Mr. Joseph Rapp has again placed
us under obligations for a bountiful
supply of apples. May he not rap at
the peary gates in vain.

Rev B. J. Sharp will hold religious
services at Grant's Pass to-morrow
morning at 11 o'clock A. M., and at
Rock Point on the evening of the same
day.

Did you ever notice the calm, per-
sistent and business-like expression
that prevades the countenance of a
woman while engaged in chewing
gum?

Snow, to the depth of about three
inches, fell here on Thursday morning
but has been gradually disappearing
as the temperature has been exceeding
mild.

Gen. Ben Simpson, U. S. Mail In-
spector, passed through here on Mon-
day, for Portland, having just returned
from Lakeview where he had been on
official business.

Dr. J. W. Robinson is attending on
a case of diphtheria in the family of
W. J. Gregory on the Desert. The
patient was in a fair way of recovery
at last accounts.

Fifty-eight scholars attend the Sis-
ter's school, of which twenty are board-
ers. This school was never in a more
prosperous condition and we are glad
to see it appreciated.

A pack of idiots in New York have
endeavored the order of the Irish land
league "No rent for land." The proper
antidote for such poisonous doctrine
would be—no wages for labor.

We are glad to hear that S. W.
Lackland has deferred his visit to
Virginia and will remain in Oregon,
having purchased an interest in a
prosperous business in Portland.

The Lakeview "Examiner" states
that C. B. Watson and family started
for Portland, where they intend to re-
side, on Nov. 25th, travelling by the
way of Prineville and The Dalles.

California must be a wicked country.
When people obey the law they are
slandered; as was the case with mer-
chants who closed their places of busi-
ness on Sunday last in Bakersfield.

Young America now keeps his eyes
peeled for any old bottles lying around
loose. The proceeds from their sale
goes into the general fund required for
the proper celebration of the holidays.

The military telegraph line between
Ashland and Fort Klamath is not yet
in working order but will be as soon as
the batteries arrive and are set up. It
will probably be in order in a couple of
weeks.

Oregonian-Pocahontas tribe, Im-
proved Order of Red Men, elects offi-
cers next Tuesday evening. Adair
Chapter, Eastern Stars, elects on Fri-
day night. A full attendance is re-
quested.

W. H. Parker has made arrang-
ments in Portland to have his "Fami-
ly Record and Biographical compen-
dium" handsomely printed. It will,
no doubt, be very convenient and
meet with ready sale.

A large quantity of new machinery
is expected, within a couple of weeks,
for the Ashland Woolen Mills. The
establishment is flourishing and its
goods are commanding a large sale on
account of their superiority.

The government has taken a new
tack in the star route cases, indictments
against the star routers having been
found by the grand jury on the 28th
ult.—One against star route contractor
Brott for bribing government officials
and defrauding the government, and
others against ex-Deputy Auditor
Lilly for accepting a bribe.

The Villard combination has pur-
chased a controlling interest in the
Pacific Coast Steamship line. The
steamers of this company have been
under the management of Goodall
Perkins & Co. of San Francisco.

A report is being circulated in other
portions of the county that there are
several cases of small pox in Jacksonville.
This is untrue in every particular, as
there has not been anything here that
had the appearance of this much-
dreaded disease.

There is a probability that the
schedule will be changed on the mail
route from Ashland to Lakeview after
July 1882. The service will be six
times per week from Ashland to Fort
Klamath and tri-weekly from Link-
ville to Lakeview.

Roseburg freighters are demanding
4 cents per pound for freight from
Roseburg to Jacksonville. Within a
couple of years it will be hauled by
rail for 1/2 cent and it will be in order
to denounce the railroad company as
a "grinding monopoly."

The skating rink was in full blast
at Holt's hall last Tuesday and Wed-
nesday evenings. Messrs. Phillips &
Smith, the proprietors, have sent for
another lot of skates which will prob-
ably arrive by the time they make
their next visit—next Tuesday.

Rev. Henry Ward Beecher said in
his sermon on Thanksgiving day, in
referring to the trial of Guitau, "it
looked like a fight between an imbecile
judge at one end of the bench and a
vagrant fool at the other, the imbecile
court trying to find the wicked man
innocent."

It is rumored, says the Yreka Jour-
nal, that some blanks have been sent
to Shasta Valley, for contracts of rail
road ties, the ties to be eight feet long
and 4 by 8 inches thick, to be taken
from heart of tree, with bark on.
Shasta Valleyites talk railroad as the
principal topic.

Mr. A. S. Johnson, of Idaho, and
Mrs. Lena Neuber of this place were
married at the residence of the bride
last Tuesday evening when quite a
large number of invited guests were
present. Together with their many
friends we join in wishing them a long
life of joy and happiness.

The average value of land is higher
in New Jersey than any other State
in the Union, being \$82 42 per acre.
The lowest average is found in Ala-
bama, the same being but \$6 53. The
average value of cleared land in Ore-
gon, as shown by the Census of 1880,
is \$21 71; of timbered land, \$4 50.

Hon. D. P. Thompson will leave for
Washington on the 20th, as representa-
tive of the Portland Board of Trade.
He is sent to aid our Senators and re-
presentatives in procuring an appropria-
tion for the improvement of the Will-
amette and Columbia rivers and, no
doubt, will render valuable assistance.

The "Tidings" says: S. C. Taylor, of
Essex precinct, killed a hog of Berk-
shire and Essex breed last week which
weighed over 560 lbs, gross, and 527
lbs, dressed. He thinks he could
have had a 600 pound hog by feeding
it a little longer, but if there are any
heavier ones in the country he would
like to know it.

J. S. Howard has just received a
new barometer which he ordered for
Jack Layton of Applegate. This in-
strument is to be used by the latter
in predicting storms, and when indi-
cations point that way he can send a man
out on his ditch to keep it from break-
ing. He thinks he can save the wages
of one man with this instrument.

It is pleasant to note, in the eastern
dispatches, that the hangings, hang-
ing out the country, now bear the propo-
tion of about two to one to the daily
nurtures. The hangman seems to be
getting the best of it and, as the Irish
say: more power to his elbow, for
hanging is the most effective and prac-
tical way to dispose of criminals.

Capt. Alex P. Ankeny arrived from
Portland on Thursday and immedi-
ately proceeded to Sterling to visit his
mine. The Captain was accompanied by
an inseparable companion, his
beautiful dog, which always shows
delight in getting into the country and
always shares the comforts of stage
and railroad travel with his master.

Our Ashland neighbors are needlessly
alarmed by an idle report of small pox
in Jacksonville, a drummer from here
having a hotel door shut on him in
that place on Thursday. There is
neither small pox, measles nor any
other contagious disease in Jackson-
ville at present, and Ashland is quite
as likely to be visited by them first
as we are.

We shake hands with the Portland
"Standard" on the following, clipped
from that paper and which we heartily
endorse. The "Standard" says: "No
appropriation for continuing the con-
struction of the Insane Asylum at Sa-
lem should be made by the next Leg-
islature unless accompanied by a pro-
vision against the employment of con-
vict labor on the work."

Small pox is gradually spreading, a
case being reported at McMinnville,
in Yamhill county. Capt. Ankeny
informs us that a case was brought
up to Eugene City on the railroad this
week and there is no reason why it
may not be expected here. Our phy-
sicians are prepared to vaccinate and
vaccination takes away all the terror
from the loathsome disease.

Messrs Hanley and Nunan, the C.
C. Wagon Road Committee, will now
refund seventy five per cent of the
money paid by subscribers for the
survey of the road. Parties interested
can call on T. G. Reames and get
their money. The funds to be return-
ed is the surplus of the surveying fund
and, as it is lying idle, the committee
have concluded to refund it.

On Monday next the Rev. Mr. Hill
will leave for Lake county, expecting
to journey as far as Lakeview, and
will return here about Christmas.
His visit to that county is as Superin-
tendent of Presbyterian Missions, and
those who meet him will find him a
genial and approachable gentleman
with good practical ideas of all things
in life and without the least particle
of pharisaical aristocracy.

Portland has a new horror, the body
of a man having been found submerged
in the Willamette a little below the
city. The legs of the victim were fast-
ened together at the ankles with wire
and a stone, weighing nearly a hun-
dred pounds, was tied round the neck.
It is said to be the body of a man
named John Andross who, at one
time, mined near Yreka, and the cir-
cumstances leave little doubt of a
murder.

An exchange gave us an excuse for
publishing the Governor's proclama-
tion, after Thanksgiving; that it was
out of courtesy to the Governor.
We think the business people of
Jacksonville showed very little "cour-
tesy" to the Governor by completely
ignoring the day, not a single place of
business being closed. Had it not
been for services in the Catholic and
M. E. Churches the day would have
had no distinctive features here.

The Lakeview "Herald" of the 26th
says: Parties just in from Surprise
valley report that a party of surveyors
for the branch of the Central Pacific
to connect Wadsworth, via Lakeview,
with The Dalles, are now examining
the Lassen Pass, with a view of pen-
etrating that hill in order to reach this
valley. The route, as now surveyed,
is probably the one on which the rail-
road will be constructed, inasmuch as
it appears to the company to be the
most feasible yet projected. As The
Dalles is the destination of this line,
the idea that Lakeview will be left out
in the cold by these railway builders
seems not to be well founded.

The Oregonian is responsible for the
following: "We are told that the sur-
veyor general of Oregon has recommend-
ed that his office be abolished—unless
sufficient money be appropriated to car-
ry on the surveys in the state upon a
proper system. The surveyor general
is also of opinion that there is not a
tract as large as a township in the whole
state, except on the craggy slopes of
high mountains, which is not suscep-
tible more or less to settlement or use.
Experience has gone a long way in
clearing up old misapprehensions as to
our "desert" lands. The early innu-
merable grants never imagined there would
be any agricultural population worth enu-
merating east of the Cascade range."

A False Rumor.
Under the head of "small pox in
Jacksonville" the "Tidings" of yester-
day says: "The report reaches us to-
day that a man recently arrived at
Jacksonville has the genuine small pox
a short distance from town. We have
made every effort to learn whether
this is true, but cannot be positive
about it. Many people believe small
pox is there and that those having
knowledge of it are trying to keep it
quiet. This is positively criminal."

We don't care what people believe
or disbelieve, but we most positively
assert that the editor of the "Tidings"
has not made every effort to learn the
truth. Mr. Klum, the operator at
Ashland, has been in possession of the
exact facts all week; and if the editor
of the "Tidings" had taken the trouble
to telegraph any responsible citizen
here he could have learned also that
the report was unqualifiedly false. It
is just as criminal to circulate a false
report, or one without sufficient au-
thority, calculated to do injury, as to
conceal the existence of a contagious
disease, and the credulity of our con-
temporary has simply been imposed
upon. If small pox does make its ap-
pearance in Jacksonville there will be
no attempt to conceal the disagreeable
truth either by individuals or the
press.

Quinine and Arsenic
Form basis of many of the Ague re-
medies in the market, and are the last
resort of Physicians and people who know
no better medicine to employ, for this
distressing complaint. The effect of
either of these drugs are destructive to
the system, producing headache, intes-
tinal disorder, vertigo, dizziness, ringing
in the ears, and depression of the con-
stitutional health. Ayer's Ague Cure
is a vegetable discovery, containing
neither quinine arsenic, nor any dele-
terious ingredient, and is an infallible
and rapid cure for every form of Fever
and Ague. Its effects are permanent
and certain, and no injury can result
from its use. Beside being a positive
cure for Fever and Ague in all its
forms, it is also a superior remedy for
Liver Complaints. It is an excellent
tonic and preventive, as well as cure,
of all complaints peculiar to malarious,
marshy and miasmatic districts. By
direct action on the Liver and biliary
apparatus, it stimulates the system to
a vigorous, healthy condition.

For Sale by All Dealers.
In reply to an article, in a late issue
of the Ashland "Tidings," saying we
had a case of small pox in our town;
we most emphatically deny such reports;
and as officers of the town we declare
there is not nor has there been one in
Jacksonville or vicinity a case of such
contagious disease, and we brand the
person or persons so reporting as base
falsifiers unworthy of belief.

Bound To Win.

Joseph K. Reeve, of Happy Camp,
is still in Oregon determined to secure
a wife without regard to expense and
where there is such a surplus of wid-
ows, of all varieties, and marriageable
maiden of all descriptions it seems too
bad that one lonely old bachelor should
search in vain. Joseph's last attempt
was in the neighborhood of Drains, in
Douglas county, and as the old gentle-
man makes a standing offer of \$500—
pay in advance—to any one who will
secure him a wife, he was evidently
victimized. It seems the old man be-
came deeply enamored of Miss Dora
Rose, and arrangements were made with
her sister, instead of herself, for mar-
riage, and the \$500 paid down. But the
Rose was shy and flid, like May before
the chilling advances of December,
leaving heart and purse torn and
lacerated with the thorns of disdain.
She apparently fled to Portland follow-
ed by the sister and the suitor, the
sister advertising for her whereabouts
in tearful agony. It is just possible
that the shy, unwilling maid was hid
in the mountains of Pass creek, for
there was no response to the adver-
tisement, and just probable that the
sister laughed in her sleeve as she en-
joyed the trip to the metropolis and
thought of the \$500 clean profit wrung
from a trusting old man all too inno-
cent of the utter deceitfulness of wo-
man. We are sorry to hear of Joseph's
continued failure. He tried the Jack-
son county girls with ill success but
only had his affections tampered with,
his purse being unmolested. Come
back Joseph and change your tactics
and you will win. Fight your battle
alone; don't take a woman for an ally,
lest she prove treacherous. Gird on
your golden armor; don't part with a
scale of it till the enemy capitulates
but, above all things: court a woman
like a lion—not like a spaniel—storm
the breast works like a Trojan; don't
attempt to creep in surreptitiously like
a Greek; for women admire boldness,
and the first thing you know a tender
bit of ivy will be clinging round the
sturdy oak and you may, or may not
be happy—that depends a good deal
on the woman. Listen, Joseph, to the
words of wisdom and experience; for
they are solid. Assume the indiffer-
ence of your ancient namesake and
before you know it some female will
have you by the coat tail and if the
garment holds the victory is yours.

CROWDED OUT.—We have received
some very appropriate and pertinent
questions regarding the status of the
C. C. wagon road which we will pub-
lish next week; they will, perhaps, be
answered but we don't if they will be.
