Advice to Telemachus.

You want to know, do you, my son, why it is that, with all your management, you can't live on your salary and are always in debt at the end of the year? Well, I'll tell you; Telemachus, why it is, and it won't cost you a dollar for the information. It's because you're trying to have a \$1200 time on a \$900 salary, and it can't be did. Older men than you have tried it and failed right along. A \$600 boarding house and a \$300 livery stable just exactly cuts the last coupon off your salary, and then liow tile man who makes your clothes expect to get anything out of you is more than you can tell him. Yours is a very simple case, my dear, and you can apply the remedies yourself and perform the necessary operation without the presence of a consulting surgeon. "Will it hurt?" My poor boy, you can bet your last bottom dolfeel as though you were in Paradise. Begin treatment at once; the lenger you wait the worse your case will be and

The "Rural Press" says: A few miles west of Las Vegas, N. M. is a buried forest. The trees are petrified and crystallized into solid stone. The bark, grain and knots of the trees are shown. The trees can be taken out almost perfect, and make fine lawn ornaments.

Various conjectures have found their way into print as to the origin of the word "Oregon." The venerable Archbishop, Most Rev. F. N. Blanchet, has given this subject a great deal of interesting investigation, and he gives the best theory of the etymology of this name so far.

In the year 1857 His Grace visited La Paz, Bolivia, where he met the learned Dr. Geo. Haygart, A. M. of Londen, a gentleman well versed in the Spanish language. In conversation that it had its origin in the sh word "Oregon", enterman informed the Archthat it had its origin in the sh word "Oreja" ("Oreille" in h) and "ear" in English; hence on " hig ear.
