

NOTICE.

June 20, 1880.
I hereby give notice that I have designed the OREGON SENTINEL as the paper which I shall hereafter publish all the...

REDUCTION IN RATES.—The Western Union Telegraph Co. gives notice of a reduction in rates the new tariff to go into effect to-morrow. The charges on a ten word message to any point on this coast will not exceed one dollar and the rate to the Eastern States has been reduced to one dollar and fifty cents for the first ten words and ten cents for each additional word. A change has also been made in the half rate service.

ANOTHER VOLUME.—This is the end of the 26th volume of the OREGON SENTINEL. The public need hardly be pointed to the fact that the SENTINEL has not shirked its duty, but has done everything it has thought proper to do, has catered to nothing and has not been afraid to express an opinion when sustained by the facts, in what we believe is the true sense of duty. We will support what is right and always keep our eyes and ears open.

E. Jacobs, Little & Chase, M. Menson, E. C. Brooks and Kahler Bros. have lots of holiday goods left.
S. O. Shattuck of Fort Klamath and Miss Dora Culbertson were married at Ashland last Wednesday.
The sale of the Griswold property is again postponed, this time by order of Attorney General Brewster.
R. C. Oglesby will preach at the Methodist Church in Jacksonville, on Sunday morning and evening.
David Shook, of Lake county, is spending the holidays among the young people of Jacksonville.

THE LECTURE.—The lecture delivered by Rev. R. W. Hill, at the Presbyterian Church, on Wednesday evening last, was particularly interesting and we hear many eulogiums on it. The subject was so broad that it was impossible for the speaker to do more than please for the hour, and excite an intense interest in it. Mr. Hill's style is concise yet adorned with flowers enough to take the chill from a scientific lecture on icebergs and the large audience certainly spent a very pleasant evening. The conclusion to which the lecturer's theory led was: the certainty that future life will be evolved from this, as surely as life has come out of a dead and frozen planet, as this once was. Mr. Hill expects to visit us again during the coming summer.

LAW AND ORDER.—The last week has been quite an eventful one in official circles in Jacksonville. On Monday morning Recorder Numan held a levee which was attended by several young men who made full confession and paid their fines.
The January term of County Court convenes next week when the reports of real supervisors will be examined.
The "Enterprise" says that Oregon City has a number of cows that make their living by foraging out of farmer's wagons.

Max Rostel, a half brother of our townsman, C. B. Rostel, arrived here this week from Hanover, Germany, and will remain.

The "Curfew" ordinance, compelling youngsters to go home after certain hours in the evening, is still in force in Yreka and works splendidly. A similar regulation here would assist the new officer materially but we can't have it a family ordinance well enforced would answer.

We understand exactly what a "fiction in law" means. Robt. Lampert is convicted of manslaughter in Portland for killing a woman. He goes to the penitentiary for one year. Had he stolen a hog in Jackson county the judge would have remarked—three years Mr. Lampert.

The people of Lake county appear to be able to raise their own supplies now. Flour at the mill is \$100 per ton. Potatoes are \$1 per hundred and but 75 cents. Goose Lake valley formerly drew all its supplies from Jackson county but our producers can not depend on it for a market any longer.

The Roseburg Plaindealer makes the following indefinite charge against two postmasters in Jackson county. At last the missing Arctic exploring vessel, "Jeannette" has been heard from. She has been unhealed of since 1879, and now comes the news that she was caught in the ice on June 11, 1881, in latitude 77 north, longitude 157 east. Two boats have saved at the mouth of the Lena river, in eastern Siberia, one of them having Captain De Long, the commander of the Jeannette, on board. A third boat, separated from the others by fog, is unheard from. The Russian Government have generously taken care of the survivors.

One of the Trustees, Mr. Foudray, complained at a meeting of the Board, on Monday night; that quite a number of citizens demanded a special session of the Board and promised to be present to make complaints and prefer charges and not a single one had put in an appearance. Mr. Foudray's complaint was just. The people of this town are afflicted with moral cowardice; and there are too many afraid to stand by their duty as citizens, far fear of the result in dollars and cents. Ask yourself if this is not the frozen truth.

Rev. W. R. Hill returned to Jacksonville, from Lake county, on Wednesday and went rejoicing to his home in Salem on Friday morning. Mr. H. had a somewhat rough experience east of the mountains, having to travel from Linkville to Lakeview on horseback. While in that county he organized two Presbyterian congregations, one at Linkville and one at Lakeview—the latter with Rev. Caldwell as pastor. Mr. Hill is in high terms of praise for the people both counties.

Waldo Correspondence.
SENTINEL.—Fam sorry to have to report that on Friday afternoon, Dec. 23d, the residence of Mr. Alonzo Umphlett with all its contents burned to the ground. At the time, Mr. U. was away from home on business to the coast and a boy whom he had left with his family had been sent by Mrs. Umphlett on business to Waldo, so that at the time of the fire, Mrs. Umphlett and her two small children were entirely alone. In her excitement she waited the creek twice in an effort to get help to save the barn. The fire evidently caught from a spark in the roof. The house was new and was built near the old house on the old Hartson place near the foot of the McGrew mountain. The Hartson house contained vegetables, etc., so that all was burned. The loss falls heavily on Mr. Umphlett.

The Christmas tree and basket supper at Waldo, on Friday evening was a grand success. The tree was a beauty and was displayed to the best advantage. Music was furnished by the Misses Anderson. The supper was a wondrous one. There were present at least two hundred persons and yet large quantities of dainties were carried away. During these pleasant moments no one knew of Mr. Umphlett's misfortune else the whole occasion would have been blighted.

Miss Ida Woodcock has returned from school at Ashland and was in attendance at the Christmas tree. After the tree (I forget to say) we had a dance which was a happy affair. Sophia, Foster and Geo. Lewis furnished the music for the ball. More anon. FOX ARIAR.

A DISGRACEFUL DAY.—We regret to say that last Sunday was marked by more riotous conduct than has been seen since Jacksonville was incorporated. Taking advantage of the license of the holidays some of the boys, who ought to have known better, conducted themselves so badly that the President of the Council was obliged to appoint Henry Kubli to keep the peace. The appointment was ungrateful for worse behavior and, while trying to make an arrest, he was set upon by ten or fifteen of the rioters and his commission torn up before his eyes. The rioters fortunately came to their senses and finding that they had gone just a little too far, quietly dispersed. The disgraceful proceedings, however, were not without their good use, for an inflexible determination is at last aroused among good citizens to preserve order and save the boys from themselves. The City Council have at last opened their eyes to a state of things which they could have seen long ago, but it is better late than never. We blame the City authorities more than we do the boys for a disorderly state of affairs. The former know exactly what the consequences were and they ought to have appointed an officer, long ago, whose authority would have been respected and who would have enforced order. The failure to do so encouraged the boys to overstep the limits too far and presume (to much) on the public good nature. If the reaction is severe, upon reflection, the good sense of the boys will teach them that it is both necessary and right and no one will gain more by it than themselves. It is to be hoped that no such scenes as were witnessed here last Sunday will ever take place again and hoping for a better future we refrain from publishing names; for some of the boys have been punished enough, and a number, equally guilty, have gone scot-free. Now let us have peace.

CHRISTMAS AT ROCK POINT.—A large crowd was present at the Christmas festivities held at Rock Point last Friday evening which proved the most successful of any ever held there before. The exercises consisted of a Christmas tree, dramatic entertainment and ball. The tree was decorated with nearly \$500 worth of presents. Mrs. G. Lawley and Mr. Beagle sustained the principal characters at the entertainment receiving well-merited applause, and the ball afterwards proved a grand success, a large number remaining to trip the light fantastic. Wise Bros. furnished the music.

The "Polaris" is violently opposed to the popular preachers who "uraw crowds" and yet complains; that the penitentiary and the dance house and the theaters and saloons are full and that fullness is no evidence of success. The "Polaris" is wrong; it is success in that direction and it strikes us that if the churches were made to "draw" and made popular there would be a proportionate decrease of attendance in worse places. Don't be so tight laced and frigid, Bro. Acton—frozen water will never turn the Lord's mill.

THE LATEST SONG AND CHORUS, by Will L. Thompson. (Since the death of PRESIDENT GARFIELD the sentiment expressed in this beautiful song has become universal. The melody is very pretty, and already the piece has become a great favorite. We advise all lovers of popular music to send 35 cts. to the publishers and receive a copy by return mail. Published by W. L. THOMPSON & Co., East Liverpool, Ohio.

Professor J. E. Hilgard has been appointed Superintendent of the Coast and Geodetic Survey.

Rev. W. R. Hill returned to Jacksonville, from Lake county, on Wednesday and went rejoicing to his home in Salem on Friday morning. Mr. H. had a somewhat rough experience east of the mountains, having to travel from Linkville to Lakeview on horseback. While in that county he organized two Presbyterian congregations, one at Linkville and one at Lakeview—the latter with Rev. Caldwell as pastor. Mr. Hill is in high terms of praise for the people both counties.
