

NOTICES.

Land Office at Roseburg, Ore., June 20, 1880. To all whom it may concern: Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emptions, homesteads and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

"THE WEST SHOE."—The December number of this valuable periodical is at hand and, as usual, full of valuable and interesting reading. It contains handsome engravings of Seattle, the Snoqualmie falls, in W. T. and of the Oregon State University. Published by L. Samuel, Portland. Its circulation east will bring us population.

SURPRISE PARTY.—On New Year's eve a number of the good ladies of Jacksonville visited Rev. R. C. Oglesby and his wife, taking with them a supply of the good and substantial things of this life. The surprise was genuine; as the visitors were not members of Mr. Oglesby's Church, but their act was just as kind as if they had been. The pastor and his lady return thanks for the generous donation.

WORTH TRYING.—A couple of sheep herders, in Calaveras county, Cal., says the "Rural Press," caught a coyote alive, cropped his ears and tail and secured fastened a strap, with a sheep bell attached, round his neck. Two weeks afterward he was discovered chasing a large band of coyotes and they were either so disgusted or so dismayed at his fellowship that they fled the neighborhood. The same experiment has been tried successfully, many years ago with rats, and it is worth trying by our wool growers. At all events the belled coyote would soon make his presence known.

THE MASQUERADE BALL.—This party took place at Holt's Hall last Monday evening and the attendance was larger than any held here for some time past. Over forty maskers were on the floor, male and female, and the whole number of tickets sold amounted to over two hundred. A large number were present from adjoining places which accounts for the large attendance. Good music was furnished and an excellent supper served, and dancing was continued till near six o'clock in the morning. Most of the characters were well sustained and all present enjoyed themselves hugely. The entertainment deserves credit for their success in giving masquerade balls.

GOOD ILLUSTRATIONS.—The fraud was the Hays bill, which was introduced into town, leading to the valley, is a good illustration of the system. Persons coming to town report it as being almost impossible and yet it runs through the most wealthy agricultural district in the county. The outrageous state of this road can only be accounted for by charging it to the downright laziness and ignorance of the supervisor. It is time the county court took notice of supervisor's non-compliance with the statute. The law is poor enough when enforced but if it is not to be observed at all it might as well be stuck in the mud and left there.

ROAD SUPERVISORS.—The following Road Supervisors were appointed at the January term of the County Commissioners' Court: District No. 1, John Devlin; No. 2, Wm. Patton; No. 3, J. F. McMahon; No. 4, D. B. Solis; No. 5, L. W. Thomas; No. 6, R. V. Beal; No. 7, E. L. Prather; No. 8, Samuel Hutton; No. 9, Brad Dean; No. 10, H. H. Morris; No. 13, Thomas Haymond; No. 14, D. W. Cryder; No. 15, S. C. Taylor; No. 16, John N. Young; No. 18, H. C. Williams; No. 20, John Cantrell; No. 21, Chris Kretzer; No. 22, Charles Williams; No. 23, Wiley Parker; No. 26, J. G. Briscoe; No. 30, M. Peterson; No. 31, Geo. W. Morris; No. 32, Cal Williams; No. 35, —Watters.

UNGRATEFUL.—Some parties are grumbling because the new officer, Shultz, keeps youngsters off the streets, after 9 P. M., in obedience to the order of the Board of Trustees. Grumblers fail to see this order in its proper light and never stop to consider that the officer is a better friend of the children than their parents, who permit them to lurk round the corners and sneak round in the darkness. The street is no place for small children, of either sex, after dark, and the officer ought to be thanked for his vigilance. We do hope the Council will see that their order is enforced to the letter. In good time those inclined to find fault will be satisfied that it is the proper course.

LOVE AND SALTS.—It is reported that a couple on Foots creek, married on New Year's Eve, the groom being 63 and the bride 16, parted after 48 hours of happiness, not unalloyed by regret on the part of the bride. In fact the bride left her lord's bed and board last Monday; the groom took some opium salts, from a vial labelled "strychnine" declaring that he preferred cold death to life without his love. Love was dead though; for she never wept and rather enjoyed the prospect of widowhood at 16 and the possession of the estate. She didn't go to the poor poisoned man but the doctor did; to learn that a stomach pump was not needed; as the label was the only thing dangerous about the bottle and the patient had not swallowed it. So, a tale about unrequited love, cruel desertion and "cold pizen" is robbed of its most tragic features.

LOCAL ITEMS.

We will pay a premium on county scrip on accounts due this office. The views of Genl. Cadwalader on railroad matters are on to-day's outside. Nort Eddings drives the swing team between Rock Point and Grants Pass. Rostel's bath rooms are ready for public patronage and are fitted up in style.

Geo. Rogers has gone to Ashland to take charge of a barber shop at that place. All bids for mail contracts will be opened to day and the agony will soon be over. It has commenced raining in earnest and our mining population is happy once more.

Several communications are crowded out this week but will appear in our next issue. A pleasant New Year's party was held at C. C. McClendon's residence in Sam's valley.

A number of the little folks indulged in a social dance at Holt's hall last Saturday evening. A certain case of crim. con. is again agitating the minds of our scandal loving population.

A large attendance was noticeable at the Christmas party given by W. C. Greenman at Linkville. Newall Hall has purchased Samuel Hodge's farm on the Meadows and has gone there to take charge.

The Yreka Journal appeared as a double sheet during the holidays and its make up was splendid. Rev. Father Blanchet left, on Monday last, for a two weeks sojourn among his flock in Josephine county.

Rev. M. A. Williams will preach here, in the Presbyterian Church, to-morrow—morning and evening. Sheriff Bybee has returned from Josephine county but we are sorry to say that his health is not the best.

One hundred and sixty eight "drunks" were gathered into the city prison, of San Francisco, on Christmas night. Sturges & Beckner, on Jackass are sluicing lots of ground away while the water lasts and expect large returns.

Frank R. Rodgers, of Galice creek, was in town several days this week to spend the holidays with old friends. The Ashland Woolen Mfg. Co. shipped 2,700 yards of flannel and 178 pairs of blankets to Portland this week.

Eugene Shelly has been appointed special route agent for Oregon and Washington Territory by Wells Fargo & Co. The Independent of Dec. 17 reached us yesterday Jan. 6th. Twenty days from Roseburg—95 miles—is slow work.

E. L. Schieffelin and H. J. B. McCool have dissolved partnership in the manufacture of cement pipe. Read their notice. Bybe & N woman cleaned up a couple of boxes at their mines near Waldo and took out about six hundred dollars in gold dust.

J. A. Crosby the local agent for the Singer Sewing Machine Co., returned from San Francisco this week and has come to stay. While making your annual settlements don't fail to call and settle with the printer. We need the money and must have it.

J. Nunan will accept our thanks for several neat calendars furnished by the different fire insurance companies for which he is agent. Mrs. John B. Egan, who has been confined to her bed for several days past, is recovering and will be around again in a few days.

A number of the young bloods of Jacksonville, adorned with their plug hats, paid their lady acquaintances new year calls last Sunday. Chas. K. Klom and Wm. Finley have purchased of Samuel Phillips of Applegate his band of cattle and eight horses, paying \$2,400 therefor.

W. H. Gore has been engaged as teacher of the Wagner creek school and he will begin a five months term on the first Monday in February. Judging from the appearance of the streets of Jacksonville "mud" is trumping and the street committee have a full hand. Where does the money go?

We are sorry to hear that B. F. Reeser's store at Ashland has been closed by creditors but his friends claim that he will come out all right. Elder Martin Peterson will preach to-morrow at Willow Springs at 11 A. M. and at McClendon's School house, in Sam's valley on Sunday Jan. 15th.

Capt. H. Kelly purchased the Coyote creek mining property at Sheriff's sale last Saturday and is now there to take possession. The price bid was \$15,000. W. H. Shaver started for San Francisco this week via Portland where he goes to act as general agent for the Wheeler & Wilson Sewing Machine Company.

The New Northwest comes to us in beautiful holiday attire just as the ladies should, and is full of choice reading. It duplicated itself, having issued a double sheet. Rev. B. J. Sharp will preach at Manzanita to-morrow at 11 A. M. at South Prairie school house at 2:30 P. M. and in Jacksonville at the usual hour in the evening.

The concert last Friday evening could hardly be called a success in the matter of attendance, but the young ladies and gentlemen who assisted did well nevertheless.

The "Independent" says that J. B. Harris, supt. of construction for the O. & C. R. R. is daily receiving supplies and distributing them along the line south of Roseburg. George Schump has sent a lot of ore taken from his mine near Willow Springs to San Francisco for assay. The rock looks well and we hope that it will turn out well.

No actual work has yet been commenced on the railroad extension, south of Roseburg, but great preparations are being made and every thing indicates that it will soon begin. Since the death of Matt Dillon his wife has suffered the loss of her youngest child, Mary, who would have been four years old next June. Troubles never come singly it seems.

We hear from W. T. Lever, that his son "Con" sold a two year old colt of Pennier's Mike to a gentleman of Washington Territory for \$500. Jacksonville horse are easily sold. There was some hoodlumism of older growth at the masquerade which, fortunately, was soon suppressed. Those who expect to control a large crowd should learn to control themselves.

E. L. Schieffelin left here on the stage on Thursday night to visit his mother and the rest of the family at Los Angeles. His father, Clinton, will remain here for a few weeks yet. The following officers were elected at the last meeting by the Eintracht-Adam Schmidt, President, Geo. H. Young, Vice President, John Cimborsky, Secretary, Fred Luy, Treasurer.

J. C. McCully left here yesterday morning for Major Stahlberg's railroad surveying camp at the head of Cow Creek canyon where he takes the position of packer for that crowd of surveyors. It will be noticed, by persons anticipating jury duty, that the approach to the upper story of the District Judges official residence, in which the quarters of the jurymen are situated, is securely propped.

A little baby of George Loosely, of Klamath Agency, fell into the fire place last Monday week, and was badly burned about the head. Inflammation of the brain resulted, and the little one died last Tuesday. County Commissioners Court was in session this week. Viewers was appointed to change the road from here to Willow Springs, several Road Supervisors were appointed and numerous bills audited.

W. L. Worthington is doing a good business here taking pictures. His cabinets cannot be excelled anywhere and his prices are lower than ever charged before. Call around and take a look at his samples. The Sunday Oregonian, of last Sunday, is a valuable edition full of interesting statistical information and entirely lacking in the parient and corrupting trash too commonly found in, so called, Sunday papers.

W. R. Gilbert, master in chancery of the United States, has that, pursuant to instructions from Washington, D. C. the Griswold property will be sold on February 18, 1882, at 11:30 A. M., at the Court House door in Salem. A stand up and knock down fight occurred at our District school house last Monday between the Principal and one of the scholars. No particular damage was done, however except that the pupil no longer attends.

We regret to note the death of J. W. Topping, son of Wm. Topping of Williams creek, which occurred at Roseburg Dec. 30th from bilious intermittent fever. The young man was 20 years of age, steady and exemplary. The first quarterly meeting for the Jacksonville Circuit, M. E. Church, South, will be held at Eagle Point January 14th and 15th. Official members will please be present.

R. C. Oglesby. Read the card of Dr. Scroggs who has located here for the practice of his profession. He was formerly of Roseburg and comes well recommended. He can be found in Orth's building—Residence just north of the court house. The Herrin lane is so bad, this winter, that it is carefully avoided by the stage drivers. A warning board should be set up at each end of the lane, with Dante's inscription over the gates of Hell. "He who enters here leaves hope behind."

Mr. Robert Westrop has taken the agency of the celebrated Wheeler & Wilson sewing machines. His address is Sam's valley. Do not be in a hurry to purchase until you consult him as he is located among us. All machines warranted. The business of the Roseburg land office during December was: 2070 acres sold for cash; 27 homestead entries embracing 4011 acres; 16 final homestead proofs, embracing 1964 acres; 24 preemption claims; 1 soldier's declaration filed; 1 timber entry of 40 acres.

Victory Council, C. of H., elected the following officers at a regular meeting held last Saturday evening: W. C. Williams, L. Bilger; Lieut. C. Nettie Howard; Herald, James Cronmiller; Scribe, Anna Bilger; F. S. Wm. Moore; Treasurer, Mrs. A. Bilger; Warder, Hattie Gilbert. Mr. C. Schieffelin, of Los Angeles, who is here settling up some business matters, brought us a specimen of a very diminutive orange called a "Tanager." It is no larger than a crab apple and very thick skinned. It is considered an unprofitable variety as it is only bought by Chinese during their holidays, probably for ornamental purposes. Mr. S has fourteen hundred orange trees on his place at Los Angeles but says that the supply exceeds the demand at present.

Ruth Rebekah Degree Lodge installs officers next Monday evening and a full attendance is requested. Table Rock Encampment installs on Tuesday night and Jacksonville Lodge No. 10, I. O. O. F., on Wednesday night of next week, a special meeting having been called for that purpose. Post master John Doi, of Applegate, desires the Plainedealer to specify, exactly, the charges against his conduct as P. M. and send them to the proper Department at Washington; or make its special complaint to the Postal Inspector at Portland. Mr. B. is willing to have the most searching investigation.

Dr. J. W. Robinson started for Gervais, Oregon, this week to attend to some business with his father's estate. The old homestead at that place has been sold and it was necessary that Dr. R. should be there to attend to the business as he is Administrator of the estate. He will be absent only about a couple of weeks. We are informed by Mr. T. F. Beall that, while he was gathering up cattle, on the Rancheria deer, he discovered over a hundred deer carcasses in the course of a days' ride. Some of the deer had been wrapped in their hides, evidently within a few days, and the total absence of live game in the neighborhood was very apparent.

Why is there no invention of a Wigler & Wilson sewing machine? The answer is simple enough; they have patented simple protecting and they do so. Companies have attempted to manufacture an imitation Wheeler & Wilson sewing machine but were compelled to abandon the scheme although it cost the company thousands of dollars.—Why?

Reports from all parts of the county show a determination to seed an immense acreage. Andy Davidson has in seven hundred and fifty acres of wheat and hopes to get in several hundred acres more. Whenever the ground is sufficiently dry the fields are full of plows and farmers are fully waked up. So far, the season has been the most favorable one for agricultural operations known here for many years.

The "Tidings" says that three teamsters and one "boss packer" are wanted at Fort Klamath. They must be men who understand the business, who carry good references, and are of steady temperate habits. The packer will be paid \$60 a month and one ration a day (equal to \$70 per month), and the teamsters will each receive \$40 per month and one ration (equal to \$50 per month). Apply to Lieut. Backus, Q. M. Fort Klamath.

We hear of some very serious connubial trouble over at Butte Creek near Eagle Point. It seems that a frisky old bachelor with some money, and entirely innocent of "ividers," was enticed into matrimony with one. The alliance ended in a few days ago by his fling her out without ceremony and now he mourns the probable loss of one third of his property that is her right in law. He ought to have minded the adage "look before you leap."

The "Statesman" says: During the year just past about forty thousand acres of State land have been sold in Baker county district. There is now in the hands of the State Land Register about ninety thousand dollars in notes given in payment of State lands, which bear interest at 10 per cent per annum. About one-half of the 500,000 acres granted by Congress to the State has been sold. Most of the State land in Union county has been sold, but large quantities are still held for sale in that and Umatilla counties.

MINERAL STATISTICS.—We have received from Horatio C. Burchard, Director of the Mint, his report for 1880. The bullion yield of this county (Jackson) appears as only \$1,567 which is explained as being the yield reported by only one miner. It is unfortunate that no reliable data was obtained by the government as it places our county in a false light. Josephine county is not credited with any production and there is every reason to believe that the joint production of gold in these two counties will reach a half million dollars per year. An agent of the "Oregonian," after careful inquiry, estimated the production of Josephine county in 1880 at \$192,500 but obtained no data in this county, presumably on account of the reticence of miners, especially those running large mines. The government should take steps to ascertain the actual yield of every county.

THE BEST.—Of all the holiday papers we have received, the Portland "Telegram" excels. It contains a history of Portland and her prominent citizens from the earliest settlement on the banks of the Willamette. Well executed engravings of many beautiful public buildings, mercantile blocks and private residences are presented. Among them is the projected block of Thompson & Dolph which will be, when finished, the finest block in the city; the private residences of ex Senator Corbett, the Ainsworths, Mr. Reed, Hon. J. N. Dolph, Mayor Thompson and many others. The typographical execution is fine and, despite a few errors, the "Telegram" is ahead.

FRUIT TREES.—B. F. Miller, the enterprising proprietor of the Sardinie creek nursery, will be in Jacksonville, at G. Karewski's store, on Wednesday, January 11th, weather permitting, with a load of fruit-trees and some rare shrubbery. Mr. Miller has the reputation of exceeding all others in this section in raising the finest trees of different varieties, and those needing anything in his line should not fail to purchase of him. A CARD.—We return our thanks to the friends who so kindly made us a Christmas present of a carpet. M. & MRS. SHARP.

Strangely, there has not been a single Chinese death here in 1881. R. S. DUNLAP, Sexton.

A SAD CASE.—Mr. S. W. Sharrock, lately of Clackamas county, and his little family, were taken over to the place of old man Miller, on Salt creek, during the week. Mr. Sharrock is suffering from the ravages of a malignant cancer on his neck and, as Miller has obtained some reputation as a "cancer doctor" he goes there for treatment, but there is scarcely a bare possibility of his recovery. Mr. S. is a widower and has three children, one of whom is a young man nearly grown.

SLY—SIMPSON—In Jacksonville, December 31, 1881, by Rev. F. X. Blanchet, George T. Sly and Miss Sarah F. Simpson.

Wilderville Items.

Grain is growing nicely now. Much foggy weather prevails. Wilderville is to have a drug store soon I learn. Parties have been all the rage now for sometime.

The miners are generally at work now at Galice creek and elsewhere. Wilderville is increasing rapidly in population within the last few days. Mr. Wm. Lester and Miss Jennie Allen, all of Jackson Co., were married the 25th inst.

Why don't some one make use of the splendid water power now running to waste at Wilderville. The Green Bros. have thoroughly prospected their ledge and are well satisfied with their work. We were shown some exceedingly rich rock taken from the Sugar Pine ledge at Galice creek lately.

D. Closser contemplates emigrating to Eastern Oregon in the Spring to engage in the stock business. Some thief entered the house of R. Stockton during the family's absence and stole a lot of flour and other articles. Should the thief try to repeat the act again it will not be good for him as he is suspected now.

The Christmas tree at the Junction house on Christmas eve was considered a good success. The attendance was large notwithstanding the inclemency of the weather. The presents were numerous and the entertainment very excellent. Mrs. H. D. Jones, deserves much praise for her untiring efforts in behalf of the entertainment.
