

NOTICE.

Land Office at Roseburg, Ore., June 20, 1880. To all whom it may concern: Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emptions, homesteads and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

RETURNED.—Dr. J. W. Robinson returned from Gervais, Oregon, on last Thursday night's stage and can be found at his office ready for business. His mother and sister will not come here before Spring.

No SAVING.—Our old friend H. M. Chapin, stepped into the office of the SENTINEL on Thursday and remarked "I want your paper." I just lost five dollars last year by not knowing when the change of school books occurred and I will never be without my county paper again as doing without is saving at the wrong end. This conclusion of Mr. Chapin's needs no comment.

RELIGIOUS.—Rev. M. A. Williams will preach here in the Presbyterian Church to-morrow at 11, a. m. and in the evening at the usual hour. Regular services to-morrow in the Catholic Church by Rev. Father Blanchet.

Rev. B. J. Sharp will preach at Phoenix next Sunday at 11 a. m. and in the M. E. Church in this city at 7 p. m.

INSTALLATION AT KERBYVILLE.—On January 14, A. D. Holman, D. D. G. M., installed the following officers of Kerbyville lodge No. 55 I. O. O. F.: James Spence, N. G.; Dan. Hunt, V. G.; Chas. Hughes, R. Sec.; F. G. Patterson, Treas.; John Taylor, W.; Jas. Hughes, Con.; M. Baughman, N. G.; S. W. Forbes; R. S. N. G.; F. M. Nickerson, L. S. N. G.; F. Dessecker, R. S. V. G.; M. Trimble, L. S. V. G.; J. Swan, R. S. S.; C. Hart, L. S. S.

A NEW EXPERIMENT.—L. C. Coleman, of this place, has sent to Germany for a quantity of the seeds of the plant known there as "Rip-pi," for J. N. T. Miller, who intends experimenting with it. The plant, which much resembles mustard, is cultivated for the seed from which a valuable oil is pressed. The oil is largely used in cooking and for lubricating and many other purposes and its manufacture is very lucrative. Mr. Coleman thinks the climate and the soil of Southern Oregon well adapted to the successful cultivation of the plant.

IN POSSESSION.—Last week Harrison Kelley, the purchaser of the Coyote creek mining claims, so long in litigation; at sheriff's sale, demanded possession from Wm. Ruble, who was working them. On Ruble's refusal Kelley obtained an order from Judge Hanna directing Ruble to stay waste and discontinue working the claims. The order was served by the deputy Sheriff and Kelly then took possession and, at last advice, is holding it. The title to this property has been in litigation for over four years, Ruble having been put in possession at the end of a suit against him by the Coyote creek G. & S. Mining Co. Kelly, the vendor, then commenced suit against Ruble and his associates, to enforce a vendors lien, and at the last term of court in this county a decision was given for him, execution issued and the property was sold by the sheriff on the 2d day of January, Kelley being the purchaser at \$15,000. Mr. Kelley has a force of nine men and will endeavor to extract a little gold dust to reimburse him for his legal expenditures.

BADLY SNIPPED.—For some time rumors have been afloat that the crime of infanticide had been committed down on Rogue river and this week, a person, whose name is getting rather unsavory in this community, made information to the Dist. Attorney and a Justice. Accompanied by the informer, and an ex-Dist. Attorney, the above officers proceeded to the spot designated as the place where the remains were buried and began a diligent but fruitless search. It is a dead secret; who held the bag on this "sniping" expedition but it is no secret; that the party were so incensed, on finding that they were sold by an irresponsible "dead beat" that they could hardly restrain themselves from ducking him in Rogue river, which would have served him right. The officers are perfectly satisfied that there is no foundation whatever for the story and that the intention of the informer was to attract attention from himself. The party returned here about two o'clock on Tuesday morning and made a clean breast of their discomfiture.

CHURCH CONCERT.—Following is the programme for the entertainment to be given at Holt's hall on Tuesday evening the 24th inst for the benefit of both branches of the M. E. Church. We hope to see a large attendance: 1. Opening song; 2. Reading G. A. Hubbard; 3. Song by little girls; 4. Recitation, Miss Emma Armstrong; 5. Duets, Byron Sharp and Fred Kahler; 6. Comic duet, Clara Neuber and Jennie Moore; 7. Declaration, Frank Presley; 8. Duet, Jessie Langell and Maggie Shipley; 9. Tableau; 10. Quartette, Martha Armstrong, Belle Caton, Nellie Luy and Ada Pymale; 11. Reading, Miss Issie McCully; 12. Solo, Mrs. Rose Kenney; 13. Recitation, Ada Pymale; 14. Chorus; 15. Song by the boys; 16. Declaration, Chas. Bilger; 17. Duet, Ada and Kate Pymale; 18. Song by little girls; 19. Solo, Dr. Kahler; 20. Reading Miss Annie Little; 21. Comic speech, B. J. Borough; 22. Song by little boys; 23. Comic Solo, Miss Laura Hubbard; 24. Recitation, Miss Anna Bilger; 25. Closing song. An admission fee of 25 cents will be charged.

LOCAL ITEMS.

Cold weather. St. Valentines Day next. Louis Petzold is suffering with dropsy. We pay a premium for county scrip here.

Circuit Court convenes on the 13th of next month. O. Gunnison's infant child died at Ashland this week.

Geo. W. Wimer's infant child died at Waldo last week. T. F. Rogers and Fred Bowman have gone to California.

Ed. and E. L. Scheffelin have gone to Alaska Territory on a visit. Little & Chase and M. Menser keep a full assortment of valentines.

Dennis Murphy cut his foot badly this week while chopping wood. We are under obligations to Hon. M. C. George for public documents.

Read what the Singer Sewing Machine Co. has to say about counterfeiters. John Hockenjos of Eden precinct was in town a couple of days this week.

Our city dads propose erecting another street lamp near Veit Schutz property soon. C. W. Broback of Lake county has purchased the Norton farm in Eden precinct for \$4,000.

Wm. Bybee, Jr., returned from Josephine county this week where he had been on a business trip. Clinton Scheffelin has returned from Rock Point and will soon start for his home at Los Angeles, Cal.

Pymale does a good business at the Excelsior stable on account of his superior turnouts and low prices. Citizens of Lake county are making an effort to have their mail service kept up to six times per week.

Homer Harkness and family spent a couple of days in town this week, the guests of Mrs. J. Lanterman. We announced a wedding too soon a couple of weeks ago but it has since taken place and everything is O. K.

The rainfall at Crescent City from Sept. 1st 1881 to Jan. 1st 1882 was 45.39 inches—so says the "Record." D. S. K. Buick, formerly a resident of this valley, but now of Myrtle Creek, is paying old friends here a visit.

The value of matches, manufactured annually by the Diamond match Company, of New Haven, Conn., is \$10, \$75,000. Miss Anna Ross returned from Portland last Wednesday, where she had been the guest of D. P. Thompson for some time past.

Rev. F. X. Blanchet returned from Josephine county this week and will officiate in the Catholic Church next Sunday as usual. Capt. M. Caton elsewhere announces himself as a candidate for the office of City Marshal at the election to take place on March 7th.

Seven hours required to drag the stage between Ashland and Jacksonville (17 miles) is the natural result of the Oregon road law. Sheriff Dybee has been confined to his room for a week past with his old complaint but at last accounts he was able to be around again.

Attend the entertainment for the benefit of Bros. Sharp and Oglesby at Holt's hall next Tuesday evening. Admission only twenty-five cents. A bona fide offer of \$2,000 has been made for Gutteau's body. There has been no offer for his soul yet as the Devil's mortgage is too heavy to lift.

The County Commissioners have been petitioned to re-establish the old road from Jacksonville to Farmer's Flat—vacated at the last term of Court. J. W. Manning came in from Linkville this week on a short visit to look after business interests in this county. His reports times good in his locality.

The highest average rainfall in the United States is at Neal bay, Washington Territory, 123.35 inches; the lowest at Fort Garland, Col., 6.11 inches. Worthington is so busy at his gallery it will be impossible for him to leave for a week or ten days yet. Make a note of this—his pictures are the best.

Messrs. Reames Bros., K. Kubli, Wm. Hoffman and J. Nunan have each supplied us with calendars issued by the different insurance companies for 1882. Several officials of this place here had the title of M. D. added to their names since last Tuesday. The degree was not conferred by a medical college, however.

The Baker City "Tribune" has made its appearance. It is a well printed and carefully edited paper, Republican in politics. We wish it prosperity. Geo. F. Billings, of the Eagle Mills near Ashland, was in town this week. He reports operations at the mill suspended for a time on account of the cold weather.

Chas. J. Howard, who has been employed on the railroad survey with Dolson's party near Grave creek for some time past, returned from headquarters this week. D. H. Miller, a resident of this precinct, received a fracture of the collar bone this week by being thrown from a wagon, but is recovering under the care of Dr. Scroggs.

Here is a Sewing Machine Peddler He is a Bad Wicked man—And one of these days He will be Hung—All good People buy their Machines of D. H. Feathers for cash.

The Yreka "Journal" says that John Caylor, an insane man, killed while emptying his revolver at the sheriff from Baker county was formerly a resident of Siskiyou county.

The stages have run somewhat behind this week on account of the condition of the roads, but they are doing the best they can and it is a wonder how they get through at all.

Sheriff Dybee will commence killing about eighty head of hogs next Monday morning for G. Karowski, who proposes furnishing the Jacksonville market with bacon next fall.

The fact that the present year of grace, 1882, is to have one Sunday more than most years, is regarded by many good people as a cheerful omen for the advance of the gospel.

Mr. C. C. Beekman will leave San Francisco, tomorrow morning, for home and is expected here Wednesday morning. His absence in the east has been protracted longer than he anticipated.

A fearful railroad accident on Friday last. One train run into another, telescoping two sleeping cars and killing nine persons and badly injuring a number of others.

R. Corder, living near Grave Creek, found some rich quartz this week that promises to prove a bonanza if the ledge is struck. The place where it was found is yet unknown except to the discoverer.

If you want something extra nice in the line of wines liquors and cigars call on H. v. Helms at the Table Rock saloon. He has the largest and finest stock of liquors ever brought to Jacksonville in his cellar at the present time.

D. W. Anderson and J. P. Johnson two of the parties who were charged with killing 66 deer, say that they dried every pound of the meat and brought it into the settlements. So we give the statement for what it is worth.

The Hazel correspondent of the Ashland "Tidings" says that Joe Beggs, the Jacksonville freighter, is having bad luck. He has lost two of his horses, and the other horses of his team are sick. Hay is selling here at \$35 per ton.

A large crowd attended the meeting of the mine society at the residence of Wm. Hoffman last Wednesday evening and a pleasant social evening was spent by all present. Coffee, cake, ice cream, etc., were passed around and receipts amounted to \$25.50.

There is no particular railroad news this week. The various surveying parties are still busy in the field seeking the best route. Any thing reported yet regarding commencement of work or the intentions of the railroad company, is mere conjecture.

Mining seems to have been almost completely suspended by the continual dry, freezing weather which has locked up the water supply. The winter, thus far, has been very unfavorable for mining but has enabled the farmers to do a large amount of plowing and sowing.

A lady was heard to ask a friend on the street the other day: "Annie, is it proper to say this 'ere and that 'eref'?" "Why Kate of course not," was the reply. "Well," said Kate, "I don't know whether it is proper or not, but if you want to be happy go to Rostel's and take a bath."

The amounts asked for by representative George for river and harbor work seem extraordinarily large but agree with the estimates of engineers. They will probably be reduced but our congressman is, thanks to Speaker Keifer, in a position to make a strong fight for the largest possible amount.

The Standard says: "The Northern Pacific Railroad has no claim to patents on account of portions of the road completed since July 4, 1877, that is valid by law or equity." Why did not the Democratic majority in congress so declare during its four years of power? It must have been asleep or, was it subsidized?

Robt. M. Garrett, from all that can be learned, seems to have the lowest bid for the Ashland—Linkville route, his bid being somewhere in the neighborhood of \$17,000. Pat McMahon will probably get the Crescent City route and Mr. Cunningham is the lowest bidder on the routes to Wright's and Butte creek.

J. G. Robeson, found guilty of murder in the second degree on his second trial for killing J. W. Robt at Astoria, has been sentenced to imprisonment for life and is now in the penitentiary. An exchange wonders "if he will be pardoned during the present Governor's term; and if he were it would not be surprising.

Why is there no imitation Wheeler & Wilson sewing machines? The answer is simple enough; they do so. Companies have attempted to manufacture an imitation Wheeler & Wilson sewing machine but were compelled to abandon the scheme although it cost the company thousands of dollars.—Why?

We acknowledge the receipt of an invitation to attend the nuptials of Leopold Schoenfeld of San Francisco and Miss Adeline Fisher, formerly of this place. The ceremony is to take place at the residence of the brides parents in San Francisco tomorrow evening. Together with the many friends of the family here we join in wishing them a long life of joy and prosperity.

Attend the ball at Holt's hall on the evening of Washington's birthday—February 22nd.

District Attorney Kent was called to Phoenix this week to prosecute a case for hog stealing. Failing to find anything in it he had the case dismissed. The defendant, with unusual magnanimity, paid the costs in the case after this order had been made.

Attention is called to the "curfew" ordinance published to-day and now in force. The city authorities evidently are of the same opinion as the SENTINEL and are determined to keep children off the streets, during hours when they ought to be home. The ordinance is sensible and timely and, it will be observed; applies to both sexes. The wisdom of the "Board" in taking this step will be commended by all thoughtful people.

A rumor is afloat that the Germans are about to sell the O. and C. R. R. to the Central Pacific Railroad company, the latter company to pay off a mortgage of \$3,000,000 now held by Mr. Villard. It is said that \$16,000,000 is the price asked for the road from Portland to the State line.

The only ground for the report is that Mr. Huntington of the C. P. is in Europe and it is reasonable to suppose that his company desire so important a feeder.

A contemporary writing upon the benefit derived by a community from good newspapers, truly says: "If communities would have good, strong, representative newspapers, they must concentrate their support and patronage upon those most worthy of it. If communities would be well represented, they must sustain and build up the newspapers they already have, and not encourage new and doubtful ventures which, if they thrive will at the expense of our local institutions already established.

In the course of a long article, on the necessity of stirring up home industry in Oregon, the "States Rights Democrat" says: "Producers must have consumers among them—our people should labor by every honorable means to have all we wear, or use, produced or manufactured at home—the Chinese had their walls around them which were impregnable, their prosperity was the wonder of the world. The 'Democrat' can never be content in favor of such protection to home industry as will insure its permanency and prosperity. It can no longer advocate tariff for revenue only.

The following is clipped from the Tidings and if those people of Jacksonville, always anxious to receive strangers with open arms get bit, they ought to be warned. The Tidings says: a confidence man has been victimizing the people of Fort Jones and Etna, in Siskiyou county. He claimed to be a Free Mason, was a young man of prepossessing appearance, was temperate in his habits, used no bad language, and, as the Etna "Post" says, "worn himself into the good graces of the male population and endeared himself to every young and old lady in the village." After which he borrowed all the money he could, and his false pretensions and his true character were about to be discovered, left town, about \$500 in debt. He is also suspected to have broken open several trunks in the hotel and stealing various articles from them. Following is the description given of him in the "Post": "He was about 5ft. 8in. high, of a slender build, dark complexion, gray eyes, brown hair, and sported a dainty little mustache that was 'just too cute for anything.' He gave his name as James Tidale, an enterprising emigrant from Nantucket."

PROTECTION OF GAME.—Speaking of the Lane county Sportsmen's Club, the "State Journal" says: "The club propose to make it exceedingly tropical for those who pay no attention to the restrictions of the game laws, loose as they are. \$25 will be paid anyone for the arrest and conviction of persons shooting deer for their hides or killing for any other purpose than for their own use in Lane county after February 1st. At the next Legislature a strong effort will be made to secure the enactment of more stringent and suitable game laws, and all other clubs of the State should join and lend their influence in this good work."

HOLLOWAY'S PILLS.—Never Despair Something that never fails—Fever and Ague—To the sick it is of little consequence how they are cured, whether from a rational view of the disease or by the rules defined for the guidance of the profession, so long as the cure is certain and expeditious. To a suffering man the question on the relative merits of quinine or calomel is uninteresting. The faculty may wrangle and discuss their various theories, but Dr. Holloway's treatment dispels doubt ere the disciples of Esculapius have finished the first stage. Holloway's Pills are the only remedies which effect a speedy and radical cure without danger of a relapse. Read the advertisement elsewhere.

IMPORTANT CAUTION.—None are genuine unless the signature of J. HAYDOCK, surrounds each box of Pills and Ointment. Boxes at 25 cents, 62 cents and \$1 each.

There is considerable saving by taking the larger sizes. HOLLOWAY & Co., New York.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self addressed envelope to the REV. JOSEPH T. INMAN, Station D, New York City.

General News.

The best feminine help in Sweden receives \$4 a month.

Small pox caused 450 deaths in New York city in 1881, against 31 in 1880. The East river bridge needs \$600,000 more to complete the structure, which has already cost \$13,377,000.

The "Tribune's" Washington special says: "I do not believe there are three men on the floor of this House," said Congressman Singleton recently, "who are friendly to the Mormons. It is the unanimous sentiment that the curse of polygamy should be abated. How to do away with the evil is the only question. In my opinion a sure cure would be the enactment of a law to compel each polygamist Mormon to keep all his wives under the same roof. Inside of six months he would be converted into an enthusiastic monogamist," or, the congressman might have added; into a lunatic.

We print the following from an Eastern paper: An international effort to suppress small-pox would soon show important results. The scourge of the pest would be slowly reduced to the mild varioloid, which is not to be dreaded by those who have been vaccinated. Even the varioloid may disappear. The discovery of Jenner has put it in the power of civilized governments to banish small-pox. During the century before Jenner's discovery the disease carried off 45,000,000 of people in Europe alone. In 1707 one-fourth of the inhabitants of Ireland died of the disease, and in 1733 Greenland was nearly depopulated. Vaccination has steadily reduced the ravages of small-pox so that it might be wholly mastered in five or ten years, by international co-operation. To accomplish this there must not be an unvaccinated person in Europe or America.

Mr. George at Work. Congressman George on the 16th introduced a bill proposing the following appropriations for Oregon and Washington territory rivers and harbors: For permanent improvement of the mouth of the Columbia river, as recommended by Col. Gillespie, U. S. Engineer, \$430,000; for constructing a Pacific coast harbor of refuge at Port Orford, \$250,000; for cascade locks, \$750,000; lower Willamette and Columbia, \$133,000; Coos bay, \$69,000; Yaquina bay, \$60,000; Coquille bar \$25,000, and river above \$2500; upper Columbia and Snake rivers, \$20,000 upper Willamette and Yamhill \$10,000; Unipuga, \$12,000; Lewis river, \$500 Alsea \$2500; Cowitz, \$2000; Siuslaw, \$1500 and Youngs river \$1000. Nearly all the foregoing amounts are the sums recommended by the engineer's department. Mr. George to-day presented petitions from nearly two thousand citizens of Oregon asking for an appropriate form of legislation to regulate inter state traffic on railroad.
